It was 40-day workshop of blessing and love for all the attending participants from Japan, Korea and around the world.

Dae Mo Nim's Words at the 188th Chung Pyung 40-day Workshop Closing Ceremony

"This morning I saw how much the Heavenly Parent was listening to the prayers of members who were offering it at the Jeongshim Won (Prayer Hall). It was not easy to receive any reply from the Heavenly Parent in the beginning of Chung Pyung Works. I could only receive a small reply after offering 10,000 bows. I felt that there was a huge gap between the Heavenly Parent and the human beings. However, now, we have the 480 billion absolute good spirits. The Jeongshim Won is a place where all the absolute good spirits and angels convey the prayers to heaven so I really felt that all the prayers of the members were heard by Heavenly Parent. We have to sustain the relationship so that the Heavenly Parent could love, care and give heavenly blessings of heavenly fortune to us forever. For that to happen we mustn't forget the one mind, one heart and one body lifestyle that we tried to fulfill during the 40-day workshop with the Heavenly Parent. Even after this 40-day workshop you still have to practice the principle at your home. We are living in an era where the spirit world and physical world are at the same place. The 480 billion absolute good spirits are with us. Whenever we face difficulties the absolute good spirits will help us. Don't think that it is bad and difficult but think, 'I am a fortunate person' and live a life feeling happy that the Heavenly Parent and True Parents are just with us. That is the way for you to be happy."

Through the 40-day workshop the trainees learnt the life course of True Parents and learnt the proper attitude for being a pupil in front of the Heavenly Parent. The members were also able to understand the grace of Chung Pyung Works. What is the heartistic attitude as an Cheon Il Guk citizen to live in this era? These were the questions that the members pondered in their hearts and received the answers at the Holy Ground, Jeongshim Won and through the Chanyang Yeoksa sessions.

Through the amazing grace and blessing received through this workshop it will brighten the 40 years from now and become the foundation of a greater 400 years to come.
