

## If Members Make Mistakes, Rather Than Criticizing, We Need To Embrace Them with Love

Dae Mo Nim

October 4, 2014

Unofficial translation: David Carlson

To the participants of the Special Registration Workshop

Good morning, everyone. This is already the 60th registration blessing. True Father and True Mother, as they began centering on the family group, this was supposed to be finished. But, you remembered and have come here today. Therefore, I really appreciate your coming. In fact, all the blessed families of the Unification Church, all sons and daughters, need to attend this Registration Blessing and Registration Ceremony.

When True Parents constructed this workshop I felt so appreciative. Why? In the work of Chung Pyung, if I see spiritually, our members, whether consciously or unconsciously, when they make a mistake, without remaining serious and sorting things out, when they go to spirit world, their descendants remaining in the physical world, will have difficulties. I was worried about these things. But, True Parents already knew this, so through the Registration Blessing workshop, they had us register. They sorted out all our mistakes. A previous workshop, can save us, and even if you come late to a workshop like this, it is still helpful to you.

Still, many members cannot come, but to you who do attend, I feel very appreciative to you for attending. We didn't receive the blessing after perfection, but we still received the blessing. We should not have collective sin, inherited sin, etc. We should have been left only with the original sin. We received cleansing of original sin. The door of the blessing needed to be very difficult. Even though we didn't remove collective sin, inherited sin, etc., but still we had a basic life of faith. All qualifications needed to be met.

After we received the blessing, we lived life; we could have lived life centering on the Principle, but we could not do it. Nevertheless, to such people, True Parents gave the blessing. They said we should live life centering on the Principle, with Hoon Dok Hae, and Principle teaching, etc. For True Father the longest Hoon Dok Hae was over 23 hours, and so all day. True Father also spoke many words. Those who had attended True Parents were so worried about True Father. True Father did not drink, go to the bathroom, or rest or anything. He just continued. We told True Father: if you do Hoon Dok Hae continuously you will become exhausted. True Father said: even if I am exhausted, if I don't speak to them now, who will? But, we did not live life based on True Father's teaching.

Hereditary sin and collective sin are VERY FEARFUL! Early Blessed Couples should live life centering on Principle. Anyone who does not live life centering on the Principle, all things connected with the descendants will become difficult. If any members make mistakes, rather than us criticizing, we need to embrace them with love. If any members of the blessed family made a mistake, we should feel that is harm done to us. If Satan sees any mistake, he will accuse. We need to make relationships of true love, but we don't. We talk (gossip) about a person. Maybe he did 5 percent a mistake, but then we talk like he did 100 percent mistake. We talk with contempt. Is that right or wrong? People who write things don't put their names at the end of their writing. We need to treat all people with love and care. Such a life of faith we need to have.

We are attending Messiah and True Parents, and live life based on their teaching. True Parents have taught us good and evil. Centering on Principle is good, not centering on Principle is evil. How people in history lived life, True Parents already taught us. We live life centering on fallen nature, and this is evil.

We should not have fallen nature of jealousy, complaint, anger, greed, arrogance, etc. This belongs to Satan. To be a perfected man or woman, we must not have fallen nature. Don't look, talk, touch, or eat. You must not eat.

This is original sin. The fact that you eat the fruit, or smoke or drink; you must not do it. Look at two people. One is drinking, one is not. Look at their faces and their behavior. The image of the person not drinking resembles Heavenly Parent. The image of the person drinking resembles Satan. It is the same for cigarettes. Don't smoke or drink! Members did consultations. I tell them don't drink / smoke. Husband and wife might fight over the husband's drinking. The husband claims: I have to drink to do business. I told them: if you drink the business won't succeed. Business improves when you don't drink. I said: drink, and see what happens to the business! The business went down. Without drinking, if you make connections, and make relationships, the business improves. Absolutely, you must not drink or smoke.

Don't misuse public money. Tithing is public money. Don't drink, don't smoke, don't misuse money, but do go to church. Then, this family will be a true family and a happy family. Evil has developed a lot. People with greed, anger, complaint, arrogance, etc. In the past they could often live better than others. But, that time has changed. We have absolute good spirits. This is the era when goodness will develop. Do you understand? Do you believe what I am saying? In your life, you must reflect. When things don't seem to work out, you need to ask yourself: why didn't things work out? You have to reflect. If you don't make a foundation upon which goodness can work, then what do you expect?

Reflect on your life, and make a foundation, and your life will improve. Members write letters to me; when life is Principled life is better; when life is un-Principled, it is so messy. If you go to church it is better. If you don't go to church, life has conflicts, you hate your spouse, and so on. And parents don't give proper attention to their children. The family becomes indifferent. This is not a true family. It is a difficult family. As you live life you will see. Money, health, children, etc. If you feel difficult, think about your couple. Did we (Husband / Wife) become one?

Some husbands say: my wife made a mistake. And wives say: my husband made a mistake. When I see the situation, I see that both of you have wrong thinking. You need to trust each other, and live for the sake of the other. You must not hide anything. Have faith and make a true family. This is the life of faith, related to heaven. Don't blame your spouse; try and become one. You must yield. Then, you can become one with the children. We are not yet a perfected family. When True Parents gave the blessing, it is a conditional blessing. This registration blessing is in the middle. True Parents: you have been going the path of a life of faith, so you can take the registration blessing. However, True Parents said: when I give this blessing, I feel so heart-broken. It is because people who come here have lost their position. Drinking, smoking, the fall, etc. True Parents lift us up and give us the registration blessing. Without this, where would we be? A place of Satan. We needed to go to a beautiful place, but we could not do it.

Fallen nature cannot be resolved in one day. Don't become immoral. Don't smoke or drink. Give your tithe. Attend church. Go the path to perfection. As we register, True Parents did not say we need to live life with absolute faith, love and obedience, but to come progressively to perfection. From tomorrow you will be reborn again, and with an attitude of living a life of faith, the holy wine you will receive is different from the holy wine from before. This position is prepared. You have to appreciate what True Parents have given you. Make an ideal family and be exemplary members.

Today, in the afternoon, you may have time. Husband / wife, parents / children have time of connection. Have positive dialogue. One person talked in public about the contents of their fighting. That is wrong. You can say honestly to each other at the beginning, but at the end the situation becomes worse. You need to say, so far I made mistakes, I am sorry, and speak content to make an ideal family. Even we are unworthy, True Parents gave the blessing, so they made us registered. Have a mind of gratitude, and with a mind of returning piety to True Parents. This time, you came to this registration blessing, so I thank you. Some members felt this has already ended, and it was long ago, but you came here, and I feel thankful. Husbands, you made time to come together with your wives; I thank you.

Don't forget to attend the 8-day husbands' workshop. Oct 24, we will have the Autumn Special Great Works Workshop. Absolute Good Spirits will come here. Since True Father is in the spirit world, he comes here in spirit. He talks to the spirits and to the True Children, and guides them. Even if it is not easy for you to come, feel appreciative, of the Heaven and Earth training center. I hope you can solve all of your difficult problems. For me to make such a Special Great Works workshop, I am working very hard. I don't want you to feel regret when you leave. The weather is not even, so please take care of your health. I hope you can all become happy families, and filial sons and daughters of True Parents. I will close here. Thank you.

God bless, itn,  
David Carlson
