

KINGDOM CHAOS ~ AUGUST 14, 2017 ~ REV. HYUNG JIN MOON ~ NEWFOUNDLAND, PA

Kingdom Chaos. We got to go into it, folks. Revelation 12 is the big one. It's a big one; and, we've been talking about this for how many years, now. We have been warning everybody that from Mid Trib on, it doesn't get better. It gets worse. It doesn't get better. It gets worse, okay.

Ever since we came out here to the wilderness, and we've been mocked and scorned and laughed at, etc. you can just see the prophecies and predictions that come true. That have come true. Korea is now being cursed on the verge of nuclear war with America. The Economy has completely collapsed. South Korea is now realizing they're under some threat, because they're in a total matrix braindead daze in that country; but, of course, Japan is already holding national level emergency, nuclear emergency drills. So is Guam. Chicago, Alaska and Hawaii have also listed warnings in the United States. If you said this two or three years ago, you would be a total nutbag. Everyone would think you're crazy. Now, how are you going to argue with major governments around the world without issuing nuclear emergency practice and training?

Anybody from Japan. Am I making this up, Japanese people? In your country, is there not emergency drills going on right now? Yeah! Guam, and different places in America, now, is there are not emergency drills going on right now? Yeah! So, this is not playtime. This is not sandbox preschool playtime. We're in a serious time. Serious, serious time. When the Han Mother betrayed Father, we told her very clearly, if she does that, she will bring the world to judgment; and, all those fools in the hierarchy, all those betrayers just laughed at us. They said, she would become great, and everything would become better because of the blessing of the Han Mother; but, what happened? Actually, it went the opposite way. You have a situation of not the economies of the world, the politics of the world, geopolitical crisis now at the highest level. Experts now analyze at the highest level have told us of threats that we have been in for past sixty years.

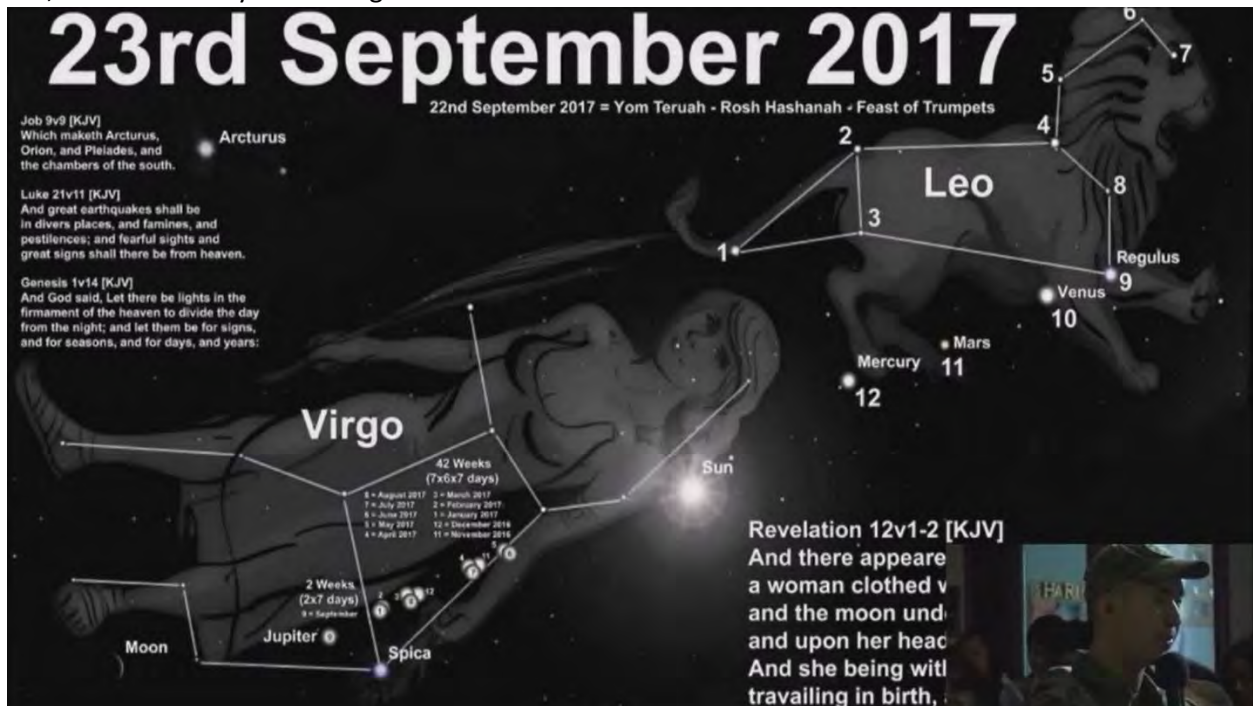

We are not playing around; and, we have been telling you all gathered in the Sanctuary, all those who have gathered online, we have been telling you for years. You got to get right with God. You got to get right. You have got to get prepared.

So, everything is quickening. Everything moves faster. Everything moves quicker. A thousand years is a day. A day is a thousand years. Things are happening that would take a thousand years are happening at rapid speed in a matter of years. The whole process of Christianity even preparing the way for the Messiah even for his Kingdom. You can see that almost just that accelerated version in the three years we have been here; so, we are in a very intense time right now. We have to keep that awareness. Videos and stuff like that, obviously, they lift our spirits. They make us escape from reality; but, anybody who trains here, we let you know, you have to face reality. All the training is about facing reality. It doesn't feel good. It doesn't sound good all the time, but facing reality is critical in being awake and serving God. When a Prophet is called to warn Israel of their impending doom, and their collapse because of their sinfulness from God, they had to be aware of Israel's reality. They had to speak the truth.

We are now in Revelation 12. This the big chapter, and this has the direction correlation to about one month from now, September 23rd, which I covered millions of times, and I show you once again from the NASA pictures, what's going to happen that date. Let's go through Revelation 12 here. We should go through the whole thing; but, I will only go through half. You can look at the rest, when you are doing your Bible study. This is it right here. Let's read together, Revelation 12 and 1:

Revelation 12:1 And there appeared a great wonder in the heaven; a woman clothed with the sun and the moon under her feet, and upon her head a crown of twelve stars: 2 And she being with child cried, travailing in birth, and pain to be delivered. 3 And there appeared another wonder in heaven; and behold a great red dragon, having seven heads and ten horns, and seven crowns upon his heads. 4 And his tail drew the third part of the stars in heaven, and did cast them to the earth: and the dragon stood before the woman which was ready to be delivered, for to devour her child as soon as it was born. 5 And she brought forth a man child, who was to rule the nations with a rod of iron: and her child was called up onto God, and to his throne. 6 And the woman fled into the wilderness, where she hath a place prepared of god, that they should feed her there a thousand two hundred threescore days. 7 And there was a war in heaven: Michael and his angels fought against the dragon; and the dragon fought and his angels, 8 And prevailed not; neither was their place found any more in heaven. 9 And the great dragon was cast out, that old serpent, called the Devil, and Satan, which deceiveth the whole world: he was cast out into the earth, and his angels were cast out with him. 10 And I heard a loud voice saying in the heavens, Now is come salvation, and strength, and the kingdom of our Gods, and the power of his Christ: for the accuser of our brethren is cast down, which accused them before our God day and night. Amen, Aju!

So, this is what's happening September 23, 2017. We reported this to you maybe two years ago, is that right? About two years ago. This is exactly what's happening. This is by NASA predicted technology that can mathematically judge exactly where the constellations, or Sun, Moon, you name it, the planetary body will be on any given day. You can even go and visit yourself. You can actually click up the dates, or click down the dates, and you'll see the whole thing moving. I actually showed you the actual video of it; but, this is obviously a still image here.

Here are some Bible Scriptures here. Those in the body of Christ, who are awaiting vigilantly God's Kingdom to come. So many prepared Abel type people, folks. So many prepared Abel type people. You

just have to be bold. You can't beat around the bush. Everybody knows. Just look up on the internet. Everybody knows that Rev. Moon is Jesus. That's it. That's it, folks.

This is of course Revelation 12 right here. There appeared a great wonder in heaven, and these are Scriptures how God uses wonders in heaven, and or signs in the sky. These are three different Scriptures up here. A great wonder in heaven. A woman clothed with the Sun. This is the Virgo Constellation. The Moon under her feet. The Moon will be right there on September 23rd. A woman clothed with the Sun. The Sun is right here. The Moon is at her feet. Upon her head is a crown of twelve stars. Leo is a nine - star constellation, but you'll have Venus, Mars and Mercury lining up around that day; and, this pattern, some people say seven thousand years it has not happened; but, according to other experts, they say it never happened. This pattern never happened like this in the history of mankind.

So, you have those elements, signs in the stars, wonders in the stars, a great wonder in heaven in the stars, in the heavenly body so you can see. A woman is clothed in the Sun, okay. There it is right there in the Virgo Constellation right there. The only female constellation amongst all of them. The Moon at her feet. For those who say, "Oh, these are Roman constellations. Yes, remember the Greco-Roman period is was where Jesus was alive; and, did you know that even the belt of Orion and Pleiades is mentioned in the Old Testament? In the Book of Job, it mentioned those; so, don't give me none that junk, okay.

Here's a woman whose clothed in the Sun and the Moon at her feet, who lines up the twelve stars, the Leo, which represents the King; and, then, of course, three more stars added – Mercury, Mars and Venus. That makes it twelve stars of the Crown on the Virgo Constellation. That's not all yet, because this woman, she began being with child began crying, being in pain, travailed being delivered. This is the retrograde motion of Jupiter, which is known as the King planet. Jupiter, known as the largest planet, is the King planet; and, that retrograde motion. Because of the way it rotates around the Sun, it seems or appears that these planets do like loops around the Sun. They move through, and they do a loop. That's called a retrograde motion; then, they go back; then, they loop like this; then, they go back and they loop. They do a little circle. That's called a retrograde motion.

So, in this particular time period, Jupiter's retrograde motion is right within the Virgo's Constellation womb for a period of 7 times 6 times 7 days. It stays within the womb for almost exactly nine months. Now, how long is a pregnancy, usually? Nine months. So, you have this great sign and wonder coming from September 23rd. You have the Great star Crown and Constellation lined up. You have the Sun right at her shoulder clothing her. You have the Moon right at her feet, and you have her pregnant for nine months. You can't make this up, you understand? I showed you the video of the NASA for nine months, right? In the fast-forward speed; and, we saw the dates going off, and you see the retrograde motion. You see the planets staying in Virgo, etc. The day that it's coming out is September 23rd, which is by the way, one day after Rosh Hashanah, one of the Holy Days of Judaism. So, you have this sign and wonder, which is coming.

Now, there is many things going on in the world, today; and, of course, we know as the center of the Providence now, with President Trump there, we know all manner of spirit and demonic forces is against him. All manner of principalities and powers. There are spiritual demons, and the Spiritual World, which is against him, because God is using him as an Emissary, a Messenger, to fight for sovereignty at the Macrocosmic Level; and, he's done amazing things like getting rid of the TTP or NAFTA, or tried to get rid of Obamacare, which has been known to inflate prices like three to five times on average. I mean, just trying to get back to some sanity. He's closed down the border; so, illegal immigration is down over 70

percent now. Unprecedented. The Stock Market is up some four trillion dollars. So, tremendous, tremendous things he's doing; but, again, he's just one man, and he's got the whole Deep State against him. It has been the whole Deep State aligned with the spirit character, culture and civilization of the Archangel.

We told you even before the Summer hit, the Summer was where they were planning to blow things up. Summer is where they're planning to create chaos. It was even being called the Summer of Rage going closer and closer to the Shemitah period, which is around September, where you will see more and more violence, and more and more unrest. Those who are especially awake, you knew what we were saying was true. Those who weren't, you're bums, and you are proving you're bums, because now you see the whole operation. They couldn't win against Trump even though allied with Silicon Valley, with the celebrity cult of Hollywood, allied with the Rothschild banking cartel with Soros funding everything, allying with radical Islam. They could not beat Trump. Literally, allying with the worse of the worse on the planet, the most authoritarian autocratic governments like the UN trying to support world Communism, raise taxes on poor people by climate change. It's just ridiculous.

You're talking about the vampiric absolute demonic class, predator class, trying to completely ravage and rape the entire world; but, they got to take America down first, because it's too strong. You saw it with Hillary Clinton. You saw it with her colluding and cheating with Russia, selling our uranium to Russia. You saw it with her taking hundreds of billions of dollars from China. Hundreds of millions. You saw her stealing 93 percent of the money she raised for poor Haitian people in the Caribbean, and take it for her employees. You've seen her with Wikileaks. It's a crazy satanic thing. These people. I'm not up here just talking about these satanic things, so you get a little kick and get some entertainment. This is a real deal. These people are real.

She's there with Maria Abramovic throwing sperm and blood juice on stupid statues, and writing with their cut blood, eat sperm and drink it daily for health. It's ridiculous craziness. You saw the videos. I showed you the videos. Carving pentagrams in their stomach calling it art. Eating cakes in the shape of human beings with bloody middle centers, where their laughing and saying, "Oh, it's so fun. It's a little game, and we're eating cake," but it's really like eating a human being with blood and guts and everything. These people are mentally deranged; but, it's not only that. They sold themselves out to evil. They become one with the power of Satan.

Nicole Kidman, who is a Hollywood star, talked about some of the top producers she was talking about. She was even saying about them, those pedophile rings were ruining the world, because there are Satanist rings. We were showing you from the BBC, and the interviews with the little girl that got raped dozens of times, pregnant six times by the time she was eleven years old; had those babies abort in those satanic rituals, where she had to do what? Kill the babies and eat them in the satanic rituals. And they said, I was crazy. You're crazy. These people are real. It's not my fault you could not see reality, and didn't want to believe Satan is real. You want to believe in your nice good feeling of relativism. Oh, it's all good. It's only love. No, it's not.

You got this reality coming. That sign, if it's the Mid Trib time, that is the time where it gets worse, folks. Precipitously worse. As we ramp up towards this time, it's getting worse. I hope you know what happened two days ago in Charlottesville. I really hope you people are not sleeping, especially the young people. You're on the internet all day long, and you don't know what the hell what's going on.

Brainwashing little stupid video game ghettos, little internet-click ghettos. You don't know what the heck is going on.

They are starting the civil wars now. They are shutting down Conservative speech, now. Censoring anybody who has a Conservative voice, now. Defunding Black Trump supporters like "Diamond and Silk." Demonetizing them. Their videos were up to 95 percent last week, that's reported. Don't blame me because I'm informed, and you are not. I'm not bragging. It's just the people of God are so asleep sometimes. I got to whack you on the head with a rod of iron to get you up.

Woman is killed, 19 hurt, as car plows into the anti-fascist White Nationalists. This is in America now, folks. That was yesterday. Day before yesterday? Yesterday. Time flies so fast, I don't even know what day it is. I literally keep my calendar on The King's Report schedule.

Look at that. This thing is starting to implode; and, of course, this thing has started a long time ago. It's only metastasizing now. It's bubbling up. It's hitting the boiling point; and, you see this happen now. You had years and years and years of the Left violently attacking people. Just in the last year alone, you had Black Lives Matters fund by George Soros. You had Moveon.org funded by George Soros. Open Society funded by George Soros. Linda Sarsour funded by George Soros. You're talking about political operatives. Enemies of the state. Enemies of you and me. Enemies of the Kingdom of God funded by one of the worse Satanists on the planet, who says he's a Jew, but he sold out his own Jewish people. He worked for Hitler from 14 to 18 years old. Getting them and rounding them up in a concentration camp. You cannot make this up. It is so crazy. It's insane.

You had it for the last how many years? The BLM can go around shooting cops in the back of the head, while there filling up on gas. The BLM can walk up on a Chinese cop in Chinatown, shoot him in the head and run away, and CNN and MSNBC say nothing about it. Say nothing. The BLM, the Black Lives Matter group, can go walk through Austin saying, "Kill cops. Pigs are good for frying." On video, and there's no reporting on that.

La Raza, the racist Hispanics, would terrorize the normal Hispanic communities with the organization called La Raza, which is the race. It's a radicalized racist organization going bowling like the Mafia. Other Hispanics, who just want to work, and who want to make money for the kids, and just want to be just good people, who don't want to be involved in gangs, who don't want to be involved in corruption. They just want to work, and just try and feed their family. They could be killing people on the street like MS-13 just cutting people's heads off, hanging them up to dry in the Hispanic communities, terrorize the people there, and the news won't even cover it. CNN will not say even one word about it. You got cops being shot in cold blood by these organizations funded by George Soros. This is ridiculous. It's crazy. It's absolutely ridiculous.

But, oh, that put that whole thing on the people the last two three four years, escalating with Clinton, escalating in Europe. If you're a White person, because you are a White person, you should have to abort your baby. Just because you're White, you're racist. Just because you're White, you're evil and you're Hitler. Just because you're White, you're thinking, "What the Hell. I hate Hitler." "No, you hate Hitler, just because you're White. Ahhh!"

You have this year after year after year. They're complaining, all Whites are the same, especially the Christian ones. Your Christian values, your conservative values, and you happen to be White, well now, now, now! You got the triple threat of the Hitlerhood in you.

You got radical Jihadis pouring in from some of the most broken-down violent areas of the world. Mass invasion of Europe. Sixty-six plus no go zones in Sweden. How many Sharia Courts in London alone? You have six Sharia Courts in London alone in one district, in one little bureau. Highest rape epidemic in Swedish history of blond haired, blue eyed women being raped; but, they're told they should be grateful, and they should be empathetic towards the migrants. Yes, you are slave. You have no rights. We come in; we bring in our friends, and they come rape you. Shut up about it. Be grateful; otherwise, we'll call you racist; and, the people are so braindead and dumb, they take it. The social conditions were made weak, so they may lose their identity. So pathetic. They become so selfish.

After all that, year after year after year, now you are getting the point, not only in America, but in the UK as well, where you are starting together White people who are saying, "Yeah, you want to call us racist for five ten years, we may as well be racist then, because the Government isn't doing anything about it. Nobody's helping us. We're just going about our business trying to put food on the table; and, everything we do, we're called racists, and everything we're White Supremacists, and everything we do, we're called this and that, and if we're Christian, it's even worse; and, you beat a group of people up, over and over and over, year after year after year, and year telling them they should basically commit suicide, and they should be grateful for the totalitarian autocrats, who are sitting on top of them; so, yes at some point there is a breaking point.

At some point, you know what? They're going to say, we are sick and tired of migrants coming into our neighborhood raping fourteen years old children, putting on pedophile rings. We're sick of that; and, so they bank on it. They bank on the tribalism. They bank on the assets between White and Black. The bank on the assets between Brown and White. Just good, because the more they can do that, it's just good vulcanization, it's just good classic divide and conquer strategy. It's just classic war strategy. The untrained, the masses fall right in line.

So, obviously we decry all this violence is happening there. Obviously, any of this political bantering is what? People in America are supposed to be able to go out on the street, assemble nonviolently, and express their opinion. They're supposed to be able to do that without the fear of being shot at by some sniper, or being run over or plowed by cars. It's only the Right, not the RINO Right, the people who are really awake. Libertarians and Conservatives, etc. who don't want to sit on top of people, who don't want to be freakin' Hitler over people, who want to live and let live, who don't have to agree with everybody they meet, who want freedom and sovereignty, who want their children to be raised without being indoctrinated to some crazy cult of the State, where you worship public officials, and worship politicians. That's the new religion of the day. It's another pagan religion.

So, you beat on the community. You beat on Christians. You beat on White people, year after year after year after year. Everything in the world is their problem. Everything, even though they're a minority. They're only 7 percent of the world's population; but, everything in the world is because of the White people. The normal White people, even they work hard, and they're blue collar workers, and even though they're honest, and they don't have a racist bone in their body. But, oh no, no! We can't criticize the super elite, the Bilderberg group, the Davos Group, the Rothschild's. Can't criticize George Soros. Nope! Those are the real racists.

It's not your normal guy down the street that's working in a construction; but, just like ISIS, just like radicalizing; they're trying to make it into a race war, which we told about three years ago; because, if they break down civilization to just where we lose our consciousness, we lose our identity and connection with God. We lose out transcended. We're going to Fall and be like animals and say, "It's instincts." Fall into the race wars, which is their plan for us.

The reality of the Charlottesville situation there as more news comes out about it, that is a heavily, heavily voting town. Eighty percent in Charlottesville are voting Democrat; so, it's a super totalitarian town. Let's put it that way.

Then you have march, which is stupid, with a whole bunch of, you know, a small group of White Nationalists; but, they're not selling it. They're not saying that. The news is saying that. The whole group of people there are saying don't take their statue of Thomas Jefferson down, because that's what they are trying to do in VA right now, even though he was the one who put in the clauses to eventually end slavery. He wasn't buying slaves in Africa, who were selling slaves, capturing their own African people, selling Africans to different places in the slave trade, whether it was the Arabian slave trade or the Western slave trade. You had Black slave owner holding them and selling them.

Of course, we know slavery is wrong. We know that. It's a sin, which then allowed amendment process, which allowed the collapse of America, which allowed the Federal process and the Bilderberg Group and all those fools came in through the amendment process.

You have the scenario. Eighty percent of the super Leftist lunatics. They know it's going to create some craziness. There is evidence from the 80s that the Klu Klux Klan from before modern-day emancipation from the Democrat Party was operated, from the Democratic Party, was operated from the Klu Klux Klan. Some of the top Klu Klux Klan Grand Dragons – they actually called themselves, Grand Dragons. I know it's crazy, but they do, okay – they were CIA operatives. That's out of the main stream news from the 80s and 90s. They were working for the CIA. That is a government organization. You have them. They're coming through this liberal era, where you have all these brainwashed liberal kids, who want to believe they're in this same in group, and they're doing something very amazing. They're standing up for freedom and civil rights, when they're really just working for the greatest totalitarians on the planet, being paid a \$100 per day by George Soros, who literally licks his lips as he smashes economies, and he rapes and ravages the landscape of civilization. Over a hundred countries that man has imploded.

You have them there, tinder-box ready to be kindled in Charlottesville, and the police were not doing anything. One of them lost their lives. They were not acting. We have video, too. The cops were standing around watching just like they did in Berkley in these liberal areas. These people are not liberal. They are totalitarians. They're autocrats. Just like they did in Berkley. "Oh, we can't have you have that free speech. We can't have you do a demonstration, because it's going to turn out violent." We're supposed to have freedom of speech here. We're supposed to be able to say our opinion. "Okay, fine; but, don't blame me if it turns violent." You see how that works? Then, when Berkley's burning down they say, "See that, little children. See that. You burned down Berkley. You should have listened to your liberal mayor. You should have help us censor free speech. You should have helped us make those demonstrations illegal with this challenge to us. You should have helped us, because looked what happened? See it all burning down, because of you, because you didn't listen to the Mayor of Berkley; and, you didn't listen to the Mayor of Charlottesville."

So, you got the BLM (Black Lives Mater) walking around, and the George Soros funded people running around trying to fight wars. The demonstrators are supposed to walk down this designated path. They got these mob violent crazy leftist lunatics dress up in black outfit Ninja suits. Did you see these fools? Wait, you'll see in the picture, and they are like two feet away. They're corralling them down this pit, this gauntlet; and, the cops say, "Yep, come right down here. Come down. Come, come, come." They're walking through, and you can see a lot of these people. These people they call White Nationalists, White Supremacists. Okay, you may have a handful of those crazies, but you can see most of the people are just regular Conservatives. They're just walking around, because they want to protest Robert E. Lee statue to be taken down that has been pushed around the news as White Supremacists movements. No, they're not part of those groups. They just don't want Robert E. Lee statue coming down. He was living in Virginia. He was actually in their township.

There it is. There's a car plowing through people. Apparently, there was a stone thrown at this car. The guy got pissed; so, he drove his car through the anti-violent BLM. Notice that when anybody attacks anti-violent BLM, then of course we decry political violence, but if they ever attack the George Soros funded people, see how it's 24 hours a day on CNN. Every single second is there. "Oh, my goodness. The White Supremacist growing. They're taking over the country. This is a national level threat. FEMA has to stop this emergency, now." They are already doing it in Virginia. They already got a state of emergency called. They already got martial law. They already shut down protests. "But, it's for your safety. It's for you. You see, it's for you."

Here's Faith Goldy down from Canada. It is a terrorist incident; but, what is it in reality? There are freakin' terrorists on both sides, trying to go after each other on both sides, and people are stuck in-between, like it always happens. You got freakin' leftist lunatics vampirically praying off this saying, "Look, look, look, look. We told you. We told you the Christians are bums. We told you anybody believing in sovereignty are bums. We told you that anybody believing in freedom are a bum." Alright. That's only one scene. Other people have it on the iPhone from different angles. There's somebody injured. This is yesterday, folks. Yesterday, you understand. They're freakin' setting off the riots in the cities. Now you realize why Father sent us to the wilderness. Now you see why the Second King is out in the wilderness. There you go. That also happened on the same day of helicopter crashes. There's a car backing away after he mowed down some people, backing away. This is, of course, crazy. America should not be like this. Of course, we knew it was coming.

Anybody with a little discernment knew it was coming, and we know it's going to get worse, because what's coming down the pipeline doesn't get better. There is a whole barrage of things that are multifaceted that are hitting us at the same time. That is a horrible recipe. Horrible. That's a very good recipe for disaster.

President Trump is condemning this as he prays for the nation; and, every freakin' day I'm saying, "Pray for the President. He's trying to fight this battle against ninety percent of the greatest criminal entities on the planet." You know what I'm saying? Do you understand, folks? This man is trying to stand up to them. The biggest mob cartels. The biggest criminal organizations on the planet; and, of course, he is trying stay alive, and have his children stay alive, too.

All of us have to condemn this immediately right now; but, when BLM does it, when Moveon.org does it, when they're setting Berkley on fire, no. CNN is protecting them saying, "Oh, we understand why this is

happening.” Congressman Maxine Waters coming out and saying, “Oh, yeah. Well. We need more of this.” These people are crazed psychos. They don’t care about anything else. They don’t care about your family. They don’t care about your children. They don’t care about anything, but power. They’re in the same spirit as the Family Fraud. They’re in the same spirit as those who betray God. They sell their soul out do the Devil.

There you go. They are trying to make it a race war, folks. There trying to make it. There trying to get these images. There you have the White people with the Confederate flags. There you have the Black and Hispanics against them, when most Blacks and Hispanics want to live in peace. They have nothing wrong with White people. They’re just being hammered and told everyday that Telemundo, and all these propaganda news outlets in Spanish, or whatever it is. Every day, they are being hammered over and over. “White people are evil. White people are out to get you. White people are trying to get you.” And they are saying, “Wait a minute. We ain’t got no problem with White people. I have White friends.” They’re saying, “No, No! You don’t have White friends. You have Black or Asian. You don’t have any White friends. They’re evil. They’re out to get you.” Meanwhile, they let in the hordes pour in, and they are raping your daughter; and, you have to be nice about that. Statistically, the White people are the least likely group to kill you. When you call me a White Supremacists, I’m not even White folks. It’s just science. It’s just statistics.

Peddling these images. This is like race porn. Send these images around. It’s all a race war. All the problems are about race. No, normal people have better things to worry about. They don’t want to have World War III. They don’t want to kill their neighbor. They just want to get along with their life, and love their family, and protect them from predators, and worship their God; but, the super elites know it. When they went into different parts of Africa with the UN. Wherever they went. Whether they went into China with the Opium Wars. Wherever they went, they used the divide and conquer strategy. Divide them on belief. Divide them on race. Divide them on any line where you can divide them.

There you go. In any situation, where the minority neighborhoods are experiencing tremendous instability; but that’s not because of normal people who are famers in countryside. That’s because of the Democrat politicians, the RHINO politicians who have been sitting on top of them for the last fifty years, wooing over them, lying to them over and over again, and tax farming them, and keeping them on plantations. That’s a quote from Lyndon B. Johnson to keep Black people on plantations. “They’re too uppity. We have to keep giving them enough, but not enough to make a difference. Well keep them voting Democrat for the next two hundred years.” That’s a Lyndon B. Johnson quote. Telling me that I’m crazy. You’re crazy.

You see that? All those White people. Look at them? They’re the militia; and, the militia is bad. People gathering to defend their community, oh, that’s bad. Oh, they like camouflage. Camouflage is bad. You see, anyone who wears camouflage is bad. The Whites are bad. Oh, they like camouflage, you see; so, anyone who likes camouflage is bad. Especially if they’re White, bad. Especially if they hunt, that’s even worse. Yeah, they’re out to get you. You know those dangerous White people who like to go fishing on the lake, yeah, they’re out to get you. They’re out to hunt you down. Oh, you’re wearing bluejeans. Oh, he’s got a chain on his wallet. Oh, he’s out to get you.

Meanwhile, were at these tip-top parties, where George Soros, and some of the meanest genocidal maniacs on the planet; but they’re wonderful. They love you. They’re your best buddies; but, anybody

who doesn't want to be pushed around, who doesn't want to be oppressed, well, they're the enemy of humanity.

Look at this. They may have these Nazi flags, right. You always have these provocateurs. This woman, she doesn't look like she knows what the heck she's doing there. She was probably paid fifty bucks to hold that flag there. Do you know how easy it is to get somebody out on the street to hold a stupid flag for your rally, to sabotage it? That's called saboteur. Do you understand, these people understand the quality of warfare and propaganda? You get a Conservative rally that's going on, get a couple of White Supremacists look-a-likes, shave their heads so they look like skin heads, who fit all the stereo types, give them a suit, with make some German flags on there, then pay some old ladies to carry some swastika flags, and now you just demonized the entire Conservative rally, who was out there for lower taxes, or who want home schooling to be allowed. You know, just normal people; and, there you go. You have the braindead masses just falling into it.

Now, I'm thinking, "Hey, wait a minute. Before we jump in on this, maybe we should look into the organizations a little. Maybe we should see who these people are. Instead of just jumping in and seeing what CNN or MSNBC tell us, maybe we should like wait. Maybe, we should do a little research on these organizations, who are coming down here. See where they get their funding from, huh. The Klu Klux Klan getting their funding from the CIA. This is how corrupt this is. You can't just make this up. This is how corrupt it is. How deceitful.

The CIA is running the drug trade, the heroine trade. Ninety-three percent of the poppy seed we produce, that the United States produce in Afghanistan; and, they told us we are going to Afghanistan to get Osama. He was working with the CIA in 1982 training with the US military fighting against Russia. I'm not the crazy one; and, the US is in Afghanistan running the drug trade, peddling it to minority neighborhoods, destroying any potential for them to pull out of that system; so, they got addicted early, and they cannot fight back, because Black community was one of the most up and coming communities in the 1930s, with one of the highest graduation rates from college, and one of the highest entrepreneur start up business.

You got the braindead masses, who just run in on it, and buy the hype of CNN and MSNBC. "Yeah, I'm going down and beat them up." Got his little hippie over here with his rolled pipe in it. "Yeah, I'm going down to beat you with a stick. There I am. I'm going to wear my pink sunglasses and go do there and spray something racist. Yeah!" I mean, how brainwashed are these children? Hey, instead of setting off civil war in the country, why don't you take a look at the organizations that are there first, huh? If they want to do some stupid rally, let them have their stupid rally. You can go protest, sure, but don't them to get you to start fights there. You can exercise your opposition to it. Go ahead, protest; but, don't let it get to what CNN and MSNBC wants you to get, and let George Soros, He's out there laughing at this going, "Ha, ha, ha! Like a Palpatine in his emperor chair, with his black robe and hood, and electricity shooting from his figures."

What the heck is this? Look at this. Talk about such a set up picture. "Oh, the dangerous Conservatives. They all agree with the White Supremacists. No! The majority people here, they all want Thomas Jefferson statue taken down, because he lived in the area, and he was one of the founding fathers, and he put in one of the clauses to end slavery. This was Robert E. Lee. I mean, look at this? That looks like it was out of a movie. You know when it looks like it was out of a movie. It probably is a movie. Look at that scene. Are you kidding me. You're telling me that this is not some fabricated thing to get some kind

of civil war going? That looks straight out of “Beauty and the Beast” or something stupid like that. People are so stupid, they’ll see this and go, “Yeah, we’re going to start this war now.” Why? You want to see a lot of bloodshed? These crazies, who never fought in their whole life, trying to pick a fight. Do you know how deadly that will become? Guess what? The Conservatives and Libertarians are not going to lose. They’re the ones who are all trained with guns and know real fighting. It’s the Liberal lunatics, who play video games all day, who think they’re Batman, who think they’re Spiderman because they wear an outfit, and they run around in tights that are red and white, or red and blue. I mean, give me a break. That looks like staged things. Give me a break. Look at that. “Oh, yes, it was all spontaneous.” Give me a break.

The cities are now imploding because of this. The whole economy is going to be damaged because of that; and, of course, they tested it out. They killed some people. They got the braindead masses to get into the fight. At the same time, we got the illegal Mueller, who’s out there investigating Trump for ten years, twenty years from his past business dealings, to see if he ever did any business dealings with Russia before he was President. What the heck do you think International business men do? They make deals with other countries and people; but, they can’t find anything that he’s done, so they’re now going back on his business dealings for the last twenty years; and, they won’t investigate Hillary Clinton, who takes millions of dollars from the ChiComs, who stole millions of dollars from the Haitian people, whose husband rapes women and bites them on the lip so he dominates them, and gets away with it, who’s been to pedophile island some twenty times, caught in Wikileaks saying literally they want to set up race wars. These are some of the biggest international crime bosses, and they’re not being investigated. But, oh, Trump twenty years ago, he made a deal with Russia, where he was going to buy soda pop. It’s ridiculous.

Then, of course, you have Mueller in the FBI as the former FBI Director, and you have this guy on CNN, yesterday, coming to say what? The government is going to kill Trump. He’s salivating at the mouth saying, “Yeah, we’re going to kill him.” This is not a game, folks. This is not a game. “CNN counter terrorist analyst Phil Mudd warned that President Trump is agitating the government saying during a Thursday afternoon interview with CNN anchor Jake Tapper that the US government is going to kill this guy.” Mudd, who served as deputy director to former Director Robert Mueller, etc.” You can’t say that kind of stuff on TV, folks. You can’t say that stuff on TV. How is okay to say that they’re going to kill the President? This is a counter terrorist expert, who is a former deputy director of the FBI say that, “Yeah, we’re going to kill him? Could you imagine if Obama were President, and Sean Hannity coming on and saying, “Yeah, the governments going to kill Obama?” I mean, talking about the climate. The Left ramping up CNN or MSNBC ramping up this rhetoric. “Kill Trump, kill Trump, kill Trump, behead Trump, behead Trump, he’s a Nazi, he’s a Nazi,” when they are the Nazis.

Hitler wanted to socialized health care. Hitler wanted to bring all the goodies from the Archangel. Hitler, and the Communists, wanted to do the whole shebang; and, they called the people who were against that, the Commies and the Fascists. If you don’t want to be imploded under socialized health care and wait ten years for your surgery, and you may even die before you get the surgery, because there’s tens of thousands of people in line, which happens in Canada. What’s the wait time, up to six months, sometimes, for the surgical procedure.

See, when everything’s free, the quality plummets. You have no more quality; but, there you go. You have top, top intelligence agency people saying Trump should be killed, and we’re going to kill him. A

whole culture for the past year. I mean, how do these people get away with that? How did this woman get away with this? Kathy Griffith should have been investigated. She should have been prison. She's threatened the life of the President of the world, do you understand. That is a clear and present danger not only to our nation, but to the world. How is it that she could do some ISIS piece, and act like some freakin' Jihadi from ISIS, and get away with it?

Look at all these? Oh, they're so liberal, they're so nice. There so wonderful liberals. They're so open minded. Well, let's see what some of those open-minded liberals say? Look, look, look. Someone, "Anyone, PLEASE take a snipe rifle and kill Trump; shoot him in the head like the impulsive, etc." There are some of your liberal trendies. "Kill your local Donald Trump supporter." So liberal. So loving, so tolerant. "All you Worcester gangsters and what not. You clearly have a mission on Wednesday. Kill Donald Trump." Oh, that's so, so Progressive. It's okay to call for a political assassination of a duly elected President, as long as they agree with you, as long as they don't disagree with you, as long as they don't want to centralize power, and they want to return power to the states and to the people. "Kill him. Kill him." That's fine. That's cool. That's modern. Hollywood loves you. You're going to be cool. You're going to be popular. You're going to be great. Just keep saying it. You'll going to say the culture to kill the Trump, the President. That's fine.

Do you know that is illegal to do? You're threatening the duly elected head of a nation, and the world's most powerful nation at that. I mean, these people are so braindead, they're so vegetated, they don't know what the heck they're doing. They don't even know what they are doing. They won't go to Venezuela and say, "Hey, kill Maduro!" Do you think they're going to do that? They're so braindead. They're so desensitized. They're so plugged into the matrix of control that they literally think they are doing nothing wrong when they say kill the President of a nation. They're crazy. Someone needs to murder Trump ASAP. Oh, he's so cool and trendy, because he's got tattoos. He's so badass, because he says, "Kill Trump." You're committing a crime. You're threatening the security of a nation, and you see this insanity, and the cultural war of insanity trying to just call for the death of Trump supporters.

Beat them up. Attack them. Pepper spray them. You can't go to a rally without being pepper sprayed. Did you see that rally in Charlottesville? Everybody came in with goggles. Everybody knows they're going to get sprayed. Did you see that. So many people wearing goggles, helmets. They know they're going to get hit over the head with a two by four, and probably will be sprayed in the face.

Now you have all this insanity going on; and, I it is only going to get worse. I'm not trying to be a fear monger, and I am not trying to scare you, because we have been telling you the truth for the last three years, and you have seen it happen. Look at this. There making crazy videos with these crazy characters. Here's the President with Spawn. They are cutting off Trump's head. Look at that. That's okay, right, because they're young millennials. And they love Hillary Clinton. That's why drawing pictures of cutting off Presidents heads in great. They'll be a plot calling professors saying you're so brave. We have to give you an award. You get a Purple Heart for bravery. You think I'm crazy. You're crazy, because I see the real stuff. I'm not the one who's crazy. There's people who don't want to see reality. There the ones who's crazy. This kind of violent rhetoric. This kind of violent culture. This kind of kill Trump culture.

Look who is promoting this? Kathy Griffith was a CNN anchor; and, the host for their New Year program every year. She's an employee of CNN, and she's out there holding a decapitated head of Donald Trump, the President of the United States of America, the most powerful nation on the Earth; and, she thinks,

“What did I do wrong? I didn’t know I did anything wrong. What, did you just get out of a bib yesterday? Are you still feeding on Gerber foods? What Universe are you living in? Clearly, a Universe with no consequences, where you can have tantrums, and act like a nut bag, and nobody says anything. Oh, you’re a hero. This kind of climate is hundred percent the climate for not only civil war, but all kinds of chaos.

Isn’t it unfortunate. On top of that, you see it doesn’t stop there, on top of all of that, there’s some bad things coming down with the economy, too.

(A video showing the verge of the American economy ready to collapse, because of the economic bubble in our economy is ready to burst; so, many important economic and political leaders expressed their concern for the coming collapse.)

The top experts saw at the time of civil unrest, clearly showing that if you look at the cycles, we are on the verge of economic collapse, too. You know what happens when you have civil unrest and economic unrest and nobody’s money worth anything, you know what happens then? A lot of death. A lot of chaos. This international crisis is not only in America, folks. This is worldwide. You have European people here, it’s in your country, too. You may have been thinking about these things; but, you’ve not been ready for the times, because, you’re not, you don’t feel the reality. You think, somebody else is going to take care of me, or you know, it’s okay, it’s okay. It’s going to be alright; but, you know the history of Providence. You know you have to do your five percent. That requires one hundred percent effort. It’s not a matter of just thinking about it once in a while. What are you doing to prepare? Maybe, some of you guys have kids that tell you, “You’re nuts. You’re nuts.” I’m going to stay in the cities; and, then when it happens, it starts. “Oh, Mama, I’m coming home.” Stupid kids. Really a smack in the face sometimes. Stupid Kids.

This is not a joke time that we’re living in. The signs and wonders are coming. Civil unrest is being set up by design. Economic collapse is coming; and, we are on the verge of war with Russia, China and North Korea. Great job. Great job. This is a whole bunch of bad scenario, folks. Each one of these alone are enough to deal with the crazies in Korea, shooting nuclear ICBMs, test ICBMs into neighbors and other people’s oceans, and Trump said there will be “fire and fury.” Yesterday, he said, “We are locked and loaded.” We are prepared to go to war, and set off World War III. Within one day, you’ll have millions that will die in Seoul, if that war begins. Millions. Millions. We are not talking about some small casualties, like a couple of hundred. No. We are talking about millions. Millions, dead.

God’s Providence moves around key Central Figures and key groups. You look at the Providence from Adam and Eve to Noah to Abraham to Moses to Jesus. A small group changes the world. For the last three years, you’ve been made to feel stupid. You’ve been made to feel insane. You have been made to feel you’re crazy, you’re a nut, and you’re following one of the children of True Father who is cursing at his mom all day.

We are not cursing at our mom as most people can now realize. We told her the truth that if she does it, she’s going to curse herself. How do you say Mooshi in English? How do you explain Mooshi? Disregarding? It has a little bit of that. Put down, disregard. I think it’s a combination of all that, isn’t it? Ignore. Oh, in English we say, “blow off.” If you blow off God, and don’t think, you may be blown off one day. How many people blow off God? How many people blew off Father? We’re literally the only people on Earth, who declare True Father. Do you understand that? On this whole planet. These are the Saints

right here, not because we're perfect, not because we never make mistakes, we don't fight with each other. No. For this whole planet, this small group are the ones who declare the Lord, standing up for unrighteousness, even though we are not adequate many times; and, we're incompetent in many things, He's still using us. God's still using us. He's chosen us. When you have people, yes, when it starts breaking down coming and saying, "Oh, I'm so sorry. Oh, I really didn't understand. I always supported you. I always supported the Second King. I knew he was the King. I knew it. I knew it. I just cursed him every day. I said, he should die every day in my daily prayer; but, I knew it all along." Pathetic, deceitful liars. They will come to those who have prepared, "Don't you have a heart for some of us?"

In the end, God doesn't use our preparation that we have fulfilled for only ourselves. Yes, it's good for your family to prepare. Yes, it's good for your family to have real assets. We talked about this for the last two three years, not paper money, not fake stuff, trying to educate the whole world. A royal family tradition. A royal family perspective. It's not only for you. It's not only for your family. In a time of crisis, God will also send people to you to repent. It doesn't mean there won't be snakes amidst those. There will be. Oh, yeah. There will be. There will be snakes that say, "Aww! I always knew you were right. Just don't look at my past Facebook posts. Don't look at that."

That's the amazing thing about this. It is all on record. Everything that everybody said is on record. I'm not the only one on record. Everybody is on record. That's what's amazing. It's like the Spirit World, when Father says the Internet became like the Spirit World. It becomes transparent. These are the times we are living in. If we are living in Mid Trib, it gets worse. Everybody has to realize, if you are not preparing yourself and your family, you are very selfish. You are an extremely selfish person, because you don't care about your family, and you don't care about other people that God may send to you, that He wants through you to repent. It's unfortunate. It's sad, and it makes me angry to see it, and I'm sure it makes God angry to see it; but, that's how fallen people are. They never loved God. They never trusted God. They did it for political reasons and money. They made fun of those who are faithful, who lost everything, who got cursed, and hated everyone, and when the crap happened, they said, "Oh, I'm so sorry." It is going to be important to make people accountable, of course. Yes, for people who committed large crimes to be held accountable before an ecclesiastical jury, and juris prudence, which God is leading us to develop here at Sanctuary for the first time in the history of the Movement.

Probably all of you heard that Lourdes and Jamal's case is stopped and discontinued. No, it is not. It is going to continue. God is sending us these tasks to do in the image of Cheon Il Guk; because, yes, those foolish, tepid, pathetic little prostitutes, when they realized they were wrong, and they were wrong, when they realized they betrayed Father, and they were complete politician liars, and let everybody knows it, that all their little followers that they believe they could control are now leaving them. There are a lot of people, who are not in position of leadership who just went along. They are stupid. They are. They followed the wrong group; but, when it gets real, God will bring them to repentance, and they will see how much they have done to harm, and against you. They, themselves, will recognized how pathetic they've been to curse all these years that you were following Father's only appointed Successor, and Representative Heir, and I didn't appoint myself, nor did I crown myself. I'm just wearing the crown that Father Crowned on me three times on two continents in the course of two days, three days, two and half days, even though that's not the actual Crown, because they took it; but, it's in the symbol of that Crown, because they took it, but it's in the symbol of that Crown. God will have to use you at that time to bring about judgment, and repentance and accountability of those people; and, yes, they come back as fallen people, but at least they come back to God. Repent of their sins, stand with those under

Father's authority, those on the planet, the only ones that are left that declare the Lord, and to stand up against heresy.

You see, Sanctuary, and all of you on line, this is the real deal, folks. We're not playing around here. Everybody you meet here may be a little wacky in some ways; but, that doesn't take away from the quality of the character, and the love that is true to the Lord. Yes, none of us are perfect, none of us on our own can bring about God's will; but, we just beg, and we ask Him that He may use us in any which way to bring about His Kingdom, and His Will.

You must remember what kind of people here, folks, because too fast we forget. It's a different caliber of people. It's not because you come from this or that background, or because you have money. It doesn't matter. This is what God builds civilization upon. Not upon deceit and usurpation and dishonor. No civilization is created up those things. It's always destroyed by those things, not created.

Time is quickly passing by. We are now standing at a critical time in history. This is time to pray for the President. Pray for the micro, pray for the macro. We thank you for all your prayers. We pray for your families as well. We ought to give everything we can that we would stay responsive, and that we would stay alert to the prompting of God during these tribulation times. God is gathering back His people. God is gathering back His foundation. Some very high-level people will start visiting us very soon. God from nothing is recreating His entire foundation in His Kingdom. It is critical for us to be the responsible stewards of that to not just hear it, and want to hear it again next week, and not do anything. This is the time. You don't have so much more time. We don't have so much more time. It's all about being about God's timing and God's plan, and when He wills it.

Whatever happens, we know, we may not live through it all. The Bible predicts that. Believers in Christ will be beheaded, be killed, be murdered and hunted down; so, there is no guarantee all of us will live through all this thing. There's no guarantee there will be no accidents, or as the video even said, your children won't commit suicide. There is no guarantee of that. Why do you think you only be protected? You aren't you doing your five percent? Are you preparing your kids mentally, physically; so, when they want to commit suicide they're all depressed, and they want to be how stupid they will be for calling you a nutbag for five years, because what you said came true. The only way to cope with that reality is not to admit and say sorry, but to say, "Oh, I'm going to kill myself." You know how stupid kids can get? How come you are not preparing them spiritually, mentally for that? How come this is the first time they're hearing this? You don't think Satan's going to want to tempt them, do you. "Yeah, take it. Yeah, slit it. Do it. You're going to be a hero. Yeah, everybody's going to come together, because you. Yeah, slit it." You don't think Satan's going to do that to your kids? No, No, no. You don't have to admit that you were wrong. Just come to me. Take your life. You'll be a hero. Everybody will celebrate you, or that you wanted it to. They get off in this stupid hero cult by themselves, thinking that their suicide is going to change the world, when it does nothing but destroy it. Why do you not bring this to your children? Why do you not challenge them to be spiritually ready, and armed to defend themselves from Satan's attack? What we believe in, and what we see beyond what we can think, we do not know what test and tribulations are going to open in front of us. All we can do is remain faithful and prepare ourselves and family as much as we can. That doesn't mean we have to live in paranoia, but we can actively prepare. We can learn from others who are doing such things. We can become part of the community of the peace police/ peace militia training. Because we can start opening up other realms of understanding.

Not be brainwashed by the social cults around you saying, “No, no, no. That’s crazy, man. That’s conspiracy. That’s nuts.”

You just have every expert in the financial realm saying financial collapse is going to come. You have experts saying more people are going to be mowed down; and, you have civil war breaking out in these little towns. Charlottesville is not so little. You have nuclear emergencies being declared in parts of the United States now, like Hawaii for example. Preparation drills are already taking place in Hawaii and Alaska. You were told that North Korea doesn’t have ICBMs that could hit America. Now, you’re told one month later, that they could hit every freakin’ city in the whole of America.

You were told that it’s Trumps fault, when it was in 1997 Bill Clinton gave North Korea nuclear information and technology. There were the same culprits, the same mob cartel mob bosses here in the US, like Hillary Clinton and those fools, who were arming them. There are nationwide nuclear drills in Guam and Japan. Governments with millions of people living there. You can’t be playing around, folks. This is a serious time, and in the serious time, of course, there’s room for love, for comedy and laughter and all those kinds of things, yes, you can do all that; but, don’t let it take away your responsibility. Don’t let it lull you into a false sense of security of delusion. There is a vigilance that must happen with our responsibility, because we don’t know how God will use that. We just don’t know.

Cheon Seong Gyeong, Page 2007

God is a miserable God, a lonely God, and an unspeakably sad God. God’s joy will begin when we become standard-bearers for the liberation of God. His joy will begin when we become soldiers on the front line who, even if we are bleeding and fall down from loss of blood, we have the conviction that we will keep going until we collapse together. When the ranks of the brave soldiers who are fighting to restore our homeland and bring the world into one gradually begin to increase, God’s joy will begin.

We want to return praise and worship to God. We want to praise Him. We want to sing His song in praise. SOS, come on up. We want to do that; but, that should mean we just sing a couple of songs in praise, and go home and forget about everything, and watching Oprah on stupid TV, or watching some ridiculous Manga that’s brainless and useless. It should be stimulating. It should be prompting; so, if you feel convicted, don’t blame me. It’s not me. I’m not convicting you. You know it’s the Holy Ghost convicting you. I’m not the one laying idol. I been moving. I’ve been training a whole group of people. If God is convicting you, then, hey, He is calling.

There’s more ways to prepare than one; and, it’s not only about food supplies, and that kind of stuff. It’s about preparing for the harvest that is coming, because there is a judgment, there is a harvest; so... Not all will be saved. No. We know that. I know that. I’m not unrealistic. I’m not idealistic like that. Not all will be saved, I know. Some will be eternally separated from Father, okay. Now, you know that, and understand that; but, God may provide a way for people to have repentance. Those who committed crimes on the leadership level, of course, that’s a different level of crime. For the innocent, the braindead lemmings, who just jumped off the cliff, we don’t know how God will work; but, of course, when they come back. They’re not coming back to change our culture. They’re not coming here to tell us to adopt their civilization, because their civilization has Fallen, it’s deceitful, it’s a social club, and it’s not based on true loving relationship with God. They come here to learn. They come here to grow. They

come here to face reality, and go through growing pains, not to be told how heroic they were, because they will be pathetic; but, God has a way.

As we praise God, today, keep these things in your heart. Camp is starting, now. We're only a month away from the signs and wonders from Heaven, and who knows how many months before it gets worse. Keep us in your prayers. We keep you in our prayers. If you have the ability, and you are in this region, then you should come practice and train with us in our community. Do anything you can, because God's Kingdom will come, and Satan's Kingdoms will perish. That is guaranteed. Let's all rise and give the King of Kings all the glory and praise, as we worship, and give these songs in praise to Him. Amen-Aju!
