

## Unification Theological Seminary: Contribute to UTS's International Student Fund

Thomas G. Walsh  
April 6, 2023

**Unification Theological Seminary**  
Building Effectiveness in Ministry and Public Leadership

Thank you for your encouragement and support for the mission of UTS, as we strive continuously to develop and improve as an institution dedicated to ministry, peace and public leadership.

At this time, UTS is announcing a campaign to raise funds in support of members of our global community of members, friends and associates who aspire to study at UTS, including candidates from Africa, South America, Southeast Asia and other parts of the world. In this way we can strengthen the global brand of UTS, while also enriching our current student body with the diverse backgrounds and unique capacities of students from other parts of the world.

There are many worthy students who will benefit enormously from a UTS education, but who, even with scholarships provided by UTS, lack the funds required to pay for their education.

Our goal for this drive is to raise \$40,000, by the time of graduation on May 27, 2023.

On our donation page linked below, you will find quotes from some of our international students, as well as an invitation to view the 2022 Annual Report, which contains highlights from this past year, along with a list of 2022 donors.

We are extremely grateful for all those who have given in the past, and hope you, and others will continue to give as we work together to fulfill our Founders' hopes and expectations.

God be with you and your families!

## Current Campaigns

### International Student Fund

Involvement of international students is one of our greatest strengths at UTS, resulting in our diverse and exciting student population. In the academic year 2021-2022, international students made up 20% of the UTS student body. We invite you to help the brightest and best attend UTS by contributing to our international student fund.

Hear from some of our international students about their experience studying at UTS:

Myoga Molisho, MA in Peace Studies  
South Africa

My experience at UTS has been amazing because I am slowly learning how I, too, can be part of the movement to bring about everlasting peace. I am learning skills which can allow me to be part of the solution.

Man Ho Woo, MA in Peace Studies  
South Korea

This curriculum has helped me to understand the academic, theological, political, diplomatic, and historical concept of peace. Being able to truly understand the meaning of peace has helped solidify the UTS founders' vision in my life.

Krishna Adhikari, MA in Peace Studies  
India

The great lectures and study materials of all the subjects I have taken have immensely helped me to broaden and deepen my understanding of the significance of peace building and conflict resolution, as well as transformed my faith.

M.G. Tomasini, MA in Peace Studies  
Venezuela

I am deeply grateful for the opportunity to study at UTS. This has been an empowering experience both cognitively and heartistically.

We invite you to view the 2022 UTS Annual Report below.
