### The Depth of a Mother's Heart and Life

In these excerpts of the poem below, our dear Founder Dr. Hak Ja Han Moon describes poetically her life using the image of an ocean, that can absorb anything and everything, even storms, and still be strong and majestic.

Such has been the life of many mothers around the world whose unconditional love for their family, community, and faith kept them strong, allowing them to overcome the unthinkable while embracing all life.

A Mother's heart is truly priceless and so much needed in this ever changing and transitional world, to be a constant, like the ocean.

Let us celebrate the mothers of the world on this Mother's Day, and of course all mothers and mothers-to-be who live and breathe together.

Wishing all mothers and mothers-to-be a very **Happy Mother's Day 2018!**

My life has been like an ocean.

The ocean can generously embrace and unite with the sky and resemble its color.

It is in the lowest place, where it accepts all the water of the world.

The ocean embraces everything and conceives all life.

In the ocean all varieties of living things are born and raised in abundance.

Its tides ebb and flow in response to the pull of the moon and the changing seasons.

It responds to the rays of the sun, creates water vapor and influences the weather.

A calm ocean is peaceful on the surface, but deep inside enormous currents that move the ocean are constantly surging.

Then waves of a tsunami rage, they can swallow everything.

People cannot see the whirlpool beneath the surface.

Heaven's providence has surged like a typhoon, and my life has unfolded in the midst of it.

There are so many circumstances that cannot be spoken of, which only I understand from the center of the providence.

Crossing over that whirlpool, not allowing it to pull me down, I joined Father in the work to complete the providential history of restoration.
