The most important wisdom needed by humankind comes from knowing God's heart and His ideal. For this reason, the role of religion continues to be important, especially in the twenty-first century, when science and technology seem to be replacing the role of religion in understanding how the universe operates.

Religions around the world must understand the destination of the human journey and immediately cease all major and minor struggles. They should not be fighting for the purpose of protecting their own honor. Religions must pool their wisdom and combine their energies and work diligently to build the ideal world.

They must forget the past struggles filled with hatred and work out peaceful solutions. No matter how much we have done for world peace, there is always more to be done. Religious people, whose mission is to lead humanity into the ideal world, must not forget for a moment that truly their only mission is to be apostles of peace.
