Urgent request from the National Organization for Marriage

Joshua Cotter
November 2, 2011

Dear Brothers and Sisters,

It is our right as a movement to inform our members and contacts about issues and educate them. Can you send this petition from the National Organization for Marriage to your contacts as soon as possible?

There is an attempt to federalize same-sex marriage and bypass the state levels in a bill presented this Thursday, Nov. 3rd to Congress.

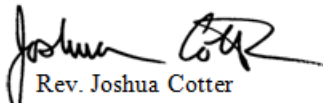

We have a responsibility and great opportunity to influence the future of America and family values directly. Those who support God-centered marriages between a man and a woman please send your signature to voice your objection to a federal mandate legitimizing homosexual marriages.

Please go to this link:

www.defenddoma.com/

Petition signatures need to be sent by Nov. 2 to be counted.

Thanks for your attention to this matter.

Rev. Joshua Cotter
Executive Vice-President
