FFWPU World National Leaders Assembly 2014

Dae Mo Nim - January 3, 2014

On February 16, 2014 after attending the 1206th Chung Pyung 2-day Workshop the leaders attending the FFWPU World National Leaders Assembly 2014 gathered at the Small Hall of Cheonseong Wanglim Palace (Heavenly Palace) in the afternoon to listen to Dae Mo Nim's Words. She encouraged the leaders to fulfill their responsibilities as members and as leaders of their nations. (Edited by the Education and Planning Bureau)

Annyeonghaseyo. It is nice to see you all. Despite the cold weather many members around the world came to Korea to attend the First Anniversary of Cheon Il Guk Foundation Day and I assume that you received great grace. True Parents of Heaven, Earth and Humankind gave us a strong direction and message to us to fulfill our responsibility by the year 2020.

We all remember the sorrow that we had to experience when we had to attend True Father's Seonghwa ceremony. It was an unimaginable incident for us all. When Father arrived at the spirit world he was shocked and felt great pain. After seeing and realizing the small size of heaven compared to hell in the spirit world and the lives that human beings including the blessed families were living, lives centering on evil and Satan, he was in much despair. Also the fact of the numbers of blessed families was much smaller than what he had expected to see.

After learning the shocking truth True Father started to study the history of humankind. He went to meet with each saint and sages, national leaders and presidents of the world and religion one by one from the time of the Fall of Adam and Eve to the present day. He also went to visit all places of the spirit world, from all around heaven to the corners of hell. He was trying to find a way to clear and reorganize the spirit and physical world until the 1st anniversary of True Father's Seonghwa ceremony.

True Father is working hard in the spirit world so that all that he had proclaimed on earth until the year 2020 will be accomplished. In order for this to be realized the blessed families on earth must work hard at witnessing. Without the help of the absolute good spirits in the spirit world this is going to be difficult. True Father is dispatching the 480 billion absolute good spirits to each member around the world so that they could achieve this goal and ultimately live in a better world.

I believe the responsibilities of the leaders of the world are very important in helping True Parents accomplishing the vision 2020. A month before his Seonghwa True Father came to Chung Pyung and gave me instructions. He said that until the year 2020, the year of Father's 100th Birthday we, the leaders, have to fulfill our responsibility in witnessing. He gave me a specific instruction on teaching and educating all members who come to Chung Pyung about witnessing.

The History of the Providence of Restoration does not lie only to Heavenly Parent and True Parents of Heaven, Earth and Humankind but, eventually, it is up to the members. We have to fulfill our responsibility in this providence and change this painful world into a beautiful and loving world.

I discovered many shocking things here in the years of Chung Pyung Works. One of them is the fact that our main cause of sickness and hardship comes not from physical fact but from resentful and evil spirits that exist in our body. Satan is causing all of this pain and suffering through these evil and resentful spirits. No matter what the

situation I wanted to help each and every suffering member who came to Chung Pyung with problems such as mental illness, down syndrome and other physical illness. This is the heart of True Parents. A parental heart.

Before I started the Chung Pyung Works I thought I couldn't fulfill what Heavenly Parent was asking me for this Chung Pyung Works. I said I couldn't do this but Heavenly Parent said that if you follow all the things that I tell you then I will do the rest. Still I knew it was going to be difficult because at that time blessed families thought that they would go to heaven after ascension. So it wasn't easy to just say 'yes' and tell these members otherwise.

He told me to follow the 5 contents that He presented and if I did then He would do the rest. First of all you had to do it with sincerity, when doing any work do it without falseness, do it based on fact, love and embrace all the members no matter what their sin who seeks you to Chung Pyung with sacrifice and devotion, and diligence. You cannot expecting something in return for your work and never think about the time of the day, if it is day or night, or if it is time to go home or not. Through this attitude, even though I am insufficient, Chung Pyung Works had developed until now and that now many members around the world consider this place as their home country of their hearts.

True Parents wants us to witness to many members as we can by the year 2020. Before we go out to witness the members with the amazing words of the principle, Cheon Seong Gyeong, Pyeong Hwa Gyeong and other materials of True Parents we have to unite the mind and bodies of the unification church members. We have to unite with one heart, one body and one mindset with each other so that the outside people can come to us before we go to them. Our beloved blessed children are living in the outside world and it is your responsibility as leaders of nations, churches and districts to understand where and what they are doing. How much do you know of their relationship with their family?

Every summer and winter vacations many blessed children from around the world come to Chung Pyung Heaven and Earth Training Center. They come to Chung Pyung to talk about their deeds and incidents that is unimaginable to many parents and leaders. I will always ask them why didn't they talk to their parents, leaders and district leaders before the problem became so severe? If they had then the problem wouldn't have become so serious. They would all reply, we can't trust them. There is no other place than here where my sin and problem can be embraced.

We need to know the mind, life and heart of the members. This is the leaders that we all have to become. I understand that there are many important activities, rallies and workshops going on for the outside new members however, what are we doing for our beloved 2nd and 3rd generations? We have to establish the foundation of faith and foundation of substance and become role models and help our blessed children so that the people outside can be witnessed naturally when they see us living with happiness.

When I started this Chung Pyung Works there was nothing. However who do you think was there for the development of Chung Pyung Works? Yes of course Heavenly Parent and True Parents of Heaven, Earth and Humankind were there but the members were together with us. Binding the minds of the members into one and when this happens nothing is impossible. If we work harder in the front line as leaders and responsible leaders then members will follow you and trust you. In the works of Chung Pyung Works if I was a lady just offering prayers then Chung Pyung Works would not have been like it as today.

I ran and did everything that I could. If I felt like weeding I would go out and weed. If I had to plant a tree then I would plant a tree, if I had to buy a stone then I would go and buy a stone, if I had to construct a building then I would make that building then if I had to heal a person then I would go and do my best until that person was healed. This is the heart of a parent which I took and that is why Chung Pyung Works developed like this. You have to become the owner, whether you are a leader of a nation or at an organization, you have to become the owner and see everything from an owner's point of view.

Since I am the owner I see everything that is happening. If I see something is not right I will act upon it. I will look at the grass, flower, tree and all the buildings. Whenever I walk or travel around the Chung Pyung Holy Ground I will always look at every detail. This is the heart of an owner and the heart of a parent. This is what the leaders must try to become. Through taking ownership you are able to see everything that is going on with your members.

We all have to fulfill our responsibilities until the year 2020. True Father before his ascension he gave me many instructions so I too have many things that I must fulfill by that year. What True Father requested is very difficult and some say impossible to achieve but I have a conviction that I can do it and with a strong determination that I will never stop running. True Parents asked us to fulfill our responsibility in witnessing so I hope you can fulfill your part and by the year 2020 we can all become victors for Heavenly Parent and True Parents.

Thank you for coming and attending this workshop and I truly ask you to fulfill your duties as filial sons and daughters.
