

November 12, 2017 ~ Revelation 18 ~ Rev. Hyung Jin Moon ~ Newfoundland, PA 18445

Now, let's go to our Word, today. We are in Revelation, Chapter 18. The whole Scripture, today, is connected to what we saw last week with the Harlot of Babylon in Revelation 17. It's still connected. So, let's read together through Revelation 18:

Revelation 18:1 And after these things I saw another angel come down from heaven having great power; and the earth was lightened with his glory. **2** And he cried mightily with a strong voice, saying, Babylon the great is fallen, is fallen, and is become the habitation of devils, and the hold of every foul spirit, and a cage of every unclean and hateful bird. **3** For all nations have drunk of the wine of the wrath of her fornication, and the kings of the earth have committed fornication with her, and the merchants of the earth are waxed rich through the abundance of her delicacies. **4** And I heard another voice from heaven, saying, Come out of her, my people, that ye be not partakers of her sins, and that ye receive not of her plagues. **5** For her sins have reached unto heaven, and God hath remembered her iniquities. **6** Reward her even as she rewarded you, and double unto her double according to her works: in the cup which she hath filled fill to her double. **7** How much she hath glorified herself, and lived deliciously, so much torment and sorrow give her: for she saith in her heart, I sit a queen, and am no widow, and shall see no sorrow. **8** Therefore shall her plagues come in one day, death, and mourning, and famine; and she shall be utterly burned with fire: for strong is the Lord God who judgeth her. **9** And the kings of the earth, who have committed fornication and lived deliciously with her, shall bewail her, and lament for her, when they shall see the smoke of her burning, **10** Standing afar off for the fear of her torment, saying, Alas, alas that great city Babylon, that mighty city! for in one hour is thy judgment come. **11** And the merchants of the earth shall weep and mourn over her; for no man buyeth their merchandise any more: **12** The merchandise of gold, and silver, and precious stones, and of pearls, and fine linen, and purple, and silk, and scarlet, and all thyine wood, and all manner vessels of ivory, and all manner vessels of most precious wood, and of brass, and iron, and marble, **13** And cinnamon, and odours, and ointments, and frankincense, and wine, and oil, and fine flour, and wheat, and beasts, and sheep, and horses, and chariots, and slaves, and souls of men. **14** And the fruits that thy soul lusted after are departed from thee, and all things which were dainty and goodly are departed from thee, and thou shalt find them no more at all. **15** The merchants of these things, which were made rich by her, shall stand afar off for the fear of her torment, weeping and wailing, **16** And saying, Alas, alas that great city, that was clothed in fine linen, and purple, and scarlet, and decked with gold, and precious stones, and pearls! **17** For in one hour so great riches is come to nought. And every shipmaster, and all the company in ships, and sailors, and as many as trade by sea, stood afar off, **18** And cried when they saw the smoke of her burning, saying, What city is like unto this great city! **19** And they cast dust on their heads, and cried, weeping and wailing, saying, Alas, alas that great city, wherein were made rich all that had ships in the sea by reason of her costliness! for in one hour is she made desolate. **20** Rejoice over her, thou heaven, and ye holy apostles and prophets; for God hath avenged you on her. **21** And a mighty angel took up a stone like a great millstone, and cast it into the sea, saying, Thus with violence shall that great city Babylon be thrown down, and shall be found no more at all. **22** And the voice of harpers, and musicians, and of pipers, and trumpeters, shall be heard no more at all in thee; and no craftsman, of whatsoever craft he be, shall be found any more in thee; and the sound of a millstone shall be heard no more at all in thee; **23** And the light of a candle shall shine no more at all in thee; and the voice of the bridegroom and of the bride shall be heard no more at all in thee: for thy merchants were the great men of the

earth; for by thy sorceries were all nations deceived. 24 And in her was found the blood of prophets, and of saints, and of all that were slain upon the earth. Amen-Aju!

Wow! So, we are, of course, connected to the Revelation 17, okay. Now, it's interesting, the whole millstone is coming out after Verse 20. Now, remember when Jesus said, "He who harms even the least of these children, let a millstone be tied around his neck, and let it be cast into the sea." Matthew 18:6, Luke 7:2. We understand that it becomes very clear that Satan was the first pedophile. He was the first pedophile. He's the one who was grooming Adam and Eve, and went after them, and eventually got Eve, okay, to tempt Adam; and, of course, he was a predator.

And, of course, now you see in Hollywood, in the Babylon culture, in the whole free sex culture, which comes out of, not all of America, obviously, but key areas, key media centers like Hollywood; and, you can see the whole scandals exploding. You can see the pedophile networks being exposed. You can see under President Trump, you can see under President Trump 10,000 pedophiles have been arrested, which means were receiving a safe haven, okay; but, of course, the mainstream media won't cover that. They won't cover it, even though it's on KTLA, and 474 in Los Angeles were arrested. Denver, a pedophile ring was shut down. 80 plus children were rescued; but, the mainstream media won't cover it, okay. They won't cover it, because it's a propaganda arm.

The mainstream media has now become a propaganda arm, and Satan is not just living in the ether of some spirit. He is the Prince of this world. He is the ruler of this world. He will use all manner and powers, systems, media, people to implement his will, and of course, to his kingdom of Socialism, Communism, political Satanism, you name it. All these things with centralized power, concentrated powers, so that the top predators, apex predators, the worst or the worst, psychopathic predators can get to that concentrated power, can get access to it; and, then of course, they can evoked their will on a helpless population; and, that is of course, why, after each one of these shootings that happen, you always have the Leftist coming out saying, "Gun control, gun control, control," because they don't want you to defend yourself. They don't want you, who is a law-abiding citizen to be able to defend your flock, your family, and your civilization.

And, when we look at historically, the nature of a slave is one who cannot own property, who cannot own weapons to defend themselves or their family, and of course, owned by other people as property; so, you look at the rests of the world, and of course you now see the sovereignty waves sweeping throughout the globe. The Trump revolution is now sweeping throughout the globe. He's not perfect, but he's representing a change of time, a change of civilization that is coming; and of course, normal people are starting to rise up and start realizing it. Austria and Eastern European is now rising up and saying, "We have to be able to defend our own countries, and we want gun rights, and we want the right to defend our villages and towns, and we want to have borders, and we want to be a country, we want to have a civilization. We don't want to be in this multicultural soup, where we get eaten up by other cultures, especially radical ones like is happening in Europe, and London of course. You're from London, Ted.

So, it's very interesting, in this whole Scripture of Babylon, we are talking of this free sex culture, the destructive culture, every civilization will be based on fundamentally its sexual ethics. What kind of sexual ethics it allows. If it allows much deviance, sexually, you will also see a manner of breakdown, right, where we know as soon as the free sex culture and deviant sex culture comes in, you know, sexual norms get weakened, etc, families break apart. Husband and wives don't stay together. There's no real

reason to be committed anymore. It's not the trendy thing to do anymore. It's too traditional, alright, when of course, it's the most stable unit for children, and of course, the most safe place for children. Of course, we showed the studies, where in a single mother homes, you are eleven times more likely to be abused physically as a child, especially if she has a boyfriend. That's statistics.

So, we know the parent, the father-mother home is the most stable home, and of course, the father's must be in the home, because they represent Christ in the household; and, when the socialists, and the Commies, and the political Satanist can get rid of the father, they own the family. When they own that family unit, they own you; so, they always want to get rid of the fathers, the strong, honorable, good masculine men, okay; and, they call it toxic masculinity, they call it whatever name. They just call it everything. No, we're supposed to be masculine men. We're supposed to be the heads of our house. We're supposed to be Christ centered households. We're supposed to know how to do things, and stand up against evil, and be willing to fight and die for our Kingdom.

But, of course, they don't want you to be filled with that spirit. They don't want you to be filled with the spirit of knowing that you should be able to identify between good and evil, knowing you should be able to discern between those things. They want you to become dumbed down, watered down; so, you can't see the difference. You'd be confused, like Isaiah says, "In the end good will be called evil, and evil will be called good." You won't even know. It's all a big hodgepodge soup. You won't be able to say, "Hey, wait a minute. That's wrong," because your scared of being called a homophobe, or a bigot, or Islamophobe, whatever it is.

So, all these things are starting to break down. People are starting to say, "I'm not going to be controlled like that anymore, and because of the internet, people are able to share opinions, and share their thinking; and, of course, the sovereignty wave is rising. People are waking saying, "Hey, I don't want to be told what to believe. I going to look at it with rationale. I going to look at the arguments, and I'm going to decide. I'm not going to believe what CNN says. I not going to believe what this or that institution says. I am going to research for myself; and, it's very, very important. In the midst of all that. Now, you have the explosions of the reality of Satan's culture. The fundamental glue that welds and binds it all together, which is this sexual culture, the free sex culture.

Those super elite classes you saw last week, where it was blowing up with George Soros hedge managers, fund managers. Women are coming out saying that the guy was into sex dungeons, and beating women, while he was having sex with models. You remember that? You saw that article. The mainstream had to cover it, even though they give it like five seconds, they had to cover it, because this stuff is starting to come out.

Harvey Weinstein, James Pollack, Kevin Spacey raping fourteen years old boys, the Open Secret documentary about the pedophiles in Hollywood, and Maury Weiss raping eleven years old boys, giving them blow jobs, and then destroying their lives, completely. Those documentaries are now out. They are now out, and they are coming out with more, just like Project Veritas has gone and infiltrated the New York Times. Youtube showing the top executives managers in Youtube saying, "We don't let Conservative voices trend. We only let Leftist things trend." You know, just this week, one of the heads of Twitter was bragging at a Senate Intelligence Hearing saying that, "Yes, we erased and deleted the posts and articles from Twitter that are connected to Infowars and Breitbart." They're just bragging about it. They're saying, "Hey, yeah. We do it. Yeah, we do it. We censor people." That's why were so liberal. We're so liberal that if you go against our beliefs, or opposite to it, we'll censor it, but we're

liberal, because that's what it means to be trendy and tolerant, to censor other people's views; and, that's the real big point about the Conservative movement, that it's really been taken over by the Libertarian movement and the Common-Sense movement saying, "Hey, look. We're not trying to shut you down. We're not trying to censor you. You can have a different opinion than us; but, stop trying to censor us? You can have a different opinion. Will debate and beat you; but, don't try to censor us, because we beat you." You see?

And of course, this whole Scripture, this whole Babylonian culture, the culture of free sex, and the culture of the hidden networks, and the culture of Satanism that's all connected in-between all those things; and, yes, of course I understand. There's different groups of Satanism. There's atheistic groups, and theistic groups; that they all do not believe in the mythical Satanism. They may not all believe, I understand that; but, at the top level, and this is confirmed at the top news sources around the world. Top level with the Royal family of Britain, and what's with it, Jimmy Savile, BBC. You have Sir Edward Heath after he died, the police said he was a necrophile. He liked having sex with dead children.

So, you're talking about people like Jeffrey Dahmer, literally like Jeffrey Dahmer who are commiserating at the elite level doing literal Satanic worships; and, normal people can't fathom that it can exist, because you are not a super predator, demonic, you know, Satan possessed person. You just want to be free, have prosperity, raise your kids, have grandchildren, you know. See sunsets once in a while, things like that. You know, make some pizza with your kids, and have a little tomato pasta fazool, whatever it is. You are not out to prey on people, and exploit children, and traffic vulnerable people. You're not into that, because you're a normal person. You're not a psychopath; but, these people are into it, especially when concentrated power gets concentrated. We always see, throughout history, all the kingdoms of the past. You can name whatever culture it is. All the kingdoms with centralized power, the worst predators get attracted to that power. The worst ones collude there. They start, how do you say, they start flocking, flocking to that power, okay.

So, you see, all of Babylon is starting to breakdown. It's starting to explode, and just from within, it gets exposed to just how evil and corrupt, and how decadent, and really people in Hollywood could not even speak about it. Of course, a lot of these things are still allegations, right; so, they still need to be tried in court; but, still, there's all these people that were coming out. They are coming out against all these major huge bigtime directors, and bigtime people in Hollywood that were basically preying on this epicenter of all these young people gathering to find stardom, and, you know, fame and fortune.

It's like a central ground for them gathering, and all of us sitting right there, you know, sheep, who want to become stars are being funneled right through this pathway into the wolf's mouth, right. That's basically what's happening in Hollywood, and they're still working, which is so shocking. Corey Feldman, who is an actor in "Goonies." He's come out, and he's now filed a report with the LAPD last week, you know, naming Marty Weiss, who was in that video we all saw. We all saw that video. The guy is still being employed by various Hollywood organizations training children.

So, you have this protection culture of Satanism, and just anti-Christian culture in Hollywood, which is really sort of the backbone connection to Washington DC, to London, to all the different networks of the highest levels that are using these different ports around the world to indulge their rituals. Of course, we had Zachery King on, the former Satanist. A twenty-six years Satanist as the High Priest in a Satanist Church. How many saw him? You remember him, right; and, he was the one who exposed Planned Parenthood; and, the Satanist and wiccans gather there, because they wanted to have access to the

dead baby's fetuses, and then they do the ritual. The black masses with those fetuses. He was a Satanic High Priest for twenty-six years. He was the one who started to tell us about that stuff. Now, of course, not all wiccans, not all, right; but, there are the predatory ones that want to do those ancient rituals, which require satanic human sacrifice, right; so, we see this in all cross cultures, all the pagan cultures. We see human sacrifice becomes a key element of their power, a key element of their ritual, a key element of their civilization.

So, you see that Babylon is metaphysically burning down. The shields, the vales, are all being torn down; and, now the light. Father calls it the noontime Sun, the noontime Sun is now starting to shine; so, they cannot hide anymore. What these elitists were doing to the general population, because they know the general population has been so dumbed down by education, which is really indoctrination, has been so dumb down, but not to think critically in many institutions, not to think. You're taking all these standardized test, not knowing who to think critically now. It's becoming like the Asian Chinese model, which they have in Korea, too. The US training model is becoming like that, too. It's copying that Prussian education system with Horace Mann, what was it? 1940s-50s-60s.

So, it's just so unbelievable; but, you see the cultural wars, and the elites know they are doing it. This is what's so bombshell. I want to show you this incredible clip, which happened this week. This was Sean Parker is his name, right? He was the first President of Facebook. The first President of Facebook, okay; and, this week, he was interviewed by Axios at some conference with the elites. He's a multibillionaire, a thirty-seven years old billionaire, right. He started Facebook with Zuckerberg, and really the CIA as a data collection agency. We all know that. We know that the government is using Facebook to follow people, and they do research on people all the time through Facebook. That's no big secret; but, look at Sean Parker. This is the founder of Facebook. Now, he's starting to admit some stuff about Facebook, after he's pretty much destroyed a lot of people's lives.

(A film about Facebook was shown, showing the two founders, Parker and Zuckerberg were creating a site that would become addictive to millions of people.)

Well, there you go. He admits it. See, they know what they're doing. They know human behavior studies. They invested billions of dollars into it. The elites are crazy about how human beings behave, because they're into central planning. They're into controlling. They're into, if you follow our policy, you will have the utopia. There just into this controlling, dominating system.

So, you have him, and look how he got sucked in, as he created this monster, which he knows is going to give kids a dopamine high. It's going to make them feel so... you know, it's not going to make them feel a sense of relationship, because they're not dealing with these people. They're many times dealing with bots, which creates groups around them, and that attracts real people to them. It keeps them on this loop cycle of this constant validation, you know, this feedback loop, where they're saying, "I put a post. Oh, how many people liked it. Oh, okay. Then, that makes me good." Do you see what I'm saying? You have this fake sense, this fake sense, this cybertronic, mechanical, fake relationship with the world, and with people; and, you literally think your Facebook friends are your real friends, when many of them are your rbots. They're little robots, right. Facebook has, you know, when you have to do source codes, or something like that. Type in your PayPal or something, where you have to type in I am not a robot, where you have to type in the numbers, and stuff like that, because they have other things that through algorithms can lock into the things you're doing.

Advertisers can hit you constantly. They know you're depressed. They admit they go after the people, who are depressed. They admit they go after people, who lean left, politically, to keep them even more surrounded on their political correctness plantations; and, so, they know they are going to be more depressed, because they are not going to have to deal with reality. They're not going to have different views. They are made to be infantile arrestive development children.

When you say anything that disrupts their view, they have cognitive dissonance, and start screaming and shouting like banshees. "Donald Trump is evil. He's a white supremacist." They're trained to do this. They can't have a rational discussion, discussing and detailing actual evidence and positions; and, so of course, when you are trained like that, you are going to be depressed, because the world doesn't... nobody's going to reward that wacky behavior; so, the more you're depressed, they can hit you with more ads, and get you on that shopping dopamine high, and get you to shop while you are depressed. "Oh, that makes you feel good. Oh, I bought that. I feel good." Okay, then five minutes later you got to buy something else; and, they just keep hitting you with the advertisements. They keep hitting you with the algorithms, and hitting with this beast that is ruling your life, and young people, Think of how much time is consumed, literally, in their fake reality world, in their little computer, in that little black box that keeps following you around. Where is it? It's not even here. It's in there somewhere.

But, you can be consumed in this black box. You know, it's like "Planet of the Apes." You're looking at this black box like monkeys hanging around this black box. You remember that? It omits like this frequency. You know the apes make noise; and, they just hang out around it just looking at it. It's like the children are staring at this all-day-long. They don't know. They become political prisoners; and, all these social media outlets are literally positioning yourself. They are becoming propaganda machines, where they trend things to you, and you want alternatives. You have to actively search for them. You can't get things that are really popular. Really things that are going viral. You're never going to see those things, especially if they're Conservative, because they get flagged. You're only going to get stuff from Jimmy Kimmel, and the celebrity stars that preach socialism is great, and how Communism is wonderful, even though they killed two hundred twenty million people in the last century alone. I mean, it's just ridiculous.

And, you have these super elites like Sean Parker admitting they know they are doing it to you. They knew they're doing it, and it's all a big hoopla joke that they can make money off you, because they know if they get you in that validation, if they know they get you addicted, they give you that dopamine high a little bit at a time. Oh, you can't leave. You can never leave. You just get so addicted. Your whole value centers around how many "likes" I got on my comment. Who give a shemitah about that. That's why getting outdoors, training in martial arts, doing things where you like have to deal with people, and like this is so healthy.

Go fishing. Go hunting. Go take a hike with your family. Get out of the house, away from those computer games. This is healthy; but, you got all these braindead kids just living in these computers wars, wondering why no girls are attracted to me. But, then they turn it on women. They don't even want any girls anymore, because now they can buy synthetic sex dolls, that will literally sync up with their iPhone, and tell them how sexy they are, when they're totally incomprehensible to a normal woman. It's crazy, the world we live in. It's just insane.

It's interesting, because it's become like this digital prison that people don't even know they're in; and, they sell it to you with all their little perks you are going to gain. Oh, you are going to be connected to all

your little high school friends. Okay, fine; but, when an entity gets so large that it becomes even bigger than the government bureaucracy, and then subsumes the government bureaucracy into its own organization, it becomes a part of the government; and, then when it becomes a part of the government, it then becomes 1984 George Orwell state that you're living in, literally under. That's why you need antimonopoly laws to break these big companies up. That's why in Cheon Il Guk, these companies will require companies to create antimonopoly laws, because if a company gets too big, where it's actually bigger than the federal bureaucracy, the federal bureaucracy starts working for it, and that's what happened with Facebook.

The CIA of course, helps seed that. They want to create data collection agencies. They positioned it. They're open about it, too. The guy who created the internet, he's a CIA operative. He's open. Actually, in the articles, he says, "I created the internet." It's not Zuckerberg. It's not these guys; and, he's the one who created the internet, and all this social media, with Zuckerberg and all these people, chosen as these nice little faces, but given all that technology, given all the source coding, given all; and, I'm not saying they didn't participate. They worked together; and, we can see with all the data collection things, in TVs, you have to sign a contract with Samsung, if you buy their products, and they say to you on page 12 that you will be recorded. These things, different electronics have recorders in them.

Wired Magazine in 2008, they had the Director of the CIA in Wired Magazine said that we will have literally your electronics, and even your dishwasher will listen to you; and, people are saying, "Are you crazy. Give me a break." Hello! Read the dang magazine. An article from the CIA Chief, and then tell me that you don't believe it. That's a problem. People hear it, but they don't believe it, because they been too conditioned. Even if you have the article in front of their face, they don't want to read it, because they're too conditioned. It totally breaks up their world view. It breaks up their world view. It creates too much cognitive dissonance. They can't believe this is happening. They can't believe that those officials who they trusted, and all those Democrats and neocons that they trusted and elected are actually using them.

Well, in Germany, people didn't believe that about Hitler. In Russian, people didn't believe that about Stalin. In China, when they started doing it, then they killed you off. When you sold yourself, when you've given all your rights, freedoms and arms to these centralized powers, at some point they say, "Oh, no, no, no. No, no, you can't do that anymore;" and, you say, "Hey, wait a minute. You said you'd take care of me." "Shut up. We'll censor you." You have hate speech; and, the more you even try to say something, then of course, they have all the tools to make allegations against you. All the media is owned by them. It becomes a racket. A crime syndicate; and, of course, this how the world is run. This is really how politics is played; and, at the very top level, it's about who can threaten who.

In the top, it's about how many you can kill versus how many I can kill. That's really what they're negotiating. Don't do this North Korea; otherwise, there's going to be consequences. That's what you hear on the media level. What that means is, you try to bomb us, we're going to decimate and kill you all. See, at the top level, negotiations are about force; and, this is why George Washington and all the founding fathers talk about government is force. When you centralize power, and you give them all the arms, you have no ability; for, you have a permanent slave class in the population that could never ever change its destiny again without tremendous death and bloodshed.

And that why, of course, it's so hard for George Soros to implode America. It's so hard, even though he's invested \$18 Billion to overthrow Europe and North America. He was the number one campaign

contributor to Hillary Clinton, the biggest criminal cartel, one of the top managers here in America. She's now being thrown under the bus by the Democratic Party. Donna Brazile and the DNC are coming out openly. The Head of the DNC, folk, do you understand? The Head of the Democratic National Convention. She's now coming out in her book totally slamming Hillary Clinton, and saying that when Seth Rich was killed, because he was killed. Remember that? Remember when he started leaking stuff, and boom! He was whacked.

First of all, she dedicated her book to Seth Rich, and she has admitted this week that when Seth Rich was killed, she feared for her life. What she's saying, and she's saying, "Oh, it may have been the Russians; or, it may have been white supremacists." She's saying, "I was the Head of the Democratic National Committee, and I feared for my life." Do you know how much of an incredible indictment of Hillary Clinton that is? That is incredible, because she was working under Clinton, or for Clinton. She stole the race from Bernie, illegally, against federal law; and, then, now, their top person, the Head of the DNC, Donna Brazile, a brave woman. I'm thankful. She's brave. But, of course, they probably got some stuff on her, and they got her life threatened. She's trying to protect her life. She has to come out with this stuff now, because they're going to whack her; so, she's coming out saying, "I fear for my life. I had an Intelligence Agency Officer told me that my life was under threat; and, I feared for my life when Seth Rich was killed, and we need to investigate it." Look at what she said. I jump forward to that.

This is happening in the Philippines. Look at it. This is happening in the Philippines, by the way. Trump is now in the Philippines. ISIS is there. ISIS is calling to kill Trump. Shoot him. Ambush him. They're pulling propaganda with him and Putin, saying they're colluding together; when, it was Hillary Clinton that was working with Putin selling twenty percent of the US Uranium to Russia through the Uranium One Company. It's just conventional standard Saul Alinsky tactics and Marxist tactics. You commit crimes, and you say to the media, "Your opponent is committing those crimes." You ally with Russia, you become a Russian agent, and say your opponent is a Russian agent. That's common Marxist tactics. They did it in the cultural revolution in China, they did it in North Korea, you name it.

And of course, ISIS is taking some cities. They're taking the southern tip of the Archipelago. That's why there's a big security concern about Trump being there right now. ISIS is openly saying that they have a fatwah on his head, and any Muslim should kill him. Any ISIS soldier should kill Donald Trump.

And, you have these Leftists in America, who are saying on Twitter for months, for months and months, and I've shown you the tweets. I've shown you the compilation videos that we've been making. It says, "Kill Trump. Trump should die. We hate Trump. He should die. He should go. He's a racist," whatever. They say he should "die, die, die." How do they get away with this? That's illegal. You're breaking federal law. You can't not say, "Kill the standing President," no matter how much you hate him. That's an illegal act in these United States of America. Hello! But, they don't get prosecuted. This is the reality of Satan's Kingdom. When the Bible's talking about Satan's kingdoms, it's talking about the actual power on the earth. The actual power that rules over people. The actual power that enslaves souls. The actual power that actually makes good people wicked; and, that is of course, when you have political Satanism.

So, look at this. That's Seth Rich. This is the guy that was killed just last year. Remember this? He was walking back home, and somebody bang! Shot him in the head. He was the guy who leaked the Wikileaks. He was the guy that they are suspecting leaked it to Assange; and, right after he got whacked, then all the stuff started coming out about Hillary Clinton, and Marina Abramovic, and the Satanist rituals, and John Podesta in the bathtub with six to eight years old children. Remember this stuff? That

was in the Wikileaks. None of it has been disproved. The Wikileaks. There's not one case brought against Wikileaks, where they had incorrect information; and, of course, they're always trying to say, "Kill Julian Assange," when he's being an actual Reporter.

"Former interim Democratic National Committee (DNC) head Donna Brazile worried Seth Rich was either killed for being white or by Russians;" but, look at what she says, what she says, "Brazile repeatedly returns to the subject of being haunted by Rich's murder, even though other Democrats have pounced on anyone who suggested that the murder was anything other than a robbery gone wrong. The DNC data staffer was killed days before Wikileaks began publishing its emails, and his valuables were not taken. "

So, they said it was a robbery, but he got killed, and the robber didn't take any of his stuff; but, they're sure it was a robbery. They're absolutely sure it was a robbery, even though the victim had nothing stolen from him, and they shot him in the back of the head in cold blood, and the guy's run away. Of course, that's a robbery, of course. That's how we can prove it's a robbery, because he had nothing stolen from him. Okay, that makes perfect sense; but, it shows you how braindead and dumbed down these liberal lunatics and these neocons have become. The people who actually follow this, and believe what the lying mainstream media tells them, it shows you how weak their minds have become. They have no sense, no common sense. No sense of rationale. No sense of, "Hey, where's the evidence? The guy had nothing stolen from him, and you're saying it's a robbery. How do you know it's a robbery? And, it happens to be the guy who was leaking stuff to Wikileaks, which then destroyed Hillary Clintons chance of trying to steal the race, which she did, of course, illegally against Bernie Sanders; and, that actually gave it to Trump, because thirty percent of the Bernie Sander's voters voted for Trump.

So, it always backfires on these criminals. Always backfires on these criminals; but, you can see, Satan will use people to implement a state, an actual civilization, where Satanism really can flourish. That's why we call it Political Satanism. That's why Father can talk about Communism as satanic. It's a Satanist ideology, because one of the stated first principles of Communism is to get rid of religion. Marx actually referred to religion as an opiate of the masses. He said religion as the critical, the critical factor that must be removed. Ah, you always have these liberals telling you, "Oh, no, atheism has nothing to do with it. They're not against religion. Communism is not against religion. It is the fundamental source of Communism. You have to rid of religion, and replace it with a State; and, then have the people believe that the State is God, and will give them all their blessings, and their welfare, and their help, and everything. Rely on the State. Don't rely on God. Rely on the State. Don't pray to God. Worship the Politicians. Worship the power. You see, it takes the position of the State; and, you get these people that are so brainwashed that if you say that the State is controlling you, they'll freak out. They will freak out.

They will literally freak out. Did you see those young people in the screaming event they were having this week? They gather in little circles, screaming, shouting like banshees. Have you seen this? I showed the clips on the King's Report. You've seen them. They think they're doing something productive there. Their like infantile children that a screaming in a pillow, hoping that their banshee screams like Pokémon's power and Dragonball power, whatever the heck it is. They can shout into the atmosphere, and the Universe will change. They're completely delusional. It's unbelievable. Did you see the guy, who was dressed as a big Pokémon with a big diver's head hat? People are supposed to take this seriously. Are you kidding me. This is supposed to convince us that your intellectual position is right? Oh, my goodness. Give me a break. It's like dealing with two years old children.

Look at this, even MSNBC is forced, forced. You had George Stephanopoulos interview Donna Brazile saying, "Why are you doing this? You're harming the Party," all this kind of thing. She says, "Why am I the only one who can't tell my story? I tell all the people, who are hating on me, go to hell." She says, "Go to hell!" on the George Stephanopoulos Show. Oh, my goodness. She said, go to hell; and, she was like a total Leftist. She was in the establishment. She sold out to it; but, who knows. Maybe it's her Christianity or something. Her pang of conscience, or maybe they have dirt on her, and she's going to be taken down, too; unless, she exposes them first. Whatever the case may be, she's coming out.

To have somebody at this level to confirm how criminal Hillary Clinton was, how much lying the mainstream media did to protect her, and make her the US President, to destroy America, and disarm the public. Wow! We had, literally, a military operation being done upon the people; and, it's now confirmed by their top DNC operative. It's incredible. It is incredible. For not only are the super elites, sexual escapades, pedophile, sex trafficking of children, torturing necrophile, killing children, having sex with dead bodies, not only is that evil stuff coming out, now.

I showed you guys last week, that stuff about Peter Scully is coming out. He's making snuff films, porno films, raping eighteen months old Filipino babies, filming it, and selling it for \$10,000 in Hollywood, and other places around the world. He's a white guy, and he's going to the Philippines saying, "I going to take care of your children. I going to adopt them. I'm going to raise them in America:" and, he takes the eighteen months old baby; then he rapes it and kills the child on camera, and this is what they're watching. It doesn't just stop at pedophilia. It doesn't just stop Incest. It doesn't just stop at sodomy. It doesn't just stop at raping fourteen years old boys, and eleven years old boys. It doesn't just stop there. It goes forever, because once you leave God's ideal of sexuality, which is between man and woman in marriage, and the Covenant before Him, it's all downhill, all downhill.

It starts out with the homosexual political agenda. It starts out with transgender agenda. It starts out with this and that different type of sexuality agenda. It just starts, and it cascades. That's why the UN can support an organization called NAMBLA, North America Man-Boy Love Association. They are pushing for ten years old children to have sexual rights. A man come to your house and pick up your ten years old daughter and say, she's dating him consensually. That's why there always after lowering the age limit. In some states, it's eighteen. In other states, what is it in West Virginia, it's sixteen. In Germany, it's fifteen. In France, it's fourteen. Lower, lower, lower, lower, lower. It's always getting lower, see. Can you believe the UN won't allow any of the alternative media like Breitbart, all those guys, to have some organization; but, they allow NAMBLA, the North America Man-Boy Love Association; and, you have CNN writing articles about pedophilia being Minor Attraction Syndrome, and being a psychological disease, and not a crime? It's the same program. The same program.

Salon Magazine have Todd Nickerson interviewed, telling he wanted to have sex with five years old children that he was babysitting, and saying that's Minor Attraction Syndrome. He's a pedophile, but he's not a monster. It's just the disposition. He was born with it. We heard the same arguments for the homosexual political agenda. We heard the same thing with the transgender agenda. We heard the same thing with everything else, everything else. Always never their fault. It's always ... No, any sexual act is a choice, unless you're a child, and it's forcefully being done to you. That's called rape. You have a choice to do a sexual act or not. Free will is involved. It's not you're born with it, and I was just forced by my instincts to be this or that. It's incredible. Incredible.

But, if you say any of this stuff, you will be harangued, you will be called a homophobe, an Islamophobe. If you even expose the reality, if you even tell the historical fact of the trans Sarah slave trade, two-thirds of which were women over, what is over what is it? one twenty million slaves under Islamic rule. It's still going on today. Some of the women, captive sex slaves. Muhammad married a six years old girl, Isha. He was the father of the faith. It was his favorite wife by the way. Even if you say she had sex with her from nine years old, even if you tell historical facts, which the Koran even approves of, you're still called an Islamophobe; and, that is why good people must be able to defend themselves. Because when you don't have the ability to defend yourself, you can't speak freely, you can't speak. You can't talk to other people rationally. You will be silenced, you will be censored, you will be bullied, you will be made to be quiet, because in the end, the negotiations at the highest level are about force. Who can force who to do what; and, when the centralized power, and political Satanism, and Communism, collectivism, and all that, the central powers have power, and the citizens have no power. You are literally slaves to the state.

The biggest difference between Europe and America is that in America we have two hundred million guns distributed among the population; so, that's why George Soros is having quite a bit of time, hard time, trouble, taking this country down, because the people, when push comes to shove, they can fight back with equal and opposite force. If you have concentrated force, and they have all the force, you can't do anything; but, if you have equal force, you can fight back and stand up for your beliefs. Of course, that's what they hate; but, in the Kingdom of God, God will rule his Kingdom with the Rod of Iron, and his coheirs will have Crowns and the Rod; and, the people will be coheirs with Christ, not slaves to the slave state. And that's why we have our Rod of Iron and our Crowns.

But look, MSNBC is even forced to admit, look at this? "Donna Brazile: Clinton Campaign Used "Unethical" Fundraising Deal to Take Over DNC During Primaries." Isn't it funny that for even a year, MSNBC was railing on you. Even you even said Hillary Clinton was corrupt, you would get, "You're a misogynist. You hate all women." They would just be attacking you, calling you names. Doesn't matter what evidence you're showing. Doesn't matter what argument you're making. "You're just a misogynist. You hate all women, you are just a homophobe, and you hate all progress, etc." No, because the progress you're talking about is Communism, collectivism, Satanism. That's what you're talking about. If you're protecting the pedophile networks, the necrophile networks. The collectivism you're talking about is disarming the whole population.

The super elite class like Sean Parker is admitting. Did you see how disgusting and demonic his speech was? "I am super class. Give me a hundred years, and I'll live forever. I'll be immortal." That was his quote, "I'll be immortal over us." Did you see that? Do you see how sick and twisted these people are? And they're ruling over you. They're possessed by a spirit, a spirit of Satan, a spirit of evil. They don't want the normal man to flourish and have children, and have powerful, you know, absolute sex marriage with their wife, and spouse, and have the man be strong, but loving, and have three generations. They don't want that. They want to break it all up, so everybody's owned by the state. Even in Plato's "Republic," he talked about it thousands of years ago.

They're admitting, they have to admit, look. They had to admit they lied to you over and over and over; and, whenever you went to McDonalds, when I took the kids to Wendy's and McDonalds, man, they got CNN brainwashing you on McDonalds TV. On Wendy's TV. I'm sitting there, right, eating my triple hamburger... That's only once every three years, okay. Usually, I'm organic, and I do lots of vegetables

and grain juice, okay; but, anyway I'm watching this thing, and it's ridiculous. It's like ridiculous. Why do you have that on? Why do you have that propaganda on in Wendy's? And, a Satanist came out, oh yes, a Satanist. Oh, that type of ideology is not a danger to anybody. That's what CNN had a whole piece on. This is crazy. I mean, give me some peace, when I have my cheeseburger, hamburger, whatever it is. We were hit with propaganda wherever you go. In McDonalds, when you see we were doing the cross-country to Colorado with the family. Every McDonalds we went had CNN just playing, playing, playing, playing in the background. You had this ambient static noise. It's just brainwashing people. Bzzz, Bzzz, Bzzz. It's ridiculous; and, you don't even know you're being brainwashed. You're just listening going, "Oh, oh, oh, Hillary Clinton, yes, must vote for Hillary Clinton. Must vote for Hillary Clinton." That's all hear. "Donald Trump is a white supremacist. Yes, yes sir, yes, yes master, yes 1984. Donald Trump is a white supremacist," even though he has record numbers of blacks, and record numbers of Asians, and record numbers of Hispanics voting for him. "He's still a racist." It is ridiculous.

But look, MSNBC is forced to admit that they had lied to you for the last decade, three decades about Hillary Clinton. They are forced to report it. Look at that? And, they did for like a second, and the took it of course, that's obvious. Donna Brazile, she had a "spook" within the intelligence community. Somebody told her, after the killing of Seth Rich, "she needed protection for herself, including cameras, alarms and backup power at her house, and she headed his advice." Wait a minute. Anybody who said anything about Hillary Clinton being a criminal, or threat of deaths around her, or blood trail around her, anybody who said that, you would be called a conspiracy theorist. You would be called a conspiracy theorist right away, if you said anything about that. That's how they would bully you. Well, I guess the Head of the Democratic National Committee was a conspiracy theorist, folks. I guess Hillary Clinton's top person in the DNC was a conspiracy theorist. I guess the intelligence officer who told her, "Hey, you better be careful, Seth Rich got whacked. I guess their all conspiracy theorists. There's nothing going on in Washington DC, do you see that?"

"No, no, they're not running pedophile networks. No, no, they're not trafficking you children. No, no, stings and operations in the 1980s cracking down on pedophiles in Washington, no, no, that doesn't exit. No, no, there's no corruption in Washington. Nope, they're all your loving gods you're supposed to worship as politicians that love you, and serve you, and overlords over you, giving illegal laws to the states, when the Constitution clearly says that the states have the power." She was under threat when she was writing them in her book, folks. Do you understand what she's implying? The DNC was for who? It was for Hillary Rodham Clinton. You understand, right? You understand how humongous this is? This is the National Democratic Party, basically, okay. They were 100%, all chips in, double down, triple down forcing Hillary Clinton down your throat, saying if you don't vote for her, you are a misogynist, you hate all women.

Remember this? Remember this? And now, Donna Brazile, the head of it all, the head. She's not only an insider. She's not only an insider, she was the head of it; and, she's saying she feared for her life, when Seth Rich was murdered. That members are telling it was the American government Intelligence agencies told her you better watch out. Your life is under threat. Who's the conspiracy theorist now? She's writing a book on it; and, she's saying this must be investigated, because guess what? If it gets investigated, there's going to be a lot of indictments. Boy, oh boy, oh boy!

And, you have Trump now doing all these kinds of things. He's trying to appease things. He's trying to solve the things in the North. Of course, Saudi Arabia, look at what's happening in Saudi Arabia?

Incredible. Look at what's happening in Saudi Arabia? The Saudi Arabian Prince, that were not only allied Bush's, and had arms deals with the Bush's the last two decades, are now all being imprisoned. That's incredible. That is incredible. When Father met Bush, I was in the room with him, when George Hebert Walker Bush looked at his face and said, "You are the King of Satan's world." He called him out as Satan right to his face. That is a President of the United States. That's what Father did. That's how clear he saw; and, it was a whole Washington Times event, and we were in the Green Room, and he said to Bush, "You are the King of Satan's world. You are of your father the devil." He told him, don't go to war in Iraq. Don't war in Iraq over oil. Don't do it, and they did it; and, Dick Cheney went in with his oil company Halliburton and stole and robbed from the Iraqi people, and they did nothing to America.

Sixteen of the hijackers were Saudi Arabian. They were not Iraqis. Saudi Arabia was the one colluding, and the of course the twenty-eight pages are coming out, and Donald Trump is releasing the JFK files, and shows the coroner's report. The coroner's report. The Attorney General's report in the JFK files that say JFK was shot once in the neck in the front, once in the head from the front, which goes totally opposite of the fifty-three years of lies that the FBI and CIA have been telling you, saying JFK was shot by Lee Harvey Oswald through the back. What happened? You got shot in the back, and the bullet did a U-turn in the head, and it came out of the head, and it went in the neck. Give me a break. These people think you are so dumb; and, now it's come out declassified. It's proven this government has been lying to its people for the last fifty-three years, and everybody knew it, and we couldn't do anything about it. Thank goodness, we didn't give up our Rods of Iron.

Saudi "Deep State" Prince, this is incredible. Look at what Trump's doing behind the scene, look at this, folks? "Prince Bandar Among Those Arrested In Purges: Report." This was the guy doing weapon's deals. It's a picture of Bandar with Bush, who Father, yes, Father would invite them to the events; but, Father would harangue them all the time. "Stop doing this. You listen to Rev. Moon." Nobody was chastising them, because they were doing criminal activity. I remember, the people in the Washington Times were freaking out, when True Father was telling Bush that he was the King of Satan's world. They freaked out in the Green Room. We had a Green Room emergency. Rev. Moon had just called the President of the United States, the King of Satan's world. That was incredible.

But look at these. These people who were colluding with the Bush's in multibillion dollar arms deals. They now are being thrown into prison. Wow! That's incredible; and, then you have the young Princes who saying, "We want to make Saudi Arabia more modern. We want to be more modern. We don't want to fund radical Islam;" and, you have all these old vestiges of the Bush Administration, and the Saudi Prince that worked with Bush. They're now being put in prison; so, you know that Saudi Arabia is so modern that it is one of the last countries in the world to realize that women can drive a car. They want to make steps forward, you know.

But, that's incredible. Bush kissing King Salman. That was Condoleezza Rice right here. Look how close Washington had deals with them. Look how close they were working and colluding, and doing illegal activity, starting unethical, unconstitutional wars in the Middle East, to increase Saudi Arabian power, and fund radical ISIS, and to use as a tool against the West; so, they justify the growth of centralized power. It's a big check board Chess game that they're playing; and, they're literally moving things around not considering how many millions have to die, because they make these ridiculous super elitist decisions. Millions. They are disgusting. They are dealing with the spirit of Satan; and, they need to be brought to justice. They should have their day in court. They should have their trial by jury; but, there as

to be justice. These criminals have ruled these Kingdoms of the Earth much too long. That's why when God's Kingdom comes, there will be justice.

Look at this. Bandar has been close to multiple US Administrations, spanning decades with direct involvement in events ranging Reagan's Contra Program, including etcetera, etcetera, etc. to the Iraqi War, to justifying the Iraqi War, which the media lied to us, CNN lied to us saying, that Saddam Hussein had weapons of mass destruction, when he didn't; and, in Afghanistan, the longest US standing war, sixteen years plus, and we're running all the poppy seeds and produce 97% of the heroin poppy seeds for the drug trade. Thank you, CIA, the US CIA for running the drug trade. Thank you. Meanwhile, you pretend that you have the moral high ground and your good. No! People can see how evil and corrupt this government has become.

It is incredible. I want to show you a video of a scholar. I showed you a video of a scholar, David Wood; but, we're having now all increase in terrorist attacks and mass shooting attacks, and there is a difference as he points out; but, you see at the end times, you see all the whispers of war, the rumors of wars, and the actual wars that are actually happening. You see it now with the actual wars that are happening in America. You see it in the divide and conquer strategy. You see the mass shootings. You see the mass shooting in Texas just a week ago. That's why the pastors need to be armed. That's why good civilians need to be armed. It was an NRA instructor, who was able to kill the bad guy, who was killing 26 plus, and injuring 24 more, including two-year old babies, and five or six-year old children. The only way that person stopped, was when his neighbor, who had an AR15, came out and shot the bad guy. That's the only way that dude stopped.

He was walking around the church blowing them up from outside, shooting through the walls; and, they're targeting churches, because churches are soft targets, and Christians have been brainwashed to be political slaves to the establishment and sell out, you know, to their financial programs they get from the government, through the 501C3 programs. Churches have to be talking about having their people to be able to protect their flock. They have to be telling and empowering their people, training them so they're able to defend their flock and the civilization of Christianity. The civilization of Christianity is not out to get people. It's not out to prey on people. It's not out to dominate people. We don't force you to convert. You can have a difference of opinion. Christians don't conquer by the sword, although they'll talk about the Crusades, which was a defensive war. The Muslim invasions were coming all the way to Vienna, all the way into Rome; so, of course the Christians had to ban together and fight back. They're defending their countries.

Oh, there going to talk about the Salam Witch Trials, which killed 19 witches. They didn't talk about all those witches they may have been involved in satanic rituals, and cauldrons, and brews, and trafficking children and killing them in satanic witch brews. No, no mention of that. Just Christians hate different religions, and kill their most intolerant people, when they're the most tolerant; but, they will stand up against evil. They won't do it by force, unless it's in self-defense; but, they'll voice their opinion. They'll tell. You know, they'll go out street preaching and say, "You are sinning before God. I was a sinner once like you, until I gave my life to Jesus Christ." You see, they'll tell you about it; and, then that makes the demons and the archangels, and that makes the atheist angry and guilty cause they know they're living in sin, but they don't want to admit it, because they'll say, "I don't believe in God. I don't even believe in that metaphysical universe. Why would I even believe in sin. I don't even believe in God." It doesn't matter if you believe in a Judge or not, He's still a Judge; and, one day your gonna be Judged. You can't

go in a court of law and say, "Judge, I don't even believe you exist." He'll say, "Okay, now your mentally deranged. Send him either to the padded room, and you have twenty years in prison."

Whether you believe in God or not has nothing to do whether God is there or not. Whether you believe the Judge in that room doesn't exist or not, He still can give you a sentence to go to prison. You are not God. We don't determine God's existence believing in God, or not Him. It's either He exists, or He doesn't exist. We're the ones who do it, and we're the ones who rebel against Him, because we want to justify our sexuality, our immorality, we want to justify our sins. We want to justify exploiting people. We want to justify stealing and lying; but, that's why human beings are doing it. All the major signs are pointing to there is something beyond this Universe, which holds everything together, including matter and anti-matter, including all the different constant and conditions in the Universe, which is designed to specifications like the Proton and Electron, etc. You change it by even one iota, you have a collapsing Universe. You have all the major Scientist now, 25% of the Scientific community is theistic; where, it used to be 99% atheistic in the 1980s. Ninety-nine percent of "Scientists were atheistic." Now, after twenty years, new surveys show 24 to 25% are theistic cause they can't get around it.

Whether you look at the Double-Slit Experiment, whether you look at the Human Mind Conscious Experiment with Michio Kaku, it all comes back there. There's an infinite number of viewers that are actually creating, creating the idea of consciousness. Conscious perception, actually, changes reality. This is the whole nature of the Double-Slit Experiment, which they showed shooting particles through different slits that are pairing as wave forms, or either as matter or particle forms. It shows that observation changes the reality; but, then you on this logical deduction, and you have to say, "Well, I'm representing you, your consciousness. Somebody's observing me changes consciousness, somebody's observing me, me, me. It goes on ad Infinitum until the last human being. Somebody else has to be watching the last human being for the whole domino effect to even exist; and, that's why they talk about the Universal Mind now.

Now, I'm not saying all those twenty-five percent of the Scientists say they're theistic, or believe there is some higher force holding it all together are all Christians. Not necessarily; but, they moved from atheist to theist. They moved from saying there's no evidence for the existence of a Higher Intelligence, or a Higher Power. That it's transcendent of the Universe, to now saying, there is evidence that there is some Intelligent Mind beyond the Universe, or holding it altogether. The more we reach these Scientists the more we see God's handiwork. The deeper we understand Science, the we see that God is there. There's an Intelligent Mind that is beyond time and space that exists.

But, you have all this insanity, you have the Texas shootings, you have the different shootings, and you have these massacres that are happening. Now, we know that the Left is incredibly allying with Radical Islam. Even when we had the murderer in Halloween from Uzbekistan running over people, they were race playing, again. They were saying, "Oh, well it's a white man killing and mass shooting people, then it's not terrorist attack; but, when it's brown man, then it's a terrorist attack. This is the whole thing on Facebook, okay. This the whole thing. They make little means, means. They have a little race card like, okay, if you're white skinned, then you a just a shooter. If your black skinned or brown skinned, you're a terrorist. Then they have a cop looking at the race card as identifying the person, you know. "Oh, what color are you? Oh, white. Okay, so you're a shooter." Where's Mohamed? Your names Mohamed. Okay, so you are a terrorist, you see cause his name's Mohamed and he's brown, see. We did this with identity cards. This is what the Leftist is saying is happening, right.

They're saying, "Oh, it's extremist terrorist." Oh, they never say it's an extremist, when a church got shot up. Let's take a look at this video of David Wood breaking this down; and, you see this is where you have to turn on your brain. This is where you can understand premise and logical deduction, and David Wood is just such a master at this. For all those people who are getting bullied and abused by people by saying, "Oh, you're trying to defend, you know, racism by calling out Islamic terrorism. Oh, you're trying to be an Islamophobe. Just send that view. They probably won't watch it; but, send it to them anyway. Go ahead, let's play his video.

(This was a discussion of comparison of the three recent terrorist attacks. The Las Vegas shooting, the person from Uzbekistan who mowed people down on a Bike path on Halloween, and the Church shooting in Texas. He stated that all attacks today are either direct or secondary attacks of Islamic terrorism through a sophisticated logical deduction.)

Okay. Very interesting. Well, we know not all not only use it against it, you have people like George Soros, who fund it, to do it. That's what's so ridiculous. You have these big billionaire bankers that are funding people like Linda Sarsour, who are open for Sharia Law saying the most liberal western thing. What allows for honor killings. What allows for beating your wife. I mean, he has videos showing the exact same versus in the Sahih al-Bukhari and all the Muslim commentary, and including Koran itself; and, he is of course on of the top debaters with Islamic apologists, and he debates them openly; and, of course, he has millions of death threats put against him, daily; but, he always says, "Okay, come on and kill me. I'm waiting for you. Come on."

So, it is so important in the end of days. Do you remember this, when we saw the whole Scripture in 17, when Babylon and the Harlot of Babylon is burning, remember? She's riding the beast, and the beast itself turns on her, and starts to consumer her with fire; and, this is what you see. This is what you see, with the super master class, the political Satanist class. They're imploding, turn in on each other, throwing each other under the bus, and literally setting themselves on fire; meanwhile, blaming you for setting them on fire. All their secrets, all their demon demonic practices, all their occult rituals, all their little secret meetings, all their little crazy secret, you know, that big sex cult in Hollywood that was exposed this time. It's a religion there, with one of the top stars in one of the Hollywood shows. They actually brand women. Brand them with the name of the guy. I can't remember the guys name, but he's white guy out there in Hollywood, who runs a sex cult, and they literally call you a slave.

I mean, this is totally insane; but, you can see even in the Last Days. You can see it all happening to start. Everything is unraveling. All the power structures that were hidden even five years ago, are now out in the open. People can now see the enemies of humanity. People can see the controllers, the funders of radical revolutions that change civilizations into slave populations. They can now see these people. They can see good and evil are now real; and, of course, you can see them backbiting themselves, and destroying themselves, which is of course what evil does in the end, because they sell out, make pacts with one another, desperate groups, but the same political aims. They act like allies with one another, but they're always ready to backstab each other cause there's no honor in a den of thieves. When they reach power, they're ready and willing to kill one another off, when kicking one another, and throwing people under the bus, and that's how it, of course, always unravels.

He DNC is now throwing criminal Hillary Clinton under the bus saying she needs to be investigated. That is unbelievable. That is humongous. Remember, they were trying get that woman in the Presidency ten

months ago, folks, with all their mainstream media telling you that if you didn't vote for her, you are a racist, you are a misogynist, you are evil, you are antigoddess; and, of course, we are antigoddess, because that leads to temple prostitution and demonic ideology; and, that is why the culture of loving the Father, loving God, is so important and critical. So critical.

Look what the Family Fraud has done? They've hated the Father; and, any of these civilizations that hate the Father, because he is Christ's representative in the family begins to implode, and be taken over by others and coopted into pagan ideology, which then opens the way for more radical ideologists, and alpha predators to come and take them over, and destroy their pagan ideology; and, that's what you have of course with radical Islam.

No, no, no, no, no, not all Muslims are radical; but, the orthodox is very radical. Muhammad was a warlord, a military leader. He owned sex slaves. He not only had eleven wives, but sex slaves as well. There's stories in the Hadith, where he's having sex with the sex slaves, and the eleven wives are protesting that; and, he was married to a six years old girl, and he said, if you demand sex, and "you're cooking or on a camel," that is a literal quote, you may beat her. There's a whole other video which David does on that.

I mean, you can't make this up. It's just so anti-Christian. You can't beat up your wife, if you disagree. You are supposed to love her. Be patient with her. Be patient with your wife. Wives submit to your husbands. Respect him. Respect him unconditionally. Husbands, respect your wives unconditionally. Be patient with her. As Christ sacrificed for the Church, you must sacrifice for your wives. You must be willing to die. You must be willing to sacrifice, hello! It's completely different. "He who harms the least of these children, a millstone should be thrown around their neck and be tossed in the sea." (Matthew 18:6, Mark 9:42)

It is Christian civilization that protects children, that protects women from the alpha predator; because, ladies, if you get rid of your husband, it doesn't get better. The civilization, they get used to doing that, and the civilization of good men, bad men come in; and, of course, this is what happened to America, where now a civilization has been genociding children. Over fifty percent of the babies that are black and minority, they are ... We are just becoming a culture, where we're doing baby sacrifice. In the eyes of God, we are sinning as a nation; and, of course, all this evil, all the networks, all the power structures are unraveling. They're unraveling before our eyes. This is an unbelievable time to be alive.

When - when, when, when, when did CNN had to report about pedophile scandals, and their main candidate potentially being a murderer? It is unraveling at such an incredible pace; and, we see that the whole culture of the anti-God, anti-Father culture is burning down, especially as good Christian men realize that their duty in Christ to have a Crown on them, to be a King and a coheir with Christ, and to be loving and to be patient, and to be strong and ready and willing to die for the Kingdom; and, as those good alpha males rise up and take ownership, and stop being brainwashed and guilt/shamed by the surrounding society; and, become the true fathers they're supposed to be in their household? Then you have God's love poured down through them.

You see in the sociological statistics, if you don't have a father in the home. More violent crime for your children. Lower graduation rates. Lower income. More teenage pregnancy. It doesn't just affect the men, it affects the girls, too. They start going after predators; and, the boys never get disciplined, because they don't have a daddy to teach them the boundaries. And, we love women; but, woman can't

do it alone. They need the father, and the children yearn for the father. They yearn for the father's love, because God is our Father as well, so if we hate our father, we're going to hate God; and, that's why the main atheist of the twentieth century all had bad relationship with the father. He's either distant, absent or not involved. And, of course, that's why the civilization breaks down when the men are targeted, and the fathers are kicked out of the home, and the Christian families give themselves over to the state, and the pastors or priests become their father, or in their house, the husband. This is not how its supposed to be.

Christian families are supposed to have strong alpha male loving fathers, who are like Christ, who are brave and courageous, and will stand up against evil, and will sacrifice himself for the Church, for the people, for his children; and, the Church is supposed to love God and respect Him. When God says in Ephesians, love you wife unconditionally; and, it says, respect your husband unconditionally. God actually uses a different Greek word, philio. Respect him, and have him in friendship with you. He uses agape love for the wife, actually. Be unconditionally loving, but He has a different commandment for the wife to be respectful to him, like even love him as a friend. Be his friend. Isn't that interesting. Wow! That's power man. That's power.

And, they know when a unit is strong like that, and the children are growing up like that, they're going to be powerful, and they're going to have a deep relationship with God, and they're not going to be distant from their fathers, and they're not going to be raised by mothers who are trying to separate them from fathers, and trying to kick them, and using the law to try to separate them from fathers, and act out their resentment against their husband, through the children. That's terrible. That destroys the children; and, of course, it leads them in a higher child abuse rate as well. I showed you the statistics. What is it, three times higher, especially if there's another man in the house with the single mom. Massive increase in child abuse potential.

So, we rebuild the society, we rebuild the nation, we rebuild the family by rebuilding the man, who has been so destroyed, and so broken down, and been made so guilt/shamed, and has been made so inept and weak that he does not represent God in his home. He does not represent a strong, loving father. He represents a weak, dominated man. We see that does not represent God.

I love Jesse Lee Peterson. He was on the show just a couple of weeks ago. His whole thing is about rebuilding the family by rebuilding the man; and, he focused on the black man, but every man, really, in the West has been completely brainwashed by the constant barrage of man hating vitriol through all the different media outlets; and, that's why it's so critical to a Christian man to embrace their role as the father's representative in their household, and to be that loving father that Jesus was to the Church, that True Father was to his children, do you know what I'm saying. You see, in the family, it's so important. A Godly woman wants that, and children need that. If they don't have that, they will search in other places for the love of the father, and they will lead them to destruction. Oh, Lord have mercy.

In the End of Times, everything becomes clear, folks. Everything becomes clear. Let's go to the Cheon Seong Gyeong. SOS, come on up. Let's read together:

CSG 927

There is nothing else God desires more than love. Who would be His greatest enemy in the Last Days? What is the number one premise for judgment? In the Last Days, individualistic self-love becomes the number one premise for judgment.

Isn't it interesting that all the self-worshippers, the self-lovers, the self, you know I want to be God, I want to be part of the Han Mother's paganism, the heresy. I want to become God. All this self-worship, which God commands for 6,000 years, don't do, don't do, don't do, don't do, don't do, don't do, don't do. Isn't that interesting, the Last Days, all these ideologies are that basically tell people, you can become gods. Sell your soul to the establishment. Sell yourself to power. Help us to gain power, and we will make you gods in the super class, and what do they call it – the immortal class? Overlords. We will make you the immortal overlords, if you help us with gaining power. No, you should say, "No, no, no! I don't need to be an overlord. I don't need to be immortal. I have God, whose love is eternal, and His power will reign forever. Thy Kingdom come, thy will be done on Earth as it is in Heaven.

Alright SOS, come on out. Let's all rise and give God glory this day. Let us pray that Satan's Kingdom's come crumbling down. They are; but, let us pray for righteousness and His Kingdom, and all His people to stand in his proper places, with his Crowns, and his Rod of Iron to bring his Kingdom of everlasting peace. Amen-Aju!
