Liberty Rock Campground, Texas

April 18, 2021

This is Sunday Service for April 18th 2021, the 12th year of Cheongi, the third month and the seventh day by the heavenly calendar.

(Applause for Kyle and Daela Yoder, for Mark Andre and his wife, and all the work they have put into the Liberty Rock property already)

God is blessing us with some beautiful weather and a beautiful place! As you can see there's a beautiful new US flag and Texas flag, God bless America flag, flying over there now. The Lone Star of the Texas flag is not only kind of *"don't tread on me"* or *"come and take it"* kind of thing, but apparently the one star means that all Texans are united under God; that's what it means. And that Texas embraces that heritage that puts God first; that's a very important spiritual recognition.

So if you look at the greeting hall over there, you'll see when you first walk in now there's a beautiful Texas star at the top apex of that roof top; you'll see that. It symbolizes really that all peoples in Texas are one under God. Amen! *(Amen!)* That's a beautiful, beautiful meaning of the Lone Star flag.

All right! If you have your Bible let's jump to the book of Psalms!

Psalm 133: 1-3

Now these are the Songs of the Ascents; the pilgrims on the holy days would walk up the stairs in Jerusalem and they would sing these songs; the Psalms in general would be sung. So this particular chapter here 133 would be sung as the pilgrims were moving up towards Jerusalem, the holy place, during the holy days. Let's take a look at this psalm 133.

1 Behold, how good and pleasant it is when brothers dwell in unity!

2 It is like the precious oil on the head, running down on the beard, on the beard of Aaron, running down on the collar of his robes!

3 It is like the dew of Hermon, which falls on the mountains of Zion!

For there the LORD has commanded the blessing, life forevermore.

That's it! That's 133! See how short that is! It's only three verses; only three verses but very, very, powerful; very powerful!

How good and pleasant it is when brothers dwell in unity!

We know from the Principle perspective that God requires Cain and Abel unity in order to establish the 4-Position Foundation and prepare the foundation for the messiah to return etc; all those things are absolutely critical! So Cain and Abel unity is absolutely critical. And we talked about that also in terms of an Abel-type versus a Cain- type revolution with regard to a nation.

Cain-type horizontal revolution

A Cain- type revolution is a type of revolution which has a horizontal division; that is the tactic of the Communists, and the Socialists and Marxists and political Satanists. The Communists and the Socialists, and the political Satanists, they want to divide society horizontally. What does that mean? That means between the classes so to speak, the classes; different social economic strata, high, middle and low- let's say, classes; they want to divide those classes.

They want the middle class to be against the upper class, they want the white versus black; they want big groups to be stratified horizontally, and they want to isolate them in terms of that group identity. So if you're a Black person, you must vote for the Democrats or you're not really black. Biden, this usurper, was saying that; remember when he was saying that? He was saying that, *"If you don't vote for me you aren't black,"* and this is a white Ku Klux Klan supporting supremacist! Ten years ago he gave a eulogy for an actual Ku Klux Klan Grand Cyclops- that's literally their title. See, this is so crazy; when I say that it sounds nuts, doesn't it? But that's the usurper in power!

This man, ten years ago he was given the eulogy to a Grand Cyclops in the Ku Klux Klan! And he is of course the fake president; he is the usurper of America right now. You're talking about racist, you're talking about white supremacist, you're talking about somebody who supported laws that imprisoned minorities especially males at a tremendous high rate for non-violent crime; you're talking about somebody who's ravaged, ravaged, the communities that are impoverished in this country. Well, you're looking at him in the usurper Biden, who's now taken over the White House.

He gave the eulogy for a Grand Cyclops -whatever the heck that is in the Ku Klux Klan. Isn't a Cyclops something with one eye? I don't know why they come up with these names but anyway, that's apparently the name in the Ku Klux Klan; when you burn enough crosses, and I guess you kill enough Black people you can become a Grand Cyclops. This is a totally racist and disgusting, despicable reality; but the usurper has done that.

You're facing that kind of tremendous craziness. He's trying to say for example, *"if you are Black or if you're a minority you have to vote for the Democrats, otherwise you ain't Black."* I mean that's a white man saying that! You understand folks? That's crazy; that is a white man that has connection to the Ku Klux Klan saying that. That is ridiculous!

That's what the Communists, Socialists, political Satanists always try to do. They always try to make horizontal groups that can fight with one another; upper versus lower. In China, since everybody's the same race - basically all East Asians predominant let's say- they can't do the 'white versus black.' So what do they do? They do 'rich versus poor'; it's: *"the rich people have stolen all your things, so we have to*

rise up and we have to kill the rich landowners." So that's what they did; they divided the classes horizontally between groups.

This always leads to, not an Abel-type revolution; this always leads to a Cain- type revolution, a revolution where more tyranny will come, a revolution where more totalitarianism will come. This is a dangerous cycle! Now you look at Venezuela which had about 20 % Caucasians or whites and 80 % Latinos; they used the race warfare to implement their socialism there, using race- baiting techniques to split the society horizontally, again between Latinos and whites. So they're using this race tactic.

Now what does that sound very, very similar to? It sounds like how the Communists here, using that rhetoric and that language in the US too, are trying to split it based on race. So if you're Black you have to vote for the Democrats; if you're Asian you have to vote for the Democrats. I don't know why; most Asian traditions are very, very, conservative, culturally, but then they come here and they vote left - which is crazy, it's totally nuts - because they get the freebies from the government. But now there are more Asians waking up, there are more Blacks in the Black community waking up; more minorities waking up, and saying, *"no, we're not going to go down there; actually we don't like Communism."*

Asians now, they outperform whites, and they don't fit the narrative of the poor minority that is crushed by capitalism and the greed of the capitalist merchants, etc. They actually come here and succeed. They have a very high education, and high incomes, in one generation, very quickly, because of course they focus very hard on studying and school, and all that kind of stuff; and they rise very quickly.

Now Asians are no longer in the minority groups because they don't fit that narrative of the minority that takes government money. So they're saying that Asians are 'adjacent whites'; they say, 'adjacent white.' And there's eight shades of whiteness now, eight different types of white supremacy. White folks, did you know that there are eight different shades of you? Of course the most admirable white person, which they're teaching in the government schools to the young people, is the one that hates whiteness so much that he joins Marxist organizations like BLM and Antifa, and tries to eradicate whiteness -whatever that means- and that takes a violent action against white people for no reason.

Now, we all know why they're doing this, okay? Because in America 67 % of the tax base is white middle class; it's the majority of the population that is paying the taxes. So it's like the golden goose that lays a golden egg, right. And they have to shame that population, they have to weaken that population, and they have to make that population submit. Why? So they keep sending the golden eggs.

That's why that whole population must be disarmed, it must come to the government programming, it must obey all the cultural values that they are instantiating and pushing on people, especially the young people. And if you don't then you are hit with the sociological weapons of ostracism like name calling: you're '*white supremacists,*' and you're '*an enabler of white supremacy,*' or you are '*a bigot,*' or

you're *'homophobic,'* or whatever it is. These are sociological weapons of ostracism, which of course populations react to very strongly, if they're not thinking, if they don't have a relationship with God. Amen! They can get quickly guilt-shamed into submitting to the state.

So you see this rhetoric that is aimed at dividing the population horizontally and basically almost making these strata in society, calling on one stratum to kill the other. For example in China, it was the laborers or the people that are underground, and *"you have to rise up against the landowners and go kill the landowners, because they've actually robbed you and they've stolen the money from society. It was actually yours, so killing them and taking their money, it's not robbery; it's actually a form of justice."*

You see what I'm saying? It's the same kind of thing you see in the BLM riots, and then looting. Robbing these stores after these riots happen, it's not robbing; no, it's social justice; it's reparations. But most of these businesses are ironically Black -owned; so you're robbing other Black people who had to suffer to make that business, who had to work hard to make that business.

You know the Pareto Principle, which shows that there are certain people that are gifted like in basketball, certain people gifted in martial arts, certain people gifted an art; right, people have different gifts. There are people who are gifted in organization and operating businesses and making money. And the Pareto Principle shows that even in an organization, the top 10 % of the organization is making like 90 % of the profits; not for themselves personally but for the company. Because they have a gifting in competing in the free market, they have a gifting in building that organization to be competitive with other organizations that are trying to kill it all the time, etc ...

Not recognizing this, they say of course that *"these people have robbed you, stolen from you, etc."* When in fact, if you take away those people who are gifted at making organizations, businesses, things like that, then you will lose millions and millions of jobs; those people will leave.

Just a couple of days ago with Tim, we had Gaby Franco who was a world champion shooter, and she was talking about that in regard to Venezuela. What happened? As soon as they started Socialism all the top one percent, they left. They said, *"Bye bye, I can't live here no more!"* And they just moved, because they had the means to move. And as Gabby Franco delineated, after those people moved out, all the businesses shut down, and more and more people are just relying on the government. From a very rich country, you now have a very poor country.

This is the task of the Socialists. They want to divide horizontally; then they want one party to have so much anger and vindictive hatred against the other group, that they're willing to kill them. For what? To steal and rob from them!

We talk about the unity between brothers, Cain and Abel. What happened? Satan used Cain in Genesis to whom? Kill his brother who received the blessing.

And you'll see that on a national level where the Left is trying to for example, incite minorities to hurt white people for no reason, attack white people to get payback for whiteness and reparations etc. You will see such rhetoric and language to assist the media, supporting this kind of thing to incite the same

hatred. What's the purpose? The purpose of it is for one group to attack the other, and then to steal the resources, to rob - basically it's to rob - and loot, and then of course give it to the Marxist leaders.

So you see not only does this happen in the Garden when there's not the proper brother unity between Cain and Abel, but it happens on the national level. In fact, political Satanist ideologies specifically try to create this Cain and Abel division; they try to create the Cain and Abel division, and they try to create a fight between the brothers.

Abel-type vertical revolution & Cain and Abel unity

Now you look at an Abel-type revolution; we've talked about it many times. It's where the good people of every social economic strata - so that could be high, middle, low; it could be every race, white, Black, Asian; it doesn't matter- every group identifies dangerous predators in those groups, whether high, middle class, or lower economic strata, identifies them as the problem. They are the problem.

They're the ones that want to centralize, and control, whether they're high class predators or middle class predators or lower class predators; whether they're white predators or Black predators or Asian predators, or Latino predators. It doesn't matter. Those people want to centralize power so they can get what they want; they can loot, pillage and plunder. They can get more resources for themselves by illegal and nefarious means and usually through disguise of the government, but of course through force and theft.

So there has to be unity of Cain and Abel in terms of high, middle and lower class, or Black and white; there has to be unity among those groups, and they have to identify the archangel as the problem. You see what I'm saying? That's what Cain and Abel should have done, right. Of course we know Cain killed Abel, but he should have been like,

"God gave you that blessing and I'm here to protect that blessing. I'm your brother, I'm your keeper; I'm here to protect that blessing."

And they could have created unity against whom? Satan; instead of letting Satan take the wheel and letting Cain kill Abel.

Now, in Cheon Il Guk and in True Father's lineage, we have of course the victorious Cain, our General Inspector Kook Jin Nim. Yes, Amen! (*Applause*) Who did that, who won; he won that victory as Father anointed me as the Second King, and his heir and successor on three different occasions. I mean, you understand, some of my elder brothers wanted to kill me for something I didn't choose. *"I didn't choose it; why are you getting angry at me, man!"* Golly! Some of my siblings were so angry, they didn't even show up at the first event, like the Kwak group, and Preston; they didn't show up so Father did it a second time and said, *"You'd better show up!"* So this kind of thing; you all know that.

But you can see Cain and Abel can unite to fight Satan, or they can be petty and fight one another.

And that's what the Socialists and Communists want to do; that's what they want to do. They want to pretend that they're the good guys, when they're actually the satanic figure or the archangel figure, and then they want to referee the different tribes, the Hutus and Tutsis, the whites versus the Blacks, the upper class versus the middle class; whatever the case may be. They want to referee this, and pretend that they're the good peace stabilizing peoples, when they're actually the archangel. Isn't it interesting, folks?

And you need to have the unity of the Cain and Abel against evil and against the archangelic Beast, which is the centralization of government and force in the hands of the very few - which is government. You need to have the unity of Cain and Abel, i.e. the upper class, middle class and lower class; they have to be united in the fight against tyranny.

That flag over there with the Trump flag, the *"Make America Great Again"* flag, and the new one that says *"Take America back"*; that's what the MAGA movement was all about right? It was like euphoric, remember? You understand? Just a couple of months ago we were going to these rallies with tens of thousands of people there, and literally everybody was patriotic. Remember you couldn't even say, *"America is great,"* because they would call you a racist, and white supremacist.

Natives

"Well, what about the natives?"

What about the natives? They had constant warfare. Look at the history prior to the American colonization, there's constant warfare, and some of the most brutal types of punishment for your enemies: scalping your enemy, counting heads; the game Lacrosse comes from playing with dead enemies' heads!

There was no idea of the justices, as we have today, a jury of your peers; there was no concept of those things. Those are Christian concepts. The Cherokee tribes for example, were constantly waging war on other smaller tribes; ravaging, pillaging, plundering, scalping etc. It was not a utopia; it was not Pocahontas and everybody was living in peace smoking pipes in tipis. There was constant killing and warfare between these tribes. And it was never ending; it was centuries of constant tribal warfare, and raping the women once you captured them. I mean, you understand; just constant brutal warfare! That was the reality of the situation before the Judeo-Christian constitution; that's the reality of the world under political Satanism

MAGA rallies

But the point is: you could not even say that America was great; you could not even be proud of being American! Remember this? This was like maybe five, six years ago; people in America felt scared to say, *"You know, I love my country."* They were scared to do it, because you would get harassment at work, you would get harassment by the radical Nazi feminists, or whatever the case may be. You would just get belittled and they would try to ostracize you from anything, *"You're not welcome here! If you see those Trumpers, go and make hell for them; tell them they're not welcome here!"* Like Maxime Waters, the crazy lunatic Commie!

And Trump came along! And again he's not perfect and he's not the messiah; he's just a man and he made mistakes. But of course he was probably the best president we've seen in the last hundred plus years. Do you remember at the MAGA rallies, especially when all the patriots gathered down there in Washington, DC, to protests; not the January 6 event but before. I remember Trump showed up. He was driving around in that car at that courtyard or whatever there was, and everybody was running towards those cars. You saw the pictures of him passing by in those cars, because he just wanted to say "hi" to everybody, and say, "*thank you.*" What was he doing? He was going "*thank you, thank you*" (*with the thumb up*) He was passing by, "*thank you*"; passing by he was saying "*thank you*" to people. And people would go nuts! He loved his people; he was thanking his people for coming out here and fighting.

I remember one of the MAGA rallies that we went to, and we were walking out as it was closing up; we came way too late so we couldn't get into the larger auditorium, etc. So we were walking out when it ended and we're walking towards the car and the Trump motorcade comes right out. It's literally here; I'm here and the Queen is here and the Third King is there and my other children are there. We're just walking towards the parking lot which is quite a bit, and it is just literally the motorcade and us. As he drives by, he slows right down and he says "*thank you!*" And he passes by in this very brief moment. But we're the only people there; we saw the motorcycle come by, and he looked right at us and said "*thank you!*" I mean, that's what he would do!

And it didn't matter whether you were Asian, whether you were white or Black; it didn't matter what color your skin was, how much melanin or pigment you got in your skin; it didn't matter. He had the Judeo-Christian principle that people, whether Black, white, Asian, Latino, whatever, are made in the image of God. That doesn't make them perfect but it means that God had a purpose when He created us. Amen!

So he recognized that. His whole identity was not that "*I'm a white man or I'm a Black man or I'm an Asian man or I'm a Latino.*" That's not his whole identity; his identity is: "*I'm a person who's been saved by Christ, and his faith is growing.*"

We were praying of course even when he was still in office, that he would be putting pictures, like George Washington where he's kneeling in the oval office praying, hand on the Bible; those kinds of powerful images. That would have been wonderful if he had just embraced his faith more and be more outspoken about it, "*Yes! I am defending Christian principles and the Christian notion of protection of widows and children and family and marriage and sanctity of life, etc.,*" and all those kinds of important things

Not just: he's just a politician; not just: he's an entertainer that had a top show on NBC, *The Apprentice*, etc. No! But God has called him to be like a general, a soldier in the army that is now leading the army, a general, a king in that respect, standing there and opposing the enemy. So we had such an incredible experience through that, if you think about it; even though a lot of us got wasted in terms of energy because we fought so hard for Trump. Amen!

Let's give it up for our J- team, K- team, A-team, E-team! Oh my gosh, even though it's like a couple of months ago, still on the King's Report I purposely played those videos by the way, when we were doing all those protests, just to remind everybody how hard everybody was fighting. And that's something to be proud of, folks. Because of course Trump has five percent and he should have stood strong; he should have gone up against the Commies in the end. He should have absolutely done it; he had the power to do so. If he commanded the military, it's on them now, and not to just back away and just hand it over to the Commies. No, that's not good because now it puts all your people in the front line.

But anyway, the point is: the reason why I played those videos is because everybody fought hard. In the end we have to win this battle and of course as the Scripture says, "*Grave, where's thy victory; death, where's thy sting?*" "*Grave, where is thy victory*" meaning that Christ has already obtained the victory. But again as His hands and feet we still have to battle for His Kingdom because we are battling not just "*against flesh and blood, but against principalities, against the rulers of the darkness of this world, against spiritual wickedness in high places.*" It is a spiritual battle; it is a war.

People fought hard and we didn't get the result that we were praying for. But,
 That doesn't mean God is dead. Amen!
 That doesn't mean God is done. Amen!
 That doesn't mean God is finished. Amen!
 That doesn't mean God is over. Amen!

No, it just means that through this, God's plan is moving in a new direction, now that God is opening up. And it doesn't mean that Trump is over because he's still one of the most powerful Republicans, probably the most, and he has tremendous influence, and his sons have tremendous influence as well. So, it doesn't mean the Trump family is over; they are still tremendous patriots, and I think now they understand the nature of the Beast that they're fighting.

People did not get Father's training

Because think about it, a lot of these folks did not receive the training from the Lord of the Second Advent, True Father; they didn't receive the training we all received, which was a clear identification through VOC training, and even through the Principle, that Satan is in charge of Communism. You see that? They didn't learn that in theology class, they didn't learn that at the seminary, they didn't learn that in Sunday school; they didn't learn that at all; you see? So they're just thinking Democrats versus Republicans because that's all the media is talking about; but we know that there's a deeper picture and we saw it very clearly.

Because, on a first full day of lectures, you're going to hear- and especially when you're going to go through the World Wars and all the different conflicts- you are going to hear that Satan is using Communism to expand his kingdom. So, you will learn from the very beginning when you are coming into the community of the Moonies, so to speak; and they call us a cult, they call it

brainwashing. Of course we all know that was from the New York Times and the Washington Post who are our arch-enemies, because we're training people to understand the nature of Communism. Communism is trying to destroy the family, separate the family, isolate the family, and then of course bring allegiances to the state; whereas True Father is blessing marriages, telling people to make strong families centered on God. Communists try to tear down the family; Father was trying to build it up. Of course we saw very clearly from the very beginning the nature of Communism; we received that type of education because we received it from True Father. Are you with me, folks?

Now the normal person going to a normal church, so to speak, is not hearing that at all; they don't know what's going on in different countries. The pastors are not talking about what's happening somewhere else, or even somewhere else like Washington, DC; they're not talking about that. There's an unspoken agenda that you can't on the pulpit speak about wickedness and evil in high places; that could potentially destroy your flock. But in the Bible a pastor is a shepherd of a flock, so he must warn them and he must train them to be wary of the wolves and to be careful of the danger; that's his responsibility.

All pastors across this land, they're not supposed to just be giving pep talks *"come to Jesus and make more money,"* or *"come to Jesus and feel better about yourself."* No, they're supposed to be raising up lions; not just keeping the people as slaves and sheep. That's why we're raising lions for the Kingdom, so those people can then get the power of God, the Spirit of God within them, the fire burning strong, and then *"Go into all the world and preach the gospel to the whole creation,"* as you see in the last chapter of Mark.

All across this land Christians, who are sitting in pews should not just become weaker or politically absent, but become:

Stronger in their values;

Stronger against the death machines of the abortion clinics that are murdering two to three million children per year,

Stronger against the assault on marriage and the introduction of hypersexual and crazy distorted sexualities on our children, calling them healthy behaviors, healthy relationships; trying to supplant the institution of husband and wife which God has ordained.

Even Jesus says, *"Who can put asunder what God hath put together?"* He's talking about marriage; he's talking about the holy Covenant of marriage. And it's not only the marriage that is: boy loves girl and girl loves boy and they live forever and frolic on the beach forever- which is never the case. That's how they sell marriage: you have a young man and young woman frolicking on the beach and he's spinning her around on the beach. How long do you think that guy....? He got dizzy after a little while. Come on! Depending on how old he is, he said *"oh, my back hurts!"*

Blessed? Get ready for the attacks

No, no, no, no! They're not preparing the young people for the assault they will encounter. If you are blessed under the Covenant of God, you'd better expect you're going to get attacked, you'd better

expect you are a prime target for the Devil to come and try to destroy the family, because you're trying to center on God; don't be surprised. I remember hearing, *"Oh, I'm so surprised that all these blessed children left the church and I'm so surprised that our families got ..."* "Why are you surprised? Whom do you think Satan's targeting? It's foolish to be surprised; you got to be ready to be attacked. Amen!

Now, if you're ready for the attack you're strong; you're ready for the hits - not coming from an abusive wife or husband, nothing like that - but from Satan trying to attack you. That shouldn't surprise anybody, especially those in Covenant with God. Amen! It shouldn't surprise you; it should be 100 % expected, and when it comes you'd say, *"Oh that's all you got, Satan; that's all you got?"* That's the attitude. Amen! It should be expected, and when it comes you tell him how weak he is; you're prepared for this by God. Amen!

The whole Scripture is referring to us as soldiers of God; that we have to be ready for the spiritual warfare, the battle that will ensue. It's not going to be: *"oh, you're getting married and now you're going to ride off into the sunset! It's so romantic! We'll ride off into the sunset; we'll be in love forever!"*

After three years of him or her you're going to get upset okay, or something; something's going to aggravate you, get on your nerves. You're living with another person! They don't respect your kitchen space, your bathroom space, your toothpaste space, your socks space, whatever the case may be; these are stupid little battles. And the Devil will try to use that, to exacerbate and make it get worse, tear you apart, *"oh, I made a mistake with this man! Why did I do this? I'm not in love..."* The Devil will try to get you inside. You have to expect that; that's one hundred percent guaranteed!

You can't be surprised *"oh my goodness there's some conflict building up in our marriage! Gee; by golly! I'm so surprised!"* What planet are you from? No, we have to be ready for that. We have to be ready for that; we have to be ready for attack. We'll be able to overcome it. We're ready for it; we'll overcome it when it comes, a little a bump in the road or whatever the case may be. We always heard when we were young, *"if you have a fight like an argument or whatever, don't let a fight go beyond the next day."* I think there's a scripture about that. But before the sun rises get that out of the way; get it out of the way. Why? Because a small thing can fester and you can have death by a million cuts. Amen!

Satan's strategy

That's Satan's strategy; even a nation, he'll cut that nation up with little razor blades. Meanwhile, everybody thinks he's going to bring a big battle axe, and Satan's going to be 20, 30, 40 feet tall, all painted red with black horns. Can you imagine something that big walking around in this tree line? We would see that from miles away! No, no! Instead, Satan like the little silver serpent will come right up to your toe and bite you.

You're looking for the big wildebeest, some kind of thing that looks like a bull, a Minotaur or something like that trampling over that tree line, and Satan comes up as a little grass snake, no a little cottonmouth; he's coming around small, until he comes and bites your toe, boom, and now you got the poison in you and you're dead.

Or a tick, a tick! Politic, poli-tic! The type of ticks to be careful of: deer tick, dog tick, poli-tic; luna-tic. Yes the usurper is a luna- tick, all right.

But Satan is not stupid; he's not going to come up to you with a little red- demon costume with black horns! That's too easy to spot; even a child could spot that one out. He's going to blend in, fit in; he's going to look just like you, and say, "*come on! Just hit that drink, man! What's wrong with you? Come on! Just smoke that thing! Oh man, you're going to have fun!*" Right, it's just like that!

There's a movie called *the Devil's advocate*, and it's playing on the theme of spiritual warfare. He's defending these criminals, whatever; he looks over them, and their face goes "*braawrgraawr*," and then it's back to normal.

He says, "*Oh! Whoa! I just saw something up in your face.*"

He's like, "*oh no, nothing happened; I don't know what you're talking about, man!*"

He was trying to say that there's a spiritual force behind them that is wicked and evil and grotesque and deformed, and is evil, and that it's using the hand and feet of a man to affect his will. That's what he's talking about.

I say it all the time: so many Christians say, "*Well, it's in the hands of God right now.*" But the Bible refers to you as the hands and feet of God! Hello! So, it's not enough just to say, "*I acquiesce, I surrender to stay alive, and I let them do whatever they want to do, the evil people, because it's in the hands of God now.*" Well, God made you the hands and feet, to stand and resist that. Amen! God has to use a physical manifestation that is people, to affect His will; in the same way Satan uses physical people to affect his will. And that's why this battle is real, it's real; not only in the natural but in the supernatural, it's real. It's a real battle.

A Blessed Covenant nation

So if you are a blessed family under God's Covenant, you have a nation now that's coming from you. You understand, folks? People don't understand the blessing. Once you are blessed under the Covenant of God, a Covenant relationship, what that means is: for example in the Old Testament the difference between the Jewish peoples and all the other tribes that existed on the earth is that they are Covenant people with God!

A Covenant people, that means

They are set apart from the rest of the world;

They're special to God;

They have a special relationship with God;

They have a special anointing from God;

They have a special job that must be accomplished. Amen!

All the other tribes, the Egyptians and the Assyrians and the Babylonians, etc, all these other tribes, they're not in covenant with God. Are you with me folks?

So, people didn't understand the meaning of the blessing. Of course we understand lineage but what does that mean? Like Abraham, when you get blessed, a nation is coming from you! You understand? A whole nation is coming! You may just see boy and girl right now; you may just see husband and wife right now, but a nation is forming under that tribal line that is now in a Covenant relation with God. Are you with me, folks?

Now that doesn't eradicate the free will in that nation that's coming; just like the chosen people of God in the Old Testament per generation had to utilize their free will to chase after God, and not after idols and not after pagan deities etc.

State- sponsored children killing

The Queen was doing this morning's Bible study, and she found some very wonderful powerful verses that we see all the time in the Scripture, in the Old Testament especially, where it says the Jewish people gave themselves over to the pagan nations and adopted what? Child sacrifice! The Bible talks about the spilling of the innocent blood of their own children to the idol gods.

It's only True Father that has identified it correctly. It's those pagan deities, that not only are some kind of antithesis to God or they have different moral characters and values, which the Christian churches may talk about; but they were specifically, specifically, sacrificing children, that means killing their babies to certain deities. It was performing like a sociological function in their culture that would allow for what? More pregnancies! Because where would all these babies go that were being born through licentious sexuality that was normalized in those cultures? Where would all these babies go? They didn't have "birth control" and all that kind of stuff? Well, those babies would be sent to the fires of Baal; they would be killed at the hands of the state.

By the way, many of these temples were state-sponsored, state-sponsored. The Babylonians had state-sponsored child trafficking and temple prostitution, which was parents selling their children to the state temple to become prostitutes; that means to be raped and ravaged for the rest of your life. You are sending your daughter to be violently raped and ravaged for the rest of her life! How can you even call that a parent? You understand folks?

That's somebody that should be beheaded! That's so wicked; how can you do that to your own daughter for Christ's sake? It's unbelievable how wicked that is! But that became a normalized culture.

And guess what? Even Craig Sawyer talks about that too with *Vets for Child Rescue*; that these kids that have been trafficked in child trafficking, many times their parents are selling them! They're selling them so that they make money and send it back to the family! Do you see how wicked that is, folks? That's evil!

This society has gone to that level where they think it's okay to kill and profit off the most innocent of any civilian, which is a child, especially in the womb; that's the most innocent citizen that you have in your country that has committed absolutely no crimes, no fault whatsoever, because it didn't even come out yet, and you have a culture where that's normal and that's fine to kill it.

They say of course,

"Oh well, it's not a baby; it's tissue. It's fetal tissue."

"Well, when does it actually become a baby then?"

"Well, I think like in the third trimester."

But you have everything; you have a unique DNA set, you have ears, eyes, hands, fingers. You have everything; you have a heartbeat within three weeks! Whoo! You see that? The atheists and the political Satanists, when you push them on it,

"Okay when does it actually become a human being, a unique genetic person? When does it become that?"

They have no idea. They keep on flip-flopping: maybe in third, first, second trimester. They're just making up these numbers, because it doesn't make any sense; it doesn't make any sense!

That child has not committed a crime; he's not worthy of capital punishment and you're giving him capital punishment because of inconvenience. The majority of the abortions in America are done because of financial reasons, which means inconveniences to the woman, to the mother. You don't have the right to murder a person; you don't have that right!

So when a society gets to that level, where it's spilling the blood of the innocent and it's profiting off that...

By the way, folks, these abortion centers, these are death centers, making millions of dollars per year; they're businesses. God bless Ted O'Grady and the anti-abortion team! (*Applause*) It's a small ministry but it's an important one and those folks they feel a calling to go out there and protest in front of those abortion clinics. It's a lonely road; many times they're out there alone, right? Sometimes with different churches or whatever the case may be. But because of that, a couple years ago you had twins that were saved, right. Almost every time that they're able to interact with somebody and give them alternative information they decide not to do it; just the mere fact of being there and praying for them, they decide, *"Hey, maybe this is not the right thing to do; maybe I should go for adoption!"*

So, when a society degrades that much and they think that all these things become normative and this type of evil and wickedness and injustice towards babies in the womb or injustice towards children- for example where they're being sex trafficked- that's okay in a certain culture, that's okay in slavery. That's not okay folks! Are you with me? You have a culture that's seriously getting into a state where it's actually becoming culturally Satanist; even though it attests to God and calls out the name of Jesus.

But, as he says in Matthew 7 talking about the final day of judgment:

Many will say, "Lord, Lord, didn't I prophesy in your name? Didn't I heal in your name? Didn't I chase demons in your name?" He'll say, "be gone from me you workers of iniquity! I do not know thee."

Those are people that were testifying in the name of Jesus;

Those are people that were calling on the name of Jesus;

They were healing in the name of Jesus!

You see what I'm saying? But Christ said, *"Get out, you worker of iniquity!"*

Because, the whole time there's saying, *"Oh, it's in God hands."* But they don't realize that: no, no, God wants to use you, us, collectively the Body of Christ, to be His hands and feet, so that it can fight the wicked onslaught of evil that is hitting you; 360 degree warfare full spectrum, every phase, every layer is hitting you, attacking you.

And God expects us to be there for one another and also to stand against the wicked and the evil. You see that's when the proper unity between Cain and Abel happens, because they're now united on the fight against Satan.

The Beast of Socialism, Communism, political Satanism

Think about the time that we're now on in the country! They're still trying to split us up by race and trying to split us horizontally into larger group factions, but every person of every race, creed and color has to unite to stand against the Beast, the 666 Beast. The Beast of Socialism, Communism, political Satanism has many heads; it has wings, it has many different hands and feet etc. It's not a physical monster like a fake Godzilla coming out of the ocean or something like that. It's a beast; it's a monstrous beast which is actually worshiped by the world and which the whole world pays obeisance to and worships and obeys every command of. What kind of beast is that? But we knew very clearly. Why? Because Father trained us as the chosen people; people called by God to come into the Blessing Covenant. Are you with me, folks?

But now in America it is a critical time where people are realizing, *"Wow!"* We have patriots that are saying all the time, *"man, if we got this education in our church, America would be different!"* You know all these new folks that are coming to Newfoundland, they're saying that all the time, *"man, if we learned this stuff early about the absolute sex marriage and keeping your abstinence before marriage and political Satanism; if we learned this stuff in church, we would be a different America!"* The new people say this to us all the time.

They didn't know, because everybody was saying that we're a cult and we're going to brainwash you! No, no! Satan is brainwashing you and the people that God is calling are trying to tell you, *"don't get brainwashed by the state, don't get brainwashed by the Beast; he will make you into a slave, he will make you into a seroant!"*

True Father, who is from Communist North Korea and was imprisoned in death camps, constantly tortured and abused by the state, and then under the Japanese colonization period, and then under the South Koreans – constantly!

That's why of course the New York Times and the Washington Post always called us, "cult, brainwashing people" because we were teaching America once again about American values, Judeo-Christian values, and *"beware of communism; it is a dangerous cancer, a dangerous evil Satanic plague that will destroy your country and everything you love."* That's worthy to be called a cult in terms of the New York Times!

But now the normal conservative is being called a Trump cultist, a white supremacist, insurrectionist, domestic terrorist; they're calling normal conservatives even worse names than they called us. So now

the normal conservative is like, *"man, I misunderstood you guys! That's what you guys were learning? Dang, that would have benefited our church; that would have saved America!"* How many times Father would say we got to save America, we have to help turn the tide so it does not go towards the free sex culture which is utilized by Communism to lure the young people in. It's the lure, the bait; it's on the fishing hook that you throw out there. It's the bait; it's the shad that you put on the hook, so when you toss it out, the catfish will go "ruh-roh" and bite the dang thing.

Free-sex culture

That's what the Commies do; they sell the sex culture to the young people, *"Don't worry about marriage; marriage is slavery, marriage is a slave bed. Instead, just play around and be a prostitute, be loose and licentious; sleep with everything you want and just enjoy your pleasure."* And don't worry about how your heart is going to be torn up into shreds, and how you build all the wrong habits to maintain stable and powerful marriage relations. You'll learn everything wrong, and of course you won't have any sense of self-worth afterwards either, because you'll have given yourself over and over and over and over for some promise of some type of euphoric emotional love feeling, that every time is broken and broken and broken again. It's a lie, it's an illusion; it's a total fraud!

You're told not to go into stable marriage, not to learn good habits to maintain stable relationships and to maintain a strong marriage and exciting marriage, a powerful marriage, to be excited about it; you're not taught about any of those skills. You're taught to just be licentious, to be foolish, and play, play, play, play; go into debt, go into debt, become a slave. And droves of children, kids, brainwashed by the state, walk right over that cliff, *"okay Mrs. Anderson!"* Boom, boom! Right off that cliff; they walk right off, sign their life away.

Something that's most precious, your sexuality for marriage, the most precious thing that you could have between two people, that intimacy in marriage, they sell it away just for play, and just for laughs; they sell the most precious thing. Imagine if you had something that was so precious, it's worth millions of millions of millions of millions of dollars, and then you're just selling it for pennies. If that was a baseball card memorabilia, or if it was some kind of trophy or signed autographed by some famous guy- you know what I'm saying - you would never treat it like that. But yet the young people are brainwashed to treat their body like that; like it's cheap, it's a toy, like it's a joke, and that there are no consequences. Come on!

Even with the modern advances of birth control, there are massive consequences, because you are not only a physical body; you're a spirit and you have emotions, intellect and will. All those things get ravaged every time you get used and abused and spit out; every time you get degraded for falling into the stupid government lies perpetuated by marketing companies, huge corporations in Hollywood and government schools; that you'll be free if you just be a hedonist.

But you will be the biggest slave that is the tool of Socialism, Communism to sell that hedonism in exchange for slavery to the state. You are the epidemy of foolish, the epidemy of brainless, the epidemy of idiocy; and you walk right into it. Why? Because of the peer pressure and the social construct of the environment of the school pushing, and all your friends pushing in that direction, *"oh you have to go there!"*

That's why a lot of the first gen folks they always come and say, *"Oh man, I wish we knew this kind of stuff before we were getting blessed, etc."* But you had a different course, folks; you had a different course! You had a pioneering course and all that energy that you gave to serve, that's not in vain, folks; that's not wasted! God doesn't forget! Amen!

One-on-one days with our kids

But at the same time the young people that are growing they need to understand this, so that they can create strong, strong, powerful marriages, and succeed in those Blessings.

And we need strong relationship with each child, and even to this day when we do our one -on-one training with our kids, my youngest is 14 -15 years old, but the married ones too; the married ones too, we still do their days with them. They'll be weeping on that day, weeping, weeping on those days; isn't it incredible? They're already adults, but they're still weeping about it because we've been doing it eighteen years consistently. Because we didn't play around; we saw so many failures, so many destroyed relationships; people just thinking that their children will grow up following you as parents. But it's not going to happen; they are being constantly tugged and attacked to go the other way, folks - always, constantly, 360 degree attack. So, investing in that one-on-one time is critical.

And all the time our kids are saying, *"Man, those kids from that other family there are just wishing that their parents just did a one-on-one day with them, but they can't tell their parents."* Always! I don't just say this stuff so it just makes people feel good or something, *"oh, okay, that's a good idea."* You got to do your training, folks! Because I'm telling you, each one of these trees that God has given you, you have to water individually; they're different trees; they're not the same trees, they're different trees.

We saw with the first gen; we saw what happens. If you just assume they're going to come, that's not going to happen; 90 % plus gets stolen by Satan. We saw it. That's important evidence; that's very important evidence to have in the calculation. Amen! When the next generation is rising up you have to understand that, and then be investing in those children. I'm not talking about just throwing money at them, or sending them to some stupid after school program; in their perspective that's not investment. Why? Because more than the money, more than education, more than the job that they're trying to get, they want you, folks; they want you, you, you, you, you, you, mommy, daddy you, you, you; they want you. Amen! They don't want anybody else. They don't want the nanny to come; they don't want the government employee at the daycare center. They want you, you, you, you, you, you! That's what they want!

If you know this in advance, if you know this in the beginning then you are positioned; you already know what game you're playing, you're not fooled. You are going to take it seriously, *"oh, I'm going to be training with these kids; I'm going to be leading these children."* Not, *"oh, they're blessed children; they're just going to be faithful and love God."* I'm sorry, I'm sorry; it's not true. Why? Because even in the Garden that didn't happen, and the Garden was idyllic. They didn't have the government schools, they didn't have the brainwashing centers, they didn't have the department of education, they didn't have a normative culture of killing babies; they didn't have all that and yet they fell. You understand?

The environment that we're living in is way more fallen, way worse! So they're under greater assault, and guess what? In the end the real thing that can bring them to a relation with God is what? It's a relationship with their parents.

Jewish tradition for 12-year old boys

Especially in the end that's why the father is so important. You are a king and a priest, folks; you are the priest of the house. God calls the man to be the king and the priest. The wife is a queen; she's the evangelist; that's a different from the role of the minister and the pastor or the priest. An evangelist is different; you understand? The priest is a very important role that a man must understand. In our family we are the priest of the home; we have a special calling and a special responsibility, duty, to be leading our children in spiritual warfare.

Not only as a group, because God gives you different children to become leaders themselves; why? Because they will become leaders of their families in just one generation if they have children, and do not get brainwashed by the state and then say, *"hey, I don't need kids; I'm just going to be sterilized by the covid vaccine."* Or whatever; you all know what I mean, right?

Seriously! The man has to take seriously that role as a priest! You are the head coach in that home; you have been called by God to be a good king and a good priest. Now, your wife is helping you in that ministry; she is your top evangelist, she is there to help evangelize and preach the Word. But in the end, the minister, the pastor, the priest is the central figure there; he has to lead in spiritual warfare.

In the time of the Jewish people, the mommy was responsible for children up till age 12, and that's when the young boys especially, would join the militia and join the Jewish army. From age 12, that's right around puberty for the boys, when they're hitting that age, where now they want to be like a man, and they want to be big and they want to like, *"oh, I want to be strong."* At that age - we've all been there - when we want to get stronger, now our education shifts and we're around strong men. You see how that is?

Because no matter how bad it makes you feel, the mom will never be the role model for the son, because the son needs a male role model to know how to become a man in this world. You can't get that for your mom - even though we love our mom- but you can't get that particular critical role from our mom. We're going to get it from our dad, and if the dad is not filling that role, then we're going to try to get it elsewhere. Are you with me, folks?

So in the traditional chosen people army, up to 12 the mom would take care of the children, but then after 12 they would join the militia, and now they're around strong men; they're with warriors. They're with military men everywhere; now they can't play around. They can't act like a Beta; they're going to get their butt kicked, because now they're around strong men. And they'd be taught how to become a strong man, how to become a protector. That was the traditional militia system, especially in the ancient world with the Jewish people.

Because they recognized that when the child is bigger than the mom, and now wants to become a man, wants to grow some muscles and wants to go fight in battle, you got to learn that from the man; you're going to learn that from the man. And being around the men then helps that young boy learn how to harness that energy which will be for fighting a war or whatever; that violent energy will be harnessed towards good and not evil.

The crazy 'femininazis try to say, *"Well, let's socially condition the violent tendencies out of the men, and engineer them to become more feminine."* That never works; in fact it goes the opposite. They start joining violent groups like radical Islam; in Europe that's what you see. With the massive feminization push through the schools, you have white men that say, *"Screw this; I am sick of this! I'm going to become a jihadi because at least I'll be able to be a man there,"* or a "man" that's skewed, because you can rape, pillage and plunder and have four wives and multiple other wives; and the Prophet himself had multiple wives.

Anyway, the point is: it's skewed; they don't learn to use that violent energy which is very important to protect society. They become so weak and effeminate that they become devoured, and stronger alpha male- many times evil - cultures will come and dominate, because that vacuum of the alpha male is there now. That's what you see in Europe with the feminization of the males; who used to be Vikings, who used to be long- bearded and big, throwing hammers and *roooaarrrr !* Right, they used to be strong men.

They've been made into women, and now women are unhappier, and they're going to attract the very dangerous alpha males, allowing religions and groups that have totally different sets of values than the Christian values that they're used to. In Europe groups of migrants who raped a woman in a bikini sun tanning, said, *"Well, she deserves it; it's from our culture."*

You've protected multiculturalism so much, you've promoted every culture as the same; you've promoted that you can't touch or criticize any other culture, so when they're excising your culture you just got to shut up about it. They can run wild trafficking rings through your own towns in Britain and you can't say anything about this. That's what Tommy Robinson is always talking about, and he's getting imprisoned all the time; cops won't do anything about it because they may be called racist against brown or black folks.

So you get some of those white kids that are so sick of that, they're saying, *"okay, you can't criticize me anymore; I am now of a different culture. I joined Islam, or I am now a jihadi, or whatever. You can't criticize it; that's my culture, that's my religion. I'm culturally educated and so I'm going to be a strong man that now (Streaming stopped)"*

Man as king & priest

.... Summit yourselves unto God. The wife submits herself to the husband, the husband submits himself to God. He's supposed to exercise, as a priest, the godly authority, but also the godly compassion from Father God, and so then the wife naturally will submit to that as the priest. Now you disrupt that, you ravage that; you make it sound like it's slavery to the young people, *"because marriage is really about power and how you can rule over the other person!"* No, it's not! That's not what it's about!

You're going to fail one billion percent of the time if you think it's about power; that's a losing game and you're positioning yourself to fail at something where you don't have many chances. Because once your heart gets ravaged, torn and abused so many times, it will start dying; you don't have unlimited resets, and unlimited playbacks, unlimited times you can play again. No, you only got a few shots at it.

So, the husband taking that role of the king and the priest!

It's very sad. We will see people who grew up in different cultures where there is a norm like, *"oh, my wife, she's head of the religion of the children; I'm there to make the money."* We see this many times. You've seen this, but you see what happens in those kinds of families. The father is not playing the priestly role, and if he doesn't, those children will be raised under matriarchy of course, and they'll be open towards other things that are not godly; i.e very, very dangerous and radical forms of feminism. But in those kinds of situations - because they may be culturally adopted - you'll see that children suffer, especially the sons, because there's no strong leadership in the home, especially spiritually; nobody to look up to spiritually.

Heavenly spouse training

And that's why even when we're under the Covenant of the Blessing, we can't just see the Blessing as the final finish line, *"I've crossed it and I'm done."* No, it's now the beginning and you're a white belt; you're going to start from the white belt, but,

As long as you keep going you're going to get to blue and,

As long as you keep training you're going to get to purple, and

As long as you keep training you're going to get to brown.

But the point is to keep on training and practicing, keep on investing.

I'm not talking about the money; I'm talking about you, with your time, because in the end that's what builds relationships, right. How many good relationships you know are built with just money, tossing money to somebody? How many good ones, huh? Not a lot. It requires time; it requires investment of time. Young men who are married, you're getting your date training? Do you take your queen out, huh? Young men, you take your queen out! Or I'll whoop you a little bit!!! Because I'm telling you, it makes a big deal over time, big deal.

And it's not like they're just going on a date for hedonism; they're going on a husband- and -wife training, and then they're praying for their wife. That's one of the key components: pray for your wife; exercise your priesthood, pray for your wife.

And of course sharing gratitude with one another; sharing gratitude. Why you're grateful for your wife; why she's grateful for you. Remembering who you are, remembering how blessed you are; remembering the grateful things and not focusing on the negative stuff. If you don't do that as a habit, you will naturally focus on the negative stuff that the Devil wants you to focus on. Why? Because you are the prime target for him to split; because if he gets you, he gets that whole tribe, and that nation that will come from you! Amen!

We got a lot of complaints from the young people; we're like, *"we are doing the training, you know but my parents won't do it. Can you wrack on the parents a little bit?"* I said, *"Okay, I'll wrack on them all right!"* Not from everybody, but sometimes we get that.

So, it's a part of the training, why? For strong husband -and- wife relationship! You may be in a situation like, *"oh, why, why, why, would I do that? I lost all my kids; Satan took them all. There's no hope for me; why we got to do dates and stuff like that? We already failed."* You may be in that spot; you may have already defeated yourself believing that. But, I rebuke that spirit in the name of Jesus right now! Amen! I rebuke that spirit! Because you don't know what God is going to do! Who knows? In a crazy ironic shift, you may be the exact catalyst for them to say, *"Oh my gosh! Well, you know I squandered twenty years of my life going into debt and sleeping with this and that many men, and now I see my dad and mom, they're actually getting happier and happier and they're getting deeper in their marriage. Maybe I need to get the Blessing."* You don't know! You may be the one; you just don't know. Are you with me, folks?

So, it's not only for the young people, but also for you who are in those situations or similar situations, a related situation- whatever the case may be. Invest in your husband- and- wife relationship; make those memories. I know it sounds so cliché; but it's so cliché, and nobody does it. Do it; get to it! It's not even that hard; it's only one time a week.

Take your queen out,
Have fun;
Go on a wonderful date.
Pray over her;
Share things of gratitude one to another
Give glory to God, thank Him
Reflect on how He's changing your children's life around
How He has already changed your children's life around
How He will change your children's life around- whatever the case may be.

Don't let that situation already defeat you Amen! That's not how a person in Christ is supposed to live! *"Oh, you young people go ahead; you have the Second King teaching you. So you guys can do that. Okay, okay. Good job!"* What about you? That's what they're saying; what about you? Training is always for the other person. Yeah, yeah, okay! I get it, I get it; yes, yes, yes, yes, right, right, right! No, come on! We all know how to play that game. We know how the Devil uses that, and we don't want that; we don't want any of that. The stronger the Blessings are, you don't think Father's happier in heaven looking down? (Amen!) You don't think so?

You're telling your kids how Father's looking down on us from heaven, and he's so happy to see us. And then the kids are saying,
"Okay, mom and dad, you're going to do your training? This week you're going to go out and have a good time and pray over one another and bless one another?"
"Oh, no, no, no, no, no, we're too old for that honey; we're too old for that! You go ahead and do that."

What are you telling your children? What happened to all that, *"Father's watching from heaven; he's so happy about it?"* Huh? Okay. Are you with me, folks?

No, we have to do training. The strength of the Kingdom is on us. It's literally that crazy, because guess what? The more stronger people you have to take ownership in the institution of the Covenant of marriage, the stronger the Kingdom is. Isn't that crazy? But you need to have people that are taking ownership for that institution.

Now you take ownership over this campground for example, and if you just let it sit, will this thing get run down? One hundred percent! The grass is going to grow that long, the buildings are going to start dilapidating, the bathroom's going to start breaking down, the plumbing; everything is going to fall apart. You may be excellent at managing properties physically, but apply that to the institution of the Blessing; those same lessons that you've learned on operating properties, apply that to the Blessing. Because if you don't manage that, what's going to happen? The grass is going to grow, the bathrooms are going to be dilapidated; the buildings are going to fall apart. Amen! (*Amen*)

It's so important, okay; so important. Are you with me, folks? And guess what? You old-timers who say, *"Oh, I'm too old for that, man; I don't have energy for that. I have geriatric problems, you know, this and that, back problem, knee problem; I got gout, I got this and that"* - whatever the case me. We understand: you have a physical body and it's getting old. So what? Your spirit body is still young. Amen! Your spirit body's still young; it's a young whippersnapper, and when you see it in the spirit world you're going to be twenty years old! So you guys you have no excuse! I don't care about geriatric knee problems and all that. I got knee problems; I got my ligaments twisted when fighting and training. You know! Don't complain about knees; I know knees, okay! Lord, have mercy!

The point is: the stronger the families are, the stronger the Kingdom is. The stronger the relationships between the parents and child - individual relationships - the stronger each one of those trees which will produce more fruit, is! You may get one tree that produces, but don't you want all? Like if you have five kids, don't you want all of them to produce good fruit? Do you just want one of them to produce good fruit, and everyone else is withered and dying and rotting and spreading cancer across the land? Is that what you want? No, no, no, of course not!

God didn't touch you as a group. He sometimes does, but when you think about when you got into relation with God, the big times when you had to improve and go to the next level, it's because God gave you that insight. He opened that door; He gave you that. He answered your prayer. Are you with me, folks? He personally touched you. And then you realized, *"Wow! God, how great you are!"* He didn't come, and it's the whole group and you've all experienced the same thing, even though there is group fellowship or something like that. But God brought you to the next level because of individual touch.

I'm telling you, just like you have that in the spirit, that's the same with your children! Each individual child needs individual experience with their parents. It makes a night and day difference; night and day!

I was excited about Father's Blessing!

That's why investing in that training, that lifestyle of being excited about where God is leading you, excited about getting up each day and doing hard stuff and things that make you want to quit, and just doing them and overcoming! Yeah! Doing that kind of stuff and getting your kids to cooperate in that and to do that together and all of you get stronger! There is so much power in that, folks; that most people will never experience, because they're just trying to make it comfortable. No, you got to do hard stuff; do fun, hard stuff. Push, challenge dangerous things, done as safely as possible, as possible; there's always some element of danger with dangerous things.

But the thing is: with your kids, if you ask a child, *"would you prefer to have a mom and dad - let's say same level of maturity okay, no difference in the level of maturity- would you prefer had an older version of them or a younger version"* - same level of maturity? Almost every person on the planet will say, *"I would prefer to have a younger version of my parents, so I could do more stuff with them. So they could be the first ones to teach me how to skateboard, ride a bike, ride a Harley, fight and box and do jujitsu, parachuting, scuba diving. I could just do so many things with my mom and dad!"* You see? And Father taught us that; that's why he said, *"Get married early!"* That's why he blessed us early; all of us.

We didn't really have a choice, but I was excited, baby! I was ready to go, *"18 years old, I'm ready; I'm ready, baby!"* I was excited about the Blessing. I didn't buy into this stupid culture that the people had made, *"oh we didn't get to chose!"* Defeated mentality, *"oh, it's your turn; oh, I'm so sorry for you."* *"Why? I'm excited, baby!"* I said, *"I'm not going to buy into that ridiculous failing culture. Why would I? It's self-sabotage; it's going to hurt me in the end the worst. I'm not going to buy into that! I'm going to be excited! I'm going to go win; I want to be successful. I know the Devil's going to come after me at every single turn, but I'm going to whoop him with the power of God!"*

I told the Queen the first day; I said, *"you're going to love me, baby!"*

She said, *"Oh my God, he's got prince disease!"*

I said, *"You watch; you watch, baby! You watch!"*

She was flabbergasted by the confidence. I was an 18-year old buck and I had that kind of confidence! But God had let me see so many failures; so I learned like, *"oh shoot, man! I'm not going to do that! If I do that it's going to work out bad! I'm not going to have that mentality of defeat like, 'oh I can't choose, I'm being forced into this.'"*

You know what I mean? I can't avoid it; Father is going to bless me anyway, so I might as well accept it and get excited about it. Look at that lady! He gave me the Queen! Praise God! (Applause)

Father was so happy; when we were getting blessed, he would get me up and say, *"Get up there, and tell them how you want the Blessing, boy!"* I would get up there and say, *"Whoop, I want the Blessing, baby! I'm ready, daddy!"* I was excited. I refused to be in that stupid ridiculous self-sabotage culture of defeat; which was stupid because it's going to hurt your marriage in the end. Amen! No, be excited about it; you're going to build something powerful with the power of God! Amen!

People in the satanic world are going to say, *"Oh man, what you guys got? Dang! That looks so good! We're trying here with the free sex culture and hedonism, and it's just not working; and you guys got something so beautiful. And you're aging together, you're graceful together; 20- 30 years of marriage, and you're still powerful. How did you guys do it?"* Huh, huh, it's a testimony of the Kingdom!

So when we understand those kinds of things- and of course fight against the satanic culture that Satan is trying to bring- the stronger those relationships, the more we trained together as family, trained with our children!

My goodness it brought tears to my eyes: you know one of my kids wrote this beautiful post on Instagram, all about he becoming a daddy soon. I guess everybody can figure out who that is; that's not a very clever way to tell, but anyway. But that's a beautiful little thing he wrote. When you see your son understand those concepts; he understands the principles and the concept of the Gospel of the Kingdom and all those things, and then he's excited and he's taking a victor's mindset -even though he's not perfect - taking a victorious mindset towards marriage and being a young parent! There's power there! I'm not going to over bloat him by praising him too much, because they got to keep training as they raise their kids, but you know it's powerful to see that.

Because in the end, as kids you want to do things with your parents; you want to. Since we have a 20 year gap - Father married us very early - 20 year gap with our kids; 19 year-gap with Shin Pal, right. But with Goongy, the Queen's got what? 24-year gap; she literally is 24 years older than her daughter. So they share clothes, the daughter teaches her makeup tips; they're going on diets together and working out and train. I mean, it's amazing; they train together. This is such a powerful thing!

But think about it: when we were young, the whole culture was, *"oh, why is Father forcing us to be married so young? We're not established, we don't have this and that; we're not ready, we don't have a career. Oh, we can't have children young; we can't pay for them because they're a million dollars apiece!"* blah, blah, blah. You can do that all day long; but then your youth is gone, and now you've invested in different things other than those key relationships. And how happy are those people that have done that, if you look at them? How much tremendously powerfully happy are they; or more fulfilled in purpose?

Actually Father blessed us early and we didn't even have any concept about it, but that was the best thing, best thing to happen. And we didn't know why, but as we took that seriously and tried to do what we could to invest in those children, one-on-one relationships, then as the years go by, 22 years now passing, there is so much power there, real assets; children that know us individually, not as a group or collectively. We have special memories with each child, different that are not shared with the other children, not shared; they have their own special memories with us. Powerful!

And then as we age, those only get greater as they have children, and now they're in the role of being the next generation of parents and Daddy and Mommy are the consultants and the head coaches behind them and they're now the head coach in their family; raising that next generation of Father's great- grand grandchildren. That's amazing; that's amazing! In the end it's the relationships that are the valuable things, isn't it? As we get older we feel that more; don't we?

Get excited now!

All that nagging on the children, *"Go, do well in school; make sure you get those As; you understand? If you don't get those As you're a failure! Get that government job!"* We may have done that when we were immature and ignorant, when we were younger; but our kids went into society, they went into careers or whatever, but they're not even on the same value system. They're in a different culture; they don't share the same societal or spiritual values. There's weeping; sadness. *"Why did I focus on just those As? Why did I nag them to death about those As? Why didn't I focus on that relationship?"* How many people know somebody like that? Don't raise your hand. Right? We all wish we could do it again.

But the point is: don't sulk; don't get sullen; if that's the case the past of the past.

You've got to change it now!

Get to it now!

Get excited now!

Do your training now!

If you can't train with your kids, train with your spouse now!

Get to it!

Start building that excitement again! Start letting the fire of God pour out, and people see it and smell the aromas of the heavenly places! Let them see the power of the Blessing Covenant. Tomorrow is always too late, folks; tomorrow's always too late. The point is now!

That's only covering one verse folks, of the unity of the brothers in Psalm 133, so I'm not going to go on any more.

But the point is: it's critical that we have that unity against Satan and with the Kingdom of God.

Because there are two battles happening:

*One against Satan and political Satanism rising and ravaging the world

*But there's also another one which is the strength in the Covenant of the Blessing that Father has given us; and those tribal kinships! You may think you're just husband and wife and that's not a big deal; you're just one little couple. But you understand, folks? From you is coming a nation. Do you understand? A nation is coming; a nation! That nation is connected to Father's Three Kingship, is connected to the True Parents; is connected to Cheon Il Guk. You understand? There's a nation coming from you; a nation is coming. A nation; a dang nation, an entire nation! You got to understand this. That's why that cultural Kingdom culture!

We have no excuses, *"All my kids are now secular; all the kids went to Satan's world. Oh, I'm just going to cry in my basement all day long!"* That's not going to be an inspiration to your husband; that's not going to be an inspiration to your wife etc.

Get excited about the Kingdom now! (*Amen!*)

Don't worry about what happened!

Get excited now!

Get to it now!

Get to the training now!
 Be God's hands and feet now!
 Get excited!

We are having unity and praising God, being excited about His culture and His kingdom; at the same time fighting political Satanism. Boy, boy; oh boy, boy! Just like the apostles in Acts *"Repent for the Kingdom of God is at hand!"* It is at hand, because it lives within us. Father, True Parents, Cheon Il Guk, the Constitution; all reside bam, right here, (*Hitting his heart*); alive! So get excited about it!

Pastor Sean's Prayer

Father, we thank You for this beautiful day that you bless us in this beautiful creation of Liberty Rock here. We thank You for blessing Your people and giving us excitement and joy that is overflowing, unspeakable, as the Scripture says. We feel Your love flowing like rivers of flowing water, God, and we thank You. We just asked for Your anointing, just like we read: the oil anointing comes down Aaron's beard, even soaks all the way to the bottom of the hem of his garment, the cloak; the end of the tips of the cloak of the priestly robes being totally anointed by the anointing oil from heaven. And Father, we ask that You would anoint us from head to toe, that we may feel the oil of anointing coming down the beard so to speak, down to the hem of the garments filling and saturating this place, saturating our spirit, saturating our soul, saturating even our physical energy.

So that God,
 We can be great spokespeople.
 We can be excited for your Kingdom,
 We can be excited for the culture of Your Kingdom,
 We can be young again;
 We can be vibrant again, just like our spirit man is shouting out to say, *"I want to be young again!"*

And God, we ask You that You would bless that Spirit upon us today. As we are in this beautiful nature, we can feel the beautiful breeze and the movement of the mighty rushing wind of the Holy Spirit, feeling this in the beautiful creation that sings praises unto You, and all of creation and the heavens declare your handiwork.

Father, we thank You for all that You are doing and we are so grateful that You raised us and You trained us and You let us know from an early age, and brought us to the Amazon jungle to be training in blazing and sweltering heat, to do fishing conditions and prayer conditions. And You brought us to the ends of the earth so that we could be Your people that represent Your family and Your culture; we could be people that bring Your Kingdom glory.

So, we thank You today because no matter our situation – there are so many things that can pull us down, and make us make excuses about this or that, or we can't do this or that because of that reason or that - let all those things die now and,

Let us get excited about Your saving grace,
 Let us get excited about the work that You're doing right now through us,
 Let us be excited about being Your hands and feet right now,
 Let us get excited, even if it's doing small things with our spouse, to bring back the energy and the unity, whether it be training and working out or studying together and just running together- whatever the case may be- to build on those small steps, and then investing with our children in one-on-one days. It's things like that, that Father, You would anoint, and bless and be present there while we are doing this very seemingly mundane training together, but really You are building the bonds of relationship that are stronger and stronger through each passing training.

So we thank You, God, because we know that You are alive. We know that people try to erect the only begotten daughter theology, or these kinds of terrible things that will lead people astray and away from You, but

We know that Your people are still remaining strong,
 We know that Your Three Kingship is standing with You,
 We know that Your Cain and Abel that you anointed are standing with You;
 We know that the tribal lines of the Blessings under Your authority are standing with You, Father.

So there is great power here; even though we may be a microcosm, even though our numbers may be small, even though we may not be nations now, nations are coming. And we are grateful for that great anointing that You have blessed upon us. We pray that we would have a blessing of fellowship today and also we would have a blessing in our heart from Your Word, and that we would be strengthened to do Your Will and to spread Your Kingdom to all those on the four corners of the world and beyond.

We give You the praise, glory and honor with all the kinship lines gathered here with the Three Kingships today, and we thank You; in Your precious name. Amen, and Aju!
 All right, folks. God bless! Hug your neighbor!
