

## Pastor HJ Sean Moon

### Resurrection Sunday: It is for freedom that Christ has set us free

April 4, 2021

Today is Resurrection Sunday! Amen! Resurrection Sunday, folks! I don't like to say Easter because of bunny rabbit and all the eggs. By the way, that was an adoption under the Roman Catholic Church of a Roman fertility deity that was depicted with a rabbit- that's very well known- so incorporating the fertility rabbit. I think it was the cult of Diana, the fertility goddess. She was the goddess that would basically go rape hunters, the endless perpetual virgin. I'm not joking! So you know, the Easter bunny, the eggs, it's a fun little activity for Sunday school kids, but it has very little to do with Christ's resurrection. Amen!

Let's start at Galatians chapter five on this Resurrection Sunday. Praise the Lord Almighty! Hallelujah! Resurrection Sunday! Galatians chapter five; let's read that together! This is one of my favorite quotes; you'll see me quote this a lot. Let's start with verse 1!

#### Galatians 5: 1- 13

*1 Stand fast therefore in the liberty wherewith Christ hath made us free, and be not entangled again with the yoke of bondage.*

*2 Behold, I Paul say unto you, that if ye be circumcised, Christ shall profit you nothing. 3 For I testify again to every man that is circumcised, that he is a debtor to do the whole law. 4 Christ is become of no effect unto you, whosoever of you are justified by the law; ye are fallen from grace. 5 For we through the Spirit wait for the hope of righteousness by faith.*

*6 For in Jesus Christ neither circumcision availeth any thing, nor uncircumcision; but faith which worketh by love. 7 Ye did run well; who did hinder you that ye should not obey the truth? 8 This persuasion cometh not of him that calleth you. 9 A little leaven leaveneth the whole lump.*

*10 I have confidence in you through the Lord, that ye will be none otherwise minded: but he that troubleth you shall bear his judgment, whosoever he be. 11 And I, brethren, if I yet preach circumcision, why do I yet suffer persecution? then is the offence of the cross ceased. 12 I would they were even cut off which trouble you.*

*13 For, brethren, (Let's look at this one! Let's look at this one!) ye have been called unto liberty; only use not liberty for an occasion to the flesh, but by love serve one another. 14 For all the law is fulfilled in one word, even in this; Thou shalt love thy neighbour as thyself.*

Oh Lord! That's such a rich, rich, rich, section! Let's jump back to verse 1!

*"Stand fast therefore,"* other translations say, *"It is for liberty that Christ has set us free!"* But the KJV says, *"Stand fast therefore in the liberty wherewith Christ hath made us free, and be not entangled again with the yoke of bondage.* And other translations say, *"yoke of slavery."*

Then of course it goes on to talk about circumcision. Remember, this is a big debate in the early church, big debate! A lot of the people that came from the Jewish background to follow Jesus, Yeshua Hamashiach, Yeshua, they were saying, *"We are saved by fulfilling the Law, saved by fulfilling the Law, the Commandments of Moses; not only ten but the rest of them as well."* There was this debate within the community.

But there was another central aspect of the community that said, *"No No! It's by faith!"* It's not whether or not you've gone through the Jewish rites of passage like circumcision like the codes on different eating, *"Don't eat impure foods,"* etc. So there was this debate; this was basically the debate between religion and relationship.

Now it's not saying that the Mosaic Law is useless and that it's bad or it's evil or it's demonic or satanic; it doesn't say that, okay! God had a reason for those Laws to lead His people to prepare the way for the messiah; really that's what it was. Of course lead them away from sin, but that in itself didn't make them perfect.

In this passage the Bible doesn't say that the Laws were evil or they were satanic. No! But if you treat them like religion and don't have a relationship with Christ, it's to no avail; it doesn't mean anything. Are you with me, folks? Because no matter how much purification you do, no matter how many spiritual conditions you make, no matter how many different practices we may do, none of those will make us perfect as God is perfect. The Law is like a mirror that exposes our sin; it exposes our sin.

Usually we're like, *"Oh! No, no! Why am I a sinner? I didn't do anything wrong! I don't have anything that I've sinned against. I haven't killed nobody, I haven't committed adultery, I haven't partaken of the free sex culture, I haven't slept around before marriage! I haven't done this; I haven't done that!"* But what the Law shows you, and even just the Ten Commandments, is that everybody has committed sin. No matter how perfect a person thinks he is or she is, he has already sinned before God. And the comparison is not, *"Are you comparing yourself to Hitler?"* because everybody's better than Hitler.

### **Pastor Artur Pawlowski from Calgary, Canada**

Except for Justin Trudeau! He's getting there ; he's getting there! Let's see the video that I put up on Instagram this morning: Justin Trudeau's Stasi Nazi cops trying to shut down a church on Resurrection Sunday! Oh, yeah! And guess what they get called by this good pastor? This pastor is a real pastor! He's not trying to raise sheep; he's trying to raid lions. Of course he's not a Rod of Iron Kingdom lion yet; not yet on that level!

Go ahead play that video! I'll talk about it as we go; but you can tell his accent, he's probably from Russia or eastern Europe (*from Poland*)

[rumble.com/vfctbn-out-nazis-polish-pastor-banishes-police-trying-to-stop-easter-services-for-.html](https://www.rumble.com/vfctbn-out-nazis-polish-pastor-banishes-police-trying-to-stop-easter-services-for-.html)

*"I don't want to hear anything; out of this property immediately! I don't want to hear a word. Out, out of this property immediately until you come back with a warrant! Out, out, out, out, out! Out of this property immediately! Out; immediately go out and don't come back! I don't want to talk to you; not a word. Out of this property; immediately out! I don't care what you have to say! Out, out, out of this property, you Nazis! Out; immediately! Gestapo is not allowed here! Immediately! Gestapo is not allowed. Out! Do you understand English? Get out of this property! Go; so, go, go, and don't come back without the warrant! Out, Nazis, out, out! Do you understand? Nazis are not welcome here! Out, and don't come back without a warrant! Do not come back without a warrant! Do you understand that? You're not welcome here; Nazis are not welcome here! Gestapo is not welcome here! Do not come back, you Nazis psychopaths! Unbelievable! Sick, evil people, intimidating people in a church during the Passover; you Gestapo, Nazis, Communists, fascists! Don't you dare coming back here!"*

All right, praise God for that man there! That's a Holy Ghost pastor right there! God bless that pastor; God bless him! They're coming in, trying to shut the church down with the stupid covid crap, even though there are fewer deaths in 2020 than 2018 and 2019. How did that happen with a worldwide pandemic? How did that happen with a worldwide "pandemic?" Flu deaths all of a sudden disappear, and cancer disappears, heart disease; all disappeared. Everybody has covid! And they get big checks, big money; 33k plus from the government if they say he died by covid. What a pathetic ridiculous scam!

And you see this man? You see this pastor? God bless that man; God bless him, because he called them Nazis; that's what they are. They are obeying unconstitutional orders which are trampling on the rights of free peoples; they're stealing their rights.

### **Chinese Communist doctor**

Check out this craziness by this crazy Chinese doctor while on CNN the Communist News Network! Play this. Look at what this Chinese Communist doctor says about We The People of America; go ahead.

*"My main concern is that we're not going to reach herd immunity because of vaccine hesitancy, and I know that's hard for a lot of people to believe who desperately want the vaccine right now, and they're thinking, "oh well, it's just a small percentage of people who are actually anti-vaxxers," and that's true; there is the anti-science anti-vaxxer contingent. But I think that there are many more people, millions of people, who for whatever reason have concerns about the vaccine, who just don't know what's in it for them. And we need to make it clear to them that the vaccine is the ticket back to pre-pandemic life, and the window to do that is really narrowing.*

*I mean you were mentioning Chris, about how all these states are reopening, they're reopening at one hundred percent, and we have a very narrow window to tie reopening policy to vaccination status, because otherwise if everything is reopened then what's the carrot going to be? How are we going to incentivize people to actually get the vaccine? So, that's why I think the CDC and the Biden administration need to come out a lot bolder and say, "if you're vaccinated you can do all these things; here are all these freedoms that you have," because otherwise people are going to go out and enjoy these freedoms anyway. And I fear situation upcoming into the fall when we never reach herd immunity and then we get hit by the next surge of covid 19; something that we could have prevented if we just got people vaccinated now."*

The point is: You have no freedoms in your own country.

And what happens if they don't take the vaccine and we don't have the carrot anymore for all the people? Huh? They may go back to freedom! They may go back to being free peoples! Oh Lord! Quickly, quickly; we must push it quickly! Biden must mandate the vaccine quickly! This is a crazy, crazy, Chi-com lady! She is talking about that about Americans, folks!

Do understand? I told you Chicoms are here! Chicoms are here, folks! Okay! So when I made that Justin Trudeau joke, there was a reason. Those cops are acting like Gestapo Nazis, and they deserve to be kicked out of churches! Thank God for that pastor, up there in Calvary, Canada, who stood up to them! (Applause) Lord, have mercy! Are you with me, folks? It's such a crazy, crazy time!

**It is for freedom that Christ has set us free,**

But let's get back to Scripture: *"Stand fast therefore in the liberty wherewith Christ hath made us free,"* Or a more modern translation because that's old English; it's hard to understand.

*"It is for freedom that Christ has set us free, and be not entangled again with a yoke of slavery!"*

Now, due to the faithlessness of the people, Christ had to walk away with a cross, but he didn't die for the people so that we'd be slaves forever. In fact the promise of Christ even in his Second Coming, that *"I will return,"* is for the Kingdom to be established. What does that mean? That means there's going to be a difference; when the Kingdom of God comes to the earth there's going to be a difference. People are no longer going to be slaves, of bondage.

Resurrection Sunday is the last Sunday that we should be accepting what these Chicom doctors are saying in terms of them controlling Americans' freedoms. Who said that the Chicom doctors get to decide when we have freedom, or when we don't have freedom? Turn it on! Turn it off! Turn on! Turn off!

California is now under third lockdown, folks; #3, in America! I know it's "Commifornia"; I get it. But it's still supposed to be at least America; we're supposed to be under the same Constitution, okay. The Constitution is not only some type of law of the land; it is based on the Judeo-Christian culture of relationship with God. All our Founding Fathers quoted the Bible the most. That's the most quoted work in all their writings. And after the Bible, the three most quoted philosophers of the day: Montesquieu, Blackstone, John Locke, were all Christian philosophers; all Christian philosophers!

The foundations of the constitutional freedoms that we talk about come from a worldview that has a relationship with God. It doesn't come from an atheist worldview, it doesn't come from a secular humanist post-modern world view, it doesn't come from a cultural relativist worldview; it comes from a worldview that is rooted in a relationship with God. That is that human beings have special rights that are granted them not by their peers or institutions but granted them by Almighty God. Who is that? The Creator of the entire universe! He's a big guy, like he's big, he's big; bigger than any human institution, organization, government- it doesn't matter. Our God is bigger, bigger, bigger, bigger, bigger! (*I had to just go on to Trump right there!*) It's big, huge, big, big, big; very big okay! (*Laugh, applause*) He's big! The Creator of the universe, folks!

On Resurrection Sunday, they don't want you to think of Him! They want you to think, "*Oh! Yes, yes! Slave master! Oh, yes! Yes! Thank you for visiting us, telling us we have to wear mask, and shut down our business! Thank you!*" This is crazy land, folks! And the Communist ideology, the political Satanist ideology that actually protects real Satanism, protects real criminality, real evil; protects sex trafficking, protects pedophilia networks in the super class; it protects all the real Satanism. All the real Satanism is protected by this political Socialism, Communism, political Satanism Leftism.

Our reliance should not be in government which is just a group of fallen people; it's just a group of people. They are not the ones that determine our rights. That's why through the Bill of Rights or the Constitution, we have protections against them; we put chains on those in power, in politics, so that they cannot harass or molest the citizens.

Where does that worldview come from? That worldview just cannot come from the atheist world, because according to the atheist worldview we are nothing but advanced bipeds; we're animals. So since we're animals, what's the argument for protecting the human species? Well, we have the highest intelligence, maybe that's an argument; or we have consciousness. We have something like a memory, which unfortunately is getting quite limited recently. Nowadays apparently, goldfish have longer attention spans than the normal human person; about seven seconds is for a goldfish, about three for humans! Did you know that? For a modern person!

And by the way that's how all our marketing ads and all that, it's committed to the three second rule, switching the scene every three seconds, because you've already lost attention. So it's got to switch and change, "*Oh! Oh!*" and keep jumping to a new thing. Because people can't focus anymore; they're not reading books anymore. They're on video games all day, inside, stuck in a basement; no fresh air, no sunlight, no camping, no getting hands in the dirt and building up an immune system! Sterile, artificial, little prison cell which has a PlayStation 4 or whatever it is; Xbox that makes it all okay, that makes all the pains go away.

No, it doesn't! It separates us from relationship, which is the thing that gives us most value in life. Remember when we were younger we didn't think that; we thought it's the money or that technology or that car, or whatever the case may be; we thought it was the material objects. But as you get older -

how many people feel it more and more? - As you get older, it's the relationships that really have meaning; it's not the material goods.

### **“You should do it all”**

There are studies done on happiness and social economic level: they find that people who are above, in the upper middle to and upper classes, are actually more unhappy than people in the middle class. Why is that? They have so much more money; they got yachts, they got everything. Huh? But why are they less happy than people in the middle class? Why do their children have so many psychological diseases and problems? Huh?

Well, just like we talked about last week, there is this modern lie that they've told you and they've pushed into you, because they want you to neglect your children, and that is that, *“you should do it all!”* You know you can work, you can have children; you can have a great marriage. It's just simply not true! You don't have enough time in a day to do those things well; you don't! Something's got to collapse!

Stephen Moleynux did a huge thing; he even did the time breakdowns. If you want to be effective at work, if you start in a basic starting position you'll get a minimum wage; you'll do 40- 45 hours a week. Okay! But as soon as you start getting promoted, that jumps in 20 hours; you get promoted again, that jumps in another 20 hours! Pretty soon you're at 80 hours; if you're at a CEO level, you're doing 100 hours a week, folks! Lawyers, doctors, they make the big money right? They can hardly see their children; they can hardly have a date with their wife! Are you with me, folks? You see how it jumps real fast as soon as you start getting up that ladder! The time you must commit to that company jumps basically like 20 hours a week! And you have to put your full, full, energy into that, because you have other people competing with you; if you don't produce better than them, you're fired. So all your energy's got to go in fighting that battle!

Okay, let's say you're raking in the money, 10, 14 -hour, 16- hour days; but when you get home, something's going to collapse. You're going to be completely exhausted! Are you with me, folks? How come nobody paints this real picture of reality to young people?

Your husband and your wife is a different box than your children, by the way! We don't put them all in the family box! One of them is your lover! Amen! Your husband is your lover; your wife is your lover! They're not your children! Your husband or your wife is in a different box; you can't lump them with the kids! If you do that your marriage will collapse; it will take a massive hit because you now put your husband outside of the lover box. The romance and the intimacy and the sexuality, that's only for our spouse under God's covenant of marriage, and that's where He wants it to burgeon. Amen!

But if you have 16- hour days, anybody who's done that, you know how exhausted you are when you come back home! Man! I remember when we were in Cheon Bok Gung, the three- thousand, four-

thousand member church in Seoul! Lord, have mercy! We were up at 2:30 in the morning; we started training at 2:30 in the morning. We had the training and the prayers and all that kind of stuff; starting early in the morning and getting back at 11 -12 at night. And then we had to get up and do it again! That will burn you up fast, folks; super fast!

So, at that level you have to start creating organization and you have to start having vice ministers that help you, because you can't run around like that. You will die, you will die; get cancer, heart disease or one of them or all of them! Something will collapse! We've been told this lie that, "*You can do it all! Do it all! Do it all!*" No! No! But there's a limited amount of time; there are laws that operate in the universe. There are only certain hours in a day; you can't change that no matter how much you want it to change. Your body is a physical mechanism so you can't just run it 24/7; it will start collapsing. Let me say it again: it will start collapsing, it will start collapsing! One of them will collapse and unfortunately the first one that usually collapses is the spouse right; the spousal (box) starts collapsing. The spousal starts collapsing, then what will that impact more? Yes, it will probably impact work, but also what will it impact? (*Children*) Yes it'll impact that box tremendously; it will start collapsing into that box.

That's why in this "Christian nation," unfortunately, we've lost relationship with God. We've put in all these different items as our preeminent focus, as the most important thing that sustains and gives us value; we haven't centered then on godly relationships. We've centered on material objects or money or degrees or whatever the case may be; these are all non-relational. Of course you have to work with people to get them, but still it's very different than our most precious relationships that God gives us.

By doing that we may have started off doing forty hours a week, but if you're doing good, before you know it you're going to start doing sixty, seventy, eighty hours a week, and now you have to be competing at a higher level with more competitive, more talented, more capable people. Something's going to collapse.

But they also got it to a system where the government takes so much of the money that a husband or wife may make, that you have to have the D.I.W.K. (double income with kids) - you have to do that one. You have to have double income now just to pay the taxes because they rob the citizens so much. Again, Communism, Socialism, big government is based on theft, folks; based on theft, coercion and theft. The Bible refers to Satan as a deceiver; he is a liar and the father of all lies. He's an adulterer and he's a murderer; it refers to him as a lion that needs to kill, steal and destroy. Are you with me, folks?

They found that for the people in the middle class, there's tension. You have some disposable income, so you can spend it on your families, or you can have a date with your wife, or whatever the case may be; you can enjoy aspects of life, take a vacation etc. But you don't have all the money in the world. When it comes to children and the children are just given everything, it will make them into demons, unfortunately; because they never earn anything, they don't ever work for something; they'll never learn how to fight for something, they will just be given it.

### **Messed up kids of the world's richest people**

There's a doctor of psychology- I showed him on the King's report one time- he had an interview with *Valuetainment*, very nice interview. He does psychological work with some of the richest people in the world; he said the majority have totally messed up children. Because when you're pulling that kind of money, your whole life is your business. You can only but think about that. I mean if you're running something like Amazon or something huge like that, it takes so much effort and energy; I'm not saying it's bad or anything.

But the point is: some other things take hits. And then you're hiring people to do this or that work that the kids should learn how to do. They should learn how to cut the lawn, they should learn how to do the laundry; stuff like that, normal stuff. So when they get on their own two feet, they know how to do basic stuff, right!

But they never learned that and so these children have all these type of psychological ailments and psychological disease because they're so inept. Yet they want to get praise, they want to be acknowledged, because every child wants to be acknowledged for contributing something special. Are you with me, folks? God made you unique and so everybody wants to contribute something too, whether it be family or brothers and sisters, whatever the case may be.

But they found that because the parents just do everything for them- not physically, they hire people to do that -the kids feel so inept. So you know what he starts with, with these rich kids? He starts with them making their bed! You see what I'm saying? (*Everybody's laughing!*) It's true! He starts with them making their bed!

*"Okay doctor, what are we going to do today?"*

*"Well, Brian, you're going to make your bed."*

*"What? My parents are paying for this! I hear that from my mommy every day!"* whatever, okay.

They're paying big money for that; big money! The doctor of psychology comes in,

*"Yes, Brian! With all my authority and my white lab coat, I order thee to wash your hands and your face and clean your room!"* Come on! It's crazy! I understand it's crazy! But that's what happens; they're not even doing that.

Internally they know they are not contributing at all with their life to anybody, and internally they have a feeling of guilt like, *"Oh, man! I'm not contributing anything! I'm like a dead weight!"* and even though nobody says it, they feel it. So they have all these types of psychological ailments, and they're coping with alcohol, meth and drugs; thinking all those things will make the pain go away, and make other kids believe in their victimhood. Those kinds of kids unfortunately have to go through like almost dying over overdose of drugs to get some level of street *cred* (credibility) or something like that, you know; it's sad! And get some feeling that they went through something and struggled through something.

Because they've never encountered struggle; their daddy and mommy were so busy running and being lawyers and doctors, billionaire, whatever; running around, tending to their stockholders and

all their partners etc. You got to put in a ton of work when you're operating as a CEO, or whatever the case may be. 100 hours a week! 100 hours a week! 80 to 100 hours a week in the upper echelon jobs is pretty normal; 80-100 hours a week- a week! But something's going to start taking a hit, folks!

Then you see these families where the kids have not been empowered to do anything; they feel completely incapable. And they know that their friends also know that they're totally incapable of anything. You see they don't tell their parents; they know all their friends think they're such losers. They've got big money to hang around, have parties, steal money from them, but their friends actually curse them behind their back, *"Freaking losers; they drive around a Lamborghini, but don't even know how to mow a lawn!"*

Because they never had even a small victory, not a small victory like making your bed; a small victory like getting up at six or seven in the morning, at a normal time; not at 1pm! Are you with me, folks? *"How are you Alan? What did you do? When did you wake up this morning?"*

*"I woke up at about 3 pm."*

That's a problem, right? Unless you're doing the overnight shift, the graveyard shift in security, a person should not be waking up at 3 pm! Can I get an "amen" for that? (*Amen!*)

### **Discipline habits**

Lord, have mercy! Up at six, come on; basic! I tell my kids all the time; they're disciplined.

There are habits that are actually effective in achieving goals; one of them is waking up early! They've done studies on millionaires- and it's not that we worship millionaires-; almost all millionaires get up before six o'clock. That means before their competitors are working, they have three hours that they've done more than the other person; and they have probably been dreaming about their project the whole night too!

But the point is: learning that discipline, getting a small victory, small accomplishment, and then that starts building up the child's confidence; isn't that weird? *"Like when you accomplish something it starts like building your confidence; oh my goodness, like that's so strange!"* (*Imitating beta male*)

Learning how to do basic things, having basic victories!

And these things of course have an impact on how we behave in the end, if it's done with a judicious mind, and you explain to your kids about these habits etc, and you're training with them and not being too harsh while they're training to achieve these habits etc; having flexibility with them, not iron fisting everything, because that can get very oppressive very quickly.

### **Evangelize**

We talk about it all the time. We are the king and the priest in the home, so we must evangelize the children; they will not become believers just because their parents were believers. Amen! There's no guarantee of that; of course there's no guarantee. Even though you do all the right things, still Satan can attack; of course he wants to. He wants to destroy the Body of Christ, people who believe in Jesus,

people who believe in a God-centered family. You're the target of attack, so expect attack; expect it, be ready for it. Amen!

But the point is: with our kids we had to be working with them like we would evangelize anybody. At some point we have to give testimony, At some point we have to share the Gospel, At some point we have to explain apologetics, At some point we have to arm them with the weapons of spiritual warfare.

That is when their atheist friends start making fun of them and saying, *"Oh, you're dumb for believing what your parents believe; they just forced religion down your throat. There's no God! It's all mythology; it's all baloney to control you!"* The leftists always say that. But then they want to control you, maybe not with religion, but with their religion which is government, and it's so much more dangerous than any religion, because they use force.

Every law is a death threat; every law if you break it, can escalate to problems including death. If you resist a certain law that some random bureaucrat has made, it can escalate into somebody giving you a visit, sending warnings or threats. It can escalate into men with guns coming to knock on your door about the issue. If you try to resist that, it can end up in you getting killed; you see. So we have to understand, any law in terms of government or the Beast is a death threat.

That's quite different from God, isn't it? Because He gave you the Law, but He didn't say, *"Everybody, if you break any one of these, I will kill you!"* And every time we sin, God doesn't zap us with lightning, because we'd all be fried bananas or whatever; we'd all be toast by now.

### **Compared to God**

So when we return to that scripture, Paul is not saying the Law itself is evil, the Law itself is satanic. No, the Law is like a mirror and it shines on us and it says, *"Wow! Okay, you're not Hitler. You didn't kill a massive amount of people; you didn't persecute the Jews, etc, etc. I got it; you didn't create the Nazis and Stasis and all that, okay."*

But how many times have we lied? And we call people who lie? Liars, right; that makes us liars. How many times have you stolen something? We call people who steal something thieves; even if it's something small like when you were a kid, *"Oh, but I was a kid!"* But you still stole it. You see we're comparing ourselves to our peers or to other kids at that age or to Hitler or Stalin or Mao Zedong. But God is saying, *"No! No! I'm not comparing you to any other people; I'm comparing you to me!"* Ooh! Lord, have mercy! Now when we compare our moral imperfection with the Holy God of the universe, now you see why. Because He doesn't lie, so, to Him one lie is so foreign; it's so alien to His nature. Are you with me, folks?

One stealing of a Nerds candy or Starburst candy when we were young - you know going into the friend's backpack - that may seem innocent compared to other kids, but compared to God? He doesn't

steal anything! You see? So the moral Law that He gave Moses is not comparing you to a person; it's comparing you to God. Now when we have that mirror shine upon us, *"Oh my goodness! Whoa, whoa!"*

If you lusted after another person, if you've envied another person's spouse, their husband, it's call "adultery," what Jesus talked about; it's like committing adultery.

If we've hated somebody, we've murdered them in our hearts.

So that makes us liars, stealing, adulterous, murderers at heart. When we compare ourselves not to people, not to our friends, not to our co-workers, not to our students, but we compare ourselves to the perfect God, wow! That's why the Bible says, *"Our works are as dirty rags."* It's not to make us feel bad; it's just to give us a reality check. Amen! Because people can start getting into all sorts of crazy stuff, right. It gives a reality check like *"Whoa, this mirror is powerful! Yeah, I do have mud on my face!"* And I try to rub that mud away.

Now, I had this eye infection, swelling of the eye; people have that, it's called a stye. It was not going away; just swelling up on the eye, itchy and irritating; not getting better. The acupuncture doctor - I know it sounds crazy but you know we're Koreans, we do crazy stuff sometimes - the acupuncture doctor pierces my eyelid; he's stabbing the lid, *"this will be good for it; this would be good."* I'm laying down on the bed, and I'm trying to run away from the needle; I can feel my head trying to run away from the needle. It was crazy! I could notice myself trying to run away from the needle. Well, I got hit right up in the eye -boom boom- piercing it and he was churning it, so the blood would come up. He does that kind of stuff, he's crazy; but it works. Then it started getting so much better so fast, I could not believe it. And he was saying, *"Oh pastor, your blood color is so healthy, like a twenty-year old; you're very healthy."* I said, *"Oh, wow! That's great! Thank you; that's good news!"*

In the flesh, if we have some dirt, we have some infection; we may be able to treat it- in the physical body. But when we compare ourselves to God in the spirit now, this is a problem, because no matter how much we do we're still the lying, thieving, adulterous heart, murderous heart person. Compared not to other people but compared to God. We're still that person. We're trying to make these amends and no matter how many amends we make, that's why the Bible calls our works as *"dirty rags."* It doesn't mean they're not valuable because *"faith without works is dead."* God finds joy in the works of his children that are saved. He finds joy, but they don't get you saved; they don't get our sins washed away. Amen!

### **"If you love my Son"**

No matter how much we may do the spiritual conditions or pray and fast, that's not what washes our sins away; that's what the Pharisees believed, you see. They believed that it was their spiritual power or certain rituals or exercise that would wash their sins away. But God said, *"No! You want to know the only way you can wash your sins away? It's if you love my Son! That's how you do it; that's the only way! That's it; that's the only way! (Applause) If you love my Son, I'll wash your sins away."*

What does that mean? It means relationship. It doesn't mean that God doesn't like for example Passover or the Feast of Tabernacle or Hanukkah; it doesn't mean He hates those things, *"Oh, that's not the Law, so..."* "No, no, no, no! It means that if we replace God with those things, then we'll become Pharisees. If we replace our relationship with God with just ritualistic Hoon Dok Hae or reading of Scripture at five in the morning; if we take God out and just do our ritualistic 5 am reading, then we are becoming like Pharisees. This is not giving us salvation, because we are neglecting what? Relationship!

It is relationship which gives us value, and the relationships are the ones that we keep even though we die, because at some point our lives will expire; that's a natural and normal thing. But we go on. Human beings have a beginning but they are eternal, and that's why the relationships that we have are so important, that's why the fellowship is so important, the brotherhood and sisterhood is so important, the community of kings and priests is so important, because it's the fellowship of the Body of Christ, of the saints. *"Oh when the saints go marching in, oh, when the saints go marching in; Lord I want to be in that number!"* (Singing) It's the relationships!

We neglect that many times, because to study the Word or these things may feel like religious activities. We see the Word as a book but really the Word is a person; it's a person. It's God, the Living God ushering forth His Word, the Son of God who comes and we meet Him through this Word; it's like a person. We're spending time with a person. When we read our Scripture, the Bible, when we study the Holy Scripture, when we sing praise songs, we're not just reading a book- we can do that on our own free time. We're building a relationship; we're cultivating a relationship.

Not with Easter eggs and not with bunnies, pagan influences- but we're cultivating a relationship with a person, with Christ, and then through understanding that person we start understanding his values. God is not a liberal in the modern progressive post-modern liberal kind of thing; God is a conservative. God is a conservative, and once we get to know Him we realize, *"Oh my gosh! Wow!"*

The Scripture says clearly that the baby in the womb, God had plans for him from before he entered into the mother's womb, *"whoa, okay! So I guess God is pro-life! Huh! I guess He's a white supremacist"* even though He is a Middle Eastern Jew.

### **God as a conservative loving Father**

God is pro-marriage not pro- LGBTQ aiiappcc. Marriage is man and woman marriage. The Bible said, *"Therefore shall a man leave his father and his mother, and shall cleave unto his wife: and they shall be one flesh"* (Gen 2:27), and Christ even repeated that Scripture in answering the Pharisees about marriage.

**So He protects pro-life**

**He's pro-marriage between man and woman**

He also made male and female, so **He's not transgender**

In Luke 22 Christ said, *"Sell your cloak, buy a sword; buy a sword,"* to his disciples. So we know he's also **pro- Second Amendment**; to defend yourself, yes. Go check it out yourself Luke 22: 36-38.

You will definitely not see the churches that have federal money coming or are in China teaching that verse; they are prohibited. He was telling his disciples to buy a sword. By the way, did you know that a Jew under the Roman Empire could not own a sword? That was an illegal act; that was an illegal act for a Jew to buy a sword. That's a military grade weapon; they didn't have m4s or they didn't have sniper rifles at the time. Everybody knows that right. They had spear and sword!  
(*Laughing*) They had to be registered; serial code number registration, yes; background check, yes, expanded, expanded! Common sense, common sense; yes of course!

But God is also a loving Father. God is also one who seeks justice; hence having jurisprudence; hence having a justice system that tries to seek not only the letter of the law but the intent; the intent. In our justice system we don't chop off hands and chop off feet and things like that; we have due process. Even the person who's being blamed for some stuff, an attorney defends him. He has a jury of his peers.

At the time of the Founding Fathers it was actually your neighbors, people who knew you; not random people that have absolutely no connection to you, which is now how the leftist cities are run. The juries are made up of people that you don't know, whereas at the time of the Founding Fathers the jury - it's written clearly- is your neighbors, people who know you; because they will be able to give better testimony. You see, we slid away, slid away from the original meanings and have become very Commie; very, very Communist.

So, even in America, a free nation given by the grace of God and the blood of brave men and families who had to earn that! I mean they had to earn that, right. They were not just given it; they had to earn it facing the most dangerous and powerful military on the planet; that was a big deal, and they had to fight for it. Of course they always gave credit to God; they said they could never do it without God standing with them on the battlefields. Just like in Scripture we find God stands with us in battle!

Go ahead play that video one more time with the cops in Canada! We're not far from this, because in California that's already happening, where the apparatus of the state or the 666 Beast is growing too large and it's too unwieldy, and it's not controlled by the people. It's not the servant of The People but now the slave master of The People, which our Founding Fathers warned us about.

In Scripture, in Galatians chapter five which we're studying today on Resurrection Sunday, it reminds us, *"no, it is for freedom that Christ has set us free!"* It didn't say, *"It is for slavery under bad people i.e Commies that Christ has set us free."* Are you with me, folks? Yes it is for freedom that Christ has set us free!

### Critical thinking

But again in verse 13 we saw a very important warning (*Showing the video of the righteous Polish pastor*) Go ahead! This happened in Canada by the way, and probably in California as well as they go into their third Nazi lockdown. God bless Governor De Santis, folks, in Florida who's saying, *"I'm going to ban vaccine passports."* (Applause) Hey, Pennsylvania should take a clue, huh! Ban those vaccine passports! Give me a break! Don't even get me started on the vaccine; that's going to be a whole other Sunday, and we talk about it all the time.

But the point is: this untested mRNA is going to start manipulating your RNA, creating cytokine storms in your body; it's just crazy and they've never been approved by the FDA. Anyway, the point is: about this kind of untested, crazy not really vaccine, doctor Tenpenny and different doctors are coming and saying, *"Hey, I will outline ten potential ways you can die if you take this."* And of course within a year we see that type of death from people, who have taken it, and there are variations on how they had passed; it's a very clever system then, isn't it? You can't trace it back to just this one thing.

But think about that: in America the Chinese doctor's talking on CNN, Communist News Network saying, *"We have to hang the carrot in front of the people. What if they become free? What if they become free and they start enjoying their freedoms before we get them the vaccine?"* Can you believe that? I know I make it sound like a cartoon, but you just literally saw the video; it's insane!

I mean, you're telling me that you're putting foreign substances and you have no idea what they can do to your body, and people say, *"oh, yes, yes, inject me with that untested foreign substance; just put it in!"* It sounds really crazy; it goes against all the basic alert mechanisms that God has built up in our body, right. If you see something in nature and you don't know what it is, you're like, *"oh my gosh, what is that?"* You don't just grab it and stick it into you. Usually you have a defense mechanism from micro evolution - not that we were apes, right; but within species. You could have a big dog and you can have a small dog; that's called micro-evolution within species. God created us as species, but then there can be variation depending on the environment.

So that is a critical survival mechanism; it prevents us from dying. If we see something strange, and some guy grabs it, eats it and he dies, *"oh, whoa, whoa! We better not eat that!"* And you learn, and then that information gets passed down. Many times you'll even develop bodily reactions against that. People for example see the image of a snake and a sign that says *"be careful; beware of snakes."* They're walking in the forest, and some guy who's playing a prank on them or doing whatever, puts a sign, *"beware of snakes."* All of a sudden you see the hikers walking; they see the sign, *"oh, whoa, goodness!"* Now they're walking on tiptoes; every little branch is, *"wow, my gosh!"* Every little branch is a snake!

Jordan Peterson has a whole psychological explanation of this, how we've developed our brain to identify the shape of a serpent and, *"whoa!"* and we understand that's venomous and dangerous, and it can kill us with one bite; so we've developed mechanisms. You'll see this also in dogs or cats. If they

get near a snake and it pops out, the animal will jump backwards, literally jump; reflex. Because that's a learned behavior over time that helps you survive.

We've gotten rid of all those amygdala functions. All somebody has to do is say, *"I'm from this and this department; I wear a little lab coat. Yes, it's perfectly safe, perfectly safe."* And people say, *"Okay, yes go ahead."* It's crazy; it's totally crazy! And we thought Americans we're free and free thinkers, and we were always known for critical thinking.

Not critical race theory, but critical thinking! You know there are eight different types of white supremacists within the white race: that's critical race theory! All of you are one variation of the white supremacists on the eight stages. Oh my gosh! The most heroic white person is the white person that hates his whiteness and then joins organizations like BLM, Communist organizations, Marxist organizations, to overthrow white people. That's apparently the highest, most praiseworthy white people; that's what they're teaching your kids.

So when they started pushing that bathroom stuff on the kids and now a boy can just come in and say, *"Mr. Peterson, I feel like a girl today,"* and he can use the ladies' locker room. Mr. Peterson's smoking crack or something, because that's crazy; that's just plain old crazy, folks! Once I heard that, I said, *"no, no, kids, you are out; you're out of school!"* Whoo! They were so happy; yeah! They were out of school; home school time!

Do you remember when you were a sixteen-year-old boy, you would tell any lie to get into the girls' bathroom; give me a break! They are talking about, *"oh, depending on your feelings!"* Crazy! Lord, have mercy! Are you kidding me? Oh my goodness! Crazy! This is mental illness, folks. They're pushing mental illness on the children; it's extremely dangerous.

So the point is: They can't do this if there's no Beast system that threatens with force; that forces us to do this. They can't do this if families are intact and we have a parent in the home with the kids, and if as parents, we see ourselves as the main educators, as the main coaches; the first people that our children will hunt with, shoot with, learn mathematics with, do this or that field trip with, do scuba diving with, sky diving; whatever it is. We are there with them when they unlock that adventure, instead of, *"oh; it's just focus on the job, focus on the job,"* which is fine, okay great.

But if that becomes your life then the precious relationships will suffer. It's just a fact of our reality; we have limitations; we're not robots. How can you work a hundred hours a week, have enough time to be a great partner for your husband and wife, and be a happy parent? Something is going to get sour; somebody's going to get angry. And you have no time to yourself by the way! How many people know that you sometimes need time to yourself? Sometimes? No, no? Okay you all don't need any time for yourself; a little bit of time sometimes, right, sometimes. That means you have no time for developing yourself.

How long does he think that wheel is going to run? Springs will start popping up, boom, boom; that wheel will stop running. It's going to start collapsing.

### **Satan's hands & feet on earth**

But that's the purpose; the purpose of the Communist system is to get people separated, get people worshipping the money, the job, etc and not focusing on developing good relationships. Because they know if you have strong relationships you're harder to break; harder to throw crazy laws at, random mask mandates and random stuff. You may start thinking. Somebody in your relationship network may question what the Beast has said or mandates or demands you must carry out; otherwise you'll be arrested for doing nothing wrong. Are you with me, folks?

That's why the leftist religion of government is god. He will provide for you; he will give you welfare, he will give you money, he will give you all your desires. Just *"ask and you'll receive; seek and you shall find."* Fill out the form and then you'll get this government program; of which by the way they will steal 76 cents of every dollar and only give 24 to the recipients. That is a statistic on where money goes through government, whereas if you just gave it to the person it would all go there. 60 % wouldn't be whisked away.

But we don't understand that, just like as the Body of Christ we are God's hands and feet in the world, well also Satan has a body of Satan and he uses hands and feet in the world, i.e. people, to affect his kingdom in the physical. So God desires not only for us to inherit the spiritual fruits of the spirit, but especially when the Lord returns to be able to have now the authority to inherit what God has bequeathed from the beginning as it says in Psalms 2: 8, *"ask me, and I'll give you the nation for thy inheritance and the ends of the earth for thy possession."*

### **Spiritual vs. physical salvation**

Not so we can become worshipers of possessions; but so that we would become godly stewards of the gifts of grace that God has given His children. Amen! That's a very different thing, (*Applause*) That's the difference between what we're talking about many times: spiritual salvation and physical salvation. Spiritual salvation, professing our faith in Christ, being saved, being separated from sin, washed in his blood etc, and physical salvation is the Blessing covenant of marriage, the change of lineage. It was like when God saw Abraham, He blessed his whole lineage; that from him would come a nation.

People especially in the west, do not understand that we were blessed in a Covenant marriage relationship with God, and it's like He sees us now as like an Abraham; like *"from you will come a nation, and that nation I'm going to bless it. It doesn't mean I'm going to take away free will."* But we now have to help lead that nation who is our descendants, to God.

So now there's a connection, not only in the spirit, but as God's children; not only adopted but also His lineage on earth. That's where kinship comes in; that's where marriage is not seen as just boy and girl fall in love and they just hang out together. No! Marriage is the coronation of a king and queen; it is the coronation of a priest and a priesthood that is extended to our family. Amen! So it has power; not

only to affect spiritual change but also power to affect physical change through the godly nuclei that are forming. Amen! The nuclei, the families which are forming, connected with God, understanding their roles as kings and priests. Power!

So on this Resurrection Sunday -not Easter bunny and all that kind of stuff - Resurrection Sunday, it is so critical to understand this verse: *"It is for freedom that Christ has set us free!"* It's freedom.

### **Galatians 5:13**

Let's jump real quick to verse 13!

*"You, my brothers and sisters, were called to be free. But do not use your freedom to indulge the flesh; rather, serve one another humbly in love."*

You see, this is the sin; this is how a nation is always taken down. They get freedom but then they start becoming philosophical hedonist, seeking pleasure. With freedom comes, *"hey let's party!"* Oh, oh! You keep that on for a couple of decades, now as a society you're going to become philosophical hedonist; you'll become pursuers of pleasure. And the more you pursue pleasure, the further you will become from God, because pleasure leads you to all different places, many times where the devil is saying, *"come enjoy; indulge in these things! Don't listen to your church; don't listen to your parents! Satisfy yourself now!"* Age -old temptations!

As a nation becomes more hedonists now that nation loses all industriousness; the purpose for work, the purpose for innovation is to increase pleasure. That doesn't last too long, folks; that doesn't last too long! The purpose no longer is, *"I want to unlock God's potential that He has given me, so that it serves humanity and serves people."* That gets eroded away, and the purpose of it is now, *"I have to do this for pleasure, for the drink, for the drugs, for the girls,"* - for the whatever, just put your vice in there. And as that happens, a nation will start crumbling.

People don't understand, especially in the west they don't understand, the Chinese Communist Party, when they were implementing Communism in China, they funded the beer and brothels clubs in the cities, paid for by government money; because they wanted to increase divorce rate, increase the breakdown of marriage, increase licentiousness, which then gets people philosophically pursuing pleasure. That's what they become; they don't pursue God, they don't pursue ethics, they don't pursue virtue; they pursue pleasure. The Chinese government paid for it, folks; it was a government program!

I mean this should be taught; in the west people should know this, especially people who value freedom. It's the age-old weaponizing sex to get people to become hedonists. That's why Father said, *"Satan is the first pedophile; he's the first child hunter, molester,"* Because all of Satan's world is held together by that; all of the world pornography, they lure you in with naked women, and then it goes to gay, and then it goes to beast, and then it goes to children. Yeah, it always, always, always, goes to children. Because these super class of Satanists they are preying on children, just like Satan, and they will use anything.

They will use big organizations, like unfortunately - even you know that got exposed - the Catholic Church running children. So they will use religion; they will use super class, they would use Epstein island, they will use politic; they will use anything to establish that licentiousness, which will then increase hedonism. Society will then start having to conform to that, and then they'll try to bring down the age of consent laws. It's no longer 18 in Germany, it's now down to 15 years old; that means when your daughter or granddaughter is growing up in German schools, by the time she's in ninth grade, a seventy-year-old grandpa can be dating her; and that's okay.

Hello! It's kind of weird, isn't it? The UN is trying to push 10 years old! 10 years old; that child is in elementary school, for Christ's sake! 10 years old, and they're trying to give them adult rights through the transgender movement. At five years old you can decide to do life-changing surgeries, take hormone therapies, which are unproven, have long-term effects that we don't even know. If you can make that adult decision at five years old, well then you can start making other adult decisions, can't you? Now they brought that in. Now they can prey on your children and grandchildren, and my children and my grandchildren, just like they do in all the Commie countries. People in the west don't know about it; nobody told you! That's what they do to our families when you come from a Commie place! And you can't do anything about it because they've already disarmed you by then. That's hell on earth, folks; you understand? That's hell on earth; that's hell! They promised utopia. No, that's hell; that's hell!

### **How we overcome**

That's why God's Kingdom is antithesis to that, and there is warning. We overcome alcohol and getting drunk, because even the Bible talks about "*being drunken as a sin*," that those of the sins of drunkenness will also not enter the kingdom; right, that's in the Scripture.

So how do we overcome drinking? How do we overcome drugs? How do we overcome licentiousness? How do we overcome that? We don't overcome it by government; Prohibition failed, didn't it? It created Al Capone; it created black markets for them to make lots of money; it always makes issues worse.

How we overcome them is by:

\*Relationship: having a strong relationship with our parents who are godly, and they were good priests and a good king and queen, and they taught us and evangelized us, and trained us in the ways of the Lord.

We overcome them by what?

\*Strong conscience: Not by external government intrusion; we overcome drinking by having a strong moral compass and conscience, being disciplined in here. Amen!

That's how you overcome it! You don't overcome it with a government program, because it always leads to more what? More government, more bureaucracy, more control. The Beast gets larger, whereas it's supposed to be a servant.

This is why they called us a cult; they called us brainwashers; that's why the New York Times and the Washington Post were our arch enemies. They hated us because we were supposed to be minorities; we were supposed to be Democrats, we were supposed to be pulling the Democrat lever. Father was creating a church of millions around the world; he was training them all into being anti-Communist, to identify Communism as Satanism, not as an ideology.

That's a dangerous thing, isn't it? *"Those Moonies are dangerous, a cult brainwashing people; they're not pulling the Democrat lever."* If he was pulling the Democrat lever they would say, *"Whoa!"* They would be praising us. No! Why? Because Father grew up in the hell hole of North Korea under political Satanism; he experienced it, lived it. Our whole Moon family wiped out; killed, genocided!

### **The light on the hill**

So, Resurrection Sunday, how critical is it for the whole Body of Christ especially Americans? If you see yourself as a red-blooded American, my goodness how important it is to preserve this legacy of freedom, that God, and not only our Founding Fathers, but God, has given us! The one window, the one glimpse of liberty and freedom throughout all the darkness of human history!

Christ didn't die for us to be slaves and to just acquiesce to slavery.

*"It is for freedom that Christ hath made us free, and be not entangled again with the yoke of slavery."* That's what the Scripture says.

You know what the Founding Fathers did on Thanksgiving Day when they thanked God for their blessings? And by the way, people in America don't even know this: the Virginia colony started trying to do Socialism, and within two years over the winters, they lost 80% of their people, because Socialism fails every time. Every parent in America should teach their children this. These are critical words to tell your children, *"I love you honey, you can do it! Communism fails every place it tries."* That has to be in the standard teaching of every parent, okay!

But, think about it: the Founding Fathers they fought, not so that we would be enslaved, but so we'd preserve this legacy, because they knew that it was not by their power, *"not by might, nor by power, but by the Spirit of God!"* The Spirit of God is what gave them this land. And in the end preserving freedom is not only for America; it is to preserve it for the world, because if the *"light on the hill"* now goes out - and it's getting close especially with this usurper in, it's getting close; it's getting real bad. If this light goes out folks!

Hong Kong's light is already out. Hong Kong was trying to go on two years ago before the coronavirus conveniently popped out on it, and now Hong Kong streets are China streets with no more protesters; and slowly quietly in the dark their leaders are being S.W.A.T teamed, one by one disappearing. Isn't that convenient?

The light that was burgeoning in Europe, not Eastern Europe but Western Europe, now feeling the pains of globalism and the pains of all this multiculturalism, and using race conflict to divide the communities; they were feeling the pains of that so there was bubbling up in Europe too. Corona shut that all down! Trump had promised if he got back in, absolutely no lockdowns! What do you think that would have done? That would have given power to all the people in Europe, Asia, whatever, to say, *"We don't want these lockdowns either!"*

We had meeting with our churches in Africa on Thursday, and the church leaders down there were telling us they had literally like 83 corona deaths quoted in their country, and they shut the whole country down. You know how huge some of these countries are? Millions of people! 83 deaths! In America alone every month you have a thousand people die on stairs; every month a thousand on stairs that you're supposed to walk up and down! But those people I guess they didn't make it down or whatever the case may be.

But the point is: You understand? It's crazy! In Africa they shut the whole country down; millions of people, millions! 83 people? Whoa, this is crazy, crazy! Because something powerful was happening; there was a spirit. There was a spirit; there was a movement and a spirit that was moving.

### **Satan cannot win**

So the Beast may believe that he has destroyed that spirit, but you cannot destroy the spirit that is given by God. (*Amen!*) You cannot destroy that spirit which is now in the hearts and minds of hundreds of millions of people across the world. You can't destroy it; you can't take it away. And every person you kill under the hands of totalitarianism will only make the spirit stronger; every martyr that dies because they have the Spirit of God and yearn for freedom - not to abuse the freedom but to protect it - every person that dies because of a totalitarian government, a Nazi, Stasi, fascist, wicked Socialist Communist government that treats their citizens like cows and pigs will be a martyr, and that blood of the martyr is not lost. Because every time a martyr's blood is spilled, Satan gets more and more exposed; every time. (*Applause*)

He thinks by force he can accomplish his thing, but he doesn't realize every time a good person that is fighting for God-given liberty and freedoms - even though we're imperfect; compared to God Almighty we are imperfect - but every time somebody's unjustly slaughtered by the hands of the state and the Beast for that just and right cause, their power may seem like it's getting stronger, but actually there's a tipping point. At some point it will collapse and everybody will see; this is so wicked, it's so evil. We are now under Mao Zedong, we are now under Stalin and Hitler! We just pray that it's not too late.

Satan cannot win; Satan cannot win! On Resurrection Sunday everybody who knows Christ should know this in their heart. It doesn't matter what they do. As Jesus said, *"Fear not the one who can kill the body but fear the one who can cast the soul into hell."*

And that is where our power and our transcendence come from. Because in the end we are not servants of the flesh and we're not servants of the state that can only threaten us in our flesh. We

transcend that, and we transcend the fear, because of the victory; the victory of Christ. (*Applause*)  
That's Easter folks; it's not a bunny rabbit and eggs!

**Pastor Sean's Prayer:**

Father God, we thank You for this day. Thank You Lord, for this beautiful day that You've gathered us together to fellowship and study Your word. We thank You for Galatians chapter five where You said, *"It is for freedom that Christ has set us free; stand firm and do not let yourselves be entangled by a bondage of slavery!"* God, we pray for this country, we pray for America; we pray for the whole world; we pray for all the patriots across this world, that are yearning in their hearts for freedom. We know with freedom comes great danger as you said in verse 13, *"Do not let the freedom to indulge in the flesh and become hedonists,"*

But the freedom that You give, let us see it as a responsibility; something we must protect, something we must defend, something we must teach to our children, so that they will be the next generation of defenders of God-given human rights that originate from you, Lord. We thank You on this Resurrection Sunday, because we can see through the Easter bunny and the rabbits and the eggs and all those ceremonies. We can see through to the great love that You have; the victory over death, the power that now resides within us and within every God-fearing man and woman.

Let us not only have faith in You, profess the name of Jesus Christ as our Lord and Savior, but also Lord, let us be bound to You in a Covenant, a Covenant of marriage and family, so that Lord, we can become those instruments and those nations

That will serve You,  
That will honor You,  
That will defend You and  
That will protect Your culture and civilization.

God, we thank You for all the people that are here, even though we know we are imperfect. And as the Scripture warns us that we should not be focusing on one another or envy one another, but we are grateful that as You say *"in your fellowship and in brotherhood confess your sins one to another,"* that we can be vulnerable to one another, because we know that You are the perfect God and we are not. We share our testimony because we've seen that *"the wages of sin is death."* We've seen where that leads to, and we see where that leads a country that takes on that philosophy nationally.

So, God, we pray: turn America around, steer it to Your light; take it, take the reins and take the wheel. So that we will return to You; we will build back our relationships and not take the artifices and the little accoutrements that society has placed for our value. But that we will preserve our relationships:

#1 with You,  
#2 with our spouse,  
#3 with our children.

And that we'll be united together, working and serving the Kingdom of God, spreading the Gospel, sharing the good news that there is life that has conquered death, that the price has been paid, that we are filled with so much grace, so much gratitude.

Let us understand the true meaning of Resurrection Sunday, and let that Resurrection power live within us and collectively in America once again!

God, we give You all the praise. We give You all the glory and we give You all the honor on this Resurrection Sunday, gathered with all folks here, all the kingship lines that are gathered here, praising You, and we pray in Your precious name. Amen! Aju!

All right, folks! Let's all rise and give Him the glory! Amen!
