The following words were spoken by Dae Mo Nim during the South American Brazil Tour on May 25, 2014. (Edited: Department of Education and Planning, Chung Pyung Heaven and Earth Training Center)

I have visited Brazil several times in the past but I think this time I see many more people than before. Don't you miss True Parents? True Parents is always next to us and wishing us to live with joy and happiness and do our best for God's Will.

### **True Parents' wish is to live by the Words**

I thought, 'What is the wish of True Parents?' They wish us to do witnessing so that this whole world could live in a world of original creation without pain and suffering.

The Heavenly Parent moved the providence forward so that the human beings could live by the Words and in happiness. If we live by the words spoken by True Parents of Heaven, Earth and Humankind, the Messiah, then we will be happy.

For this to happen first we must remove fallen nature. We have to get rid of suspicion, jealousy, anger, hatred, greed, thought of 'one's self', arrogance, complaint and dissatisfaction. And we have to live for the sake of the other. The husband must live for the sake of his wife, the wife must live for the sake of her husband, the parent must live for the sake of their child and the child must live for the sake of their parent. Then can we find joy and happiness in our lives. All is possible when we follow the act of 'true love' which is explained by the Heavenly Parent and True Parents of Heaven, Earth and Humankind.

Liberating Satan and Evil through Chung Pyung Works and become one heart, one body and one mindset with the Heavenly Parent and True Parents of Heaven, Earth and Humankind and become the people of Cheon Il Guk which can be directly owned by the Heavenly Parent and True Parents of Heaven, Earth and Humankind.

### **Moving forward without stopping centering on True Mother**

We still remember True Parents who conducted the providence in South America in the 1990s. Looking at True Parents back then we felt that True Parents who stay beside us forever. However, True Father seonghwaed and now is in the spirit world.

How are we going to live from now? This is the thought that many came to think. Who is still with us? True Mother. True Mother is going through all the providential matter which was done by True Father without any stopping. She is conducting the providence worrying for the members 24 hours a day, 'How can we quickly establish the Providence of Restoration on this earth?'

Just like that, while True Mother is still on earth, to create Heavenly Kingdom on earth and in heaven, we too must convey the words of the principle to many people as we can.

### **Love the nature**

Right now, the order of nature is disappearing. It is because human beings stopped loving nature. For this world to become the original world of creation where all things of creation is controlled by human beings the human beings must love nature. Nature must be loved but human beings don't know to love nature.

For all people to love nature the principle must be conveyed. If one can live it's life centering on the principle then human beings are able to live in happiness and take ownership over nature with love. For many people to start loving nature we must create many people who understand Heavenly Parents' purpose of creation.

### **South America Region where Members and Leaders Unite**

As I visit South America this time I feel the change in the members. In other words, you have united with the Region Director, Church Leader and other leaders. I can feel the coexistence of interest, love, education and sincere devotion.

Becoming one with the leader also means that you've become one with the Heavenly Parent and True Parents of Heaven, Earth and Humankind. You did your best in becoming one with the leader without complaining under any circumstances. If you become one you can achieve anything. There is no impossible. Before I came here I was thinking to myself, 'What can I give the Brazilian members?' So I decided to give 3 absolute good spirits to each member here so that you can witness really well and live a happier life. Please do your best in witnessing by the year 2020 and live a happy life centering on heavenly fortune.

I am grateful to all those members who came here from faraway places. I also would like to express my gratitude to all those people who prepared and offered sincere devotion to welcome these members. Never forget that we are all sons and daughters of the Heavenly Parent and True Parents of Heaven, Earth and Humankind and become precious members who will fulfill their responsibilities of filial piety.
