Dae Mo Nim - August 25, 2013

Unofficial translation of Dae Mo Nim's words from June 13 (and presented again, by video, on June 21, 2014). Dae Mo Nim has been out of country, and will leave again on June 22, to be out of country for several days.

Good evening, everyone. This time the Brazil rally (Dae Mo Nim had been in Brazil) was magnificent; it was very successful. More than at any other time, the members were doing their best. The 2nd gen could be established. As I was in the process of clearing away so much spiritual difficulty, True Parents spoke to me. Earlier, True Parents had spoken to me and told me that I had to finish the Cheon Jeong Gung by 2006. I came here to Chung Pyung with nothing. The spirit world is something you cannot see. This is the situation in which we work. We believe that we will go to heaven. But to go to heaven is difficult.

Members believe what I say. At that time, Heavenly Parents promised me: complete the Cheon Jeong Gung by 2006. The works will be done by Heavenly Parents. You must just do as I say. Offer your sincere devotion, so that even Satan cannot accuse. Do it with love, based on fact, with sacrifice and diligence, etc. If you do this, then I will do the work. I really did my best. At the end of 2006, it was easy to build the Peace World Center. Heavenly Parents is alive. The works were shown by Heavenly Parents. We could accomplish everything together. In 2011 (2012?) True Father said that 2014 will be difficult. It will be a "loud" year for the world, and there will be many accidents, and many problems. So, we must offer devotions so that these incidents can be weaker and softer. So, I offered many devotions. Dae Mo Nim could not even walk downstairs sometimes, her body was so tired. But, it was to ensure that the huge problems and things could be made smaller. It is my responsibility, to prevent difficult problems from coming to the

members. I can handle this. Our members often complain: "Oh, I am very tired, so I will take a rest." So, God is giving great grace to people who can be patient. For 21 days I did my best and was always smiling, like I am now.

When I began Chung Pyung works, I went to famous mountains, and other places in Korea. These mountains are full of resentment. Sometimes, it was not resentment, but many ideas about how different things could be built. Overcoming these mountains, missionaries came and did many things. The life of faith we have now: the True Parents are still here, they taught the Divine Principle, and taught us to live for the sake of others. But, what are we doing? This time (during her recent travel), I saw many things. True Mother prayed very hard, and seeing her do so, I had a painful heart. We Unification Church members must have courage; we should be happy and have confidence. Why? I go here and there, and clear the spiritual atmosphere, and pray. Going to the spirit world, I see many spirits. This (this reality) belongs to us, and we must restore them. If we don't take ownership, we cannot restore them. It is the same with human beings. Those with pain, suffering and disease, who can solve these things? We are the ones. We must accomplish this. We must have absolute faith, and go the path of the Providence. If we instead seek to "live," we will die. But, if we are willing to "die," we will live. Those who offer their lives for something will live. Those who complain, and harbor hatred and resentment, etc., they will die. We must have confidence. Our providence is eternal.

If you go to the spirit world, there is heaven, but hell is much larger. We must go through True Parents to go to heaven. Our sins and our fallen natures must be cleared, and the easiest way is to remove the original sin. Remove the original sin first, it is the root of all sins. We have Foundation of Faith and Foundation of Substance, but we could not accomplish this, and so True Parents built the Foundation of Faith and Foundation of Substance, and cleared the original sin. We are people without original sin. Have confidence! We are children without original sin. We have children born without original sin. Within ourselves, we have children without original sin. 4 gens are born. Moreover, 4 generations without original sin are born. We are the subjects of hope. We can solve pain, suffering, and disease. We can give Heavenly fortune. We must unite together, or bad things will happen. In November 2013, True Father said, "Don't see, don't speak, don't listen to bad things." Within our church we must unite and not see, speak or listen to bad things. We can create goodness, happiness, love, etc. When we become such central figures we can create beautifully.

External scenery is beautiful. (On the recent stop in Switzerland), the snow was so beautiful, and underneath there are flowers. The external scenery in Switzerland, with the mountains covered in snow, is so beautiful. That is how the other members with us felt when they looked. But, I didn't think like that. Why? The snow melts and there is so much water; glaciers frozen for thousands of years are melting. The creation is in deep pain. True Father was there, also. I said, True Father: please show your power, and show that you are alive. Your children, when they do witnessing activity, let them be successful, and let them be the owners of hope. If all people become Unification Church families, true love would happen. We should have ownership over all things, and you have to become a person who can act with love over the creation.

The South Pole of creation, if it melts away, and the beautiful and nice mountains (snow) melt away, what happens? Many terrible viruses, bacteria and germs (locked away for thousands of years), that we cannot even imagine, will come to us. What if the water disappears? Then we cannot harvest crops (make oxygen). The time will come when we cannot even breathe. It is very serious! We have to understand. We don't need to say good or bad. We have to create this world and make it beautiful. Our minds must change. We must center on God and True Parents. You should not listen to people: "go here go there." We must center on God and True Parents, and

have a loving heart, and protect the creation, and protect people. Change the environment so people can live in happiness. Such Unification Church members we must become.

In Chung Pyung works, whatever happens, I want to clear away the fallen nature in members. If we have love we can see with a parental heart, and if we have a parental heart, such an environment can be created. We must run, and embrace with love. Be proud of True Parents, be proud of Divine Principle. When you go to heaven; without clearing the original sin, you can't go to heaven. The parental heart; with it create a beautiful world.

Every day climbing up high mountains, and getting in a plane, I am very busy. I called the training center, and said should we show the video? But, I will be in front of you. I put on makeup, lipstick, and I am here. Tomorrow (June 14), I will follow True Mother, and then go to Japan, and then to Africa. Why? Because I have a parental heart. If I don't go to Africa, what will happen? If I don't go to Japan, what will happen? People say "don't go." But I said to each rally, where I saw the sincere devotions of the members. Seeing this, I feel I have to go.

That is why I am speaking now, before I leave tomorrow (6/14). You are the owners, the parents of hope. Don't forget that. Give trust, love, and happiness. While still alive on the earth, whatever evil comes, we must unite as one! This fence (of our unity) must become strong, so that nothing can come through. Do you understand? If you just say "yes," it is not nice. With True Mother still alive, we must accomplish. I am going around. I am doing lots of talking with True Father. True Father says: you must create many more absolute good spirits. When I have difficulties, spiritually speaking, I ask the Chung Pyung staff to do night vigils, here in Chung Pyung, with many devotions. This workshop, with this in the background, is a great workshop for you. I am making sure you don't feel sad. We will try to make you happy. I promise. I will close here. Thank you."

God bless, itn,

David Carlson
