

## UPF International Newsletter: International Leadership Conference Wed and Thurs

Thomas G. Walsh  
April 5, 2022

[View this email in your browser](#)

Since its inception, UPF has sponsored a series of International Leadership Conferences (ILC) aimed at addressing the critical challenges of our time. Participants of all national, religious, cultural, and ethnic backgrounds have participated and benefited from this series over the years.

UPF co-sponsors programs that bring together experts from every country and sphere – political, academia, business, media clerical and the arts – to explore non-governmental approaches to improved relations between the DPRK and South Korea, and among the other stakeholder countries of the region. UPF is well-known for sponsoring dialogues and conferences to bring conflicting parties together in one room to work on the divisive issues.

**This upcoming ILC will examine leading trends that are shaping the “world order,” identify problems and suggest workable directions.**
