Argentina -- "Rev. Sun Myung Moon 9th Anniversary Special Session" was the title of the meeting dedicated to remembering the founder of UPF on the anniversary of his passage to the spiritual plane (*Seonghwa*). It was held on September 20, 2021 on the Zoom platform, with 22 participants. An initiative developed by UPF-Argentina for this date, but which has been replicated every Monday for several months starting in 2020 under the slogan "Honoring a legacy of Peace," it is a space where a reading of his teachings is shared, reflections and testimonies of good practices are exchanged and it closes with a praise or prayer for some person, need or intention.

"Throughout their history, the Korean people have worshiped God as the highest ancestor. They called that unique being and progenitor of all people 'The One,' that is, God, and they serve him as the Lord, the Creator of night and day. This is why all creation starts from the numbers one and two. Because the Korean people have served God as their ancestor, mutual and interdependent prosperity and universally shared values are alive in their spirit and tradition, and have continued to this day," was an excerpt from the *Messages of Peace (Pyeong Hwa Gyeong)* read by **Rosetta Conti**, president of the Women's Federation for World Peace (WFWP) of Argentina. This is a quote from a speech given by the co-founder of UPF, **Dr. Hak Ja Han**, at the WFWP Convention on March 4, 2012, in Daejeon, South Korea.

For this occasion, videos of testimonies of the life and work of the founder of UPF by international personalities were shown: **Fatmir Sejdiu**, President of the Republic of Kosovo 2006-2010; **Goodluck Jonathan**, President of Nigeria 2010-2015; and **Cho Myung Cheol**, Member of the 19th National Assembly of Korea; along with reflections by Ambassadors for Peace **Inderveer Kaur**, representative of the Argentine Sikh Dharma Community and Interreligious Association for Peace and Development (IAPD) Argentina; **Julio Nardini**, representative of International Association of Academicians for Peace (IAAP) Argentina; and **Carlos Varga**, Director of UPF-Argentina, President of FFWPU-Argentina.

The moderator was **Miguel Werner**, President of UPF-Argentina, who at the beginning recalled: "We are in the Jewish festival of Sukkot, or Feast of the Tabernacles, which recalls the vicissitudes of the people of Israel during the passage in the desert and the precariousness of dwelling in a tent after leaving slavery in Egypt." A prayer at the end was made by Ambassador for Peace **Rosa Di Lorenzo**, President of the Pope Francis Commission "Culture of Meeting, Work and Family," and a member of the Legislative Personal Association of the Congress of the Argentine Nation.

Two music videos were also screened on the occasion: "Te Stone of Love," a song and performance by **Yndabor del Valle**, **Carlos Varga** and **Jesica Varga**; and "I Have to be Faithful to You," lyrics and music by **Antonio Tangreti**, sung by **Marco Castellón** and **Aylin Rodríguez**.
