Be Still and Know that I am God

May 15, 2022 Korea

Good morning folks! We are hitting you from South Korea, from this beautiful 120-year old multi-generational house; it was restored and fixed here in the beautiful Korean countryside.

I get a lot of requests for me to slow down in terms of the speed of my talking which I can't do if I stay still. So what we're going to try to do today is we're going to be moving; we're going to be chopping it up so that I'm forced to speak in a slower manner, and hopefully everybody can understand a little more clearly. Even though y'all are fluent in English, but somehow when I speak fast everybody says it's harder to understand or at least harder to follow.

Folks, thank you for all your prayers and all the *cheongseong* from everybody around the world. We have been completely blessed doing this incredible tour in Korea. We are now moving to the next city where we will be doing the service tomorrow.

Let's go to the Word first. We're in Psalm chapter 30, and as I promised we're going to start moving now.

Psalm Chapter 30: 1-12

1 I will extol thee, O LORD; for thou hast lifted me up, and hast not made my foes to rejoice over me.

2 O LORD my God, I cried unto thee, and thou hast healed me.

3 O LORD, thou hast brought up my soul from the grave: thou hast kept me alive, that I should not go down to the pit.

4 Sing unto the LORD, O ye saints of his, and give thanks at the remembrance of his holiness.

5 For his anger endureth but a moment; in his favour is life: weeping may endure for a night, but joy cometh in the morning.

6 And in my prosperity I said, I shall never be moved.

7 LORD, by thy favour thou hast made my mountain to stand strong: thou didst hide thy face, and I was troubled.

8 I cried to thee, O LORD; and unto the LORD I made supplication.

9 What profit is there in my blood, when I go down to the pit? Shall the dust praise thee? shall it declare thy truth?

10 Hear, O LORD, and have mercy upon me: LORD, be thou my helper.

11 Thou hast turned for me my mourning into dancing: thou hast put off my sackcloth, and girded me with gladness;

12 To the end that my glory may sing praise to thee, and not be silent. O LORD my God, I will give thanks unto thee for ever.

Amen!

Folks it's been an incredible, incredible, incredible time back here in Korea! All the crazy things that we had to jump through just to even come back in with the expired visas and all the renewals and all this kind of stuff, plus of course the Covid lunacy all over the world. But we're here, we've begun the tour and it's been a tremendous experience. I hope you can see the beautiful backdrop here and the gorgeous mountains in the background. Korea is just such a gorgeous BEAUTIFUL place with such stunning, stunning environment and such stunning landscape. This is the homeland of our True Father and such an unbelievable beautiful, beautiful, beautiful place to be back in. (*Giving us a whole panorama shot and spin around*)

So, it's been a tremendous time back here in Korea, getting back to the homeland so-to-speak, our fatherland where our True Father was born; the land where the GOOD NEWS that Jesus had returned came. What a tremendous foundation was here and that True Father had throughout the world, and all his *cheongseong*, all his battles against communism, all the blessings of God that was poured about! People now realize how enormous Father's influence was to maintaining the prosperity and to maintaining the blessing of the age so that the people could receive the messiah at the time.

The Betrayal

Now of course, because of the fall of the Han mother and her tremendous betrayal and cosmic-level fall, the world has plummeted into World War III and plagues that have scathed the entire world;

lockdowns the likes of which we have never seen in HUMAN HISTORY, folks, have happened across the world.

Of course what she prophesied and proclaimed:

- that all the people would come to her feet,
- that she could do better than Father,
- that she was the savior,
- that she was God,
- that Father was a failure!

All these kinds of terrible, terrible, wicked things that she was saying, of course in the beginning were unknown. People never really wanted to believe it; they didn't want to IMAGINE that it was a possibility.

There were so many dark nights of the soul for us because we saw this reality. For six months we fought to convince her to pursue the path of glory by humility and by PRAISING the victory of our True Father. Because we know that just by comparative studies that there has never been in the history of religion such a successful founder of a religion that didn't use violence and warfare to expand; never has the founder of a new religion been this successful in their lifetime. We have so much to praise Father for! Father achieved so much VICTORY! He brought about so many amazing accomplishments and works of the Spirit and works of the Holy Ghost!

It would be her path to glory if she just praised that, if she just thanked God for that; if she just supported Father's anointing and Father's son whom he anointed three times and crowned three times on two different continents. I NEVER crowned myself; I never wanted the position of heir and successor. That was something that Father bestowed upon me. Even though I didn't want to do the job, it was something that Father said I must do, and because I'm loyal to my father whatever his wish is, this IS the path that I will take.

In the Wilderness

All that being said, it's been a long ten years in the wilderness. We put up a video that the Korean church has made up on our Instagram, around a five-minute video of a quick summation of that wilderness course.

By the way, the lyrics of the song in that video are literally about the wilderness:

"It's the place that I didn't want to go to.

It's the place where it says, 'If I let go of you God, I cannot survive in.' But

It is the place where You sent me.

It's the place where You sent me to prepare me for the anointing, for Your calling.

It's the place where You sent me to become more humble.

It's the place where You sent me to prepare me for what You need me to do.

And that is the place in the wilderness."

So we're going to play that video now; this is the video that the Korean Church has made. It's called "In the Wilderness," and it outlines the last ten years. Let's take a look at that!

<https://rumble.com/v14vj2d-be-still-and-know-that-i-am-god-sanctuary-church-sunday-service-05152022.html> from 42'02

Praise God Almighty, folks! Boy! Every time I see that video I literally cry seeing all those years summed up like that in five minutes; it just brings back SO MANY memories! When we started watching our kids were crying; we were all crying. It seems like each one of us was in the wilderness. I'm there and they're also there; they were just not on camera. But they remember those training days when we were out every single week: rain, sleet, and snow, negative 20 degrees didn't matter. They had to come out with Daddy; I was training them in survival at that critical time so that they would have that under their belt for the rest of their lives and of course pass it on to their children.

But seeing those clips is incredible, seeing all those events: the crowning and Kook Jin Nim as the True Cain, making those first crowns that we were able to acquire in the wilderness and how he crowned his own younger brother and bowed to that position that True Father had bestowed! That's unbelievable, folks! That never happened in all of human history! This is incredible! I want to give a shout out to our True Cain, Elder Brother Kook Jin Nim right now, for being such a tremendously son of filial piety and loyalty. I could never have done anything to deserve such a type of older brother. Let's give it up for my brother and our brother Kook Jin Nim, King of Cain! Hallelujah! Praise God!

In Korea

But folks, we are here of course in South Korea and so many things have been happening. It's like that scripture that we just started with, where David is saying, *"There may be weeping in the night but joy cometh in the morning."* It's been an incredible couple of weeks! But I remember during the quarantine period where we were pseudo-quarantined in the house. It's on the down phase here in Korea; thank God! But very sadly everybody's still wearing a mask because unfortunately people are so brainwashed by propaganda and they actually have been taught the opposite; taught that if you wear the mask then you're doing it for other people. They tried that in America and it didn't work so well, but in Korea and Asia it's unbelievable how much that sticks.

I literally walked into a small restaurant to get some *kimbap* -like a Korean roll of sushi- and some noodles, etc. It's a small place, and we go in and say, *"Ma'am, just take off your mask! We're the only people in here; just take off your mask. We want to see your beautiful face. I don't know why everybody in Korea wants to wear this mask; please take off your mask!"* And you literally see people say, *"What? Is it okay?"* Then they take off that mask, and they smile. And it's like, *"Wow! Your face looks so different than what I assumed."* Because the mask hides your identity, the mask covers you, the mask makes you look like a criminal; it silences and muzzles you and it takes away your fundamental identity which is your face and that God gave you.

It's just so sad to see people do it but at the same time as we talk to people and explain to them they quickly take that mask off and they quickly realize, *"Wow, yeah, it's been a couple of years of fraud, hasn't it? It's been a couple of years of lies, hasn't it?"*

The point is: it's been an incredible couple of weeks, folks!

I just want to share a personal testimony with y'all. When we were preparing for the first event which was in Yeosu just a couple of days ago, boy! I tell you I haven't been this nervous and this anxious in a long while. We had a beautiful and blessed one-week semi-quarantine; everything was very quiet. But as we started ramping up to the event that would unfold in Yeosu, boy, I just felt the WEIGHT, the weight on my shoulders!

You understand? The Korean Church was calling this tour, "*The King has returned!*" That's quite a dramatic title and it's a lot of pressure; I just got to be real. They made these shirts and everybody's wearing, "*The King has returned*" shirts and the big Tong-il mark because we had that tremendous victory that you know about. My mom has been suing me for the last seven years; just sue, sue, sue. Just trying to destroy anything that we attempt to do, because all we had was the truth.

Destroyer of the Truth

Jordan Peterson was explaining that our civilization of democracy, of Western values - whatever you want to call it - this is based on the Bible. This is based on the idea that a BOOK is the center of our civilization. The idea of a book being the center of a civilization is very modern. It's not what you see in ancient cultures that are usually based on a particular city or on another artifact of time; maybe a pantheon of deities or whatever the case be.

It's not necessarily founded on a BOOK which is purported to be the Word of the Creator.

In John chapter 1, the Bible says that "*In the beginning was the Word and the Word was with God and the Word WAS God and the Word became flesh.*" So it is the idea that the Word, the un-manifested organized thought of God, comes and becomes flesh and becomes substantiated and real, And by becoming real in Christ, our civilization forms from the unseen Word, which was one with God and was God that has become flesh, and THROUGH that relationship there is a redemptive process.

The point is the idea that the book, or that seeking truth - because the book is God's WORD and God's Word from the Creator of the universe is true -so the idea of seeking TRUTH becomes at the core an ethical pillar of that society. The idea of laws then being our Constitution is all written word. The idea that we center and revolve our society around a written word like a constitution that outlines our laws and that we should obey that, that comes from this whole ethos of the Bible that we should obey the written Word of God, folks!

And if you understand that dynamic then you can see why the heresy of the Han mother was SO incredibly vast.

For her to try to go in and change the Bible,

For her to try to go in and change the *Cheon Seong Gyeong*,

For her to try to go in and change the curricula of the Eight Great Textbooks that Father gave for humanity! That ITSELF is trying to go change the fundamental primary FOUNDATIONS of the

civilization. Because she is not God, yet she is trying to go in and change the WORD of God! You understand how bad this is, folks, and how in that she's UPROOTING the ENTIRE civilization?

That's why of course for six months I was literally weeping, grabbing at her feet and begging, begging, begging at her feet; bowing and begging, *"Please, please, please Mom! Don't do this! Don't go down this way!"* But of course people have free will and people can choose. There were BILLIONS of dollars on the line and unfortunately we know what happened. She got possessed with power; she got possessed with the lust of money and hedonism, and went off into a very satanic direction which of course represents the harlot of Babylon.

It's very sad. It's been a very painful ten years which you've seen encapsulated in that video. But then finally by the work of the Holy Spirit, two days before Parents Day the judge throws the court case out and says that Tong-il mark is free to be used; in the sense that he's not going to get in and get involved in the religious issues. They tried to ban the Tong-il mark, the flag of Cheon Il Guk, the Kingdom of God, a nation based on freedom and responsibility; the nation that is based on the Rod of Iron Kingdom. They tried to not allow us to USE this and they're trying that with the trademark case as well.

All We had was God & Christ

But the point is: God provided a tremendous victory. THEY were using the billions that they STOLE from the inheritance that Father put under my authority as his trusted son that he HIMSELF chose. I did not choose myself; he himself chose and placed the crown on my head three times as his heir, inheritor and successor. So they used that money. They claimed and promised that they would stop all the lawsuits and then LITERALLY, the Han mother kept suing me and suing me, and suing me of course trying to put me completely bankrupt and to utterly destroy the ministry as we were moving forward. That's why they took on to ban the YouTube page; they reported it, etc. I lost my own personal channel.

But anyway, they were doing all those kinds of things. I was this little thing; I had nothing. Those two organizations of the Han mother and the Kwak group they STOLE the inheritance from Father; they STOLE things that were not theirs; they STOLE things that Father did not give them. And of course they used that to destroy the ACTUAL heir and successor who didn't steal ANYTHING!

I didn't steal anything. That's the big difference between these three groups; our group we didn't STEAL anything! We literally were in abject poverty and had absolutely nothing.

All we had was the weapon of truth.

All we had was the weapon of the Word; that's all we had!

All we had was the loyalty and the decision that we made that we were going to be honorable men and we were not going to follow a heresy to be paid billions of dollars for. That's not worth it in the end when we look at eternity.

So, it's been a very long ten years, folks; it's been a wild ride. But it's been a ride where God has just poured out His blessing. No! We didn't have a lot! No! We didn't live in the enormous palaces that we had here in Korea. By the way, those are so overrated. They're just big halls and little hives of political backbiting and rumor mills. It's actually hellish to live in those big museums. That's why in the end we were just going to make that into a museum and not actually live there. People don't understand: those kinds of huge places, they're so HELLISH to live in; they're so TERRIBLE to live in. And of course you know me. I'm such a nature lover, I LOVE being outdoors all the time; I always have been an outdoor person, and so for me it was like living in hell in those big palaces.

But the point is: we didn't have anything of that dimension but we had God, we had Christ; we didn't turn our back on our Father. We didn't have anything, but all the membership was cursing us, calling us "unfilial children and betrayers of the parents" and all these kinds of things.

From a Korean Confucian standpoint you can't go against your mother, a widowed mother. But from a BIBLICAL standpoint! See, we're not based on a Confucian standpoint, because that's not the ideal; the ideal is the BIBLICAL standpoint. THAT'S the foundation upon which the Lord returns. So from a BIBLICAL standpoint when your mom decides by her own free will to follow Satan, OBVIOUSLY you can't support that! Even though the Ten Commandments tell you to "*honor your father and mother,*" OBVIOUSLY you cannot support her and HELP her! You can't HELP her follow and worship Satan and lead people to perdition and to destruction in hell.

The Betrayers vs. God

So it was ten years of being mocked, being hated, being called "betrayers," and being called "false prophets." You remember folks, when we gave the prophecies seven years ago that there was going to be worldwide judgment, HOW much they mocked us? Because at the time the world was running fine; it was still going prosperous as it had gone the last seventy years. This was way before corona. I was already prophesying at the time and we told our people: "*Come to the countryside, leave the cities; we have to start preparing because the worldwide judgment is coming.*" It seemed like a "Doomsday Cult" or whatever they want to call it.

But think about it from my personal standpoint, from my PERSONAL standpoint as a person. Think about the MASSIVE risk involved in making a prophecy like that! Think about the unbelievable risk; I'm literally putting EVERYTHING on the line to say something that's going to come in a couple of years. Imagine the UNBELIEVABLE risk that I had to take!

And of course the Han mother made prophecies at the same time too, saying that the whole world would be bowing to her by 2020; the nations would be at her feet etc. NONE of her prophecies came true; that the world would have peace and she would usher in the new reign of peace because she could do it much better than Father. All of this type of incredible feminazi-ism! Even supporting leftists now! We were ALWAYS fighting the communist politicians! Now she's SUPPORTING the

most radical leftists like Hillary Clinton. She supported the radical leftists Moon Jae-in and Lee Jae-myung in South Korea.

The point is: people have seen the fruit in the last ten years, especially in Korea. They have seen the destruction, they have seen all the incredible devastation that she has wrought; they have seen all the prophecies come to fail. And they mocked us, they cursed us; they told us, *"Go die in a hole in the wilderness, you pieces of trash! You betrayers! We got the money now; we stole it all. We got the money; you all just die! I don't care if you're Father's successor; you just go die in a pit!"* That's what they condemned us to.

But of course God had His hand on us and from nothing but of course with the support of Kook Jin Nim as the True Cain, in ten years God has done so many miracles; not only for our family personally but of course for the providence. He has built up a tremendous foundation in America.

We have THOUSANDS of people now coming to the Rod of Iron Freedom Festival.

We have THOUSANDS of patriots that are supporting God's Kingdom.

We have THOUSANDS of people from Protestant and Catholic backgrounds

*that have been saved,

*that have been brought to the Lord,

*that have renewed their faith,

*that have come to Christ,

*that have been CORONATED as kings of priests!

Unbelievable! This is always what our Father desired and wanted! We have been more than blessed in the last ten years; more than I could imagine and more that I can speak of.

Be Still & Know that I am God!

So, we come here and now it's the tour and now it's the big showdown so-to-speak. There's a big spiritual warfare; I could feel it brewing even a couple days out of the first event. I know there are many more but always many times the first one is the hardest. I could just feel this INCREDIBLE weight, incredible burden; this incredible force of Satan

-trying to come after me, and

-trying to destroy the tour, and

-trying to make me turn away and run, and

-trying to make me leave and not try to continue to do God's will, and

-trying to get my emotions involved.

I could feel all this attack coming, and it doesn't help that everybody's wearing a t-shirt that says *"2022 Tour: the King has Returned!"* I appreciate the love but I'm telling you it doesn't do anything good for my nerves, okay! Are you with me folks? I'm just being real, okay; I'm just trying to be real.

So at one point I was just praying in the night; I couldn't go to sleep and I just said, *"Father it's in Your hands! Whatever YOU desire; whatever You desire is in Your hands. I CANNOT do anything on my own. If YOU will something to be done, let it be done! I'M going to decide not to try to be the show; I'M going to decide not to try to put all this pressure on myself!"*

And, when we started praying for people, not to say, *"People got to be healed, because if they don't get healed then all these people who follow us will be disappointed and all will be dismayed, and they'll say, 'Oh is this true? I expected this and I expected that. But the event was terrible and it was boring, etc.'"*

You understand folks; all that kind of battling in the heart?

It was a long night! I remember that night; praying fervently, looking at the night sky, just sitting in the silence. And then God told me, *"Don't worry; don't worry son! You just show up. You just be My hands; that's all I need you to do."* Of course it wasn't in English, it was more in Korean, but you understand what I'm saying, *"Just show up, just show up; trust me. I'll move how I move; you just be My hands and feet."*

Right there I broke down and I was just weeping, and I said, *"Thank You Father. You've never forsaken me!"* And there was this peace; there was this peace. Then I get up in the morning – and I posted on Instagram - I get up in the morning folks, and there's this stunning absolutely gorgeous beautiful peony flower. One flower! One flower in the middle of our yard is blooming that day!

It wasn't blooming yesterday; it wasn't blooming the day before.

https://www.instagram.com/p/Cdb_SZ8AuDX/

On the day of the Yeosu Rally, at beginning of the tour in one of the major cities in the South, a huge flower blooms! I felt so encouraged seeing that flower. I knew it was a sign from God saying, *"This is a fragrance. I give you peace. Be still and know that I am God!"*

The Holy Fire at the Yeosu Rally

So that day we went; it started at two. Reverend Lee gave a tremendous report. Tim Elder gave a tremendous report on the legal issues. Professor Kwon Young-Pil gave an amazing documentary; a short documentary about the claims of the Han mother and how they're so heretical and actually he showed a video of her saying them herself. Again, ten years ago people would say that I'm just making this stuff up because she hadn't yet said them in public, but now after ten years, she said in public out of our own mouth most of the stuff that she told me. So people have the evidence, they have the video recordings of those things, and people saw that.

When I got up there I could barely speak folks in that event; I was just weeping. I literally could not control myself just seeing the people again; seeing hundreds of our brothers and sisters that were faithful the last ten years. Being persecuted, losing all their friends, being cursed at, being hated; being

accused of following a failure in an unfilial son! When they're the ones suing me! When they're the ones that stole Father's inheritance and all the things that he entrusted me with! They're the ones who stole it but yet they're calling ME the crazy one!

Anyway the point is: I just couldn't control it. I started losing it, just weeping on the stage; just going over what we had gone through the last ten years. It was just a little synopsis but still the Holy Ghost was hitting me hard. So I knew Father's presence was there. I knew His presence was there and I could feel His presence. I told people, *"Look, when we start praying for people I don't know what's going to happen. All that I care about is that the Spirit of God can move freely; that's all I care about. I don't know what's going to happen."*

I actually told them, *"I am EXCITED to see what the Holy Ghost is going to do today!"* I told them; I said that! I said, *"Don't come up to the Holy Ghost and ask Him: 'I want this, I want that.' He's not a genie. HE gets to decide what He's going to do."* We don't approach Him with demands *"You'd better do this for me. I have a little back pain, neck pain. You heal me now!"* No! We come as the Bible says, *"Seek ye first the kingdom of God, and his righteousness; and all these things shall be added unto you."* (Mat 6: 33) That's what we seek first

So I reminded people:

"Come to prayer for that reason!

Come to prayer and repentance!

Come to prayer and putting it on the altar!

Come to prayer and receive from the Holy Spirit with THAT heartset!

Don't come with the "I demand this, I demand that!" Because then not only does God NOT have to give it to you but it may be something worse.

So let's come with a pure heart! Let's pray with a pure heart!"

And boy! Folks, I tell you that day the holy fire from Heaven just poured out like a waterfall! People being slain in the Spirit, people wailing and crying; people being set on fire by the Holy Ghost! Incredible testimonies are flowing in. This just happened of course the day before yesterday, and we're now moving to the next city.

But I tell you before all that happened I was nervous. I was putting all this pressure on myself and I realized: No, no! I can't do that. In the end I got to get out of the way. I got to let God work and I got to be excited. Just as these people are coming to see what's going to happen, *"The King has returned! What's going to happen?"* I GOT to be as excited as them. I got to be like, *"WHAT is God going to do? I'm EXCITED to see what He's going to do!"* God gave me that peace BECAUSE I changed that mindset around and then in Yeosu the holy fire poured out from Heaven; the Holy Ghost was there!

Testimony from our Social Media Fighter & Family

Now I just wanted to share also some testimonies of what happened.

There's a wonderful young man whom we know very well; very successful on social media etc, doing incredible work fighting for freedom and for a Second Amendment here in Korea. Unfortunately he lost his wife. He lost his wife: his home was a target of the leftist government here in South Korea that is now leaving as a new conservative administration is coming in. But his family was targeted because he was showing the truth about the election fraud; he was one of the key figures doing that here in Korea.

They raided his house. The whole family was forced to be PCR-tested; they stuffed swabs up their noses. They came in with government officials and lab coats and all this kind of stuff; literally something you see online. I mean things that we were fearing, would happen in America and that we saw happening in China; it happened to this brother. This paralyzed his wife so bad! She was so traumatized after that that she passed I think within a couple of weeks. It was so traumatic; it left so much tremendous damage on her!

They have four children; all young, small kids. Can you imagine that your wife who fought alongside with you is now gone after such a raid that was totally unjustified and totally planned as political targeting? And the children who are very young, they just lost their mother!

There has been an outpouring in Korea from all the people who knew the type of work that he did .They created a *GoFundMe* here; normal Korean citizens not necessarily associated with our Church and they raised a whole bunch of money to help his family. So there was an outpouring; this is how influential this young man was. He's about my age but relatively young in politics. They raised a whole bunch of money to support his family so he's doing okay in that realm, but obviously his children are suffering greatly.

Plus his first son is an autistic child. So imagine that! Having a handicapped child and at the same time you lost your wife, and at the same time you're being politically targeted and literally they're raiding your house and they basically killed your wife through that traumatic event! Think about the devastation that this man went through; this took place a couple of months ago.

My Gosh! He showed up at the Yeosu event that we just had two days ago. By the work of the Holy Spirit his son who is autistic, his oldest son, he said, *"Daddy, I want to go up; I want to go receive prayer."* So while we're praying for people and while the Holy Spirit is moving and people are being touched by the Holy Ghost the son runs up and he wants to be prayed for. We were probably praying for people at 5 30 maybe 6 o'clock. The son was slayed in the Spirit and he didn't get up from that floor folks, until 8 o'clock. That's what we heard later on in a report. The son didn't get up for nearly two and a half hours. His father was there and all the kids were there praying for him at the time, but he was totally slain out in the Spirit and at 8 pm he started stirring; he started waking up.

It was such a move of the Spirit. He said, *"I saw Mommy!"* He said he was talking to Mommy. He said, *"Daddy, I saw Mommy!"*

And what follows is incredible. The dad told us that he would open up and talk to his mom a lot, but he's the first son and he's autistic so he didn't feel comfortable talking to his dad; he was very quiet around his dad.

So he said he literally felt like he died; he died and went to Heaven; he died and went to the spirit world. He met his mother; his mother consoled him and comforted him that she's in a good place, and then when he came back he opened his eyes and all his family's around him and they're crying over him, wondering, *"When is this boy going to wake up?"* It was 8 pm; nobody was in the hall anymore because the event had ended around 7:30, and everybody had emptied out. They're just literally the last ones sitting on the floor. The son gets up and just starts pouring his heart out to his daddy like he's never done before, and they just all wept there!

What an incredible move of the Holy Spirit folks! How can I manufacture that? How can I produce that? You see how foolish it was of me to think that I could do that! I understand; it's human instinct. We want to make things go well. We don't want to let people down who support us and who follow Father's Word; we don't want to let people down. People have such high hopes! *"The King has returned!"* They made t-shirts; the poster board says, *"The King has returned! He is back!"* This is adding a lot of pressure! (*Laughing*)

But how could I plan for anything like that, folks? How could I plan for such a meeting of the Holy Spirit? All I could do was be God's hands and feet. All I could do is just be there in the moment and when that child needs prayer, PRAY for him and BELIEVE that God is going to do something. I DON'TKNOW what it is but I believe He will do SOMETHING! And if He does nothing, that's God's decision too and He has a reason for that, because later on in the parking lot something good may happen, or whatever the case may be.

So that young man had an incredible experience! Please pray for him; they decided they're going to come to every single event while we're here; their whole family's going to come. They've taken off from work, and they're just going to follow us around for the remaining of our time here. They're just going to be praying with us and praying for us and receiving prayer and all this. So please continue to pray for them.

But the point is: what an amazing, amazing work of the Holy Spirit!

The Fire of God Came Down

Let's move, and I'm going to share some more stories with you

All right folks I moved to another place. This is keeping me slow, isn't it? This is keeping me slower, at a pace that people can follow hopefully.

But there's another incredible testimony that Reverend Lee was just sharing with us right now. I remember when we were praying for people, one lady in the front kept on rapping at her head; she kept on pressing into her head as if she was in tremendous pain. She kept on pressing into her head, and everybody could tell she had tremendous pain. Reverend Lee just shared a report that she had been suffering from intense migraines for a while now; so much so that she had to take prescription medication just to keep functioning normally, but she had INTENSE migraine episodes.

So, I remember at the Yeosu event once we started praying for people, this woman was pressing into her head as if she was in so much pain; almost like crying and howling in pain. She later testified that when we laid hands on her to pray for her she felt the fire of the Holy Spirit pour out into her body and the intense migraine pain that she was enduring was WASHED away.

She had brought two -days worth of extra-strength prescription medication and she had actually felt that she had to go back because she ran out of it; she was in so much pain that she wanted to go back and pick it up. But she decided, *"No! I'm just going to go to the event."* My God! God completely took that torture away!

And anybody who has suffered with severe migraines, you know how torturous that is; it's absolutely torturous. I had severe migraines when I was here in Korea as well. They wouldn't go away. I literally couldn't lift my head off the ground; I had to keep it below 90 degree. That's how much unbelievable pain I had; I suffered from sinus and migraine pains here.

But when she felt that she would have to go back she decided not to, and she received prayer and the touch of the Holy Spirit. Just one touch! Boom! And God took that pain away!
Hallelujah! We praise God for that! We just thank God that He did such a mighty move!

There are other stories: I remember there's one sister, one older woman that came up for prayer and once she was slain in the Spirit, she was palpitating on the ground. The Holy Spirit, the surge of God's fire and His anointing was pouring through her and she was literally shaking on the ground very violently; her legs and feet and hands shaking. She gave a testimony that she felt the fire of God completely come over her.

The point is: this is not something that we could plan, folks. This is not something that I could manufacture by mass formation psychosis; that happened with the corona. It's not something like that.

We've Got to Have JOY and Be EXCITED!

I had to get out the way. I had to realize that, *"There may be weeping through the night but joy cometh at the morning!"* (Psalm 30:5) *I got to remain joyful; I got to have fun on this trip. I've got to enjoy this walk with God!* "Yes, it's like walking into a movie where you don't know what's going to happen, and you have to just walk in faith. Yeah! That's how uncanny it is, but it is what it is!

I realized: Wow!

I've got to walk in faith!

I've got to have joy!

I've got to have this joy!

I've got to be EXCITED for the next city, the next event!

I've got to be EXCITED to see what God is going to do!

I don't have to do anything. All I have to do is show up and be God's hand; that's all I have to be! As Father's heir and successor, as Christ's heir and successor, all I have to be is His hand; that's all He's asking me to do!

So we are ready; we are animated for this spiritual battle, because we know there are a lot of demonic forces. The demonic forces prevented us from even attending the presidential inauguration through the newspapers that they stole from us; through Father's foundation, behind the scenes they prevented us from going to this event. So you know from day one they've been trying to sabotage everything we're trying to do.

But by the hand of God we had an amazing meeting with the HIGHEST Buddhist monk in all of Korea; incredible meeting with him.

-Talking about patriotism and how Korea has to be prepared and be a strong nation again.

-That it has to be a nation with the right to bear arms.

-That you can do it like the Swiss model or the Israeli model; where in a country of 50 million people, let's say 25 millions are males and among those under 50 who are capable, maybe 15 millions males all go to the military.

-That when they come home they should bring home their weapons and store them at home and have the Second Amendment available and ready as a living militia.

-That in the case of Switzerland when Hitler took over Europe he didn't touch it, and in the case of Israel all those hostile nations around don't touch it, because you can have 15 million men ready to fight; having their weapons ready and having a culture of training.

I hope that this Buddhist monk can spread this message.

Maybe back in the US some of you are worried. But don't worry! I'm going back to the US after the tour here. I'm not dealing with what the Han mother did for ten years; people can see what she did, and now some Family Federation leaders are returning to True Father's authority.

Please, pray for us; it is a spiritual war. We will be going to Japan if we manage to get a visa.

As the Bible says: *"Seek ye first the kingdom of God, and his righteousness; and all these things shall be added unto you."*

God bless! Godspeed! May His Kingdom come!

Let's praise Him all together! God bless you, folks!
