

True Father's Suffering and Our Time

I would like to say a few important things. First, I would like to thank the Second King and his followers for his and their efforts to correct the failure of the Han Mother. Actually, I am not qualified to speak here, but I have to say these things because True Father made me feel that I want to bow to Hyung Jin and to the brothers and sisters on his side.

Let us remember that True Father experienced rejection he willingly took on himself. He himself did that many times in the early years of his mission. I have seen the miserable circumstances. I can only cry about it. Father was so often betrayed.

Unfortunately, the same is now happening, even to Hyung Jin. Even for members total selflessness will demand great sacrifices.

Even in my dreams at night I get attacked and have to fight a lot. Everyone is in danger of leaving Father and Hyung Jin. In Jesus' time Judas and Peter promised never to leave the Messiah but Satan invaded them. When extreme persecution comes, we are all in danger.

Me too, I had so many aggressive challenges from others lately and I asked myself why I do need this? I've already started saying goodbye to various Facebook disputes. I am sorry that I am not strong enough.

Unconditional love and absolute following are necessary to correct the present failure. I was ready to drop everything, but then True Father confronted me. He looked me in the eye and I saw that I had caused an unbelievable disappointment. I saw his tears in losing me. Nobody really takes me seriously and True Father gives me new weapons in my hand. I do not know how to handle this.

From Father's point of view, dictatorial steps are necessary. Due to the failure of the Han Mother, Hyung Jin has to become more and more radical. In responding to the current world political situation, Hyung Jin is on the right track, China is on the way to take over Hong Kong. South Korea has more and more alignment with North Korea in building resentments against Japan.

The curse for failure will require harsh payments. Difficult times are approaching us due to the failure of Han Mother. It should never have been this way, with Family Fed members closing their hearts. True Father is bombing me with his words. If I can change one person's mind, maybe I can give more hope to Father.

Even church leaders in the spiritual world know me personally. I am not programmed by the FF policy. Some parents in the spiritual world tell me to contact their children. They tell me secrets that nobody knows except their own children.

A number of the second generation are in danger. Their life is so miserable. So many young people have lost hope because of this failure. The separation between Father and Mother has caused the schism within the church, dividing the first and second generations, as well as the blessed couples from their ancestors.

True Father is pushing me with many words. I have to concentrate because sometimes I forget something, then he is scolding me. True Father can see the reality of your life. I do not speak what Father has shown me openly. There are many who lead a double life, but there is an archive of every single person and True Father can retrieve everything. When that becomes visible it causes great shame, Sins cause incredible pain because God's heart suffers and you yourself feel deep regret and shame that you hurt God's heart.
