Guidance from the 1240th 2-day workshop

*Dae Mo Nim - December 28, 2013*

Please note: these notes are taken from a simultaneous translation, both levels of which, by their very nature, cannot express 100% of the original meaning. These notes are unofficial and are only for purposes of inspiration. Please use them responsibly.

Good morning everyone. The Special Great Works is next week, so during this time of 2-day workshop, not so many members usually attend. So, I am thankful that so many members came. Already, from the beginning of Chung Pyung works, there have been nearly 20 years, since the start. Such a precious time we have met. As for myself, Heavenly Parent, in the beginning, gave me words of request, and I am always wondering whether or not I am obeying those words given by Heavenly Parent. To fulfill my responsibility, I had to work with sincerity, based on fact, and without falsehood, with love, devotion, and sacrifice, and do so diligently. I was in a position where I didn't know anything. I said that I can't do Chung Pyung works. I thought that this was something which I could not do, because in the Unification Church there were members better than me. I had such a mind. Several times I said: "it is hard for me to do the Chung Pyung providence." Heavenly Parent told me: if you keep these five points, I will do the work. So I have tried to keep these five points, no matter what the situation might be. Even though the environment made me feel arrogantly, these are the promised points. I was afraid that Heavenly Parent could not work because of me. So, I tried to keep these five points.

I offered many different conditions. He confirmed whether I could do it or not. Such a time period was painful to me, because it was not at all simple making many conditions. I told Heavenly Parent: the time I felt I answered God so well. Difficult members came to Chung Pyung, and at that time I felt (gap in translation?) You need to attend your mother well. Some other people could not do so well. When in a difficult situation, I felt that True Father acknowledged me. I felt appreciated. The thing I want to convey to you today is this: the history after the fall of Adam and Eve is a history of evil. History is filled with indescribable fallen nature, falsehood, anger, greed, selfishness, jealousy, complaint, etc. Such is the content of human history until now. And, we are not perfected. But we receive the blessing, and are following this faith. True Parents already educated us, so we mean to be perfected men and women through the blessing. From God's viewpoint, we changed from that position. When I think about it, I don't feel we have made suitable changes that God expected us to. Not because of our faith, but because of a history of evil, a history of fallen nature, because of that nature. So, in our lives we need to have sincerity. We need to do things sincerely, and honestly, based on fact, without falsehood, with sacrifice, and diligence, and with love, no matter what the situation may be.

I asked God why love was not first, but sincerity was emphasized first. And honesty came first. God said:

if you don't work based on sincerity and honesty, you cannot achieve love. If someone is not sincere, and working based on fact, then it is not meaningful, and love will not be there. Diligence is also the same. Beloved members, as I lead Chung Pyung, I know well the history after the fall of Adam and Eve. Through doing ancestor liberation, and coming and going from spirit world, and through my conversations with the spirits inside your bodies, I know how people led their lives, and why we cannot achieve perfection. Why people cannot change, and why people are living like this (with pain, suffering, disease). When I think about it, without sincerity, honesty, truth based on fact, and without a mind of sacrifice and devotion, there is no love, no diligence. We are working for God's will and you members, you are in a position, but that doesn't mean you are working for God's will. You are working hard, but that doesn't mean that you are in a public position. We are in the history of the providence, but why is the world living like that (with pain, suffering, etc.)? Because, there is no sincerity, it is not based on fact, and there is no love. Among people we do dedication, but inside of dedication, if there is sincerity and honesty and a mindset of love and facts, in what position will God work? At the beginning of Chung Pyung works, God strongly told me: I WILL do the work. But for me to do the work, you have to be sincere, and work based on facts, and with honesty and love, with a mind of dedication and sacrifice, and you must be diligent. Without that foundation, even if I wanted to, I cannot do the work. With this attitude, you need to think about things at the end of the day, if I lived with sincerity, honesty, love, sacrifice, etc. However, as I said, in history between sincere people, who were diligent and honest and sacrificial, and those who were not, there were many more people who lived life with fallen nature of jealousy, anger, greed, etc. Those people were far more in number.

When I conduct ancestor liberation, human history is far longer than 6,000 years, more people lived life based on fallen nature and therefore, the providence of restoration has come to this point, where there is pain, suffering, and disease. If so, then we who know Principle, need to go the way of God's will. Already this is found in Principle words and True Parents words. True Parents instructed and showed us how to live life well, and make a good family. To live life with happiness, work with sincerity, based on fact, and with love and diligence, and to everyone in the family, in the church, in the neighborhood, in your tribe, your relatives, etc. We need a mind of sacrifice, sincerity, diligence, etc. When we are active, God's will can be developed. If there is no love, or sincerity, or you don't work based on fact, then evil will come and conduct the works of evil. The power of evil is unimaginably big. When I separate evil spirits from members' bodies, the power of evil is stronger than the power of people. Satan and evil are very strong. To overcome that we need sincerity, honesty, with fact, based on love. As I do Chung Pyung works, I can see all the history from Adam and Eve. When I opened Chung Pyung works, people came with unimaginable pain, suffering, and disease. They came as if just waiting for this moment. Outside people have pain, suffering, and disease, and members came here as if they were waiting for us. I called 400-500 people for workshops. I see all the reasons they have pain, suffering and disease; it is because of how their ancestors lived. They lived life centering on fallen nature. If I say this way, is it easy? One sister had a little baby only 100 days old. It was blind and didn't blink its eyes. She brought the blind baby. When I saw the baby, there were evident mistakes of ancestors. The ancestors killed people with a spear. That is why this result comes. When the resentful spirit is separated from the eyes of the baby, the eyes became better. Now, the number of mentally-ill people is becoming higher. Before, in older people; now, even in their 30s, people are affected, and dementia can come because of some spiritual situation. In Chung Pyung works, mentally-ill people, who were told there is nothing that can be done, I saw those people, and all the people they said could not cured, we could cure. The wrong lives of the ancestors were removed.

Pain, disease and suffering come because of fallen nature. The ancestor spoke, saw, heard wrong things. If a person was killed, or expelled from their position, then the spirits resentment went to the descendant. So, there are deaf, mute, and mentally-ill people here. As I pray for them, the spirit inside says: "do you know my mind?" The resentment I had because of the person who did me wrong, I was totally victimized by the ancestor of this person. So, we need to know the background, for the spirit to come out of the person's body. As I do Chung Pyung works, there are so many disabled people, and unimaginable people come to our Unification Church. I thought the pregnant women, when the fetus is in the womb, if you remove the spirit from the fetus, the disabled person can be fixed and a good baby born. Therefore, I began the blessed wives' workshops. There are even worse cases, some members don't talk about something, but when I see the child one-on-one, if the illness is cause by an evil spirit, then I can sort it out, and fix it. If the problem is not caused by a spiritual reason, I cannot do anything. Nowadays, even Down syndrome can be fixed. This is a result of your ancestor's life. And if so, if you live life based on your own interest, your descendants might receive bad things. So, even if you lose something, or you live life with difficulty, but if you live life with faith, based on fact, sincerity, devotion, and with diligence and love, then because of our virtue, your descendants will live life without uncomfortable situations.

Such words were given by True Parents. We need to keep those words, and live a life of faith. Even if you pray a long time, do you think that can bring change? Even if you offer prayer for 365 days, can you solve problems? What should be different? Your LIFE should be different. You have to change your life. Live life well. Prayer is not enough. True Parents forgave sin, and gave the blessing, but why development stop? Unification Church members, we need to think about this. All people, even people in the outside world, are inspired to see True Father's words. When people see True Father's achievements, they are very

inspired. Then, why are we not developing? We really need to change our lives! We need to become counter parts that God can work through. The environment is ready for them to work. We are the center of the providence. We need to live life based on truth, sacrifice, sincerity, honesty, diligence, etc. If we can do that, then good things are coming. Everyday offer sincerity, devotion, sacrifice, etc. For members not living life based on sincerity, honesty, etc. separation of evil spirits cannot be done, and pain, suffering, and disease continue. You need to think: do I have sincerity? Do I have truthfulness? Do I have love? Dedication? Sacrifice? Am I diligent enough? Can I be a son or daughter through which Heavenly Parent can work?

Now, compared with the time before, we don't have many disabled people in the Unification church. Before, a lot of smell was present due to atope. One child, you could not even see its eyes, nose, mouth, etc. The number of atope cases is now reduced, because ancestor liberation improved it. Evil is bequeathed to descendants. When I came to the training center, members came who don't look to the front because their neck is crooked. We can correct that. Because the spirit, in the same environment, so many difficulties, the ancestor killed someone. Because of this content our life pain, suffering and disease. We need to think about why we have pain, suffering and disease. Next year it is the 20th anniversary of Chung Pyung works. Because of ancestors there are such things. You must think to live life properly. One heart, mind, body, mindset. Such a lifestyle we need. We can develop and we can settle into the world without pain, suffering, and disease. This must be settled while Parents are alive. By 2020 we need to work hard in witnessing activities, and settle down the culture.

In the first grade, elementary school, there is a class on morality, and we need to let kids grow well, family education is important. I wanted to make other class ages by building a school. Ethics is loading now. I want to make the world better, with such kids that are in Cheongshim middle and high school. Character education along with knowledge education. Good people are needed. When I visit and see the school and talk with the principal, the students from Cheongshim Academy are model students. The student says: I got good grades because I studied well, and with character also. CS Academy is doing well. I will make an elementary school and a kindergarten. We have received permission. In Korea, there is a proverb: a child's habit from 3 will last until 80. I am thinking habits of age 3 can last a person forever, and influence the life of the descendants. We must raise students of the Middle and High School well. We think of them as our children. We do well, so the parents have a good feeling, and express their gratitude. Also, in Unification Church, we must educate children of character.

October 24 - 26 is Special Great Works. For that day, True Parents and Absolute Good Spirits are working very hard. So, I hope you can receive heavenly fortune. Peace Ambassadors, you came a little late; perhaps you had a late lecture? I appreciate your coming. As I carry out Chung Pyung works, Principle words I know can change people. Chung Pyung works is a place to solve the problems of humanity. Please understand more about us. Yesterday I saw all of you working hard. The 2-day chanyang session is good. Through chanyang session, I made this place. In 10 years I made Chung Pyung with my hands. Chanyang session is changing humanity, and relieving pain, suffering, and disease. Today, work harder and receive a lot of grace, and connect it with your life. Ambassadors for Peace please do your best to fulfill your responsibilities. I am very grateful you are here. I hope you can come to the Special Great Works. If you want to come increasingly, please do. Beloved members, we are happy because we have True Parents, we must fulfill our responsibility, we must be connected with sincerity, truth, honesty, diligence, sacrifice, and love. Please be careful of the weather and take care of your health. Be a happy family. I will close here. Thank you.

God bless, itn,  
David Carlson
