

True Father told me I had to go to Spirit World and search

Dae Mo Nim

April 12, 2104

Unofficial Notes: David Carlson

Dae Mo Nim - August 25, 2013

Today, thank you very much to all of you for your participation; there are members here from the WFWP, and also a VVIP is attending. I sincerely thank you. What is the most beautiful thing here? I mean the flowers. All the 5 kinds of flowers are blooming now. Azaleas, magnolias, etc. are all blooming together. True Mother went to the USA. I said to the flowers: "please wait for True Mother before you bloom." Yesterday, True Mother arrived at 7:30, at the time the sun goes down. I told the sun, "I hope you can stay until True Mother arrives. The street lamps on the way to the Palace, and the flowers beneath them are beautiful, and the moon also came up. It was so beautiful! Now, around True Father's grave, there are many flowers, so fragrant. The narcissuses are so beautiful. The aroma is so nice. I said to True Mother (at True Father's gravesite): "did you see the flowers?" True Mother said "they are so beautiful!" Please applaud the flowers (applause). True Mother today will take photos with the cherry blossoms. With the wind, the petals are so snow-like. True Father came to me and said thank you for planting so many flowers.

Beloved members, thank you for your participation today. There are some people who come to Chung Pyung often, and some people who have come again since years ago. I want to explain about the Spirit World. You have heard Divine Principle, and this might be your first chanyang session. We have a physical body and a spirit body; there is a Spirit World and a physical world. One individual is very important; the body is important, but the mind is very important. For us to live life in the physical world, this life is like an instant. In Spirit World, an instant is like a year. Spirit World is an eternal place. As we live life in the Spirit World, some people accept "Spirit World" as a good term, but some people don't like the term "spirit world." We need to know about the Spirit World without any misunderstanding. I need to know where in Spirit World I can go. A moment is like the eye of a needle. We have to think about the Spirit World. To make our physical self, we exert efforts. Yesterday, there was a subway advertisement, about plastic surgery; there are so many ads about this! They are trying to change their face through surgery. They don't take care of the physical well. With double eyelids, a certain nose, Eastern and Western styles are different. One's destiny can be seen in one's nose. You can see your character in your children. Large and small intestine have effects, etc. People in West and East are different. Eastern people try to change. That is the external. What about the internal? Look in the mirror. You may think, I want to change my nose, or my eyelids, etc. Have you thought: I would like to make myself beautiful spiritually? We have a mind; we need to reflect on our mind. Thinking about our earthly life; is my life a righteous or good life? If I go to Spirit World where would I go based on my life?

If you think about these things in the Cheongshim won, then the purpose of the training center is fulfilled. Chung Pyung is the hometown of Shim Jung. True Father and True Mother said that to us. To make this world a restored/perfected Garden of Eden, I have been working so hard. People think we are a spiritual group. But we must make our physical life and spiritual life, all of our life, beautiful, so that we can go to a beautiful Spirit World. Some people think we are a spiritual group, they never come to Chung Pyung. This is their pride. The spirit self must live in the Spirit World someday. In the physical world, people live together. True Father and True Mother opened Chung Pyung, because spirits are not living in the Spirit World. They came to the Physical world and are living in our bodies. We do chanyang session to remove

Evil Spirits. Your sins, fallen nature, etc. can be cleaned up. Those Evil Spirits come to the physical world in our families, and they cause evil, pain, suffering, etc. Your problems, where do they come from? Evil Spirits in our bodies are causing this.

God told me: to fulfill your portion of responsibility, you must be sincere, and loving centered on the truth, without falsehood, etc. If you do that, then I will do the work. I will work on that foundation. When those words were given, God gave me words for sincerity, love, truth, etc. Some things we cannot understand, when people come with problems. The most important thing is to love. Make the mind beautiful. Make the spirit self beautiful. Adam and Eve, after the fall; they fell because of the excessive desire of Lucifer, and lack of love. When God created the world, Lucifer was His master assistant at the time of creation. God always called him: Lucifer, please do this, Lucifer please do it like this, Lucifer please go there, Lucifer try this, Lucifer see that. When Adam and Eve were created, God created the whole world for Adam and Eve. They were created last. After their creation, did God call Lucifer more? God called Adam and Eve more. God told Lucifer he had to explain to Adam and Eve how the world was created. God told Lucifer he had to do like this or like that for Adam and Eve. Lucifer thought: why? God called me so often in the past, but now He calls Adam and Eve more than He calls me. Lucifer followed so well, Adam and Eve believed Lucifer. He read things like a fairy tale. After Adam and Eve fell, humankind was propagated. Our lineage is not good. The lineage is not beautiful, but evil. We must become humble. Jealousy, greed, anger, complaint, etc. Are there any members who don't have fallen nature? Everyone has it. Dissatisfaction comes from fallen nature. If a neighbor is doing something, we should feel: "can I help in anyway?" But, instead, we feel jealousy. We must abandon fallen nature. Abandon fallen nature! If we don't abandon fallen nature, then 2nd, 3rd generation will inherit it.

We are living the result of our parents' life. Don't complain: "why do I have difficulties?" This is coming from the lineage of our ancestors, due to the fall. This came inside me. As I conduct Chung Pyung, as True Parents opened Chung Pyung, I am so grateful. Why? Because all those things coming through lineage, all those things need to be removed. Original Sin was removed by True Parents, but individual, collective, inherited sin needs to be cleaned up. When I see members, the things inherited from ancestors is just like the fetus receiving things from its mother through the umbilical cord. If these things are not removed, they will stay eternally. Without living life with absolute Faith, Love, and Obedience, we will live life like that, and we cannot come out from our fallen nature. True Father called me one time, and told me I had to do ancestor liberation ceremony. He said "you need to discover, and find, and come back (from Spirit World). A lady, Lee Bin Nim, used to do ancestor lib ceremony, but that cannot be done now (cannot be done in the same way), because evil is so strong. So True Father told me I had to go to Spirit World and search it out. The connection (of lineage) has to be cut.

Ancestor liberation ceremony is not for making money. Each 7 generations must be liberated. For each 7 generations, it is only a conditional offering. It cuts the connection with Evil Spirits. The ancestors will go to the Spirit World training center, and become Absolute Good Spirits. Like this water glass which is so clean and beautiful. We have been doing ALC, every 7 generations, severing the link you have had with your ancestors. One grandfather and one grandmother living together...In Africa, one man had 43 wives! Centering on one grandfather/grandmother, there are so many (situations). In ALC, they even asked me what their family name was! Ancestors killed people, did lewd behavior, etc. All those things inside you will be severed in ALC. Is this good or bad? (Applause) This blood lineage, Divine Principle understanding, and absolute faith. If we use words centering on fallen nature, it is not good. If we use words centering on love, it is suitable.

The words of Chung Pyung, 22 years now, if you include the time of preparation. In early times, Dae Mo Nim, at 9:30 pm at night, so busy. Already it is 22 years. When I went to the holy ground, it was raining, windy, very stormy. We went to the mountain. God showed me the location of the training center, and other things. God told me: within 3 years do this, but you should not talk about these things. At 12 midnight, God pointed and said: this is where the Palace will be. It was so cold and so dark. I could not even see. God picked a branch, and showed me the size of the main building. If I used the word "why?" I could not have done it. So, I told God: "I will do it." God told me: do it with faith, with love, without falsehood, with sincerity, etc. If you do that, then I will work. I will do it. The road needed lots of money. One day I was crying, and God said: let's go out. At Myeongdong Street, in Seoul, at the crossroads, there were many people, and lots of resources. God told me: witness and let them help. With such a mind, I came and worked.

How many years for the Peace World Center to be constructed? Within 7 years, everything was constructed. If I use dissatisfactory words I could not have done it. When we built the school, many people questioned it. But the Cheongshim School is now famous. We do family education and character education. The environment is good. The number one class school in Korea. We can only choose 100, but 1,500 come to apply. This was possible because this is the restored/perfected Garden of Eden. We needed to show the whole world. Think, based on sincerity, and do sacrificially, etc. It was very difficult to make this. Your donations helped, but I had to make lots of efforts. Use words centered on love and absolute Faith, Love, and Obedience. Don't use words centering on fallen nature. The PWC had to be built quickly, with a certain design, etc. So, I built it. Because I built it quickly, True Father could hold events and

rallies, such as WFWP, etc. Also, the Seonghwa ceremony of True Father. On True Father's grave, a writing (?). Then, True Father could go to Spirit World. All the content and preparation for True Father's Seonghwa was already prepared. The clothes True Father wore were newly-made, the coffin was made, all in advance. True Mother was so surprised and pleased.

Don't use the word "why?"! Always say: "Yes, I will do it!" I never used "why?" True Father came and says to me: "thank you Dae Mo." We gather here today, together with the WFWP participants. This is a providential organization of True Mother.

The natural world lacks water. We gave flowers water, and they bloomed. Earthquakes, typhoons, floods, all are taking place in the world. The worst fear is drought. You should save water in your home. I can see the time when we can't wash well due to the lack of water. We have a special water tank here. We have to have organizing (?) to preserve the environment. WFWP, pride in True Parents' words, education about True Father's lifestyle. God told us: make good sons/daughters, and dominate the natural world. Now, the natural world is dominating us, and if this continues, when we go to Spirit World, how will our children live? We need to live according to the Principle, so our children can love nature. These cannot be done anywhere else. Only in Unification Church. In Africa, I taught them the new village movement. There is so much trash, so many flies, and mosquitoes. Then, the African people waited for someone to come and clean it. I told them you have to do it. To become a rich nation, you have to make it clean. I am going to Africa again, and I will educate them.

Beloved members, we must love people, and love nature. Don't use the word "why?" but say "I will do it!" Centering on the heart of a mother, don't forget these things. God will work through us. 2020 is coming. This is 2014. 2020 is a very important year! (True Father) told me: 2020 is such an important year. Let members remove their fallen nature. Must do as much as we can do. Now is difficult, but it will become more difficult. Do your best. Live a Principled life. Become sons/daughters of filial piety. Chung Pyung is so beautiful right now. Please enjoy the beautiful flowers. Throw away all your difficulties from the past. Make a happy family. We really need to feel appreciative to the True Parents of Heaven, Earth, and Humankind. We really need to fulfill our Portion of Responsibility as filial sons/daughters. Precious members, and members of the WFWP, I hope you can become such members. I will close here. Thank you.

God bless, itn,
David Carlson
