

Letter to True Mother on Her Autobiography Becoming a Bestseller in Korea

Ki Hoon Kim
May 4, 2020

Dear beloved True Mother, the Only Begotten Daughter,

True Mother, how are you doing? I am paying my respects to you with a Kyung-bae.

First of all, I would like to congratulate you on your autobiography, *Mother of Peace Who Wipes Away Tears of Humanity*, becoming a bestseller in Korea.

As True Mother spoke, you foresaw that truth and untruth will certainly be revealed soon and a new history of hope centering on True Mother, the Only Begotten Daughter, will open.

True Mother is the center of the providence of Heavenly Parent that goes beyond True Mother's family, nation, and the world, as people have lived in darkness.

As I understand the history of miracles by which you run the world providence, I believe the providence that is becoming one is occurring.

In the midst of this tribulation due to coronavirus, I believe that this autobiography is giving Korea hope, transforming the sad history of humankind into happiness and peace, and educating the world.

As I read the autobiography, I was inspired by three things:

First, I learned who True Mother really is. I read about True Mother's testimonies and introductions in several books, but in True Mother's autobiography, there are introductions about True Mother as the Only Begotten Daughter, True Mother as True Parents and Messiah, True Mother as Messiah who has worked with True Father, and God's Only Begotten Daughter who has been working constantly for the last seven years centering on the providence of world restoration.

From the first page, True Mother proclaims the Only Begotten Daughter firmly and clearly. True Mother explains the ideal and practice of the Only Begotten Daughter as introducing True Mother's family that is always the center of God's history of providence.

In December 2014 in Las Vegas, True Mother spoke to 330 clergy men and women and talked about the providence of Heavenly Parent and especially the providence of Christianity. True Mother also proclaimed the Only Begotten Daughter for the first time and all clergy present gave a loud applause as they realized the big truth. I will never forget it.

Also, about two years ago, you greeted the members of The Washington Times Fact-Finding Tour to Japan at Tokyo Hotel. As soon as you received a flower from the former director of the CIA and his wife, True Mother asked them, "Do you know who I am?" and you told them, "I am the Only Begotten Daughter."

Later, True Mother always spoke in public about the providence of Christianity and clarified that the providence of Heaven is the history of finding the Only Begotten Daughter.

With this kind of experience, since I could understand the providence of the Only Begotten Daughter whenever I turned a page, I was really inspired.

True Mother is my mother and the Mother of Peace who went through a period of growth as the Only Begotten Daughter with God's blessing and has won the cosmic victory after going through family, the nation, and the world.

Second, this Mother of Peace autobiography is a textbook that testifies to True Father the most. You testify to True Father's world activities as Messiah, how True Father overcame all kinds of tribulation, and the providence of the victory proclamation.

The most inspiring part in the book is when True Father called True Mother on the phone in the early morning after his first night in Danbury on July 30, 1984. True Father said on the phone, "With following God's mission, ignite a fire within Christianity. Please deliver this message to all church members."

True Father asked you to work for the awakening of Christians.

True Father was saying that America, which is a Christian nation blessed by God, was supposed to welcome True Parents and take responsibility to attend True Parents. True Father was also sharing his love for America.

True Mother's testimony about True Father is very precious; a testimony that no one else could make.

As True Mother explained this to American church members, True Mother made us determine to inherit the victorious foundation that True Father and True Mother laid down with their blood, sweat, and tears.

Third, True Mother who is the Mother of Peace and the Only Begotten Daughter, proclaimed the great victory of the last seven-year course. How can we explain True Mother's course and the providence of the Only Begotten Daughter in only a 408-page autobiography?

Despite that kind of limitation, by transcending True Mother's longing heart to Heaven's heart, True Mother movingly testifies the great victory of the Only Begotten Daughter who overcame all circumstances. By reading the part about the providence of America three, four, five times, I tried to do my best to understand it.

True Mother, after reading the part about the event on December 28, 2019 in Newark almost 10 times, I realized something amazing. While I was sitting next to the stage that day, I heard True Mother sobbing while wiping your tears during your speech. I had never seen you like this before.

I told the church members that it was tears of joy because of the great victory of True Mother. I also told them that it was tears of happiness.

There is the following content at page 400 of True Mother's autobiography:

"December 28, finally we held the 'Clergy Rally, A New Hope for a Heavenly Unified World.' About 25 thousand Christian clergy men and women and members from America and the world attended. Through this, WCLC [World Clergy Leadership Conference] was finally launched. My determination which is 'I will accomplish True Father's legacy' is to have Christianity become one."

I read this part more than 10 times and I finally came to understand about the tears of joy of True Mother on stage. I shouted and shouted out that this was True Mother's great victory.

And then, I testified about True Mother's great victory to our members. I clearly heard and saw.

Seven years ago, on the third floor of the Cheon Jeong Gung before True Father's Seonghwa Ceremony, True Mother kissed True Father's forehead and said, "True Father, thank you for your hard work and please take a rest in the spirit world without worrying about the earthly world. I will certainly accomplish the will of your legacy."

As I read your autobiography, I felt so deeply moved. The moment I realized your determination that you would accomplish True Father's legacy and have Christianity become one. The scene where True Father was wailing as he was walking on 5th Street in Manhattan in the early days of the American mission. True Mother finally accomplished True Father's legacy, shed tears of joy, and tears of hope and great

victory.

I also couldn't help but wail with limitless gratitude. I set foot in the church with my aunt and have lived a public life ever since. I felt like I finally found the last piece of the puzzle that I have been looking for the last 55 years. So, I felt like I got a great victory and made a new determination.

Despite all the persecution from Christianity, True Father founded the Holy Spirit Association for Unification of the World Christianity on May 1, 1954 and he said the purpose of founding this is actually Christianity. The Holy Spirit means the work of True Mother's holy spirit. The purpose of the Unification movement is to unify Christianity through the work of the holy spirit.

On December 28, 2019 at the rally in Prudential Center, through True Mother's effort, the providence of the Heavenly Unified World was launched from the era of unification of world Christianity. What a joyful day it was for True Father and Heavenly Parent!

This joy was transcending through True Mother's tears of joy.

Family Federation for World Peace and Unification (FFWPU) was founded on July 30, 1996 in Washington, D.C. The purpose of FFWPU was to realize world peace beyond the Unification movement centering on world Christianity. With the foundation of this great victory, at the celebration of True Parents' centenary and the seventh anniversary of the Foundation Day of Cheon Il Guk, True Mother finally proclaimed the establishment and settlement of Cheon Il Guk in Heaven and on Earth, and blessed all 7.8 billion people.

True Mother really is giving new life to not only all those who read the autobiography, but also the first and second generation who have followed True Parents.

With my limitless gratitude to the Mother of Peace, I am offering my humble letter to you.

True Mother, may you live long and be happy.

Only Begotten Daughter, True Mother, Eog Mansei!

Only Begotten Daughter, True Mother, Eog Mansei!

Only Begotten Daughter, True Mother, Eog Mansei!

Yours sincerely,

Ki Hoon Kim
