00:05:01Betsy Jones joined the unified family in New York City in 1967 with a graduate student at Columbia university teachers college.

00:05:10To therefore did pioneer witnessing work in New York City and Berkeley California she and folly we're blessed in 1970 as part of the 777 blessing ceremony and Seoul Korea.

00:05:21And, starting in 1972 she was one of the first five itinerary workers are idle us chosen to support the early stage leaders traveling to church centers for several years, he often visited me in.

00:05:36consoled my was in my tier dried my tears so so grateful to you for that she served on blessing committees in the late 1970s.

00:05:46Working with Nora spurgeon and the national blessed family department for five years and then later as Director.

00:05:52She with her husband helped direct camp sunrise for four years and serve that the national Vice President for the woman's Federation for seven years.

00:06:10With women's federation's you traveled to Russia Israel in North Korea and lived in South Korea for many months, assisting with programs promoting North and South Korean unification.

00:06:21And finally, spent many months in Mexico in her role as national Messiah to that country.

00:06:56you're still you're still muted.

00:07:06I have to unmute you.

00:07:16Here, she can you help asked him to unmute.

00:07:27One second.

00:07:37Can you unmute now.

00:07:44There you go sorry about that.

00:07:47My fault, thank you.

**Farley Jones**

00:07:48Okay, can you hear me now.

**Steven Boyd**

00:07:50Yes, we hear you fine Thank you already hit.

**Farley Jones**

00:07:52Or, yes, thank you.

00:07:54Well Hello everyone.

00:07:59 Thank you for participating in this special moment um.

00:08:05 yeah.

00:08:07 it's impossible to capture Father in.

00:08:11 This short time for each of us.

00:08:15 But we'll try to do our best, knowing that our efforts are inadequate.

00:08:21 Now as Steve said I was the president of the church when father and mother began their mission, the United States and that gave me the special opportunity to encounter them on a personal level.

00:08:36 And that encounter meant the world to me and i'm going to explain why, when I was a young boy probably around 10 or 12 my own father left our household.

00:08:49 It was a very painful moment for me and.

00:08:57 moved it was a wounded experience in the years thereafter.

00:09:04 I carried an unconscious need to connect with a father figure as part of my psychological emotional spiritual healing.

00:09:15 That happened with with true father.

00:09:20 I had been appointed President 1969 they began their work they came here to us in 1971 roughly two years after I become the President.

00:09:32 And I was in bad shape I I was, I think 26 years old, when I was asked to be the President.

00:09:39 I was two years in the movement, I did not have the emotional psychological spiritual maturity to handle that role and and I knew it.

00:09:50 So I asked to see Father personally when he you know, a couple probably week so i'm not sure how long after you arrived in us, I wanted to resign.

00:10:01 The Presidency he met with best in me he sat down with us on the floor of his bedroom and counseled off and particularly me and encouraged me to go on, you know stay the course there after knowing, I think.

00:10:21 something about my need he began to pay attention to me, I never will and kind of let me know that.

00:10:32 He would see me and aware of me and caring for me, I remember one time he and mother were sitting at a dining table in the basement of Opera House in Washington DC and I walked into the room, he raises hand it gives me a big way.

00:10:50 and invites me over I was very different, so I traveled with mother and him in those weeks during their seven city speaking tour I had other special moments with them and then return to Washington with them.

00:11:12 When when he left a company in depth in the airport, I said I said Father before you came I had very little hope for United States now I have hope.

00:11:25 And he was like this, you know shook his fist he was responding well yeah I did have more hope for the for the US, but I think actually I had a hit more hope for myself and a couple days later, I met with the Washington DC community to give them a report on the seven city tour.

00:11:46 At the end I don't remember everything I said, obviously, but I do remember I said this, I you know, through this experience, I feel like I found my father.

00:11:56 So.

00:11:59 And that's you know comes down to my deep core.

00:12:06 And over the years that I continue to have other experiences with him, not all good.

00:12:15 But even so, you know.

00:12:19He continued to accept me and care for me and love me and.

00:12:26You know how this humble person from the small upstate New York City State city could meet.

00:12:36True fathers beyond me how it happened, but it happened, all of us, and I just had the blessing of have it be very personal now.

00:12:46there's other things that I did write a memoir and one of the purposes of my memoir was to testify to Father and if you're interested.

00:12:57You can find out more, but I do want to say that Betsy and I attended his son, who are in in Korea 10 years ago and.

00:13:08The end of it we wave goodbye his his purse was carried up the mountain and, as I said in my number or we say goodbye, but in fact it wasn't goodbye, a few months later.

00:13:23I had a most remarkable experience which i'll just state very quickly of experiencing father's heart in my heart, I were in Hawaii at the time I was just walking in our living room and all the sudden.

00:13:40I felt.

00:13:42This heart of infinite care pure infinite care in my body in my torso I felt and I knew instantly.

00:13:54This was Father moons heart and how I could have this experience I have no idea, but I, I felt that I, and this was father's heart infinite care, it was clear, it was his heart it's also clear me my interpretation immediately was Oh, this is the heart of God.

00:14:16So.

00:14:19Why did I have the excuse, I feel I had that experience, so I could talk about and and.

00:14:29offer testimony to the to the father of heart this man infinite heart.

00:14:38And, and you know I just saw a small.

00:14:42manifestation of it my experience, so I don't know where I am in my in my nine minutes.

**Steven Boyd**

00:14:49Good.

**Unknown Speaker**

00:14:50well.

**Farley Jones**

00:14:52that's what I wanted to share and I guess at this point i'll just turn it over to you.

00:14:58Thank you.

**Steven Boyd**

00:14:58Thank you very much.

**Farley Jones**

00:15:03I.

00:15:05wanted to think of one one point that I love to Father about and there's so many.

00:15:15But I I remember just.

00:15:19The tears that I witnessed him shed.

00:15:22The love that for through him.

00:15:26It all felt like it was coming from beyond.

00:15:30So for me, he was a link.

00:15:33Between us, and God.

00:15:36in a special way more than I had ever experienced so I I honor that to Father today who dedicated his whole life to.

00:15:48Share god's suffering heart and work with all his everything he had with true mother.

00:15:57To give us the tools to overcome ourselves our ancestors trees.

00:16:06These tools, whether you know you know translating the divine principle and giving it all around the world, teaching it even coming in the beginning with you know, three rounds of 21 days or whatever it is, he kept trying to help us have these tools.

00:16:25To prepare us for the blessing in such a personal way, and then to multiply this blessing as we've seen through the years, these are all miracles before our eyes.

00:16:37That have multiplied from this foundation from this goodness of our true parents on time, I asked Mrs. you how is she able to overcome her suffering as an early Member, and this is Jill so you said.

00:16:56I watched got back to Father comforting God his whole life.

00:17:02And that was his strategy to overcome his suffering, so I decided I would comfort father and with my life and my response and I think about it that's the joy of my life is.

00:17:20The times I could respond to Father it took me places I never could have gone on my own our own.

00:17:29But just joining in New York City, we were guided before we even met true Father witness witness in New York and Berkeley.

00:17:38And and working with Edwin on there and seeing the fruits coming we were excited in the early days, but then coming to meet true father, a year and a half later, for me, was was a moment i'll never forget, where.

00:17:55He came down the line.

00:17:58And he ended up.

00:18:04Trying to.

00:18:06shake our hands, each one when he came to me he goes where your ancestors from you know, and I, and I said, Ireland, he goes I rishi and got all excited.

00:18:18I felt like my ancestors were so excited that my life in this man had crossed, and that that this this was going to bring a whole new fortune to me, I really felt that that time.

00:18:32And then that first visit in 1969 I can still remember his his focus was spiritual children.

00:18:40Saving mankind, so he first thing is given tell me your name and then tell me how many spiritual children, you have.

00:18:48And I felt like just that little bit of effort that I made made a common base so that.

00:18:53I could say some something that he that I understand your father, I understand what you were trying to do with with your life and and just that small experience made me want to get become more like him try, along the lines that he's suggesting.

00:19:12And then you know we went to the Korea.

00:19:17and

00:19:18I just remember one personal experience with Father with Charlie and I were asked to ride in the car with them somewhere and.

00:19:26 We had this very nice sharing and he was so full of love and life and, at the end of it, he got out and he said, good restoration partners.

00:19:36 So he couldn't foresee that in the future, we might have some difficulties, but he was cheering us on and even at that early point and before we left Korea he kept saying love your enemy.

00:19:48 love your enemy and your enemy will be your mate and we're all like what is he talking about him, but you know that that direction of giving up that resentment and overcoming that with your may with your in my case, my in laws, when we moved up here.

00:20:08 With my children when some of them wouldn't do what I thought they should do.

00:20:12 All this kind of love your enemies strategy was not only father's key point, but for me it was.

00:20:20 sell vivek that I could see his example every turn of everything he asked of us, we always saw that he was way ahead of us.

00:20:29 simple things like the beginning Friday night is no salary full full time we said we'd a private meeting we hated to bring it up, but valve finances father and he said.

00:20:40 don't forget mother and I were the first plus couple and we're like yeah that's right they went through all this.

00:20:47 So we can go through it and that's the spirit of our whole life they were so far ahead of us so everything they asked us to do was only to share the blessings that God had to give us, and even if it meant, you know.

00:21:03 The first five years of our marriage the 10 years of our marriage five we weren't with each other, but somehow we learned to love each other more when we came back from those at those times of being.

00:21:17 itinerant workers or helping in different capacities and it seemed like.

00:21:24 father's behind father's direction that he ever gave me was always like opening a door to come closer to God that was my experience, so that it just didn't make sense, logically, to find your marriage by leaving it to find a true love.

00:21:44 By giving it to others, so that somehow your your children also.

00:21:51 could go through that with you and and be blessed in their particular unique ways So these are things that were lessons that we learned and things that.

00:22:03 didn't make sense from worldly viewpoint but live seeing the consistency of true parents life and dedication.

00:22:14 And the end the the result of where things are today is a scientist the deep commitment and love and connection to God that they have and that neither one would waver from that original commitment and we're so grateful to have have had these opportunities to work with them to.

00:22:39 learn from them.

00:22:43 And just I guess as a final thought, I wanted to honor this occasion by sharing a home that at one seminary graduate had written.

00:22:55 named Lloyd howell and it's called.

00:23:01 Beyond john it's a he he wrote this poem referencing a Korean temple bell noted for our sound that is said to reverberate for 40 miles and it expresses his heart towards Father room and I I it expresses my heart as well, so i'd like to read this poem and conclusion.

00:23:27 And this 10th anniversary of to father's passing.

00:23:32 Young young.

00:23:34 Your life is like a temple bell.

00:23:38 That has stopped ringing.

00:23:41 Yet, oddly enough, our hearts still reverberate still feel your call to prayer and service.

00:23:53prayer and service is intimate prayer throughout the day.

00:23:58is something that that Father does.

00:24:03To mother does, we have tried to inherit that and the constant service of others.

00:24:12This is the life that they lead.

00:24:15This is the LIFE they've given to me they've given to us and to all of us.

00:24:21And I could never have imagined.

00:24:25The the.

00:24:28The blessings that have come from this path, but Father knew what he was doing, and he never relented sometimes it felt like he was commanding us to leave our homes.

00:24:41And I at various points that was a weak point for me i'm more of a stay at home, you know if I could.

00:24:47And you know he'd call us through a breakfast meeting and present like another plan for BA and maybe this is on and.

00:24:56And I and Dr. Mr. spurgeon could work together, and you know, and I was like investee why don't you be more public now you know, and he would tell me directly, and I, and I love that I love that he pulled me with them.

00:25:15I just honored him today.

00:25:18I love him today together.

00:25:22we're happy to be here that we all can do this together, thank you.

00:25:46And the right opportunity i'll be happy to address them to our our couples that are with us tonight, so, but the absence of any question i'm going to move on now to our next couple, which is Dr. use Burton and Mrs. Mr. spurgeon.

### **Hugh Spurgin**

00:27:26Or we unmuted.

### **Steven Boyd**

00:27:27You are you good you agree okay.

### **Hugh Spurgin**

00:27:31I gotta show my wife, a little more there I wanted her to go first, but she keeps saying I shared.

00:27:40Oh it's hard to follow the joneses I was asked to talk about some of my experiences, who are true parents and that's almost impossible job.

00:27:52Not just in a few minutes could take much years to even began we've had you know hundreds literally hundreds of wonderful experiences, of course, we consider the true parents.

00:28:08The greatest people who have ever lived on the planet Earth and fulfilling jesus's mission to establish the Kingdom of heaven on earth.

00:28:21A true parents have dramatically profoundly influenced our lives, I was just reflecting a moment ago on a cool Chinese calligraphy that Father wrote.

00:28:35In bridgeport he'd come to bridgeport to.

00:28:41For a ceremony or new health Center at the university.

00:28:48and

00:28:51We didn't know if he would come to the high school that was on the university campus we had no idea and we had students and faculty and staff everyone waiting.

00:29:03Finally, I found out where he was he was in the library.

00:29:08at the University on the first floor I went over there spontaneously.

00:29:17did a full bow and running father.

00:29:21and mother and asked them to come to the high school and father immediately stood up and said i'm going.

00:29:31that's been my experience over and over with father.

00:29:36To express.

00:29:40willingly whatever I want it, I was a little concerned honestly speaking when someone recently.

00:29:50church Member.

00:29:52indicated the thought that our movement and father were just operating top down.

00:30:00Making all the decisions as if they were coming straight from heaven, with no input from any of us, and that is not my experience at all.

00:30:13it's the exact opposite it's not really.

00:30:20Even reasonable that Father would not be concerned with our our point of view, and what our input i've been in hundreds of different.

00:30:34conferences, but meetings at the breakfast table, of course, much of its going on in Korean but I got translations and I was able to give my ideas and.

00:30:51Have input in what was going on before public announcements were made and I saw how the closest disciples of true parents.

00:31:04They were that way they freely spoke sometimes Father would school them or he would praise them it didn't matter they always came back the next day happy and ready to interact and I learned from them that you know father's love as farley and Betsy said.

00:31:32That his essence is love.

00:31:35And you don't need to be concerned or afraid about anything.

00:31:40around him he's going to protect us love us and just do what's best for us guiding us he a number of times, he asked me personally, what I wanted to do here or there.

00:31:56When I had a choice on missions, or in terms of whether I wanted to the seminary.

00:32:05Yes, do you want to go or.

00:32:06Not and I told him I want to go so.

00:32:12My experience is not father and in a remote.

00:32:19way pontificating from a pulpit or so.

00:32:24My experience is the real Father that comes down to where we're at and loves each and every one of us, he came down off a stage rebuild a big stage.

00:32:40At the time of the hometown Providence by the game incredible speech a message and I was sitting at the bottom of the stage and as as he came down, he said, push them out.

00:32:58To their hometown.

00:33:02He really.

00:33:05cared about each and every one of us and I often felt as I sat there on the floor.

00:33:15Listening to Father that he was talking directly to me many, many times, I had the experience, where I had some concern and I go to bel air to his talk and he answered it right on the spot now he was given a servant everybody, but somehow what he was saying was relevant to me.

00:33:42And my family, so it was a little difficult for me to choose when I was asked to talk about some experiences with.

00:33:52Father Porsche we love father and mother and all of what they've done for America Father set the standard now for how we deal with the current crisis in America, because he confronted the same thing 40 some years ago, and so I see.

00:34:15what's happening in terms of the provenance and the need to just follow father's direction on how

to deal with the realities of the world, but i'll give a few examples of.

00:34:28My own interaction with Father in 1974 a father was traveling by car from New York to Denver to speak to a group of European.

00:34:44Get students.

00:34:46I heard, he was coming I was the leader of a regional area centered out of minneapolis I called Mrs. one pot che in Chicago when father and mother stopped there at the Center she, of course, was father's personal Secretary I think many of you know, our.

00:35:09Last time I saw her I just ran up and started hugging there and then I realized afterward wow maybe I shouldn't have done that.

00:35:18But she was all just like father, mother, so I called her and said we've got many new members up here in minneapolis and they would be really excited if you could come up Father completely changed his itinerary.

00:35:36And came up there traveling by car and he gave just an amazing spontaneous talk, I remember well but, at the very end he picked up a flower.

00:35:47From one of our new church Members who had been selling we've been selling flowers and other things, and he said, why are you selling this and she said something and several people you know the save the world save the planet to you know, bring the Kingdom of heaven on earth.

00:36:07He said yes all of that, but you're doing it for yourself, for you and your ancestors, and I remember that wow so he ended up having to fly out of minneapolis in Denver, because we putting behind schedule, but Father responded in a beautiful way, and he just love those new members.

00:36:32Just a few other examples, father, of course, as we all know.

00:36:37Why.

00:36:39Only two minutes.

00:36:41Better skip a few needs.

00:36:44Okay, and.

00:36:47we're going to talk about fishing but that's too long.

00:36:52Let me talk about something else in terms of input.

00:36:57There was a point when hundreds of couples from the 2075 blessing and Madison square garden we're still living separately and and not be done their family life, because they as single Members before the blessing they went back to their original.

00:37:18church Center.

00:37:20and David and hose and I discussed with Reverend kwok the need for a plan to solve this situation, so we worked out.

00:37:33A whole list of there's hundreds of Members that were separated couples were separated, none of the major leaders wanted to lose members that's the truth of the situation, because the Center George that lar so they wouldn't do it on a case by case basis, we tried that that in work.

00:37:56So we decided we got to do it night nationwide all at once, where everybody's in a win, win situation, where every leader would gain Members as well as lose members.

00:38:09So we came up with a plan and a list to enable the why of all of those couples that were separated to join their husband.

00:38:22We went I went with Reverend qualities garden.

00:38:26If you know the old mansion I sat in the waiting room, which is like they call the yellow father was playing pool.

00:38:35And Reverend Kwak went back and spoke with him showed father, the plan and the list of names

and within a few minutes, it was short time.

00:38:50very quick when required came back and said Father approved everything do it.

00:38:57Now for me that was because the spirit world.

00:39:04The timing was right if we done it a day before it might not have been same situation, but we I learned from Dr. Pak long ago.

00:39:15That we can take initiative with our church leaders and they will respect our opinions and they will consider them and they'll take them to follow, so that was one example i've got all kinds of other examples, mainly like related to fishing.

00:39:38I have so many memories, but.

00:39:42I want, most of time, I went fishing with father, I was in an accompanying boat.

00:39:48But one time at Barry town on the Hudson I was in a city in his boat.

00:39:54And he was sitting up front legs crossed all of his lines, he always had many lines out usually likes as many as seven or more, and he looked to me like Buddha a modern day Buddha because father was meditating.

00:40:15praying.

00:40:16strategizing.

00:40:19About watch the provenance needed next, so I had different experiences glocester.

00:40:30different places, but one experience was in Alaska and this shows father's determination and courage, I was up there, different times.

00:40:41But I was in a company boat in a stormy sea as we were, and we were nearing for some reason the Bering strait we've gone far north much further than we'd ever gone before I didn't know where we're going I was worried.

00:41:03i'm sure many people wanted to turn back, but Father didn't turn back in the midst of that storm he just kept going until the storm subsided, and then we went home in the late late night early morning but father was.

00:41:25buried determined, but very loving and considerate of each and every one of us, so we could go through many different kinds of experiences, I guess, if I have just a moment i'll go through one more which was at Barry town, the first two classes in the seminary and and tivoli bay.

00:41:52father had designed nets and had a plan of how to catch carp.

00:42:00And that first night that he came up with all these materials and things to do what he wanted to do.

00:42:09He relied on two people only to put the net together in the proper way daikon a new key which my roommate and ups and matsuzaka.

00:42:22To Japanese and he gave him directions and jetta Japanese how he wanted it most of its just standing around with our hands in our pockets, not knowing what to do.

00:42:34But.

00:42:36One thing was I learned.

00:42:40And this partly it's my historical background.

00:42:45We went from a situation where only two people know how to put the nets together properly to where everybody.

00:42:55At ut s not just students and staff even little kids were involved and put in the nets together so Father sets the standard and then he opens it up to the world, but we went down a very cool several days actually cold weather to catch carp and it was.

00:43:21A campaign to take the car and put them on the berry town property at first, and the swimming pool, but that didn't work but finally in a pond and it was like being Jesus's disciple.

00:43:38Taking people from hell to heaven and father.

00:43:44Normal talk about some of her experience with Father with fishing but Father use that as a way to teach us about witnessing to our fellow Americans and people around the world, so I'll stop at that point and turn it over to my second Messiah.

00:44:05My wife nor I should mention that Father really love Nora and.

00:44:14saw her as a representative of American women so conference after conference meeting after meeting he would directly speak to her, but I just.

00:44:27remain humble.

### **Steven Boyd**

00:44:30Thank you.

00:44:31Bridget Thank you.

### **Hugh Spurgin**

00:44:35Okay Hello Thank you everyone is so good to see you and hear you.

00:44:42I just want to mention that, right after father's someone.

00:44:47I was looking through.

00:44:50Is it okay.

### **Steven Boyd**

00:44:52Yes, you're good you're.

### **Hugh Spurgin**

00:44:53Good you know.

00:44:55I was looking through a lot of pictures and I was looking at picture after picture and noticing how father had this big beautiful smile on every one of them.

00:45:05And I thought, how I missed that beautiful smile, because it was so embracing and so broad so that was just such a nice memory is beautiful smile.

00:45:18And I also recently we've been going through again his memoir and I was noticing how much he loved nature always talking about nature and how use nature as examples to educate us and just just a nice nice way to.

00:45:39enjoy the world around him and, of course, that related very much decision, so I want to give one fishing incident.

00:45:48When I was President in a woman's Federation for world peace, he we read he started and he said he's going fishing now in the Hudson Bay and he said.

00:46:00Not Nora you come and go on my boat, so I went along on his boat and he said in the front with all his fishing gear and I was in the back and I thought to myself oh I'm not a fisherman at all, but he's going to expect me to catch a fish and I knew that he attaches significance to the.

00:46:23People fishing and and the fish they catch, so I thought as women's Federation for world peace leader I've gotta catch a fish.

00:46:32And, just as I thought that I gotta fight, and it was very sudden and there was it was really strong, so the Korean members that were on the boat came and helped me reel it in, and it was a 32 inch striped bass, it was a very large fish and father you meet me Father turnarounds who caught.

00:46:58And so I was so happy that I could bring some kind of.

00:47:03Success to him because I felt that he was he was checking to see if I would catch a fish and I caught one.

00:47:13So.

00:47:16It said something to me to about the fact that what we think can have immediate response, even in nature, so it was it was interesting.

00:47:31In conferences Father often called me out he I know he saw me as the representative American women which wasn't always good.

00:47:40So he would call me out sometimes he would scold me sometimes he would encourage me sometimes he would joke with me and sometimes he was educating the American women by a talking what he said, so I always had to stay alert, but one time he he was talking about.

00:48:04US selling Fitch and he said 70 calls to Nora will you stand on the street corner and sell tuna.

00:48:14And, of course, you want a funny picture that would be standing on a street corner so like tuna and then he said, made it even funnier he said in the smell and then he added in a Bikini well everybody that caught everybody's attention so there was no way sleeping anymore.

00:48:34Anyway, he.

00:48:37He would joke around many times during his speech and he would keep people attentive to him.

00:48:45So.

00:48:48It was that sense of humor that made him very, very human and very real to to all of us.

00:48:56And he certainly pepper the speech with humor.

00:49:01Okay, another experience that I wanted to share was when we were submitted I need some water.

00:49:12What are the experiences, when we were working at BA he had sent me to pursue at bridgeport international Academy, the high school he had sent me to work with you, and he was the President.

00:49:26And we were went to East garden one day for and had break and he said, for us to come and have breakfast with him, he was human eye and Betsy and farley and Maria and Edward.

00:49:38And so we sat at his table, and it was a beautiful experience he was sharing.

00:49:43His remembrances of us as elder couples and some of the and he even asked questions about some of the other elder couples, and so it was just a nice time together and then all of a sudden, he asked about the school and he said that he was going to make me the principal.

00:50:04So I was shocked me, I have to be the principal of the school and anyway, and then he said.

00:50:14Betsy and Marie should serve, we should work as a trinity and Betsy and you should help that he wanted the mothers to be the educators.

00:50:23So I went home feeling kind of the heavy burden and I said to you well, I guess, the first thing i'm going to do is appoint you to do the things you've been doing.

00:50:35Anyway, to I needed his help any way then two days later, it was Easter Sunday morning and we went to East garden and fathers were speaking and all of a sudden, I hear my name.

00:50:50And he said mothers of bridgeport stand up and then he said i'm going to give an order i'm going to give a.

00:50:59\$2 million grant to get a school by a new school or put into the school for sure that's just silly so that was a big shock everybody looked up, they were so surprised.

00:51:16giving you \$2 million to build a school anyway, so we use that and made a very nice school and so, if I felt always really cared for and.

00:51:32I just felt that he he was there for us was always there for us.

00:51:39When when you were in the father's presence things happened, very quickly, so it was sometimes exciting, sometimes it was.

00:51:51With anticipate anticipation and sometimes it was trepidation, I sometimes was scared to go to meetings, because I never knew what father was going to ask me to do afterward but.

00:52:05In that all, above all, he was really the leader of building the Kingdom of heaven on earth.

00:52:13And we were his builders, we were helping him to build it and I always thought that was our mission to build the Kingdom of heaven on earth.

00:52:22And I valued his great love for all of us and for all of humankind, you could really feel that his heart was so big.

00:52:31Really so big and so encompassing and he was willing to give everything in order to bring this about, so I always observed that he lived very purposeful and fully.

00:52:45And, of course, with to Mother by his side they both gave just everything they had to to make make this work so that was my what some of my experiences with him, thank you very much.

### **Steven Boyd**

00:53:01Thank you, thank you very much yeah Thank you Doc spurgeon great absolutely great yeah, thank you for investing so much heart and.

00:53:11Time and in such a short period of time trying to squeeze so much into what Father means to both of you, so thank you so much for to move on to the wall says now and i'm going to introduce first Lynn was Mrs. walls.

00:53:27Walls is actually not with us, as you may have noticed he's not with us today physically he's actually in route from Korea back to New York having completed the.

00:53:39Many days of conference work and activities that he was responsible for as leader of ups there, so he did take time, though, to.

00:53:49provide a recording comment for us actually we have a two part segment they're going to show a little bit in a minute and i'll explain why this that way, but first let me introduce both of them, starting with Lynn.

00:54:01Lynn was has a masters in clinical social work from fordham university and a master of divinity from unification theological seminary.

00:54:11She taught sociology at the University of bridgeport for over 15 years and currently teaches at the unification theological seminary.

00:55:54 He has edited more than 20 books and publications for ups and also serves as the executive editor of dialogue and alliance an academic journal indexed by the American theological.

00:56:07 library association Dr. Mrs. walls have two sons and two granddaughters so we're going to first of all come up Lynn who's going to speak to us first and then afterwards we'll have opportunity for to hear Dr. walsh's video.

00:56:23 tape comments to us so then.

### **Lynn Walsh**

00:56:27 Okay ah, this has been really enriching hearing the testimonies of my brothers and sisters i'm.

00:56:38 it's hard to follow.

00:56:41 Okay um before the Church, I was, I guess, your typical searcher I was in California.

00:56:51 And I was studying at university California studying mostly philosophy and religion, and you know as much as I studied, I was very unsatisfied there really was so much I wasn't getting that that I was seeking So when I heard principal and I was introduced to Father.

00:57:14 All right, I think it's so significant of many of you mentioned it.

00:57:22 That Father teaches the heart of God.

00:57:27 You know far they called it, the infinite heart about god's love for us for every single human being and just that was transformative.

00:57:37 But then also many of you mentioned talking helping us understand god's suffering heart, I mean if you understand someone's heart than you really have a true relationship with them and that again opened me up to you know definitely it's that's life changing.

00:57:59 If you feel responsible for comforting God.

00:58:04 How can that not make you with different person, you know how can that make you help you overcome selfishness and understand other people so again it's just so revolutionary what Father teaches and both both mother and father emulate so deeply about living to comfort God um.

00:58:28 and also my answers as a very Christian my my.

00:58:34 paternal grandparents were missionaries in China my maternal grandfather actually declined a contract with the dodgers you know major league baseball because they practice on Sunday.

00:58:50But I didn't have such a you know Christian route um or understanding, you know.

00:58:58Ah, but I remember one Christmas morning going to a talk by father and somehow was sort of in the middle and sort of in the front and he was talking about Jesus.

00:59:09And I I think you many of you have this experience he was talking to me sorry, nobody else would heard him and and I understand so deeply Jesus is love Jesus is suffering.

00:59:25I felt my ancestors were right there you know tuning into oh that's who Jesus is so you know, sometimes when you got persecuted by Christians, when you fundraising Do you understand, do you love, do you love Jesus like yes, because what true parents taught me I love Jesus.

00:59:45um.

00:59:47So the other thing that.

00:59:49Father gave us, of course, was understanding god's purpose of creation and purpose of life of you know principles to live by that give us the bought the morals.

01:00:03purpose of sex purpose of marriage now, mind you, when I was back in California, you know searching for truth at university will we all know you don't get that much.

01:00:16Deep truth, I had written a long letter to my parents about how I will never get married because marriage is you know hopeless useless what's the point.

01:00:29Well, any of you know me that's my area, now the importance of marriage how that is the deepest.

01:00:36sacrament the deepest blessing and deepest responsibility for which we need to repair really our whole life and it's it is so much where God expresses.

01:00:49himself herself, you know in that that that that unity that commitment to this is another phrase that Father said, the purpose of our life is to perfect our loved I said yes that's it.

01:01:03Perfect my love of God perfect my love of other human beings and perfect my love, especially in the spiritual challenge of what marriage is so he just brought so much.

01:01:18Clarity to my mental model of mine that did that, yes, has been the anchor of you know that wherever I go when I wonder, I can always go back to the purpose that.

01:01:33God has, for me, I know, through true parents and the heart of God love for me, but also the parental heart saying no you're responsible, you know take responsibility to make this world better.

01:01:49So you know and then at the seminary, of course, was a wonderful blending of developing intellectual understanding developing heart developing faith that you know, I was really seeking and, of course, at the seminaries where I got matched to Tom and.

01:02:10i'm glad that Father convinced me that marriage was good, because it's been good to get matched and blessed and.

01:02:21Truly.

01:02:23You know, without understanding god's purpose of marriage it's very hard to really make that commitment is because we understand god's purpose, you know we're in this, for God.

01:02:37Sometimes I don't feel like i'm in it for me.

01:02:40But it makes all the difference, knowing god's heart knowing God is really with us living with us, especially in our marriage i'm.

01:02:50So I thought it's very interesting i'm speaking when bits in or are spoke, because you know when I went and got my masters in social work I came back and I worked with Nora and and Betsy.

01:03:08The blessed family apartment and just loved it just love trying to teach principle in, you know as we practice in marriage.

01:03:19Also i've been very fortunate to teach and also again through ups try to bring promote the importance of family at the UN so again the trajectory of my life has been totally transformed by what

father and mother, have given and.

01:03:40Their truth and how they embody this deep deep love and the deep whose truth that God really wants to bring to this world.

01:03:51um I guess i'll just say something about how mother carries carries it forward, I was lucky to go to Nice chair couple years ago.

01:04:02nisha is the poorest country in the world at that point, the red alert for, for I mean the alert for terrorism was red.

01:04:11So Everywhere you saw you saw military with guns, if you had a car, they put something underneath the look of see there is a bomb.

01:04:19And then I remember mother getting off the plane being greeted in this very, very poor African country, but the hid put everything out to welcome her, but I saw mother to me.

01:04:34She was this little old lady.

01:04:38That doesn't speak English very well isn't exactly highly educated doesn't speak French this little.

01:04:48In this you know very.

01:04:50scary situation of a country coming because she was going to bring god's love to this poor country because she was ever committed to comfort god's heart.

01:05:05And it just i'm really were so touched to have these revolutionaries of love to follow.

01:05:14and

01:05:16I think i'll leave it at that, thank you.

**Steven Boyd**

01:05:19Thank you very much.

**Farley Jones**

01:05:20very much.

**Steven Boyd**

01:05:22Thank you.

01:05:24yeah so much to say I again so much to say, and you will done such a wonderful job of presenting such a poignant thoughts that affected you personally to give us a better idea deeper idea or remind us.

01:05:37A certain dimensions of fathers character and now mother's character, of course, so thank you Lynn.

01:05:43or last.

01:05:45Sharing was going to come from Dr. walls Thomas was, as I mentioned, I.

01:05:50Actually, he had planned to be with us tonight.

01:05:53live from Korea.

01:05:56But because of changes in the schedule of the of the programming of the conference itself his flight schedule changed in order for him to actually get back to.

01:06:07The United States in a timely manner, not having to further extend his his stay in Korea, he will kind of was forced to take a flight that put him in the air of all the while we're in this broadcast but he kindly prepared a.

01:06:23Video tape testimony prior to getting on the airplane and then he continued it.

01:06:29and his layover in Seattle so he's somewhere between Seattle and here right now, or the east coast, that is on his way.

01:06:37The reason he did a second part is because we had a technical issue with the first one so very artfully your shaman Naka who's behind the scenes, or you can't see tonight who's running the show.

01:06:48Has piece together the two video so go ahead and share let's put them together and let's hear Dr. waltzes comments and sharing with us.

**Unknown Speaker**

**Unknown Speaker**

01:09:01So many dynamic and powerful ways and at the same time, deeply.

**Unknown Speaker**

01:09:07Sensitive I remember, I remember one time on the campus sitting outside sitting at his feet, so to speak, and.

**Unknown Speaker**

01:09:16you'd asked me about my mother who had visited the very count campus just asked me about her and.

**Unknown Speaker**

01:09:24Because I had introduced her to him.

01:09:47and

**Unknown Speaker**

01:09:49You know, a month or two later he asked me about her.

**Unknown Speaker**

01:09:53And I explained, she was now widow, and my father passed and that my father had actually passed.

**Unknown Speaker**

01:10:02The day before Yankee stadium.

**Unknown Speaker**

01:10:06So at that time I had been campaigning and I returned to.

**Unknown Speaker**

01:10:18But I remember when I mentioned that the look on his face.

**Unknown Speaker**

01:10:24was kind of filled with the.

**Unknown Speaker**

01:10:29compassion and understanding of the loss, the loss of one's father and just his ability to not only think on this grand cosmic level, but also on the very.

**Unknown Speaker**

01:10:45personal level, you know much of my experience with true parents has been.

**Unknown Speaker**

01:10:52In the realm of what we might call attendance because i've had central roles in managing and organizing conferences and events and invariably these conferences and events are linked to.

**Unknown Speaker**

01:11:10Major moments in our.

**Unknown Speaker**

01:11:15church calendar, whether it's to parents birthday.

**Unknown Speaker**

01:11:20god's day the various holy days.

**Unknown Speaker**

01:11:25That.

**Unknown Speaker**

01:11:26are held throughout the year, and on so many occasions.

**Unknown Speaker**

01:11:32We are invited to convene meetings and that's why i'm in Korea now, so we are paying tribute to Father here in Korea, and I know many of you have watched online, but.

**Unknown Speaker**

01:11:46Even at these precious and important moments it's not just about looking to the past and reflecting, but it is also about how we move forward.

**Unknown Speaker**

01:11:59And it, it remains kind of mission oriented rather than.

**Unknown Speaker**

01:12:55President mikey salad Chairman of the African Union at this time, so a lot of aspirations and resolutions about religious freedom, given the current circumstances.

**Unknown Speaker**

01:13:10The great tradition.

**Unknown Speaker**

01:13:14father was no matter what was happening that kept moving forward with the mission.

01:15:30Thank you very much, Dr. Dr. wallace that's great wow two part segment Dr. wallace and Milena I think that you, maybe i'm literally did compliment his comments very, very well, thank you, thank you so much.

01:15:45So I really want to thank all of our couples tonight for picking time.

01:15:51I know from your side, probably is very difficult task that seminary was asking of you guys to share what it says is compressed period of time, I know.

01:16:01you've written books about this experience and you combined it to compress it down into nine minutes or so, which is the time limit that we have set to keep us on track and we did pretty good.

01:16:12So thank you for that Thank you carly and Betsy Thank you and Nora Thank you Lynn and Thomas.

01:16:20Tonight use your first names and not your titles, because what i'm feeling is that.

01:16:27we're a family and tonight we learned a lot of things, I mean I learned some will learn or was reminded of some of the qualities of true father and, of course, true mother.

01:16:38Finally, talked about how he found his father and father and, if you read his memoir and I recommend that you do it's a very impactful very insightful explanation that he gives Betsy talked about father's personal touch his caring and understanding.

01:16:57In the most kind of simple circumstance on a human level.

01:17:04You talked about us being able to speak to Father and share our thoughts and our ideas that he was in his essence, he was love, he was love for us and was always there is always there to protect us.

01:17:20He gave the example of Father asking him what he would like to do, would you like to go to the seminary giving.

01:17:27him the opportunity to share in the direction of his life, not just the top down that sometimes we think that is a reality of our movement.

01:17:35And he finally mentioned that fathers were determined, but very, very loving and I was shocked by norris comments his father, he reminded looking at the photographs of fathers big smile.

01:17:47And I shared that you know we look back and photographs photographs and father and we sometimes is that in our phone of our mind, and then we look at those photographs in remember that about father is great smile and the myths and so much tribulation and trouble.

01:18:03Father how far the love nature spent his time with nature and use nature as examples to teach us, the father has a great sense of humor I love the Bikini story i've heard it several times, always makes me laugh.

01:18:19You know, when do you just try and Nora go out there, but the Bikini on an old efficient and get your picture in the paper follow them and laugh, I think, from the spirit world about that.

01:18:31And then, how it always felt cared for my father and then the simplest and even in the the responsibility father's always do with the personal touch.

01:18:41Then I appreciate it very much your comments about how father has taught you about god's heart god's loving heart God suffering hard about jesus's heart.

01:18:50about helping you to find an all of us purpose in life and the purpose in marriage Oh, my goodness, so they can really turn you around and became your specialties family values and the family unit.

01:19:03And I loved your comment, also about binding the binding heart and love that was found in the winding of heart and love and academic learning that was found at ups that Father really kind of masterminded.

01:19:19And then thomas's comment about.

01:19:25How, you were matched at ut as you were classmates and how you were matched there and then father's very sensitive and concern for.

01:19:35The death of tom's father and also is concerned, for his mother going through the loss of her husband so here we've learned a lot of things about.

01:19:47Our father and about our mother we've been reminded, many things, but also, I think your comments tonight, these three couples tell us a lot about you.

01:19:55about who you are about your heart of goodness the quality of your character and your love, but in a broader sense, I think it says a lot about all of us.

01:20:05In our community that we are brothers and sisters and that in our greater Community so you are one family and i'm so grateful to share with everyone.

01:20:19jones's his bio where they joined the unified family, I think that that's not lost upon us that we are a family.

01:20:27So, thank you very much, everyone for your sharing, I want to thank also your shaman Naka for being the taking care of was buying the scenes Thank you so much for rescuing as when we needed it and I just want to remind you that.

01:20:42This is the first of two parts, we will have a second portion of this tribute to our true father's 10th
