The Way of God's Will - On the Will of God - II. The Heart of Restoration - 1980

The principle of restoration cannot be taught. Therefore, you yourself should seek it.

God's Will and the World - The Inheritance of Love - September 21, 1978 - Kamikawa, Japan

The reason why I myself could proceed successfully until the present is because I clearly knew the Principle, the heavenly Principle. That is why I'm not snared by temptation.

Those of you who have read the entire collection of my sermons, raise your hands. You dreadful bunch of people! How did you educate them, national leader? I could not even say the deeper contents in those sermons. I cannot express them now, either. You must know how precious these words are and that the source of life is contained within them. It is not a source of spring water. It is not just any kind of water. And it is not river water. You should know that this source of life is flowing away. It is the Unificationists' responsibility to find a way to have this eternal water of life by groping for a way to connect the water pipes to this source. But what have you done? Are all of those books something that you can just sell to an antique book shop? (181-268, 1988.10.3)

I had to fight against the Satanic world - July 21, 2012 - Cheon Hwa Gung

All you have to do is to follow me, but I can't teach you in detail. The path of restoration is the path of searching and finding out. So you, trusting me, need to go forward, and on the way I'm not supposed to explain to you in detail.
