

## **I saw lots of things being cleared up, centering on True Father, with the Absolute Good Spirits world**

Dae Mo Nim

August 17, 2014

Unofficial notes: David Carlson

*Dae Mo Nim - August 12, 2014*

(She spoke to an audience including primary school students, with their parents, 2nd gen attending the summer youth camp, and others. There was some difficulty in the sound reception at times.)

Good morning, everyone. Last week was the Special Great Works workshop, and 2nd Ann of True Father's Seunghwa. This event was held on a large scale. Members, you have attended a lot. The world can be settled down; that is what I saw. 40-day members, and others in the 2-day workshop, I want to express my deep thanks to you. You received lots of grace during the last Special Great Works. As I conduct the Chung Pyung Special Great Works, in my mind I thought up to one-by-one we need to remove Evil Spirits, and how to do that. I have lots of worries about it. Truly a lot of things have been cleared up. I felt lots of things are being removed. I felt an appreciation to Heavenly Parent, and as I saw lots of things being cleared up, centering on True Father, with the Absolute Good Spirits world, I sorted things out, and what is that? In the first early stage of Chung Pyung works, I felt ok to remove Evil Spirits, but now I wondered. True Father: this is the history of evil after Adam and Eve. All the wrong things, these are being cleared up.

One day I turned on the TV; True Father said let's watch the TV news. Many bad things and disasters are happening. Lives of people are being lost. True Father: this is partial. This reported content is partial. We have, in the past, which people lived, there was no law, so strong people who could take authority, their lives were used. Weak people had very difficult contents. Therefore, after the fall of Adam and Eve, rather than love, honesty and goodness, people led lives centered on fallen nature, and evil, without love. Such a world was there. We need to live lives with love, honesty, etc. Such education we are given. Changing Satan to goodness, removing Evil Spirits, cleaning Original Sin; Original Sin is the base. As long as people have Original Sin, removal of other sins is not easy. Human beings have lived in history with Original Sin and its problems. Causal Original Sin. There is no person who cleared up this Original Sin. But the Messiah, True Parents of Heaven, Earth, and Humankind, who came to the world, cleared up this Original Sin.

Many central figures and religious leaders, so far, are gone. There is the spiritual background of Satan. No place to remove this Original Sin. This physical body, in part, all lives human beings lived, even bigger than the size of the human body, is the habits that were formed. Without removing such things, paid, disease, and suffering continue and we cannot be happy. People are searching for happiness; they have a

mind of wanting to be happy. But, unless evil is removed, happiness cannot be made. Among ancestors, things that come to you, have to be removed.

When I look at you members, at the spiritual background, there is not even one person who has a clean background. I asked one person sitting down at the Cheongshim tower: where are you from? The person said: Nam Yang Ju area (?) of Korea. I asked: why did you come today? The person replied: I am very busy working, Today is my off-day from work, so I came. I said: it is better to go to chanyang session, why are you sitting here? The person: I might meet Dae Mo Nim, so I came here. I asked another person: why did you come? The person: a dog bit the baby, and the baby needed stitches. I saw, when the baby was in the womb, already it was mentally/physically ill. I took this person to the prayer room and removed the Evil Spirits. Next day, I went to the Cheongshim tower again, and there was a family member from Germany. I talked with them. They said they come to Chung Pyung every two years. The mother has depression, and the father was there also. The whole family comes to Chung Pyung. The parents come to 21-day. I brought them to the prayer room and removed Evil Spirits. What I saw, is that this is Chung Pyung works in all the lives after Adam and Eve; they continue here. True Father's words, precious words, evil history was removed. Evil Spirits were cleared. Thus, our thinking can change, to positive and beautiful. Then, we can be truly happy people.

I, myself, recently, have done everything, so why all these complaints? Why can't we do Witnessing Activity? Yesterday, in Korea, the Pope came, and yesterday there was a rally with one million people, gathering in Kuanghwamoon (?). I felt: the Messiah has come; what have we done? You watched the musical (at the 2nd Ann celebration in PWC), the N-S American providence developed a lot centering on True Parents and people in the USA. 100,000 (?) people gathered. After that, if we had led lives of absolute Faith, Love, and Obedience, and had we taken part in True Parents' words, the whole world would have been established. So, eventually members, for us to live life happily we need to live with absolute Faith, Love, and Obedience, and do our best, develop our will. But, inside our mind, if we live life centering on evil, this cannot be developed. True Parents gave us works (the results of Chung Pyung works), but for 2020 we have to work harder and do our best. This does not mean to just increase the numbers of the Unification Church. Make the world the K of God on earth. We need to be people who can clean up the spiritual background in our lives, and live centering on Divine Principle, and come to Special Great Works. If our life does not follow, it is not right.

Some days ago, I had a consultation with members. One person said they often vent their anger. I told them: if you feel anger coming out, endure and swallow it. 1 day, 2 days, one week, 3 months, hold and endure, with love, and the anger can change to love. Most members only believe that problems are caused by some spiritual reason. But all our lives, we have mind and body, so there are spiritual and physical aspects involved. The physical aspect includes our character. After Adam and Eve, evil was established. Even if the spiritual is first, this physical aspect, if we live life centering on Principle, this evil aspect will gradually be cleared up. The last day of the Special Great Works (at chanyang session) I am sending spirits, and also speaking to Absolute Good Spirits, and adding my own spiritual power. Even from far away (across the room) I am taking out Evil Spirits from you. Some members I can do easily. Members who live a faithful life in their home. Some members I cannot do so easily. Their life in the family is difficult. They don't follow the church leader, etc. Without attending chanyang session, they are only coming to Special Great Works, etc. Evil Spirits cannot be taken out so easily. I am removing Evil Spirits, looking at members. It is so important how members live their daily lives. Everything needs to be changed. After Special Great Works, the same works are still remaining here. Yesterday night it was the same. In removing Evil Spirits during chanyang session, continuous for 10 days. This is the good of Special Great Works. All the things (spiritual benefits?) are being collected. During the 2-day, 480 billion Absolute Good Spirits cannot come, but this week, during Special Great Works, many Absolute Good Spirits are assigned to you. Some works are being conducted. So, members please do work harder, and lead a good life of faith, and living life should be Principled.

This time, around True Father's 2nd ann., 43 strategic nations were involved. If there was a meeting, at the end, everyone needs to stay together. Witnessing Activity are important. On the streets, but living life with a mind of witnessing to them, is important. Witness to family members, to members of the church, etc. So many.....that members don't attend church. True Parents' words can be settled down through Witnessing Activity. Through yesterday's lecture, you heard words. During Special Great Works, I worry: how can I let them receive good Heavenly fortune? I made the plaza bigger. I asked True Father: what do you want to remove during this Special Great Works? He said: fallen nature, and all the wrong content. If we go inside, all of fallen nature, in Autumn Special Great Works, fallen nature will be removed. If that is removed, all can be resolved. Make many conditions. It was such a big condition. I asked True Father: can you make it (condition) smaller? True Father: "why?" Because of Hoon Mo Nim's age. Her age is 63. Therefore, if she does full bows, there is pain in her wrists, waist and knees. Did True Father say yes? or no? True Father said No. You need to have a mind of offering even more. Look at members, in earthly life, can they remove all the problems while on earth? You have to make more conditions, so members can be improved and be happy. Even if you become an old grandmother, there is no change in offering conditions. This time, I pushed myself, and felt pain in my arms, legs, and ankles. True Father: do it more. So, during Autumn Special Great Works, I did more.

So, work hard, and clearly understand well about 40-days in Chung Pyung. Not just removing the spiritual background, but the physical body can become healthy. This is the 40-days. Your mind and body can become healthier. In consultation, after you do surgery, I feel sorry for you. One member went to the hospital for a back problem. I met this person later, and had lunch with them. I asked them how they had been? They said in their backbone, one disc (vertebrae) had been broken, so they could not come to Chung Pyung. I told them: come to Chung Pyung, even to the day of death. I made this person's condition better. I let them go. Their condition improved. The disc was not broken, it had a blood problem. The blood had decayed and stayed there. I was able to cure it. This is Chung Pyung works. Chung Pyung works is the works of giving birth physically and spiritually. People can be reborn. After Adam and Eve, the place where evil is changed into good is Chung Pyung works. When you have time, come to Chung Pyung, remove problems so you don't pass them to descendants. Come to Chung Pyung a lot. Remove more problems. Nowadays the weather is not even. Take care of your health. Japanese members.....eat hot pepper paste; that strengthens your immune system. Everyone is searching for happiness. I hope you can all go there. Chung Pyung works, Jan 19 of next year is the 20th anniversary of Chung Pyung Works. I am preparing now. I will do even more for you. I will close here. Thank you."

God bless, itn,

David Carlson
