

**Words of the 2<sup>nd</sup> King of CIG**  
**After True God's Day Midnight Prayer**

Feb 12, 2021

*The King wrote calligraphy for this year's motto:*

**“Reign of Peace & Prosperity for God's Rod of Iron Kingdom in the Midst of Tribulation!”**

We are living in a time of confusion; this is the time when Satan's power is taking over the world. I have spoken about this for 7 years. No one has believed it. They thought it was crazy, but now Satan is uprooting the entire Judeo-Christian tradition of America.

Father spoke about this 50 years ago, that if America was to lose its Judeo-Christian tradition and worship Baal, the satanic God, it would completely lose its blessing. Now, even young children are falling into free sex, illicit sex and homosexuality, and people in the highest position in Washington, DC are committing election fraud and putting their own people into the highest position and taking the world over to communism!

President Trump in the final moment could not arrest those communists and leftists, so all the power of his office has been taken over by these communists. Patriots, conservatives, Abel-type people, are in a very dangerous situation now. In this kind of situations, we see that patriots are killed; they are all massacred. The Armenian genocide in Turkey, the Great Cultural Revolution in China under Mao Tse Tong were carried under the same scenario, and this kind of thing will happen to the American patriots and those who seek to protect the country.

Patriots are now even afraid to mention President Trump's name; they are trembling in fear and they are being referred to as “domestic terrorists.”The first time this is happening!

Now in addition to the North-East, Father has led us to expand to the South-West, and he has prepared a camping ground for us there, and also a holy ground near Fort Hood, about an hour and a half to two hours from the camping ground.

**So our brothers and sisters will need to go there and pray for the American military.**

**\*For the American military and police to oppose this usurper, this fake president;**

**\*For the American military and police to oppose the illegal and unconstitutional orders being given by this man.**

They must oppose it! If they don't oppose these orders, this usurper Biden will take away all the freedoms of all the people of America, and institute political Satanism and communism. This is the kind of dangerous time that America is in right now.

When dictators such as Hitler and Stalin carried out their dictatorship, they only needed 20-30% of the police and military. Most of the military did not actually oppose, they just sat by and did not oppose. This is the biggest problem!

Father prepared for us a place for training and also a place where we can rest, but also, a place where we can go and pray for the American military in a spot that is near one of the largest American bases.

If President Trump had exercised his power as commander-in-chief, it would have been easier and much quicker to bring America back to God's path, and to establish God's kingdom. But even now if he stands up, it will still work, because he is still the most popular person among conservatives. So if he can stand up now, still there is an opportunity for him to take this country back from the usurper, because he is the legitimate president. He is the person whom the American people chose as their president.

The usurper and the leftists may create some sort of violent incident and blame it on the patriots, so as to begin a civil war. If that happens, they will even bring in the Chinese in order to fight against the patriots. Now the world is at the crossroad between life and death.

President Trump is in Florida right now. He has opened his office there but he needs to be brave and stand up with courage to re-create that foundation.

Because we are living in such a fearful, dangerous time, I would like to **ask all the blessed central families around the world, all the tribal messiahs around the world, to pray for President Trump, and especially pray for the American police and the American military.**

Father has prepared a place for us near the very large American military base; the place will have a training center, so we can receive education there in the Divine Principle and in the Original Substance of the Divine Principle. Please pray for the American military and police. Pray and support the American military and police so they can be patriotic, so that with the American military and police we can block the evil and unconstitutional orders and actions of usurper Biden.

Already the police in Texas are starting this kind of a movement. Already the governor of Texas and the attorney general are suing the usurper Biden in court. They are seeking to protect Texas as a conservative state. When I went to Texas, I found out that the left had already made a lot of inroads into Texas. Of course it's not as bad as New York, New Jersey, California and places like that. They still have a very strong pride as Texans. The governor and attorney general are trying

to protect Texas, especially the governor is using his veto power, and Father has prepared this place of rest for us near this very large military base in Texas.

**J-Team, K-Team, A-Team, E-Team**, of course I know Trump rallies are going on now, **but I hope that you will all offer *cheongseong* and pray for President Trump very strongly. And not only for the President, but for the American military and the American police.**

Now Texas is becoming a sanctuary state, and not just Texas, but also PA; now PA state senator Mastriano is pushing in that direction, for PA to become a 2<sup>nd</sup> Amendment or gun-rights sanctuary state. The leftists know what's coming, so they want to stop this; so they are working quickly to start a civil war. They will explode bombs and do violent acts, and blame it on Trump supporters. This kind of thing is coming.

This year's motto is "**Reign of Peace & Prosperity for God's Rod of Iron Kingdom in the Midst of Tribulation!**" So that even in this time of tribulation, the general population will more quickly understand the importance and value of God's Rod of Iron Kingdom. Always when it is the darkest, that's when God's light shines the most brightly. So, even though this will be a time of tribulation, many people who have opposed us until now will realize the importance of the Rod of Iron Kingdom, and they will realize more quickly.

More and more people are coming to our church because they want to learn about God's Kingdom. The *cheonseong* that has been set by the microcosm, J-Team, K-Team, A-Team, E-Team, has not been wasted, and because there is now this time of tribulation, people are coming to learn about God's Kingdom. You see that the *cheongseong* has been planted into the heart of the Abel realm, and these people are able to understand Father's work.

This is a time of darkness but still, the light of the Holy Spirit that is within us will shine brightly for these people to see.

*(The King again asked people around the world to make cheongseong prayers for the American President and the American military and police.)*

Let's accomplish this year's motto!

*(Words given through simultaneous translation from Korean)*
