Tokyo Church in Japan, After the Divine Principle Retreat

Excerpt from To Be A Living Sacrifice - Automatic translation

Photo date and location unknown

How much did God care for Adam and Eve to create them? There is God's hope above them. It means that Adam and Eve must be present in order to complete God's wish, God's purpose of creation. The only people who were in a position to free God itself around God's purpose were Adam and Eve. And he forgot that he was not alone, but that he represented this transverse world, forgot to stand at the center of the transverse world, and forgot to be the central object representing the so-called creation world, and his own billions of children. I forgot to breed. Therefore, even if you are alone, you must know and achieve God's ideals to be completed, and you are in a position to represent all of the world of creation, and you forget that you are in the position of your ancestors for the descendants of all peoples. As a result, he has fallen from that position. Adam and Eve would not have been able to act as vividly if they had known clearly that they were in a position with this kind of relationship and relationship. You have to think faithfully to your own steps. Even though Adam and Eve's position was the position that they had to think more about than God, the corruption began from the standard that they did not think about it and considered it as their own position.

If we think in terms of learning the principle and completing the goal of restoration, it goes without saying that this should take the place of Adam Eve. From that point of view, not only God's wishes for ourselves, but as a result of the fall, countless ancestors went to the spiritual realm to restore this until now to reveal the reality of their purpose on earth, and countless souls hoping for the liberation of their future goals. Is that they remain. When you think about it, you're in a more serious position than Adam Eve. And, it seems that there are more than 3.6 billion people in the world with a relationship centered on oneself alone. From now on, you are in an important position to breed the so-called citizens, citizens of heaven on earth who can become the ancestors of a new world and become a new nation. You must value this above all else, knowing that it is more valuable than all your values, and keep it. In order to maintain this, you have to have the confidence to keep it at all costs. It is the conclusion that you must learn the principle, know clearly that you are in that position, and make a determination to fulfill that mission.
