[Description](#)

ENGLISH / The COVID 19 pandemic is bringing widespread difficulties to many parts of the world, East, West, North and South. Governments and citizens are facing enormous challenges, politically, socially and economically, all in addition to the threat that the virus itself brings to each one of us. Governments around the world are doing their best to respond effectively and expeditiously to the pandemic and the disruption and suffering it brings. Recent "Peace Talks" have focused on Africa, Europe, USA, China, the Middle East, Latin America, and the Caribbean. For this webinar, our attention turns to the Caribbean region. We have a very strong group of panelists who share their perspectives on a variety of issues related to the pandemic from political, economic, to social issues. It is our hope that this convention will provide insight into the grim realities faced in the Caribbean region as well as the "best practices" that are emerging.

ESPAÑOL/ La pandemia del COVID 19 está causando una interrupción generalizada en muchas partes del mundo, este, oeste, norte y sur. Nuestro enfoque para este foro web se centra en el Caribe, un grupo selecto de panelistas compartirán sus puntos de vista sobre la realidad que enfrenta el Caribe, de cara a la pandemia y desde las perspectivas política, económico y lo social.
