Dae Mo Nim - May 2014

Good morning, everyone. It is nice to meet you all. Especially the continental and regional leaders and special emissaries appointed by True Mother. Today is the Azalea Festival, but have you seen a lot of flowers? In fact, I tried, and Heavenly Parents and True Parents tried, but the flowers withered a bit. Usually the Azalea Festival is the first week of May. This year it is the second week because Japanese members are coming to training center, but because of circumstances, the second week is good. Also Korean members, there is a lot of traffic, so we decided on this week. There was a time, I had to even put a heater on the flowers, for the sake of photographs. I had to buy azaleas so members could take pictures. But now, the flowers withered at the training center area. At the High School, there are lots of flowers left. Also, by the Peace World Center there are flowers. If you go there, you can make good memories.

Beloved members, conducting the special great works is not simple. With this name, and following the program is simple. But here is with the Holy Spirit and truth. So, we must remove evil, with absolute good spirits, and it is not so simple. Even though difficult and challenging, I always feel appreciation to True Parents, Heavenly Parent and you because True Parents opened

this training center. If we didn't have this training center, how could we solve all these spiritual problems? True Parents told me it is possible. Remove evil spirits from us, so we can liberate ancestors, and make a victorious world. Though True Parents would like it, but if they could not offer victory, if they had not laid the Foundation of Faith and Foundation of Substance, if Satan had accused them, it would be very difficult. But, True Parents became victorious. They made, the Restored, Perfected Garden of Eden. Heavenly work is still possible -- works have been listening to True Parents.

I appreciate True Parents. This has the spirit world. You came many times, so I am appreciative. As I do, I often feel difficult, but because of the love of True Parents, and your participation, I feel have to work harder, to give more Heavenly fortune and solve pain, suffering and disease. So, members can live in happiness and joy. Such is works. As we live life, there are times we don't think about spirit world. As we live life, if we live longer about 100 years or 80 years in a short time period, we only think how to live well, how to eat well, etc. How to be successful. Based on that human beings are living life. We know Divine Principle, we know good and evil. As we live life, the mindset of living the Principle, and especially practice. Practice is the most important thing. Such a life you have to lead. Such a life should be our earthly life. Spirit world is eternal. Earthly life is 80-100 years. Spirit world is eternal. spirit world is decided by you yourself. Your earthly life result. It is written in the Principle. If you live life centering on goodness, you will go to a good place. If you live life wrongly, you will go to a bad place. We really need to think about is my life good or evil.

Don't live life depending on the atmosphere or environment. Think: is it good or bad? 24 hours a day. From our birth to our ascension, our life is being recorded like a film. It is recorded on your spirit self. This physical fallen body is attached to the spirit self. Our spiritual senses are dull, so we cannot see our spirit. At your Seonghwa, ascension, you can see your spirit self. You can't see it with the physical eyes. You can see it with your spiritual senses. In the spirit world, people are so surprised about their spirit self. "Why is it formed like this?" They are blaming their spirit self. We need to know: we did not receive completed blessing. We must prepare mind and body, the Messiah cleanses original sin. That is completed blessing.

When True Father came on earth, there were no prepared people. If so, especially from the 1980s, lots of evil spirits came and settled in our bodies, and dominated our lives. Sin, fallen nature, jealousy, anger, etc. Giving the blessing was not simple. True Parents first removed original sin. original sin is such a huge, fearful sin. True Parents first removed original sin from us, it was not simple. If True Father wants to remove it, Satan would accuse first, so it was not simple. True Parents made indemnity conditions we cannot imagine. Tears, sweat, and blood. Can we understand their path? Such a path and conditions we cannot understand. In spirit world we will know. True Parents gave conditional blessing. Then, we must discard all our past habits, fallen nature, etc. Most importantly, we must live for the sake of others, without fallen nature. We must become a person of character, day by day, and gradually become better. But we still kept our old life, with fallen nature. There are things we should not see, touch, or do. But we kept these things. We were not able to keep the position of conditional blessing. We fell from that position, to the old position.

True Parents brought us up, with conditions and through the Holy Wine Ceremony, they brought us up. Before Foundation Day, True Parents made many conditions. In place of position, as citizens of Cheon Il Guk. We really need to discard old habits and, as citizens of Cheon Il Guk, must do our best to become a person of character. We have the position of a citizen of Cheon Il Guk. True Parents proclaimed the substantial word, etc. and through that let them (us) become one with Heavenly Parent. Amazing works were done by True Parents.

As I conduct works, getting answers from Heavenly Parent was not easy. True Parents gave us words. To receive answers from God, without utmost, excruciating efforts, you cannot receive it. Making an environment at was not simple. So, 10,000 bows several times, and then could hear answers from God. The environment, now, with absolute good spirits, is easier. Now, Heavenly Parent can listen to us. Now, we need to live life as a citizen of Cheon Il Guk, with a mind of gratitude. I hope you can have such a mind. Today, there is a burning ceremony. Report your past life honestly. Overcome the bad habits in chan yang session, and attend the holy burning ceremony. I hope you can have such a mind. Members can come to have a beautiful mind.

Tonight, is such a good thing. Our ancestors in spirit world training center, they cleansed all their sins, and removed the original sin, and all our ancestors become like this glass of water, so beautiful (Dae Mo Nim shows the glass). absolute good spirits are living with Heavenly Parent and True Parents of Heaven, Earth and Humankind. They are living together. They have a conscience. Their sins in the world still remain in memories. What they said to me was: they see themselves beautifully but mistakes still remain in memory and that makes life harder. I told True Father about this and he said: make a burning ceremony. All memories of past mistakes will be erased. All of them will feel that they lived life like "this" (clean). Among 2nd gen members, when they have fallen, some received forgiveness, but it still remains in their mind, and they worry, what if it is seen by others? That will also be removed tonight. Setting the conditions, all this will be removed. Their mind will become free.

When they (absolute good spirits) go inside our body to remove evil spirits, they will do it confidently and enthusiastically. As citizens of Cheon Il Guk, we have to become perfected men and women. This will be given freely to you, as much as we can. But, do we just enjoy it by myself? True Parents: by 2020 we must work to conclude the providence. As we look at the world, there are accidents, pain, suffering, disease, and many problems. Do we just look at it? We need a parental mind. Do witnessing activity to family members, and to tribes, to church members, and to outside people. When I see you spiritually, disease and pain are in outside world people. They have original sin. You need the heart of parents who feel their pain.

nWe need to tithe money, but also time. Give them heavenly fortune. This life habit we need. Will you do that? (applause) Once you answer, Heavenly Parent and True Parents believe you. I hope you do that. Through chan yang session everything will be fixed so you can have a right mind. Do chan yang session well, then do witnessing activity until 2020, so all problems can be settled. In chan yang session, after lunch, do chan yang session well. This will of God will be developed; have that confidence. The Providence of Restoration is yours, not others. Please work hard. I feel appreciative to you for coming. I hope all of you can enjoy blessing and mobilize spiritual things. This time, True Father, True Children, and absolute good spirits, will stay here and do works. Tomorrow, True Mother will address us at the Peace World Center with a lot of love and blessing. She will give us the vision for 2020. With a happy, healthy mind please become filial sons/daughters of Heavenly Parent and True Parents. I appreciate your coming. I will close here. Thank you.

God bless, itn,
David Carlson
