## WFWP and You, a Perfect Match Donate Today!

Dear Friend,

We are so grateful for you. You put your values into action, and when that happens, goodness grows.

For Daniela Squizzato, WFWP was a perfect match.

At the community college where she worked, Daniela saw the love that the low-income students and young parents had for their children. They wanted the best for their children: in education, life experiences, and in health. But making sure their kids learned how to make healthy food choices, while living in an urban neighborhood, was a challenge.

Daniela partnered with WFWP Connecticut and its capsule project "Healthy Kids, Happy Home" to share healthy eating habits with young families. Dr. Mary Battilocchi, local naturopathic doctor and WFWP CT member, donated her time and expertise, and kids had fun touching and tasting "mystery" fruits and veggies. A healthy future was powered by a connection among professionals, students, and WFWP.

Women leading from the heart, taking action, nurturing positive family and community relationships for the good, these things are made possible thanks to donor support of WFWP, allowing us to grow and support WFWP chapters that impact their local communities.

"Healthy Kids" in Connecticut, "RealTalk" healthy relationships forums in Georgia, "Leadership of the Heart" transformational seminars nationwide, and much more.

This Giving Tuesday, help women who lead through *the Logic of Love* by donating to WFWP. Take your stand, and speak your values! You are the blessing.
