

## Hoon Dok Hae - Do you believe in the spirit world?

Sun Myung Moon

August 29, 2007

North Garden, Kodiak, Alaska

Do you believe in the spirit world? All of the spirit world and the billions of ancestors are attending this Hoon Dok Hae with you. You are here to attend God and fulfill the things that your ancestors could not. We are running out of time. Your ancestors are watching your lives, and they are waiting to see your results. They are fully active and working to help you.

Their conference is designed to create leaders who can be owners of the land and the sea. After you are born, you are in the world of land and air. The first world in the womb is the area of water, and the final stage in the spirit world is the era in which we live in love. You need to know that in this age you are in the positions of archangels, sons and daughters, and owners of Cheon Il Guk. You can achieve this through the Peace Messages.

Many billions of people of the world are suffering, and many of you don't know much about it. We have to change this situation. If I call upon the saints, Buddha, Confucius and so on, they all completely respond to me. You need to inherit the model of Adam and Eve; you need to become part of the royal family; you need to open doors. There are 26 nations represented here, but you should feel that you are as one nation. All the past can be forgiven with True Parents. If you look at True Parents' results there are so many things that you cannot believe.

The sun comes up from the east. Therefore heaven is seeking to establish goodness rising from the east. God is the absolute being of creation.

There were many situations in which I could have died, but God protected me. I had to work hard to fulfill the human portion of responsibility. On that foundation, God could come to the forefront. You don't have to follow me, you have to follow God, the Peace Messages and your conscience as a blessed couple of Heaven's lineage... The lineage of all your ancestors is totally different. You need to be the elder to lead the archangelic world. If Lucifer had an elder brother, he would not have fallen. When this foundation was established nothing could destroy the Unification Church.

Even if the parents have a child who goes to hell, the parents lament until the child comes out. Think about True Parents' suffering from that perspective. God and True Parents cannot be happy or rest when people from all nations are trapped in hell.

There is only one Unification Church, not two. Think about my position. You need to become inheritors and make it a way for all humanity. We have gone to the Middle East 31 times now. When we complete the 33rd trip, incredible breakthroughs will occur and peace will appear visibly. I am also completing the 33rd time of fishing in Alaska. This is all God's providence.

I am now in the position of the Peace King. I don't need to meet any more heads of state. I may not meet any ever again. The path is set. What strength did I work with? God's strength. When I needed money, God always gave it to me. We have to inspire the governments of the world to work for peace. Many things that I did at first looked like failures but now it is coming out that they are successful. For this to happen, God had to bless our effort.

Ambassadors for Peace, I prepared extensively for this meeting for the last three days. I went out in the cold, the rain, and the wind. The weather was cold, wet, and difficult; still, I completely focused on preparing for you to come.
