

Pastor HJ Sean Moon

Fighting for a Noble Cause

September 12, 2021

Let's go today to **Exodus chapter 14**; we will start at verse 14 because it's quite a long chapter, but it's a very important chapter. We may jump to **Deuteronomy 20** and to **Numbers 31** today because they're all very powerful chapters. These are all chapters in which Israel is at war. In the last couple of weeks we've been studying King Chedorlaomer and Abraham's fight against him and how he prepared the 318 that were ready to fight. Remember? Almost like the 300 of Gideon; kind of mirroring that image.

Natural Law & Ownership

But you can see that Abraham became a wealthy landowner. He was already farming and had livestock, etc, but also what was he preparing? He had also prepared a trained regiment to protect that kingdom.

So we can see very naturally in the Scripture what our Founding Fathers talked about as natural law, and the right of a person once for example, they put investment into land. The common example that John Locke would use was potatoes or some type of crop: if you go into the wilderness, just raw jungle sort of woodland, you cut down those trees, you till the ground and you prepare it, et cetera, et cetera. Then you make a potato batch or you make a tomato batch, and you produce this fruit; well, that fruit would not have existed if it was not connected to the human labor. Amen, folks! You see? It would not exist, because in the wild, it doesn't just pop out of anywhere obviously in that kind of systematic way. So the human person who put in his labor also put in what? Which he has limited quantity of? Time! We only have a limited time on the earth and we only have a limited life on the earth. Our physical life doesn't go on forever; we have limited time, limited life.

So when we put our labor into something, that is part of our time and it's part of our life that's going into that, right; it is an extension of that person, and just like that person would defend himself, he would also defend the fruits of his labor. The Bible talks about the, "*fruits of the labor*"; that which would not exist if that person didn't invest there. That potato batch wouldn't exist, the tomato batch

wouldn't exist; it could not exist in that systematic state where it also can be multiplied and etcetera, etcetera.

These are natural rights: these do not come from some government giving you permission, *"oh, okay so you made that potato patch, we'll give you permission to own that."* It comes from the natural rights. The Founding Fathers were sometimes talking about the God of creation; these are the natural rights of the God of nature. Only with that person's labor does that systematic fruit grow, or that potato, etc. So that fruit is his; it would not have existed otherwise, it could not have existed otherwise in that systematic form. Those are his, as an extension of his person.

That's why we have Castle Doctrine in America where we can defend not only our life but also our castle. It is interesting how a lot of legal scholars who write on Castle Doctrine, even the Founding Fathers, they named it *"Castle Doctrine,"* because, who has castles? Kings! What does the Bible say believers have to become? We have to become *"kings and priests unto God and to his Father"* (Revelation 1:6) It's interesting because that's kind of hidden in there, and most Americans would not associate the Castle Doctrine with the theological belief or attestation that the citizen is to be a king. We kind of take that more jokingly, but really that theological principle is right there. It's right there in history; it's right there in the history of jurisprudence, etc. Kings and priests!

We see the same with Abraham: he also developed a livestock, he also developed the farmland; he became quite wealthy. But what does he do? He trains up a group of protectors for his property. In the Bible, it's very natural; it just naturally happens, as Abraham creates these assets out of nothing really, just out of the raw resources that he had. But it wouldn't come about unless he was there farming and shepherding, etcetera. See, it is so critical. Human interaction with nature is what brings nature to its fullest fruition; it's not the opposite where we're the virus and we're trying to destroy nature, and nature is pure and pristine and perfect. No!

This is what Christian philosophers found out and scientists too in the early observation of nature. It was not just peace meditation, *"um..."* Nature is vicious, nature is wild, there is killing on a daily basis; predation is a natural part of any healthy ecosystem. When humanity comes into the picture - and of course it has to be stewarding, you can obviously abuse that power - but with the stewarding of the creation, stewarding of nature, then nature can come to a level where it normally could not have come. Have you ever seen a beautiful garden? For decades, wherever Father had properties, I would always develop the gardens, the stone gardens, these different gardens.

If you look at something that was raw, and then all of a sudden a garden starts forming on there; there's a plan, there is a vision for that place, and then stage by stage it comes to fruition, and then if you have for example flowering plants or you have fruiting plants and now you start seeing the fruits coming out of the plants and you start seeing the flowers coming from the ornamental flowers, there's a tremendous joy in seeing all that. But that would have existed in a very wild state that looks kind of like a jungle, just like a massive green; it can only form into something systematic and organized but yet beautiful, when there's human interaction.

This is what's interesting about the Garden of Eden as well. The Garden of Eden is like this middle ground between the wild, between the unknown, between the lurking predators and the dangers of the wild, and civilization; it's not a city. The Garden of Eden is not a city. Are you with me, folks? It's more in the middle ground. It's between civilization and the wild, between what is known and you can totally control, like what they try to do in cities, and what you cannot control, which is like the wild, the darkness, the lions and the bears and the tigers that are all lurking around out there in the jungle. That Garden of Eden is that middle ground space. It has organization, yet it is still a little wild; it has a civilization embedded in it as well.

State vs. private ownership

Look at places where human beings come and have ownership of the land that they cultivate; what happens? You see that same type of pattern arising. In the state-controlled governments they have to give massive punishments for littering, for example; if you have a big government they usually do this. If you litter like in Singapore, you get beaten in public floggings if you're convicted for littering. Under the Taliban and jihadis if somebody steals, what do they do? They paint them all black - there's a video of this now coming out - they paint them a black and then they chop their hands off. So, these severe punishments are imposed in order to keep that city "clean."

Some people own a property and it's kind of messy, but the majority of people who have ownership of a property, they want to develop it, and maybe they want to network with people to expand their enterprise, whatever the case may be. Once people start having ownership of land, what happens? They start having sovereignty over that land, they start feeling personally invested in that land; they start loving that land. Then what you invest there becomes a reflection of how much you love it; mowing the lawn or cleaning, picking up the sticks, etc; this becomes a reflection of your interaction with your sovereignty.

In North Korea

In a communist country you can't own anything; you can't own anything. Oh my gosh, I remember when we went to North Korea to go visit Father's homeland! When you drive to Pyongyang which is the main city there, okay everything's clean there. Of course you're being monitored, surveilled; there's a North Korean cop in your car. Every single car has one, recording everything you say. So this is in a city, there's a park- it's a barren dead park, there's no grass on it or anything - and there's a whole bunch of people on that park doing something. I don't know what they're doing: digging or they're raking or something. You know how they say: *"under Communism you need somebody to dig a hole and then fill it up, and then you need somebody to dig a hole and then fill it up."* You want to increase the work here, you know!

So, when we're driving through there to go to Chongju which is Father's homeland, literally it's what you see if you take a left. And I don't know what happens if the taxi guy or whoever's driving you takes a wrong left, I don't know what happens to him; God forbid, he's probably dead or something. So people see that.

If they have groups of people coming through those highways or roads at night, they have the lights on; everywhere else is pitch- black. You're passing by these government housing, the small hundred square foot places; they're far away, you can't go near them but you can see them in the distance. They are buildings with basic apartments like small little cells everywhere; it's the middle of night and it's dark. There's no activity, but you know people are there; you know they exist in there. In those communist countries you can't own anything; the state owns everything, the state has complete sovereignty. So human beings cannot interact even with the land; they have to get permission.

South Korea

It is very worrisome obviously when we see America going through the communist Chicom virus - really it's the communist virus; we should call it *the commie virus* or something like of that. Why? Because it's spreading fear, and Satan uses that to spread Communism, and every country on the planet right now is becoming more communist; not more free, folks. I mean everybody here already knows that, but every single country is becoming more communist.

We receive reports from South Korea, Japan and from our churches around the world on Thursdays, and they reported that in South Korea for example, the economy is tanking. It used to be one of the most prosperous Asian nations, highest per capita income in all of Asia, but that country is now totally collapsing. I mean you go to South Korea, you have humongous sky rises glass buildings, the most modern glass structures artistic buildings; but it is totally crumbling. They have the artifices of that, but for now two years, almost all those small businesses have been killed.

America has a way bigger middle class; South Korea was growing in middle class, but that middle class is now decimated. This Chinese communist virus has killed almost all the small businesses in Korea. But in the same way that Walmart and all the conglomerates can be open, well, Samsung, Emart, etc, they can all be open because they're in bed with the government.

So they have tremendous worry; why? Because there's also now international funding probably from Soros and people like that, trying to stir up things in South Korea, saying, "*We don't need America; America is a foreign occupying nation.*" Are you smoking crack? What are you talking about? The reason why you could have those high sky rises is because America's here! Do not forget who is just a couple of miles up there! This is how devoid and detached people have become; just on the TV, the video games, all this kind of stuff. They don't know what planet they're living on.

The debacle

What happened when America made that debacle of a retreat from Afghanistan? You saw utter collapse! Forty thousand people stranded there, hundred billion dollars worth of military equipment; that is not done by accidents, folks! Let's put it that way! They have standard operating procedure to pull out and retreat from any nation, any conflict; there's a standard procedure to do that, and one of them is definitely to take away those arms and those top secret weapons. You want to leave them there! How can you leave a hundred billion dollars worth?

You want to take away our AR-15? You gave the dang Taliban NODs (Night Observation Devices) and Apache helicopters and every manner of M60 and everything! What are you talking about? Now those people of course are going to use it as a hotbed of terrorism; grow it like a factory. They're funded by Saudi Arabia, funded by Russia, funded by China. China was already meeting with the Taliban; now they have a foothold, they have a land route right into Iran. Funding from Saudi Arabia and now unlimited funding from China!

China

China is now putting in their cellular infrastructure everywhere. Africa has already been taken over with all the cell towers; everything is from China. In the Middle East, all the cell towers and everything are from China. You control that infrastructure, control all communication, that's a spying grid; China can more and more get anything on any citizen of any nation, folks!

I remember when Father sent us to Africa; we were with the churches in Africa doing UPF there. We went to some of the poorest areas in the Congo; we are visiting families there. Folks, just imagine two twin-size beds. In the room there's one twin-size bed, and then there's a small TV and plastic chairs; that's their house! And guess what? The floor is dirt. You walk outside: open sewage flowing, kids playing in the sewage!

I mean people who have not seen this; you don't understand what a big government does to you! This is not a problem with people. African people are very judicious; they're bright, they're so filled with energy and joy. But who snuffs that all out? Every dream, every entrepreneurial vision that a person has is snuffed out, because they have to go to this permit and that permit, this permit, that permit; that lord and that lord, that lord, that lord. Okay, okay! By the time you're done with it, you're done. You're under the government fist, Socialism and Communism, political Satanism; the 666- Beast, big government.

But think about that! Even when we were in Africa, China was there. Father was doing ministry all around the continent, and I remember in Nigeria, they're driving us around, and showing us these huge cell towers, saying, "*Oh, the Chinese are pouring in billions of dollars here.*" That's like 10 -15 years ago. They were buying up everything; they were talking about the diamond mines, land, everything. China was already purchasing all the natural resources of Africa, when we were there like 15 years ago!

In South America when we were training down there in the Amazon Jungle, who was down there in different places throughout South America? The Chinese! Buying up those mineral riches in South America! Who owns 90% of the supply chain now in America, in terms of pharmaceuticals and almost everything on your body? What on your body is not from China? Just go through your articles of clothing: what is not made in China?

The Green Berets and Navy Seals like Tu Lam and Shawn Ryan, they had a great open discussion on the internet, and they said, *"You know, as commanders what would we do? Well you'd cut off the supplies to your enemy."* What do you think is happening to America, folks? What do you think all these supply chain delays are?

Addicted to meds

What do you think having a population that is so addicted to pharmaceutical meds and have no knowledge of their forefathers; no knowledge of grandpa and grandma? Guess what? They made you tinctures, decoctions. They got elderberry, they got plantain; they got the willow bark root for acetaminophen; they opened a black birch like the Natives and drank that as a gut decoction. They wanted some vitamin C because maybe they're encountering the beginnings of scurvy, so they would take the pine leaves. How many people know this now? But that's all free!

I'm always harping on people; like Prez here, he was chronically dehydrated. He works like a beast; I mean the guy worked 20-30 years in a horse farm. Greg too of course! You know Greg he almost collapsed and died the other time with Lyme disease. But remember I kept saying, *"Hey guys, you've got to drink water, man; drink water,"* when we were training, even when we'd do bushcraft survival training in the wintertime. You lose one liter of water through breathing at night in your tent; one liter. You breathe out a bottle of water; that big bottle of water, you breathe that out through your mouth. That's why when you wake up you have all this condensation on your tent; if you've been doing bushcraft training, you know what I'm talking about. But yes, because all this water is escaping through your breathing, you are already dehydrated down one liter. The normal man who's over 200 pounds, needs to drink one gallon of water per day; one gallon of water per day!

Do you know that if you're chronically dehydrated it affects your brain? Do you know it affects your heart? Do you know that it affects your gastrointestinal tract with your immune system; 80% of the bacteria are right there. But why don't you learn this in high school or elementary school? Athletes have to learn it. Why aren't the normal people learning this? It's free, it's for free; water is basically free in the free world. If people consumed normal quantities of water, you'd have so many of your minor ailments like cramping, indigestion, heartburn; these would start fading away in most of the cases just by drinking free water.

It's so insane! But they got everybody addicted on the meds, *"Oh you got this problem, oh you're going peepee three times a night, you have a problem with your prostate."* Well, if you're drinking a gallon of water my friend, you're going to be peepeeing every three hours! It's normal to get up two or three times; you got to check whether or not some lion is in your camp anyway! So you get two births with one stone! It's not weird; that's not a problem. Then they give you some addictive medications that will further dehydrate you; which can further have impacts on your brain function, liver function, heart-all your systems that God gave you. It's like water, water, water! It's unbelievable; it's so basic. Why aren't we taught that basic stuff?

But we're taught, *"Oh you have a headache? Eat that Tylenol."* Where does Tylenol come from? The main ingredient- acetaminophen- where does it come from? It comes from willow bark. The same ingredient is also found in black birch, and there is a plethora of it here. Also in wintergreen which you can find all over the forest here; that stuff is right there. That's where they synthesize it from, but they don't want to tell you where they got it; they just want you to get addicted to the pill.

That's a big problem because you may think, *"Okay well, how does that tie with China?"* Well, China owns 90% of that; now they have a whole population of people around the world whose life and death they are dangling in front of their nose, *"oh, you don't listen, you don't listen? I take away this thing."* Are you with me, folks? That's a problem; that's a type of warfare, right? What did the British do when they attacked China? Opium! They got them addicted to opioids. You get them addicted. You get a population that you want to destroy addicted to something you can control; a substance that you hold the supply chain for. You hold the chain you hold the line: *"You don't behave; we are cutting the line!"*

Enemy strategies

So, what's happening with all the slowing down of the supply chain? Everything's slowing down; everything's getting harder to get. Lumber now is up to 700 bucks to build a little 10 by 10 square, 700 bucks; it used to be 200 bucks. It's gone up like three or four times, or something like that; it's unbelievable, everything is going up. And yet business is not able to move, productivity is not able to be raised, because of this ridiculous forced course which is the lockdown. What's happening then? You have the strangulation of the economy, you have hyperinflation which is going to kick in; it's going to lead to massive unemployment which will lead to massive chaos.

In just three or four days now they're going to be forcing all the military to get the mRNA gene - manipulator shot, which Reid Henrichs and Patriot Nurse, big patriots on You Tube are calling, *"the shot heard around the world!"* I like that; that's pretty cool. It's *"the shot heard around the world; the shot heard around the world."*

The point is: this is strategic, folks! China already was there in Afghanistan when the US pulled out, dealing already. The Taliban comes out and announces, *"China will be the main door in our access to the world, so we will work through China?"* What does that give them now? It gives them complete power. What do you think China's doing? What if Saudi Arabia gets out of the petrodollar and starts going to Yuan? What do you think this is going to do to our currency? They are the demons right there.

What do you think is going to happen when all the fake propping up of the fiat petrodollar shifts over to Yuan? Our currency is going to die! Do you understand?

It will have no value,

"I trade you a billion dollars for a glass of water."

-*"No!"* A billion won't mean anything.

"How much you want for a lighter?"

-*"I want 3.5 billion dollars!"*

That's like literally what happens when a currency collapses. People are burning it to stay warm; it's worthless.

How do you take down the Superpower which has the strongest military in the world, the strongest weapons in the world? Most civilians own guns; you got 300 million people, and you have more guns than that in circulation. So, let's say proportionally, every civilian in that place has a gun. How do you take them down? How do you destroy them? You can't fight them. You can't fight them; if you fight them you lose.

Domestic terrorists

That's what we were trying to tell President Trump when he was in office: *"Do not leave the White House at any cost!"* Why? Because this is not a game! This is not: *"Oh politics is ring a-round- the- rosie. Democrats win this time; we'll win next time. We win this time; they win next time."* This is not a game; this game that they're playing is a lethal game. And under no circumstance should he have left that office. Why? Because then the full wrath of the Communist Party will come on to whom? His supporters, his people; which it has done. His supporters have been targeted.

We went through *the 10 Stages of Genocide*: they've been ostracized; they've been targeted. They've been already labeled as what? *"Domestic terrorists!"* Biden is saying that we are more dangerous to the American homeland than the Taliban and ISIS, and not only did they say that, but they backed up their words by giving them Apache helicopters! Now they have more Apache helicopters than Australia, Great Britain. You can't do this by mistake.

I'm not trying to fearmonger or make people scared or anything, but you know this is the reality of what we're living in now, and siege warfare always begins with cutting the supply chains. Look at our supply chain: it's being cut, folks. It's just reality; that's just how it is. America is being held in a slow chokehold; that's slow strangulation. It's happening before our eyes.

That's why of course we were praying for President Trump: *"Stay strong; don't leave the White House at any cost! You are the legitimate president; you won!"* He won, he won by the way; they stole it, he won! (Applause) He is the legitimate president! So, *"Don't de-legitimize yourself and accept the devil's label of you! You say: I rebuke you in the name of Jesus! I am the president!"* That's what he had to do. Trump got to stop calling this man "President Biden!" We've been invaded!

Did we read our scripture yet? Hold on, wait a minute! Oh my goodness! You see what happens when the Holy Ghost starts coming! All right, let's get to the Scripture quickly!

Exodus chapter 14

14 The LORD shall fight for you, and ye shall hold your peace. Hallelujah!

15 And the LORD said unto Moses, Wherefore criest thou unto me? speak unto the children of Israel, that they go forward:

16 But lift thou up thy rod, and stretch out thine hand over the sea, and divide it: and the children of Israel shall go on dry ground through the midst of the sea.

This is of course when they're crossing the Red Sea and the pharaoh is on their heels; they just left Egypt.

Pharaoh says, *"Oh, turn that around. Get them! We let them go but I changed my mind. Go get them!"* He organizes, what is it? Like 600 chariots; massive armies coming now, chasing the Israelites through the wilderness. They're running, fleeing for their life; they're not even armed yet.

So God gives him a Word: *"Go through the Red Sea! Moses, lift up your staff, the sea will divide. Walk through it, and they will be swallowed behind you."*

What really happened

Now, we heard the story, and we know the ending: they win. Can you imagine if you heard that, while you haven't won yet? You don't have anything, and now the world's most powerful military is coming after you, and Moses said, *"You know what you can do folks? This is what we're going to do: you see that big ocean over there? I'm just going to lift my hand up like that, we're going to walk through and it's going to open up. Then those bad guys that are going to come, they're going to get swallowed by that ocean. That's what we're going to do."*

Do you understand how crazy that sounds? We take it for granted because we know the story; he won. It did happen, but at the time they thought this man was insane. They can't believe this guy, *"What the heck is he talking about?"* It's so romanticized!

Even any war; look at the Revolutionary War: it's so romanticized, *"Oh yes, the Founding Fathers were brave; they won against the British, and oh yes, they conquered them, crushed them and won over them. Oh, George Washington lost a couple of battles, but he won."*

They faced constant mockery, constant lambasting; all those different newspapers are coming against them, saying, *"These people are trying to kill us; we're going to get murdered!"* They're trying to rile up neighborhood, and people say, *"These people, don't follow them! They're going to get you killed!"* That's what they had to deal with. It wasn't, *"Oh yes, everybody's on board; let's go and march against the Redcoats!"*

"Oh yes Moses, lift your rod up and we'll just walk through that ocean. Then the Egyptians will come through and they'll be swallowed up. Okay! Let's do it!" There was not one person that wanted to do that. Everybody said, *"What the heck is that man smoking? He went up to Mount Sinai; he got some ganja or some something crazy. That boy, he is spitting out something crazy. I'm not going in that ocean; you're crazy? I've never seen an ocean split in half. I've been living a long time and I've never seen an ocean split in half!"*

Lord, have mercy! But isn't it crazy! This is the kind of things the Q stuff did, *"Oh Trump has a secret military, and you know he's still in control. Biden is in office but he's still in control. He's still in control, and in the next speech -the next one, not this one - in the next speech, he's going to reveal he's going to have all the SWAT teams come down. All the Special Forces are going to come down parachuting in; they're going to arrest all the people in DC and bring justice."*

We all know that's not true. We all know through providential history God requires the five percent involvement of humanity. Humankind has to agree with God, come into agreement with His providence; there's something we have to do! But what did the Q stuff do? It took away all responsibility, *"I can just watch this play out on TV; it's like a big movie. I've seen this movie The Apocalypse before; it's happening now. I just have to sit back, watch TV and just root for Trump."* You see? But meanwhile, while people believe in that, these political Satanists are for real, for real; taking over all forms of government everywhere, seats everywhere, from local to the regional, to the state, to the federal. They are taking over everything.

But you're in a trance, *"Oh, no, no! A huge miracle is going to happen!"*

God has to be on your side

Now, let's look closely at the Scripture; let's look at what happened when they got flooded and the Red Sea did close up.

18 And the Egyptians shall know that I am the LORD,

Let's jump down.

23 And the Egyptians pursued, and went in after them to the midst of the sea, even all Pharaoh's horses, his chariots, and his horsemen.

24 And it came to pass, that in the morning watch the LORD looked unto the host of the Egyptians through the pillar of fire and of the cloud, and troubled the host of the Egyptians, 25 And took off their chariot wheels, that they drave them heavily: so that the Egyptians said, Let us flee from the face of Israel; for the LORD fighteth for them against the Egyptians.

26 And the LORD said unto Moses, Stretch out thine hand over the sea, that the waters may come again upon the Egyptians, upon their chariots, and upon their horsemen. 27 And Moses stretched forth his hand over the sea, and the sea returned to his strength when the morning appeared; and the Egyptians fled against it; and the LORD overthrew the Egyptians in the midst of the sea. 28 And the waters returned, and covered the chariots, and the horsemen, and all the host of Pharaoh that came into the sea after them; there remained not so much as one of them.

29 But the children of Israel walked upon dry land in the midst of the sea; and the waters were a wall unto them on their right hand, and on their left.

30 Thus the LORD saved Israel that day out of the hand of the Egyptians; and Israel saw the Egyptians dead upon the sea shore.

God has to be on your side for that to happen, folks! He has to be on your side!

Modern wars vs. Revolutionary War

Now I just want to give you a context. Let's just look at the wars of the modern period and we'll compare them to the Revolutionary Period. The Founding Fathers when they fought the British, what were they fighting for? Were they fighting for the British Empire's assets? Were they fighting for money? Girls? Plunder? What were they fighting for? The Founding Fathers were men that were fighting for what? They're fighting for something invisible; they're fighting for freedom, liberty.

Iraq: Now, we just passed 9/11. After 9/11 happened, Father said to Bush - he could talk to Bush directly through the Washington Times - he told Bush of course, *"You're a king of Satan's world."* But he said, *"Bush, do not go to war with Iraq,"* because Bush was planning to do it. Father said, *"Don't do it!"* We didn't know why; we were just wondering why, because all the news were saying, *"Oh it's Iraq; it's Iraq; it's Iraq! We're going to go bomb Iraq."* Rumsfeld and all these people were coming out, *"Let's go bomb Iraq!"* And then we'd see them at the Washington Times banquets; these big wigs from Washington, they were all there.

Father said, *"Don't go to war in Iraq,"* and of course as extension of that: *"Don't go to war in Afghanistan!"* He said, *"Don't do it!"* He told them, *"If you do that, America will crumble."* Now, this was how many years ago? Remember when Bush went to war in Iraq, Father was so grief-stricken in his spirit that he was hospitalized. Remember this? I was in the hospital with him; we visited him, we were younger. He was so angry.

Sixteen of the hijackers on the planes were Saudi Arabian, but then we found out later that Dick Cheney with the oil company Halliburton went in there and made billions off Iraq. And thousands died!

Afghanistan: Now: *"we got to go into Afghanistan because they are a hotbed of terrorism."* Okay, but it also happens to be the hotbed of the heroin trade; 800 billion dollars with all the poppy seed farms right there. It's a big amount of money, an 800 billion dollar trade! Who wants to monopolize it? They don't want to give it to the Chinese; they don't want to give it to the Russians. Who wants to monopolize it? It's the CIA, FBI, intelligence agencies, etc. They want to control that to feed that apparatus. So you have American soldiers - there are pictures all over the web - you have American soldiers guarding the poppy fields. We are the biggest drug dealers in America, mostly CIA probably.

Dr. Williams wrote a whole book on it; how the CIA has been running the drugs, making LSD, making all those different things; giving them to the public, especially in the 50s targeting the black communities and the jazz clubs. It's all documented in his own book. He's a multiple times New York Times bestselling author. He comes to church here once in a while, and helps us with different work he's doing; he's a top level scholar.

So, why did we go there? You see, I just want to bring that up. It is partially true that okay, because we fought there and we held it down and we didn't let them grow terrorists, so we didn't get hit so much here, in terms of 9/11- style things. So that could be true, right.

The Revolutionary War: But I'm talking about: what is the spiritual motive, comparing to the purity of fighting the British? Back to the Revolutionary Period, here's purity there; there's holiness there. Getting people together, *"We're going to have to fight these British, folks, because they're going to bring that tyrannical rule here. We're not going to make any money; we're probably all going to die, probably lose all our fortunes, and if we're caught we're all going to be killed. But we have to fight them!"* You understand?

It's back to the Revolutionary Period, and people had to be motivated to fight. You're not going to plunder the British, you're not going to steal their resources; you're not going to be able to take their women. You have to fight them purely out of the goodness of your heart! You have to literally fight these people and be willing to be shot in the face; literally out of the goodness or the love in your heart that you have for other people! Like, literally; that's it!

You're not going to go into Iraq and make billions of dollars with Haliburton; you're not going to make 800 billion dollars with the poppy trade and heroin dealing. You're not going to do any of that; you're not going to see any of that money. You have to fight the British for the pure reason of liberty. Amen! Amen!

God's principles of war

Think about it, folks! Have our modern wars followed that tradition? Now, we don't want to condemn all the wars; a lot of people fought, bled and died in those wars. It's the leadership. And it's a very sensitive topic; I understand.

But let's just think back, because God has principles. When He fights, when He's in war, when He tells His people to wage war, He has rules. And that's what's so important here. When the flood comes and kills those Egyptians, what was the point? The point was: God was with the Israelites. He was with them, so He did the flood. The Israelites didn't do that, Moses didn't do it with the staff. That staff is a piece of wood, folks. Are you with me? It wasn't some supernatural wizard power and he had harnessed the power of Gandalf. No, no! It was because God brought that flood; He shut it down.

Satan's weapon

What have we become as a country? That's why I want to take you to **Numbers 31**. It's kind of sad but it's true.

This is one of the final battles of Moses by the way. Remember Moses does have to build a militia; he has to build an army. This is one of the final battles before he dies; it's against the Medianites. Now remember, the Medianites are actually descendants of Abraham, but they become evil. They're now in cahoots with King Balak who hires the prophet Balaam, a worshipper of all these deities who has

magical powers etc. Remember the story when he's trying to curse Israel through the prophet Balaam, and King Balak says, "Go curse them; destroy them!" And Balaam said, "I can't curse them. Every time I try to curse them, I end up blessing them; God makes me bless them."

So what happens? The prophet Balaam tells King Balak, "Okay, I can't curse them now. Their God Yahweh does not allow me to curse them; every time I open my mouth, I end up blessing them. That's a problem, but I'm going to teach you how to make them sin; if you make them sin, then God will curse them."

So, what does he do? Just like Lucifer, he uses the power of what? The power of sex; he weaponizes sex, just like all the predators do; just like all the Superclass does. That's how they lure you into the Satanists' clubs; they lure you in by sex. Right, that's how they do it.

Zachary King who was one of the top level Satanists in his area; he now is catholic. Remember, we interviewed him on the King's Report? I asked him, "How did you get involved in Satanism?" And he says, "Hot girls." He's a 12-year boy; they got all these hot girls to come to a party and maybe do some drinking and have fun, and maybe you know have some fun stuff. They were having orgies; 14 years old! That's how they're luring these boys in; with the power of what? They're weaponizing what? Sex! Which should be what? The power of creating the next generation, of creating a strong family in marriage! That power is reserved for marriage, not for anyone else.

But Satan uses that, weaponizes that in other places, weakens the morals of the society, and takes control. But he's got to do it with that weapon; that's a weapon.

Number 31:

16 Behold, these caused the children of Israel, through the counsel of Balaam, to commit trespass against the LORD in the matter of Peor, and there was a plague among the congregation of the LORD.

17 Now therefore kill every male among the little ones, and kill every woman that hath known man by lying with him. 18 But all the women children, that have not known a man by lying with him, keep alive for yourselves."

Same thing; the prophet Balaam tells King Balak, "You know how you can destroy these Israelites; because I can't curse them? You're going to make them sin. So, that's what you're going to do: those Medianite women? Take those women; get them to get those Israelite boys drunk. Get them to wear clothes to seduce them; have sex with them, play with them." This is what he told him. So, what happened? He had the Medianite women come in.

What do you think in Intelligence Agencies, when our country is trying to assassinate some political leader and they're using women, CIA operatives, what are they doing? Many times they're sleeping with these guys. They're doing it "for national security!" It's not the security of the Big Pharma or the lobbyists or the big funders of the government! No, no, that's of course not the case; it's for our safety that they have to sleep with these people, right!

Anyway, the point is: they weaponize sex and they use the Medianite women to sleep with Israelite men. So they get them all drunk; beautiful women start tempting them, naked girls everywhere, and now they have orgies and such stuff. They've become degraded; they start losing their morals, the will to fight, and the will to identify the enemy. They're now drugged up on all these sex hormones; they're getting addicted to what? To sex! So, this is what happens: he weaponizes the women, uses them as sexual weapon of warfare to take down the Israelites; because he can't curse them.

That's why in Number 31 God said very controversial things; for example, *"Once you destroy the Medianites, you got to kill every man and you got to kill every woman that was sexually active. You got to kill every single one."* And the atheist will say, *"Oh look, your God demanded genocide!"* You see what I'm saying? Because they only kept the virgin girls; the young boys they had to kill them.

Child Warrior

Now we live in a time when we think child warriors are things that the Taliban and the ISIS have. I just heard about this: Kook J-Hyung was telling me the other day. What was the age of the youngest Civil War soldier that we have on the record? He was six years old! Apparently the little boy was hanging around the troops; he didn't want to leave. He was just running around like, *"Hey, I want to wear those clothes. I want to be here."* Six-year-old kid! Apparently, by the time he was eight years old, he'd killed his first Confederate soldier.

Eight years old! That's like Kook J-Hyung's youngest boy Shinju; that is a little kid, that age, that tiny! A Confederate soldier said, *"Are you kidding me, kid? What are you going to do? Go back home and get a spanking."* But the little kid went "boom!" He was eight years old when he took his first Confederate soldier, apparently. The point is: everybody was involved; even these young boys were involved.

It was the same in the ancient world, folks; you had to mobilize everybody in the fight, including little kids. Any of these young males they've already been trained in that Medianite culture, where they're trying to actively genocide and destroy the Israelites. They've already been trained; they're already part of the war fighting apparatus. Then the women who are sexually active, they've been used as sex machine, to do what? Lure those Israelites in, degrade their morals; take away their will to fight, make them drugged up on sex, and weaken them.

So, God in Numbers 31 does what? He orders to kill the men, when you conquer them, and kill those women who are sexually active. Why? Because, as we saw in previous chapters, they were used as weapons, and it even says that they caused 24,000 deaths due to a plague that they brought in. Probably some type of sexually transmitted disease; we wouldn't be surprised if it was STD. But then he said that they would keep alive the virgin girls and eventually they would marry them; they can't have them as slaves but they can marry them as they come of age.

Deuteronomy 20 goes through a process of what the soldier had to do. It's not like sex slavery where you catch a woman in Islam. Muhammad had countless sex slaves, 11 wives plus sex slaves; he allowed it for his fighters. What does that mean? The woman is a slave; she's not only a laborer but she's also there for sex. She has none of the rights of Islam, none of the rights of the culture or the society; she is a slave, she is owned by that person.

In this case when you are in warfare- it's wartime - you lost 24 000 men, and there are virgin women. Now, the Israelites had to keep them in their home; they had to feed them every day. They had to shave their head, cut their nails to take away all the artifices of beauty.

Deuteronomy 20 mentions this is for at least a month period where they can mourn their father and mother, and then you can start proposing to her as a wife.

But of course this is clearly for people among the same age, because they also make the reference to Adam and Eve who of course were of the same age. That woman then once she's married in, becomes entitled to all the security, all the legal protection of a Jew; she's not a slave. She has the legal protection of a Jewish woman, even though she may have been a Medianite, a Moabite, etc. Are you with me, folks?

Exploit!

In warfare there is a tremendously spiritual atmosphere. Some of our folks have been in the wars; we have some folks that have been in the wars, like real wars. And it's not just, *"Oh, yes, let's motivate everybody! We're going to go conquer a country so that President Bush can get rich"*; or, *"Oh, we're going to go conquer a country so that Bill Clinton can get rich!"* No, of course not! Who's going to go there? Who's going to go?" All right, let's make it worse: *"We're going to conquer a country so that Barack Obama can get rich."* How many want to go? Raise your hand. Right, of course not.

It has to be sold in a way that seems righteous; it has to be sold. Why? Because they're using the goodness of the people's hearts, using the trauma and the crisis which they've created or many times at least aided and embedded.

And as it was said, *"Never take a crisis for granted; exploit it, exploit it, exploit it!"*

But remember the government injected black folks with syphilis, on an experiment from the Tuskegee Institute. This is the same government that also lied about the Gulf of Tonkin. It's the same government that also did Operation Northwood, and almost got us into a nuclear war with Cuba; it was signed up by the Chief of Staff -all declassified. Same government; it's not like they've been angels up there. The same government with Hillary and the blood trail that runs and runs and runs and runs. They're not necessarily the most trustworthy people; probably some of the worst in our society.

But you look at the modern wars, and you compare them to the Revolutionary War! There was purity, there was Christian ethic there; there was a desire to want to fight for freedom, and protect what? Your family, protect your farm. They had farmers and blacksmiths and shoemakers coming out to fight the most prepared military on the planet!

And the British said, "Hey, how come you guys aren't fighting in a line?"

- "Because we're trying to win fool! This isn't football!" (Laughing)

Lord, have mercy!

Lawful wars

But people don't realize: this is what Kook J-Hyung was explaining the other day and I think it's so critical that everybody understands this process. You look at any war, and it's very interesting because at a certain point war becomes lawful. This is what people don't realize about war: at a certain point, war becomes lawful. For example in the Civil War there is escalation between the North and the South. They passed different laws; different groups are saying:

"Get rid of slavery!"

- "No, we're going to keep it. Get rid of federalism!"

There are the ideological battles.

But it comes to a certain point where the rhetoric gets more and more radical. In a modern case you have the sitting president calling Trump supporters *domestic terrorists*. That would be a little radical; any rational person would consider that a little bit radical just five years ago. But because you're Trump supporters you all deserve to die and you rot in the death camps - Whoops! Excuse me: the Covid emergency centers, where you'll be incubated as soon as you come in; that's for traumatic injury and not for treatments. It's never been used for treatments.

Nazis

Clay Clark was interviewing a German Jewish woman who lived under the Nazi occupation; she told such a story that I never heard, and all you folks already heard about it. She said, "Where she was when they were getting the Jews lined up, how did they get them to comply like that?" They had thousands of people lining up to get a shot or whatever the case may be, and you have one Nazi soldier standing there. You got all these people lining up. How did they get them to that? Well, what was propaganda. This lady lived through it; she's 91 and she lived through it. What did she say? She said, "You know what they told us there? They told us 'no, no, the Jewish people are good people.'" Who heard that? Did you ever hear this before? The lady who lived under it, she said the propaganda was there, "Jewish people are good people, but there is a sickness in their community, so we need to study them; we need to help them. We have therapies; we have things that will help them so they don't spread something to others. We'll help them be safe; we're doing it for them. They're such wonderful people and we just need them to participate, cooperate and come down and get the shot, etcetera."

They didn't tell them, "We think you are the virus." The Nazis there didn't say, "Yes, you Jews are the virus." They didn't say that; they said, "Oh, you have a virus that you're spreading." They didn't say, "It's

you," but they said, "You have some ailment and we have the remedy for that." That's how they got them into the medical treatment plants! That's what the lady was saying who actually lived under the Nazi regime, folks. They told them, "Jews are good people; we love you. Trust the government; we're good people. We love you, you're wonderful people; please come get your shot!"

What's that song: Hotel California from the eagles? *"You can check-out any time you like, but you can never leave!"* Is it *Hotel California* or is it *hell hole California*? Which one?

"You can never leave!" They tricked them in there! They said they were good people, and you know what good people do? They try to help stop and slow the curve, and not infect other people. That's what good people do.

Uh! That sounds eerily familiar, unless you've been living under a rock for the last two years; it sounds strikingly familiar. Isn't that crazy, folks? That's how they got those Jews lining up to get the treatment; they were lining up willingly. Wow! And then it ended up in genociding about 12 millions, Jews and others!

Vaccine lies

So you remember when they told you *"two weeks,"* right, and all the trendies, all the ones that are virtue- signaling, *"I'm so moral, I'm such a good person; I'm trying to save lives. I want you disarmed, I want your children learning about Marxism, and you have to take the vaccine. It's only going to be two weeks! What's wrong with you! Why are you being so selfish, Kyle? Why are you being so selfish, Harrison? Don't you care about people? People's lives are being lost! People are dying!"*

Okay, well; what about two weeks? They said 14 days. What happened? *"Okay, that's a month; it's just a little more."* They lied again: one month became two months, two months became four months, *"oh it's just a couple more weeks; we're slowing the curve."* Four months become six, became eight, became twelve; now going on two years

Remember when they said, *"Oh, if you get the vaccine, everything's going to go back to normal and you'll be immune. You'll be able to take your mask off, and you'll go to your favorite restaurants."*

And all these young liberal brainwashed children went, *"Oh, yes, yes! If we get the vaccine, we can quickly help ourselves out of this place,"* and they got the vaccine. They even got tattoos commemorating their vaccine; these people got tattoos of Covid on their body! They got a tattoo of the vaccine and the virus, because they were celebrating their freedom, *"That's the day I freed and saved humanity"* by obeying a pathologically- lying government. *"I don't care. I freed and saved everybody."*

And then two weeks later, the CDC comes out saying, *"Those who have received the vaccines must wear masks,"* and those same kids who got the vaccine, the obedient compliant little slaves who thought they would be free, who thought they'd be mask-less; who thought they'd be able to run around and go to their favorite restaurant and get their favorite pumpkin spice lattes, and get their favorite Pho Noodles, and get their favorite vegetable smoothies, now they're like, *"What happened? Didn't you say I would be free? What happened? Why do I have to wear a mask?"*

The good thing about these people being played is: it's hard to admit that you've been played, but once you get to the point where it's so radically obvious that you've been played, people start waking up at least. Some proudly double down and try to pretend that it never happened; they're still hardcore, *"get the vax, get them!"* But others will say, *"Oh, okay maybe this is a lie, all the promises of 14 days and this and that booster, and now a third and fourth booster."* You'll be the Orcs coming out of *The Lord of the Rings*, *"I want my 26th booster! Yes I'm waiting for my 26th booster."* It's ridiculous! But people are waking up; this is a good thing, folks. People are waking up.

From dishonorable to hero

And now they're going to force the military to get forced vaccinated! Okay, there are compliant people there; they've been trained and indoctrinated. They call it indoctrination; they've been "indoctrinated" to lay their life down for the military, for what the commanding officers say. But if a lot of them say, *"No! I'm not going to take it,"* what's going to happen? They're threatened with dishonorable discharge. But what happens if many, many, many, many, many, many, people have now the label of "dishonorable discharge?" It's no longer dishonorable! Do you understand? It's no longer dishonorable; in fact it becomes a badge of honor.

"Oh yeah, I got out."

-"What did you get out for?"

"Yeah you know; a jab! Oh yeah, me and hundreds of thousands of others!"

-"Oh, you guys are heroes, man! You guys stood up! God bless you guys!"

See, it's only dishonorable if a few people get it. It's like being a felon; if only there are a few felons, then it's bad being a felon. But if they make everybody a felon, and everybody's a domestic terrorist that supports Trump, well now it has no more power. Are you with me, folks? Do you see what I'm saying? (*Applause*) It no longer has any power; it has no power of scaring people, no more power of fear, *"You're going to make us all villains? Well then, we resist you now harder. You're going to try to kill us and throw us in prison anyway."* Aha, you see how that works?

This is the arrogance of Satan. Why? Because his minions are weak, they're vapid, they're empty, they're seeking superficial and lustful things that will never last, and they know that in the end, they go to hell. They're selling themselves out for a lie, so they are projecting that upon good people and thinking that, *"Hey, you are also pursuing those same empty vapid things, and you have no other higher purpose or noble aim in your life. Thus, you can be pressured; everything can be leveraged against you. Organizations can force mandate things and you will just comply!"*

Consensus for legal battle

No, no, but see people who have a noble aim and are connected with the Creator of the universe, we do not buckle to those kind of pleas, because that's not our purpose. Our purpose is not to pillage and plunder and rape through the federal government, whether it be our nation or other nations; that's not our purpose. We don't want to be involved in that at all. We just want to protect the gifts of liberty

and, *"leave me alone! Leave my family alone! Stop coming at my grandkids!"* Then you'll have more and more stronger figures emerging.

But think about it: at some point there grows a consensus to a point where fighting the enemy becomes a heroic thing rather than something that's condemned. That's what happens in any civil war; that's what happens in any conflict. It's a legal battle, so the enemy must be properly and clearly identified, and then the society must have consensus to agree to fight those people who are clearly identified. Are you with me, folks? That's just the history of any battle.

You can't just go, *"You see those people there? Let's go kill them!"* Most people will be like, *"Why? I don't have any beef with them. Why? I'm not going to kill them. What are you talking about?"* You see, it doesn't go that way. There has to be a series of offenses that keep coming and keep coming and keep coming, and then the people here say, *"Wait a minute! Stop doing that!"* And they keep coming and they keep coming and they keep hammering. They say, *"Hey, stop, stop!"* And they keep hammering and they keep hammering. Then at some point everybody here says, *"You know what? Go fight them!"* And they say, *"That guy's a patriot. That guy's not a criminal; he's a patriot."* You see that's what it becomes.

That's why the Feds are always trying to get into the patriot groups and try to set people up, and try to work with them to do false flags and blow stuff up. Why? Because they don't want consensus to build, because now more people are starting to realize that they are the Redcoats! I'm not saying everybody, but more and more people are realizing, *"Whoa, my own government is calling me a domestic terrorist because I voted for Donnie Trump! You know Mike Tyson and all those guys loved him when he was a white guy, and he was in with all the black rappers; but as soon as he becomes Republican, he's a white supremacist! He's a fascist!"*

Well, hello Antifa, if you're really against fascism, well Biden is forcefully mandating that people have to be injected with unknown cocktails against their will. That's fascism! Antifa, why aren't you doing anything?

How come they can get away with it; burning cities down, throwing explosives, i.e. *"fireworks"* at Trump supporters? How come they can get away with that? Why? Because the Democratic Party and the Left, the brainwashed mobs of the young people going through the concentration camps of college, they all had consensus: *"Hurt those Trump supporters; they're fascists! Hurt those people; they're white supremacists! Beat them up! Yeah!"* They had consensus and they had all the power, and they had all the police under their European system.

So, they got away with shooting the cops, they got away with beating up Trump supporters; they got away with attacking women and stabbing people and killing people! Why? Because on their side there's already consensus: *"Destroy the domestic terrorists who are the Trump supporters."* But what's happening now is: the Right, the Conservative Party is now starting to come to grips with that fact, *"Whoa! There is a consensus on that side identifying us as domestic terrorists."* That's not my words; the pastor's not trying to scare you, folks. That's their words! They are using that language; not me! But of

course I'm the radical one, I have the bullet crown and I know I'm radical. Okay, I got it. But the point is that even now on the conservative side people are starting to realize, *"Whoa! This is getting radical."*

In God's time

That's how civil wars begin: one side clearly identifies their target, starts attacking them, gets away with it because that side is completely clear on the target, and then the side that's doing self defense, through consensus start realizing, *"Wait a minute, whoa! These people are really trying to destroy us; really they're trying to get rid of my family; literally they're trying to get rid of me."* And then there's a building of consensus.

That's why even with all the wars you see in the Old Testament, there's timing. God waits; He's patient. He waits until the sin of that nation is so undeniable before He drops a hammer on them; He doesn't drop it prematurely. Are you with me, folks? There's timing.

They want patriots to start to do things and they're going to blame them; they'll probably set them up. They probably are the ones that are trying to set them and lure them in to do that crazy stuff. Where consensus is not built up yet, if somebody does create something crazy they're going to be condemned, and then it's that whole thing: *"it has to get worse before it gets better,"* and it will get worse; of course it will.

That time is coming but in all these wars that God led His people through, the timing is so critical. Did you know that in Deuteronomy, about wars God even says, *"Gather people together, and the people who have planted a vineyard and not yet enjoyed it, let them go home. The people who have just married a woman, and have not had her as a wife, let them go home?"* He says that! And *"let the people that are serious to fight this war fight it!"*

So there is an escalation in America and worldwide, yes, and a clarification of sides is now happening; yes. But God will make the situation. It always gets worse before it gets better. So this is very important to understand, and that's why you have to be careful. People like that whole Q Conspiracy run by the Feds, trying to lure people in, trying to get them to do crazy stuff, that's purposely there. They're experts at that folks; those intelligence groups they're experts at infiltrating organizations, experts are trying to make you do stuff.

Even the Communists, Socialists wrote about that. Lenin wrote about it. He said, *"The people that want to start the Communist Revolution too quickly will ruin the revolution."* Ah! Even the communist side talks about this too, that it has to be done slowly with appropriate and consensus build up etc; communists have already written about this.

So we must understand it's in God's time. God is leading the way; the Holy Spirit is leading the way. Don't let some person come to you and say, *"Hey, we should do this; we should do that."* It's probably a sign that it's a Fed, that's going into every patriot group in America right now from Oath Keepers to everywhere. Everywhere! They have an army of agents that they're sending everywhere. Why is it

that the 1-6 Rally was a peaceful demonstration and the only people that were organized were the Feds together with Antifa -who got off the hook by the way- and now they've imprisoned 500 patriots for doing nothing, for taking pictures?

Why is it that the people that were in that rally -and Tucker Carlson did a whole article on these people, showing their names - are not in prison? Why? Because they're working for the FBI; they're FBI agents dressed up as Trump supporters, trying to lure them in. Tucker Carlson did an expose on two or three of them on his reports in the last few weeks. Why are they all free? They were part of it; they actually went into the buildings too, but they're free. You see? They're free. Tucker Carlson was saying, *"The only way they are free is that they work for the FBI."*

So there is a time when, if things are not done in the proper timing that God has determined, and people try to do it on their own accord and not His Will, it can become bad real quick; it can get sucked up into different lusts and different ambitions and different material wealth and all this kind of stuff.

But think about the period of the Founding Fathers! It has to be righteous, folks; if there is going to be a fight, it has to be righteous. You can't do it for the pillaging and plundering and the raping of women; you can't do it for that purpose. It's got to be for a righteous cause. Then God will stand by the side of the prisoners, then the Red Seas will split, because we don't do it; it's God that does it since we've stayed righteous in His eyes and we haven't betrayed Him. Are you with me, folks? And that's a big deal; big deal!

We're on that precipice now. We're here, we're here, we're here, folks; we're here. We are obviously wary; we must have discernment, and we must hold on to God.

Pastor Sean's Prayer

Father God, we thank You for this day; we thank You for Your Word today. We thank You for Your warning to America. We thank You for lifting a burden from our hearts because it's not in our hands; it's by the move of the Holy Spirit. It's by You! You will show us the way; You will show us the footpath.

And maybe You will not show us the whole way because of Your love for us, because You know that if You showed us the whole way we would quit; we would quit. All the giants that we'll have to face, all the mountains that we'll have to face, if we knew all of them were coming; that a whole line of giants and mountains were coming, we'd probably quit, God. But in Your own mercy and Your love for us You don't show us the whole way; You show us one step at a time.

As the Bible says, You are *"a lamp unto our feet, and a light unto our path."* So

*let us have trust in You,

*let us have faith in you,

*let us have forbearance,

*let's endure this painful situation that we're in, with
 *keeping our eyes centered on You;
 *doing our five percent,
 *preparing to protect our family and our country. All those things are great but
***let us always keep our eyes on You!**

Dear God, we don't want to fall into the traps of the enemy; we don't want to fall into traps of licentiousness and material gain and this or that profits for this or that. No, we want to remain pure. Even though we're imperfect, even though we're imperfect, God; even though You know that our hearts are not spotless, we want to remain pure. We want to have the love of Christ in us; we want to seek a pure and righteous aim, a noble cause. And even though the Founding Fathers were not perfect and many of them had sin, still they fought for a noble cause. When all odds were against them they won; the Red Seas were parted, and liberty came because You were with them.

Let us be in that spirit, dear God! Let's not get sucked in by the politicians, sucked in by the evil, sucked in by the media and sucked into other traps. But let's stay

- righteous,
- pursuing You,
- virtuous,
- humble,
- clinging and
- holding onto You;
- strengthening each other in fellowship,
- strengthening each other in knowledge,
- strengthening each other,
- training together,
- fellowshipping together and
- having faith.

Having faith that You will lead us through this hellish time, because it's only You that can do it.

So thank You, Father. We thank You God. We thank You for Your love, we thank You for Your mercy, we thank You for all the love and kindness that You've poured upon us. We repent of our sins, we repent for killing 74 million babies in America; we repent of all those things! We come before you completely naked, and we ask that You be with us, we ask that You lead us, we ask that You guide us through this time of darkness!

Shine Your light, so that we may be and continue to be *the light on top of the hill* and to carry the torch of liberty, fervently, bravely, courageously and virtuously into the future.

We thank You God. We give You all the praise, we give You all the glory; we give You all the honor today, with all the kinship lines that are gathered here together with Your Three Kingships.

I pray in Your precious name. Amen! Amen! Aju!

All right, folks! Let's all rise and give Him the praise. Amen!
