The Summer Special Great Works workshop

Dae Mo Nim - August 3, 2014

Good morning, everyone. You are feeling good, right? Many people came here, so I received strength. I have appreciation to all of you so sincerely. During Special Great Works True Parents have come together. Absolute Good Spirits Spirit World is here also. So, I appreciate very much all of you coming. This is the 2nd anniversary of True Father's Seonghwa. While, he was here on earth, he sometimes did up to 23 hours Hoon Dok Hae time. When True Father went to Spirit World, I thought he might be more comfortable. But, he has many things to do. So, there is even more work for him than when he was in the Physical World. Where did I bow when I entered? I bowed to the chairs, right? If True Father is here, I bow to the chairs. If he is not here, I bow to the picture. From yesterday True Father came here. I have been attending True Father.

We must not forget that we are happy people. This is a precious time to remove fallen nature. I have made amazing conditions, even you would not be able to understand. I received mail, I went on tours. I see the members' situations. I understand the complicated and difficult situations you have. I offered full bows to Heavenly Father and asked: "please help us." True Father told me: please removed fallen nature from members. True Father is with me this time, offering devotions. True Father is together with us. In the prayer hall, when you are writing wish papers, only write down that you want to remove fallen nature. This Special Great Works will remove fallen nature from you. Yesterday morning, and this morning, in chanyang session I saw how you do. I felt so thankful. There was a lot of energy and spiritual favor, and level of removal of Evil Spirits from you, in so many ways. Even the staff members are busy; I wish they could do chanyang session.

So much grace is being given. It is being given because Unification families are in a very difficult situation. It is difficult because of the culture of Unification families; it is going to the wrong side. I felt very painful. True Father said that 2014 will become difficult. In Nov, 2013, True Father spoke about 2014 as bringing tremendous conflict among members, and cultural aspects will change. We will win the victory because we have True Parents. Don't look, listen, talk bad things. Members know Principle words well, and the providence of God well, and the motivation of Adam and Eve's fall, in the mind of Lucifer, and the lack of love, etc. Because of that they fell. God's Shim Jung was so frustrated. Heavenly Parents, when He made the world for humankind, that heart cannot be described. "Let them only live with happiness"; with such a mind He created. His heart was so happy. But, at the fall, God was ... Lucifer, read messages like reading a "story book." The fall was due to a lack of love, and excessive greed.

In the past, during the creation, and without the presence of human beings, Heavenly Parent was like: Lucifer, this and Lucifer that. He spoke with Lucifer that way. After the creation of Adam and Eve, He

only called A and E. Because they were His children. If you go beyond your position, it is a problem. Eve trusted Lucifer. He explained the purpose of creation, etc. to Eve, about these things. It was like a fairy tale from a children's book. Then, they ate. They were expelled from the GE. When you go Spirit World, you will see. They left from the mind of Heavenly Parent. They ran away. Did Heavenly Parent look for them? Adam and Eve where are you? Where? God wanted them to come and ask forgiveness. But Adam and Eve ran to the farthest place away from the GE. From that time, with Cain and Abel, Jesus. God has been doing His providence.

Eventually, why did all the central figures fail? Because of their fallen natures. Do you believe what I am saying? True Father spoke many things to me on the bench near the Shim Jung tower. He talked so many things to me then. He said to do this, and to do that ... Without fallen nature, our Unification Church will win. The central figures in God's providence ... we must not have fallen nature ... True Father began the blessing from the 3 couples, now in the fifth phase (of 400 million?), ... Chung Pyung works opened ... The whole physical world is the works of evil, and 80% of the spirit world is evil. Liberation of the (boundaries?) of Heavenly Parent is possible. The creation of Absolute Good Spirits has been important. Absolute Good Spirits embraced and protected Heavenly Parent. After offering the coronation ceremony for God's kingship, the Cheon Cheong Gung was built, Heavenly Parent could enter, etc. God asked me to make His home on the mountain. That was the Palace. Such a dark, cold night, in winter, snowing, etc. I could even hear the ice cracking on the lake. It was so fearful that night ... In Chung Pyung works, there was no money then, and we had to make the Palace. There is no such home in the whole world like that. Heavenly Parents, True Parents could enter that home. There was that motive to make the Palace. You members did that. You are the ones who did that.

We need to practice in our lives ... True Parents made the substantial proclamation ... We thought True Father would live for a long time. We didn't prepare. When in the hospital, people came and asked how, what, where, what kind of coffin, what kind of clothes, etc.? True Mother said that Spirit World already prepared everything. The huge portrait of True Father was painted by a Chinese painter. For the clothes, we used a special sewing tool, not by hand. That would have been very slow. The same clothes used at the time of the coronation ceremony. The clothes were made with special cloth.

Because there was no money, I thought we could not build the Peace World Center. Do you know how much the maintenance fee is for the Peace World Center? Heavenly Parent told me not to worry about the maintenance fee. The Peace World Center was made quickly, but aesthetically. In Chung Pyung works, we did it all, and had to do it quickly ...

Now, even though people say I am a bad person, I don't have any worries ... My worry is fallen nature. We must not follow the path of failed central figures. We must become one in heart, mind, body, and mindset. We must not allow Satan or evil to develop. Become one in heart, mind, body, and mindset. We must accomplish by 2020. Nowadays, so many works from members. True Father told me to remove fallen nature from members. True Father worries about Unification family members. Achieve one heart, one mind, one body, and one mindset by 2020. A total mobilization of Spirit World will be done this time. So work hard in chanyang session. We must not follow the (failed) path of past central figures ... I will close here. Thank you.
