Robert Abendroth

The main thing I got out of the visit from Rev. Chung was the power of jeongseong. I was inspired by Rev. Chung's testimonies about how when he was able to break through in prayer, amazing things happened. One thing he mentioned was that True Mother wants us to know the power that we have within us. We have the power to really move the spirit world. I felt that True Mother wants to see miracles and incredible results from us. The problem is that we simply don't believe that we are capable of what she would like to see. We need to break through in prayer and jeongseong and break through our limited mindset and beliefs.

Another thing that struck me during Rev. Chung's presentation was the importance of Hoon Dok Hae. At one point he said that reading Hoon Dok Hae can solve all your problems. Of course we need to implement what we learn but I felt strongly that God was saying Hoon Dok Hae is the spiritual medicine that I need right NOW.

Overall, throughout this weekend attending all Rev. Chung's lectures, I felt spiritually clearer. Rev. Chung prayed to finish the program and it was the most incredibly powerful prayer. I sat quietly listening to it but it somehow felt healing to my spirit.

Thank you Rev. Chung for visiting Washington DC!

Tomomi Abendroth

My intention to attend the special session by Rev. Chung was to understand True Mother's heart and

vision for 2nd and 3rd generations education since I am working with young adults mainly CARP. It would be important to know how we should raise American youth and young adults centered on Mother's vision and desire.

In the session, Rev. Chung asks us questions in the beginning "who are you? Where did you come from?" " what does 2nd gen mean? ". Also, Rev. Chung read True Parents words about mission. True Father said everyone has a mission from God. Each person needs to find a mission that God gave to each of us based on own character, hobby, major. I was impressed that God has a blueprint for each of us. God created everyone as special and wants to realize God's dream together with human beings.

So I would like to see our 2nd gen with God's eyes, and guide them to find their missions as God's gift. We usually decide their own careers without God's point of view, or we see ourselves as a normal, boring person. Even some young people don't have an idea for a future career.

But If our 2nd gen finds their mission centered on God, how they could make changes in society and contribute to God's Providence and support True Mother.

Some of them can be public minister, others also can support True Mother through finding unique and special mission from God.

Our 2nd and 3rd gen are born from True Parents. I truly believe that we can find our purpose, career, vision by connecting True Parents.

Rev. Chung shared about his difficult childhood as he grew up as one of the first 2nd Gens in spite of his most challenging experiences he accepted and realized the mission to substantially build Cheon Il Guk.

He was able to convey to the young people in his speech that their purpose in life is just that! He clearly charged them to explore their vision for their lives and connect it to the providence of building God's Kingdom here on earth. I felt he was the most authentic person and had spiritual authority to do this so it could be received as if we heard it for the first time.

Also, his examples and answers to the many questions were amazing and insightful.

Thank you, Rev. Chung.

Ndassi Babatunde

I had a great experience listening to Rev. Chung teaching.

One that resonated with me was how we treat our kids and how the Jewish people treat their kids. I reflected on my past and how growing up was difficult. As Rev. Chung said kids develop resentment when they are being yelled at all the time. Even though I know True Parents, I struggle on yelling at my kids. But Rev. Chung's explanation made me take a firm decision not to do it. We are chosen people and have God and True Parents true lineage, the 2nd generation to care for.

I am grateful for Rev. Chung and our leaders for putting this seminar together.

Thank you!

Yosei Arakawa

I learned from Dr Chong's lecture about the spirit world. I learned that prayer is very important and powerful and I use prayer as my communication to God. I also learned about Jeongseong and how it is all of our energy offered to God. It is like a give and take action. I am still learning more on prayer and what it means to me. We saw a movie about a selfish being spending money on materialistic things who judged people and were stingy who saw hell for the first time. That made me think of the ways I was living my life and how I could learn what to do with my future decisions.

I know about True Parents and that foundation is very lucky to me because I can understand that true parents taught us the way of life like living for the sake of others and having a heart of hyojeong. That is what sets us apart and that was my reflection.

Thank you, Dr Chong, for coming all the way from Las Vegas and giving us great words.

I am grateful that True Mother opened Cheon Shin Won in America to bring Heavenly Fortune to this Nation. I am also grateful that She sent Rev Chung here because she could feel what America needs right now.

Rev Chung visit on the DMV was a mind blowing and opening to me with his own experience with the Spirit World and do many other testimonies to show us the spirit world is real and he is experiencing the returning resurrection substantially through his elder brother to let us understand how much serious we must take our life on earth, and to resolve all issues so that when we are asked by God on our last day on earth: are you a good son or daughter yes or no? We must answer "Yes".
