

Truth, not Emotionalism, Saves Lives

And one of the scribes came up and heard them disputing with one another, and seeing that he answered them well, asked him, "Which commandment is the first of all?" Jesus answered, "The first is, 'Hear, O Israel: The Lord our God, the Lord is one; and you shall love the Lord your God with all your heart, and with all your soul, and with all your mind, and with all your strength.' The second is this, 'You shall love your neighbor as yourself.' There is no other commandment greater than these." Mark 12:28-31

*American youth have no ties to the world, their country, family or parents. Based on free sex, they accept homosexuals and lesbians, and deny masculinity and femininity. If this continues, humanity will all disappear within a century. How unspeakably pained must God's heart be as He looks upon this miserable state of humanity caught in the devil's spell!

Greetings!

Before I report about Sunday's provocative sermon, I'd like to share a courageous letter that the former second Generation FFWPU pastor of the Triad Family Church, Dan Hutcherson, sent out yesterday to 2nd Gen youth, FFWPU members and leaders in North Carolina. Dan writes,

I just wanted everyone to know that I think the split in our church is the best possible thing that has happened since True Father's passing. After listening, praying, and evaluating both sides of the drama for months, I'm now very grateful for the wisdom in True Father appointing Hyung Jim Nim as the spiritual heir to our movement. I can say without any reservation that I am no longer a member of the Unification Church (FFWPU). ([rest of Dan's essay](#))

In his sermon on "The Kingdom of Love," Hyung Jin Nim explained that if we love God, we must love what He loves. The current age of relativism is nothing new or "modern." In 28 BC Augustus proclaimed himself to be not just Emperor, but also the reigning God on earth. The Roman Empire was full of male and female deities, polytheism, child sacrifice and temple prostitution. After having sex with the young women who were temple prostitutes, the "worshippers" would make an offering to the temple in the name of Aphrodite, the goddess of love.

In the Greek society of the 5th century B.C., young boys were taught about philosophy by their male teachers, who also had sex with them. Such practices mirror current trends in America, where psychologists talk about viewing practices like incest and pedophilia previously condemned in Judeo-Christian culture as sexual orientations as no less valid than any other. Psychologists now describe incest as "[Genetic attraction syndrome](#)." They describe adult sex with children, or pedophilia, as "[Minor Attraction syndrome](#)." Facebook now offers a choice of [71 different genders](#),

In the face of such relativism, Jesus proclaimed one God. Since there is only one God, there is one true standard based on His original purpose of Creation. God doesn't want His children to be corrupted, or raped, and hates a society which condones or allows that.

The ruling elites allow satanic corruptions and endless wars to distract population from their diminishing freedoms. During the time of Jesus, the Jewish leadership class worked WITH the Roman rulers. Their survival and privileges were interlocked with patrons who represented Rome.

Since divine rights or natural rights are given by God, they must not be erased.

True Father was clear about the 3 governing principles derived from the reality of a holy and just God: maintaining the pure lineage through sexual abstinence and fidelity in marriage, not violating the hearts of others and not misusing public funds. Once you depart from the one true God, you are giving up the source of your freedoms. It is only a matter of time before the dictators and oligarchs have won.

To love God, we have to give up our preferences. God is not a puppy dog. If you want God, you have to accept Him as he is. He is not a "genie in a bottle." God will form and shape you in ways that may be painful, but make you stronger.

Because of the U.S. Constitution, which limited the powers of the federal government, America offered greater prosperity to those willing to work hard than available anywhere else in the world. All of this is threatened by an ever increasing concentration of power, and an unholy alliance between government and large corporations. For example, [6 media corporations control 90% of all media in the U.S.](#) The sad truth is that the American people have increasingly been trained to be compliant to this centralization of power.

The same federal government that protected slavery and Jim Crow laws for many decades now gives subsidies incentivizing the removal of fathers from homes in poor communities. This is "compassion?"

Multi-billionaires like [George Soros donate hundreds of millions](#) to organizations fomenting riots, racial division and violence such as [Black Lives Matter](#) whose members [have advocated violence against police officers](#). Despite media propaganda including from "mainstream" sources like the [New York Times](#), much [research shows that the vast majority of police](#) do their best in difficult environments to support the constitutional rights of all

citizens. An unending stream of propaganda distributed by news and popular media incites more division and resentment, while posing racial hatred as a solution. Consider for example, entertainer [Beyonce performing in "military gear"](#) that celebrates violence by Black Nationalist groups like the Black Panthers.

The Roman Empire used such "divide and conquer" tactics to subjugate nations. Such tactics have now come to America. Healing and unity will only come through Christ's love, truth and forgiveness, not by exacerbating resentment and bitterness.

True Father always opposed worldwide Satanic control. He called the United Nations "Cain" for a reason. The new CIG constitution places limits on federal power that will allow the greatest freedom and prosperity in the world. Charity will be done by private organizations, not "outsourced" to a corrupt national government. Hence social welfare nets given out by a bureaucracy which end up decaying society would not be allowed.

Facts save lives. If you speak in terms of [emotionalism and agenda-driven propaganda that sounds "compassionate," but not based on truth, you are destroying lives](#). Black Americans often excel in whatever fields they go into, whether it be sports, entertainment, or business. Sadly, the federal government has an interest to create permanent victim groups which are dependent on government, even if it hurts those who are allegedly being "helped." Consider the fact that a [single mother home living with a boyfriend is 10 times more dangerous for children](#). Jesus said to love God, *not everything*. Satan wants us to love everything, including things that are wrong and poisonous.

If we love God, we love:

1. His covenant
2. Yahweh and Jesus and their commandments. If we do so, God promises land and sovereignty.
3. the kingdom of God on Earth where the gifts of God, freedom and responsibility are at the core of society.

If we love God we must hate:

1. that which harms God
2. that which robs God's children of their inheritance and divine rights
3. the ideologies that masquerade as being for the people when they are really for oligarchs and tyrants.

As it says in 2 John, "and this is love, that we follow His commandments."
