In the afternoon time on the first day of the Great Works (solar calendar, Aug. 18), there was a special address by President of FFWPUI HQ, Sun Jin Moon. She entered Cheonseong Wanglim Palace with a warm welcoming loud round of applause from members from around the world who completely filled Cheonseong Wanglim Palace. The summary of address is as follows:

"True Parents' Chung Pyung Providence has been a central part of Heavenly Parent's and True Parents' mission, and has been carried out through three stages. The 1st stage started from 1971, wherein the "original sanctuary" here in Chung Pyung was established. The 2nd stage began from 1995 and was centered on the liberation of ancestors and blessing. This stage was opened by the spiritual work of Heung Jin Nim and Dae Mo Nim. The 3rd and perfection stage, in 2014, had been carried out under the direct dominion of True Parents, centered on the proclamation of the unified Cain and Abel, Hyo Jin nim and

Heung Jin nim. With the eldest filial sons unified as one with True Father and Dae Mo nim in spirit world and True Mother on earth, a realm of eternal blessings and grace for all has been opened.

From the early 1960's True Parents have invested in developing Chung Pyung as a base for our worldwide movement. From the beginning, to our True Parents, this was a holy place; a place close to the heart of Heavenly Parent and a place of pilgrimage.

Since True Father's ascension, True Mother has been pouring out all her physical and spiritual energy to build True Father's vision this "clear and level" holy ground, the place where True Parents can eternally dwell; where their lives will be immortalized, providing an eternal beacon of light that makes it possible for all humankind to find their way back home to God.

The CJShwon (CheonJi Sun Hak Won) will testify to True Parents, giving all visitors a direct experience of the Truth, the Word, the way of salvation, and grace, so that all life can live in joy, harmony, love, goodness and peace.
