Dae Mo Nim - December 24, 2014

Good morning, everyone. In Korea tomorrow is a traditional holiday, which is Korea's "thanksgiving day," Chuseok. In the prayer room I saw many Korean members came. They came for the workshop, so I am very grateful to them. I also see Japanese members, and they came even knowing that traffic on the roads is very crowded for Chuseok.

Today, ancestor liberation is being done, up to 266. I feel that this is like a dream. I felt that I have really made this possible. In the preparation process of Chung Pyung Works, if I had had so many Absolute Good Spirits, it would not have been as difficult. If we had angels, it would not have been difficult. It is True Parents of HEH who have made this possible, made Absolute Good Spirits of our ancestors. I am so appreciative to True Parents. The grace is so great.

We know Principle words and we know about the Bible. And about the fall of Adam and Eve, and about God's providence. In order to do the providence of restoration, to make the world into the original world of creation, we know how Heavenly Parent has been walking a suffering course. True Parents, Messiah have come, and they did not fail, they won the victory. Before True Father went to Spirit World, he said: I have accomplished. Several days before his passing, True Father gave lots of words. The content of laying indemnity conditions after the True Parents Advent, the content of their victories; to us attending True Parents, True Parents expressed thanks. They explained about the future. At the time, even we wanted to record everything, only the last part was recorded. Other parts of what True Father said were not recorded. So, members who are undecided about True Father's passing, wondering if he fulfilled or not, should not worry. True Father gave many words and going back and forth between this world and the Spirit World so often, I can see that True Father fulfilled. WE are the ones who didn't fulfill our responsibility. We should feel repentant.

We can also understand, because of Satan and evil, the need to offer sincere filial piety. Satan and evil have controlled us through fallen nature. We know Principle and we are attending True Parents. Principle words and True Parents teaching should be observed. If we had lived life like that, then Satan would not have been able to rule over us. But, because we didn't live life like that, Satan and evil could rule over us. We have to live life better. The reason we could not practice: our mind and our life were not Principled. True Parents gave responsibility to us, but they also gave love. True Parents are living for us. That is what I see.

If True Parents had said you have to live life by Principle, Satan would have worked even more. Chung Pyung was made for us, has been given to us. Chung Pyung is very precious. You may not know how precious Chung Pyung is. After Adam and Eve, Satan and evil settled more. They came to our mind and

body. The evil content settled down in us. Through Chung Pyung Works this is being removed. Such amazing works. Without fail, I have told members, you cannot go to Heaven. Why? Because there is no absolute goodness; only Satan and evil have dominion. But now, I can say we can go to Heaven. How? Through Absolute Good Spirits. How many Absolute Good Spirits do we have? Do we have just a few? Or do we have many?

There is a big difference when you do chanyang session; I can see the situation. Evil Spirits are being removed. When I separate Evil Spirits, there is a big difference between people with many Absolute Good Spirits and people with only a few Absolute Good Spirits. When Rev. Choi gave lecture he explained about this last night. The Absolute Good Spirits are helping us, inside our bodies. What kind of works? The Evil Spirits are working in us to give pain, suffering, and disease. Who are the spirits stopping this work? They are Absolute Good Spirits. Now, we can receive the help from our Absolute Good Spirits. Who receives more help? Our ancestors.

After Adam and Eve, the world was evil; even after the Blessing, evil settled down, in fallen nature, with jealousy, hatred, self-centeredness, anger, etc. We know "I" have evil inside. Humanity after Adam and Eve were made in evil, the descendants of Satan. Now, we are working up to 266 generations, and even though we conduct up to 266, we know we are influenced by Satan. Even after 1-120 generations, I didn't feel it, but as the ancestors number goes up, it becomes more difficult. More difficulty and more suffering. Because they lived life wrongly. Lived even more worldly after going to Spirit World. 266 generations. They did even more bad things. As the generations go up, the sin becomes bigger. As I looked for ancestors, I can see, today because of their sins, we lived our lives. Descendants say to me, please help us.

What is Chuseok? All fruits and grains, the new crop, we offer to our ancestors. But our ancestors were not in the position to receive it. As we go up, and after 210 generations, we liberate them, and you may think that is easy, but it is not easy, it is difficult. But, the ancestors up to 120 generations helped me. Our ancestors know evil and Satan, human beings will be unhappy. This cannot be resolved by people on earth, but only by the Messiah can it be resolved. When we go to Spirit World, as Absolute Good Spirits, we can help. Because of True Parents, the ancestors can be liberated, and receive Principle education, and become Absolute Good Spirits.

Even we don't offer donations for ancestor liberation ceremonies. You came today, your ancestors will listen to your report prayer and they want to say many things. People change their minds, when your position is better. Ancestors came today to you and say: thank you for liberating me, I am so grateful. When you do chanyang session and prayer, they listen to you with the mind of wanting to help you. They determined themselves heartistically to help you. Members think Dae Mo Nim is doing all this, so they don't even come to workshop.

You need a mind of wanting to come to meet ancestors, even if Dae Mo Nim is not liberating. Everything is supposed to be done from time of Adam and Eve, but True Father did not do it like that. He did it in reverse. Parents who gave birth to blessed families, so it was done starting from the parents of blessed families, and then to 210, so in reverse Absolute Good Spirits are being made. But, if members think they can do this work, and then give up in the middle, only those generations done become in God's lineage, 1-7, 8-14, 15-21, they move to God's side. This time if you do blessing to 259, then they can be in God's lineage. True Father has mentioned even higher generations. Blessing ceremony is Holy Wine Ceremony and removing Original Sin, so you need to come and do that. After 420 generations, who will do ancestor liberation ceremonies? Absolute Good Spirits will do that. After Holy Wine Ceremony, history can be totally resolved. But, it is SO complicated!

So, looking for ancestors and bringing ancestors, and letting them meet you, and then going to the training center, etc. By doing so, they are able to see their own sins. When you go to Spirit World, there is no room to see, so at first you suffered, but they cannot realize that because of your sin. They can't think this way. Why many people falling away today? Spirits see their sins for 100 days (in earthly time, that is a long time!). Spirits come to want to cleanse their sins quickly, because their shape is being clearly shown to others. After Ancestor Liberation Ceremony, are you offering sincere devotions?

After 100 days, the sin is cleaned for ancestors who are close to us, but for ancestors far away from us, it is so difficult. During ancestor blessing ceremony, I wait for a long time since some spirits could not come because they have not cleaned everything. I ask them: is everything done? They say please wait for me. Sometimes 1-2 spirits are in such a situation. There is Holy Wine on stage. If a spirit comes even late, have you seen me doing the holy water ceremony on the stage? I sprinkle the holy water if they have not received it; they come to the stage and I sprinkle it. I can see their spirits. You wonder what Dae Mo Nim is doing because you cannot see it spiritually. When our ancestors come, they are like the black lid on a crystal cup. When they have the holy wine ceremony, they become shining and clear. They are so beautiful. Our members, you cannot see this.

You put on holy robes with jeans underneath. Don't do that. You also need a holy ring. This is needed, so we should prepare it for the proper ancestor blessing ceremony. I don't say buy many rings, but bring your

own ring. You can take it off and put it back on again, etc. Gloves, holy robes, and how to tie the belt. You have to make it with 3 stages, but you just tie it randomly. When I look at older members, very few tie the belt well. It is because our ancestors, what if they just follow what you do? I say to members how to tie the ribbon and the belt. Please don't let your ancestors think that what you are doing is right, if you are doing wrong. I hope you can become members who can liberate ancestors up to Adam and Eve.

This weather is cooler, even colder in the mornings and evenings. Please work hard to help your families, and your members. Witnessing to outside people is important. That makes us feel heartistically broader. live for the sake of others, live life in harmony, become happy bro-sis, and a happy church. This time, we are receiving help from the Spirit World. True Mother: at the 2nd anniversary, forgive, love and become one. By complaining, you receive the contents of Satan. 40-day members work hard. Autumn Special Great Works in October, that is the time of giving the blessing of all things to members. Those spirits who make you not having money (who keep you from making money), those spirits will be removed. Also, the same for property. To receive grace from Special Great Works, you need to come often and remove Evil Spirits often. Some members cannot receive the blessing, even if I want to remove Evil Spirits from members. Some members can't receive the blessing because you return back. To give the blessing of all things, the content is so profound.

This week is the third time; if you do this time, during chanyang session, and work hard, and let Absolute Good Spirits work, if you do well, then centering on this effort until Special Great Works, much blessing. Sincere devotion, and hit well during chanyang session. Don't skip any part of the body. Even if you don't say: please help me, God knows what you need. But you must have a sincere mind.

We are happy people. We must have confidence, and fulfill becoming filial sons/daughters. Please become such precious members. I will close here. Thank you.

God bless, itn
