### Don't let this year pass you by!

You can give the gift that will ensure a more harmonious, balanced, and peaceful world for years to come. Women's Federation for World Peace, with donor support, has launched the **Global Women's Peace Network** to bring together leaders and organizations with the common goal of creating peaceful communities. Your support today will keep WFWP and the GWPN going strong!

WFWP Int'l Senior VP  
Dr. Sun Jin Moon

"For too long, the voice of women remained in the background and in the shadows. Whatever the causes of this pattern, evidenced in all cultures and civilizations, it is imbalanced, and hence the world is also out of balance. Indeed, it is precisely as women and men **live together in harmony, true love, and equality** -- in the home, in the workplace, in the centers of political and economic power, and in the places of worship -- that we can create a society of true interdependence, mutual prosperity and universal love."

"If we are to change and transform a world of selfishness into a world of true love, **women must play a leading role.** And I am not talking merely about external power. We must first master the arts of internal power, the power of unconditional, absolute, true love.

Much of what is needed today is to have a movement of harmonizers and reconcilers." - Dr. Sun Jin Moon

A gift of \$100, \$50, or any amount you choose, will keep WFWP strong in 2020, to create a powerful "movement of harmonizers" with many more peace leaders and organizations.
