God's Will and the Ocean, Tuna Fishing and the Way of Life

Basically, this tuna fishing is not just to go out and get the tuna and make some money. That is not the central point at all. This is good basic training for the rest of your life. If you apply the principles you learn faithfully, you can make a success out of your life. Do you understand? Like anything else you do in your life, you have to put a lot of time in. Study everything, discuss it with others and read it again, then put in concentrated effort.

Actually, I didn't have the time to come here, but I felt so much that I wanted to give you a good start, so I came yesterday and went fishing at four o'clock in the morning. Today I am here with you. Tomorrow I may go out too, but that will be the last day. I cannot stay with you all summer, so please, do your best. The last ten years, I devoted every single day of the season out on the ocean. Rain or shine, I went out. Literally, rain or shine. There were storm warnings and still I went out. One time there was a storm coming and everyone could see it clearly, but in the middle of the night I said, "Let's go." The captain obeyed and we went out. I've gone out in the midst of a frenzied ocean and endured it. And then, in the morning I came back in, having won over that.
