*1965, creating the Central Park, New York Holy Ground*

We must not think of you as a concept, Father. Please let us understand clearly that we must attend you as a real being, as the absolute subject of all aspects of our life.

You have not been living in some distant relative world. You have been in the middle of our hearts and you have surrounded our bodies. Although there is air all around us, just as we don't know whether it is there or not, we must realize that we didn't realize that you were embracing our entire lives.

When we receive that power which is surrounding us an infinite power is being mobilized there, and we know that when we absorb that power as an eternal power it gives us a new impact and a new stimulation.

We must become sons and daughters who are able to realize through experience the existence of our father who always stays near us like that and gives us life and is always filling us. We must come to realize how precious is the person who knows how to discuss his life course with you from such a position and from such a position can grow as your child.

Many people on the earth hope for heavenly fortune and hope about the rest of their lives, but we know that they are hoping for these things keeping a relative distance from them. But different from them please allow us to clearly understand that all the authority of life begins from the closest point, from you who are the center of life. In order to do that, please remain close deep in our hearts, Father, and by taking dominion over our bodies, please become the motive power of our lives, and we must realize the fact that you must become the origin of all our feelings.

Please allow us to realize how great and how precious is the value of a child who can attend our father who is the subject of wide, deep, sublime, precious, infinite value. When we go out to witness to that standard tens of millions, billions of times please allow us to realize the fact that the inherent authority to be able to absorb all the content of heaven and to take dominion over the cosmos comes into being then. We have humbly prayed these things in the name of the True Parents. Amen.
