

## Spirit World and Physical World

Dae Mo Nim

August 3, 2014

Unofficial translation: David Carlson

*Dae Mo Nim- December 24, 2013*

Dae Mo Nim has just returned from her "Asian" tour, and there is a substantial number of 2nd gen here at Chung Pyung for the summer workshops. Much of what she said was addressed to them. In addition, we brought 2 guests from the Sikh religion and they desired to take part in the chan yang session, and to hear Dae Mo Nim. Thus, we were slightly late in entering the speech. Here are her words:

"...I will come back next year and so ansu for you. When I returned to Chung Pyung I had this thinking. This time I went to East Asian countries. I asked the members: how many years has it been since I came? Many years. Yes, I felt so sorry for the members. Members say they want to come to Chung Pyung often, but "because of money problems we cannot come easily." It is about the same distance from Japan to Korea as it is from the Philippines to Korea, but because of money, it is difficult to come. I did the removal of evil spirits for them. True Father in spirit world, sent many absolute good spirits to the Philippines. Members there are so much more sincere and longing for True Father and Dae Mo Nim. I feel so appreciative to them. I worked harder for them. As I do a 2-day workshop, I deeply sympathize with you members. You are unable to see the spirit world, but because of your trust in Chung Pyung you gather here. You have the belief to attend True Parents.

There is Spirit World and there is Physical World. As you think about it, you can think this way. The baby is in its mother's womb for about 10 months, and then it comes into the world. This 10

months is the most important time period. There must be a healthy condition. Then, everything is based on whether people live a healthy life or not. This comes from the time when the baby is in the womb. While the baby is in the womb, previously, your destiny is being made, and your health is being made. Earthly countenance (?) is being made. How precious a time it is! Then, father and mother care for the inside womb, for beautiful health and beautiful destiny. Need to make it with one heart, one mind, one body and one mindset.

Yesterday in the chan yang session there was a lot of sweat and a lot of tears. It takes thousands of times of effort and thousands of times of sweat to come to that point. I thought about that as I looked at them (members in Asia). Have we shed that kind of sweat and had that kind of mind? You need that kind of mind to live well here in the Philippines. Inside the womb, 10 months, and during earthly life, 100 years. If we live life without fallen nature, then all is okay, and we can live a good life. But, can we live more than 100 years, due to fallen nature? The reason they can't live long is because of fallen nature. Arrogance, jealousy, complaint, anger, greed, etc. Because of this people become happy or unhappy.

We should not see, hear or eat bad things, or go to bad places. We should see, hear, and eat good things, and go to good places. We make habits. In the earthly world, the spirit self and the physical self are living. The physical self grows through food, etc. and the spirit self grows through how we live our earthly life. Therefore, we should live 100 years and go to spirit world healthy. Then we can live in a beautiful place. To do so, we need to live our earthly life of 100 years beautifully. Centered on goodness, centered on love. What is goodness? What is love? Our Heavenly Parent has been leading the providence, and has taught us goodness and love. God sent the Messiah. He told us everything. About mind and body, about how we can become healthy. For the spirit self to be healthy, they taught us the way in the Divine Principle, and then there was Adam and Eve, and the created world. After the fall of Adam and Eve, and the providence of restoration, they taught it all. In the era of the 2nd Messiah. They taught us all, the 1st generation. Living together with us, and through Hoon Dok Hae, and they taught us. We need to practice and show it already. Living for the sake of others, and with true love, and with goodness. Not just reading the Bible, but True Parents taught us living together. We had to change.

Human history after Adam and Eve was a very long history. Much longer than 6,000 years. Satan caused fallen nature, jealousy, anger, complaint, arrogance, etc. We have been living life like that. Hurting other peoples' shim jung. We have received such contents in our lives. It is just like the fetus (in the womb). Mind, body through the umbilical cord. Us and our ancestors connected through lineage. Our lifestyle must change. All the mistakes so far. True Parents sever this connection. This is ancestor liberation. The contents we have in the evil lineage are several. Due to the fall of Adam and Eve, the accuser is Satan. Centered n Satan, and the lineage connected with us. All humanity, for God to change the lineage to a good lineage, God carried out the providence of restoration, with Jesus, and other central figures.

We did not know everything about Satan, the contents of evil. The Heavenly Parent of HEH, came to earth and made indemnity conditions. They have given us blessing, removed the original sin, and changed our evil lineage into a good lineage. This is ancestor liberation and ancestor blessing ceremony. We have a good lineage. This is an amazing providence. It can only be done by the Messiah, the True Parents. Remove Satan's lineage, connected to good lineage. This can only be done by the Messiah. Evil habits, from Satan, must be shaken off and cleaned up.

Things that come to us already, must be cleaned up by chan yang session. Ancestors, centering on fallen nature, jealousy, anger, arrogance, etc. All this content comes to you. It shows through pain, disease, and suffering. Individual sin is very small. If you didn't commit a terrible sin, your

individual sin is very small. But this hereditary sin is so big! Because of all our ancestors. This is settled inside of us. We have to clear this away. We have to clean it, by live for the sake of others. True Parents: one heart, one body, one mind, one mindset. Become one with True Parents. This is what True Parents have said. Settlement centering on True Parents. Become one, so that our life can be lived with Heavenly Parent and True Parents. We can then live life happily. Then, we can go to the spirit world happy. If you stay with Satan, however, you will go to a place where Satan is. Though you don't want to go, due to the lifestyle of your ancestors, you live life like that, and you will go there. This is like a tug of war.

One member told me: I drink alcohol so business can be done. I said: don't drink. Please tolerate what I said and endure. If you cannot, then write me a letter. A letter did come: I cannot do it. I said: please tolerate it. Now, that person is so good. This person said: If I drink, it's okay not to go to Chung Pyung. After 2 years, this person didn't drink, and then talked with me. When the (urge for) alcohol didn't come, this person they didn't want it anymore. And the business improved. The person's face became so happy, and this person came to Chung Pyung. Not to drink alcohol took 3 years! A worse mistake, only 3 years would be needed? Not possible.

Don't listen to bad things, don't talk bad things, don't see bad things. You need an eye patch, an ear patch, etc. In church and in your tribe, keep this standard with your family. Live for each other with love. Accomplish it first in the family. Then in the world. One heart, one body, one mind, one mindset with True Parents. Live life centering on true love. Become perfected humankind. Then, mind and body become healthy. Then, when you go to spirit world, you will live life with True Parents. Therefore, our earthly life is very important. You might think: I am living well, so.....Don't think like that. I tell the cancer patients, care for the environment well. Put things in order. I told people even with 2 months left. I said: you will live continuously. That person doesn't think that they will go. We always think: I will go "later." But we all go. We will go to spirit world, and we must prepare day by day.

We have so many disabled 2nd gen. I was so surprised. I begin the 40-day workshop with the mind to help. There is atopy and character problems. Already we know what kind of problem. This is Chung Pyung works. You did well in chan yang session. Go home and live life well. Then, you can go to spirit world well.

Do you understand? In Chung Pyung we do ceremonies. Do they do in spirit world? Live life well, and you will live life well there. But, if you live life with unhealthy, an unhealthy spirit will be born. Your spirit is growing through your daily life every day. Absolutely do not make original sin on your spirit self. Don't eat the fruit of Good and Evil. Live a good life and you will go to spirit world with a beautiful spirit. In Korea there is a saying: a habit learned at age 3, will last until age 80. I think, however, that from 3, or even from the womb, it will last forever. Look at your life; you need to live life centering on True Parents and God.

I hope you work harder. So many 2nd gen members have come here! True Father: it is so nice; it is so good. I wish I could grow them well. After this speech, I will do the chan yang session well. From head to toe, work hard in chan yang session. Have a grateful and happy mind. Be a filial son or daughter, so we can fulfill by 2020. Work hard; the weather is poor. It may become more and more that way. True Father: this August (2014) may be difficult. Work hard to pass August well. I will close here. Thank you."

God bless, itn,  
David Carlson
