10 Stages of Genocide

July 18, 2021

Let's go to **Daniel Chapter 9:1-11**.

This is a very famous chapter in the Bible, especially if you're into prophecy, and the end of Daniel Chapter 9 is all about the prophecy of the end times. But we're in the beginning of Daniel Chapter 9 where you find a tremendous, tremendous deep prayer of repentance; I mean very deep. To give you the context: Daniel is a captive with Shadrach, Meshach; they're all prisoners. The Babylonians have taken Jerusalem and now they're prisoners under Babylon, under Nebuchadnezzar to be specific. But the point is: this chapter 9 contains a tremendous deep prayer; visions are also recorded here, but really a deep prayer.

Let's read together:

1 In the first year of Darius the son of Ahasuerus, of the seed of the Medes, which was made king over the realm of the Chaldeans; 2 In the first year of his reign I Daniel understood by books the number of the years, whereof the word of the LORD came to Jeremiah the prophet, that he would accomplish seventy years in the desolations of Jerusalem.

3 And I set my face unto the Lord God, to seek by prayer and supplications, with fasting, and sackcloth, and ashes: 4 And I prayed unto the LORD my God, and made my confession, and said, O Lord, the great and dreadful God, keeping the covenant and mercy to them that love him, and to them that keep his commandments;

5 We have sinned, and have committed iniquity, and have done wickedly, and have rebelled, even by departing from thy precepts and from thy judgments: 6 Neither have we hearkened unto thy servants the prophets, which spake in thy name to our kings, our princes, and our fathers, and to all the people of the land.

7 O LORD, righteousness belongeth unto thee, but unto us confusion of faces, as at this day; to the men of Judah, and to the inhabitants of Jerusalem, and unto all Israel, that are near, and that are far off, through all the countries whither thou hast driven them, because of their trespass that they have trespassed against thee. 8 O Lord, to us belongeth confusion of face, to our kings, to our princes, and to our fathers, because we have sinned against thee.

9 To the Lord our God belong mercies and forgivenesses, though we have rebelled against him; 10 Neither have we obeyed the voice of the LORD our God, to walk in his laws, which he set before us by his servants the prophets.

11 Yea, all Israel have transgressed thy law, even by departing, that they might not obey thy voice; therefore the curse is poured upon us, and the oath that is written in the law of Moses the servant of God, because we have sinned against him.

Repentance

You see, it's very deep. Remember the context: he is now a prisoner, he's captive; he's in the FEMA camp. The Beast power has captured and imprisoned them. They've taken Jerusalem; they've gone to the point where they've waged war on the people of Israel, they've destroyed them and now brought them into slavery into the Babylonian captivity. So they're in the FEMA camps, folks; they're in the commie camps, they're in the socialist camps, they're in the gulags. Daniel of course is getting promoted up to speak with the king and read his dreams etc. You understand the context of the people: they are now under slavery. But you see the posture of Daniel and the people is one of repentance; very important.

Critical Race Theory in rural PA!

Shout out to all the parents, by the way, who were at the school board meeting at the Delaware River Valley school district board meeting. Let's give the parents a great round of applause! (*Applause*) God bless you all, standing up against CRT (Critical Race Theory) that they're trying to bring in rural Pennsylvania. Folks, rural Pennsylvania! They're trying to bring CRT.

So if you think about it: you had Hitler for example he's saying, "*Oh, we Aryans are superior and the Jews, they are bad; off with their heads!*" They were actually doing "scientific experiments"; did you know this? They were trying to use the guise of science to say they're doing this scientifically: the Aryan race is this or that etc. We all know that, and we all condemn it as bad; that's evil, wicked.

But what is the big difference with CRT (Critical Race Theory)? They're trying to train a whole generation of people. What principles are they trying to teach them? That there are certain races that are inherently oppressive, inherently evil and there are certain that are inherently oppressed. So then you have a hierarchy of race that's been created. What do you think this will do in our society? Christ said it first but Abraham Lincoln echoed it during the Civil War period: "*A house divided cannot stand.*" That's the same with a country.

But Americans, we used to love each other. You could still deal with the Kennedy Democrats; you could still be a good neighbor. They wouldn't try to shoot you if you walked by or something like that; it was much more mellow.

But you see a polarization happening in America where the radicals are becoming more powerful; they're not only the loudest ones, they're also the ones that are riding the trend wave. So it's not the Kennedy- type of Democrat that is the Democrat now. It's now this more radicalized democrat like an AOC (Alexandria Ocasio-Cortez), like an Ilhan Omar, that young kids are looking up to and saying, "*Those are the social justice warriors that are fighting for equity and peace and tolerance and anti-discrimination,*" etc. And that's why they're trying to have these government officers in the schools; they will have the office of diversity inclusion equity and something else. Anyway, it's just on and on and on, and they will be using taxpayer money, and they're trying to hire these government officers

And of course there will be absolutely no biases here, okay, guaranteed; it's a promise, it's a promise. They promise. They promise there will be absolutely no biases. You know: the cancel culture, the censoring, the shutting down of conservative voices, the shouting them down, calling you white supremacist, racist, bigot; all the name calling, all that. No, forget about that. They just promise, promise, promise, promise, no biases!

So you have a situation where now institutionally they're trying to mandate this type of ideological framework, these types of philosophies. Well this matters because remember: ideologies have consequences in the real world; real, real consequences.

Satan's kingdom

Last week we discussed that God in the Bible warns against different deities like Baal and Moloch, and Milcom in the Ammonite culture. Those gods would demand certain things; those gods would demand human sacrifice. They would demand killing the children; they would demand taking away the responsibility of sexuality. They would promote a free sex culture; they would promote homosexual, lesbianism, etc. And of course they would be part of the state apparatus to do sex trafficking, pedophilia; all this kind of stuff normalized, totally normalized. Then of course the state would kill the baby for you in the worship a Baal, Milcom and Moloch. Are you with me, folks?

This was how it functioned sociologically, but spiritually it was Satan's kingdom. He will make these demands of your civilization and these have real world consequences. These ideas are not just like, "*oh that's interesting; it's an artistic expression.*" No, these ideas have real world consequences; they result in death, genocide etc.

That's what True Father always taught that Communism is not just an ideology, not just an opinion; it's not just some kind of teaching at random, "*Oh, Marxism is just another scholarly teaching.*" No! These have real world consequences in nation states that will wreak havoc. Of course the blood trail is ginormous; in the 20th century 220 million were genocided by their own governments - who are of course atheistic, by the way- atheistic governments that were pursuing this type of centralized power, this type of political Satanism. So, you have these types of real cases.

In America this is now coming down to the local level. At the board meeting Anastasia did an amazing job, and Kerry did great too, and all the different sisters and brothers there expressed their view and shared. It's not like we are attacking the teachers; many of us don't know those teachers.

But the point is: there is a larger apparatus behind them that they are forced to obey. If any federal orders come down from DC, any new curriculum mandates, any new mask mandates - as the administrators admitted - they have to follow them. Right now there's a little loophole, and they're not mandating this or that about the mask, but it might change all of a sudden. Now they're saying the Delta variant is three times more contagious than the first one- that's what they're saying - and last week they were already reporting, *"This coronavirus has doubled in the United States because of the new dangerous Delta variant."* Which is by the way more innocuous, i.e. more harmless than the regular one which has a 99.97% chance of survival, and if you're under the age of 10 you have a 99.995% chance of survival!

But don't mind that! We just have to shut down the world, just shut that world, kill all the economies; de-industrialize everybody and send it over to China. China now folks, is Europe's largest trading partner! Do you know that? Europe's largest trading partner is no longer the United States; it's China. How many people knew that? That's the problem in Europe! Macron is saying, *"You're going to have to have a covid vaccine passport to buy groceries."* So, this is real world stuff, folks; they're going to require to have vaccine passports for normal daily activities like going to the grocery store, or going to movies.

We told you! Remember when they were promising two weeks? We told you it's not ending. Once the commies come in, once they take power, they don't give it up. Why? Because it's the predators' class. And that's why of course in the end President Trump had to stand strong, not let them in, declare martial law and arrest them; he should have done that. But again it's a different game; it's not just business. This is real warfare, so he wasn't used to that game.

Lexington & Concord

So now in our country we're in a tremendously dangerous time and this is not fear-mongering. No, no, we are seriously in a dangerous time, folks. I mean every single ideological pillar that we value as a culture, and as a civilization is under total assault; total assault. Whether it be the flag which many of our veterans fought for, bled for, and their brothers died for etc, to keep that flag flying and to keep our country free; that's now seen as a hate symbol.

Lexington & Concord revised

As Kerry showed, in that new curriculum that they're trying to approve for the schools here in our district, they're showing Lexington and Concord in a picture where the Americans are these shadowy domestic terrorists, Trump-supporting figures; they're all shadowy, their muskets are smoking, and they're all shooting at the polite British that are just absorbing the bullets. They haven't done anything.

"Why are these Americans killing us? Why? We are the victims." I mean can you believe this? The British are lined up and they're standing there with their muskets, *"oh, we're getting shot! We're not doing anything and they're shooting us."* Are you kidding me? The Americans are the bad guys. The Americans are shadowy, they're the ones in the gun smoke, and the British are standing there like, *"oh, oh, why are you doing such things? This is horrific!"* This is what they're teaching American kids! Are you kidding me, folks? Kerry showed the picture, so we have the evidence. By the way that was done by a British artist. Why you got a British artist doing a picture of Lexington and Concord and teaching American kids?

They were the problem! Remember? There was something about Red Coats, something about tea, something about ammo; some stuff like taking over your house, courting troops in your house, ravaging private property. You know just minor things like that, expunged, omitted; forgotten about!

Lenin knew it; he said, *"You give me your kids for three years; the seeds that I plant, you will never be able to remove."* That's what Lenin said! So they know that at a young age children are impressionable; they trust their authority figures, they trust people who are put to care for them, teach them. They know they're malleable and they feed them this disinformation.

Kerry and the other sisters there, they called it out; they said, *"This is a lie! You're teaching children lies. You're trying to frame the Americans as the bad guys in the American school by so-called American teachers."* How about every American teacher that teaches that: one-way trip to Cuba free vacation or Venezuela, or if they're really hardcore send them to North Korea. They got a lot of nice places for them there.

Look at this picture! This is the picture in the book, folks! Are you kidding me? What are the British doing, eating tea and crumpets over there? Are you kidding me?

And of course Kerry was showing the historical truth: they were outnumbered ten to one; the British were there en masse. They were there molesting and shooting, and riding over their towns; they were there confiscating the guns, taking away every possibility for resistance. Look how they depicted that in the American school textbooks? In Pennsylvania, folks!

It's a literature book! If you're going to study American literature, shouldn't you be reading like *Huckleberry Finn* and Mark Twain? *"Oh, they're all white supremacists!"* Is that what they're saying? Okay, you can't have those; they're white supremacists! But in the literature book that's what you're being taught - by a British painter! *"Well, we want to be inclusive of different opinions."* We might as well have China write the dang thing for us; that would be a different opinion, wouldn't it? That would be a great idea! Are you kidding me, folks? It's so ridiculous, so absurd; I mean it's crazy, it's totally odd.

So you have to understand: there's an attempt to rewrite every single value, every single part of our identity, heritage, and history. This is the reality that people don't understand: this is what communists do when they have power. Remember Satan's side wants to split the civilization. They want to split it horizontally between different groups and factions that they want you to identify with.

10 Stages of Genocide

In 1996, Gregory Stanton presented a paper before the Department of State on the *10 Stages of Genocide*. Actually the first paper was on the *8 Stages of Genocide*; he later on revised it to the *10 Stages of Genocide*.

In the process of those ten stages of genocide he talks about how a genocidal campaign starts moving along, what processes these governments use. He was specifically looking at Cambodia and at Germany with the Jews and Adolph.

In one of the stages you have to start **polarizing**. He used the example of the Hutus and the Tutsis in Africa; they would have to register which tribe they were from. So they would have government papers to show whether they were Hutus or Tutsis. This didn't solve the problem of unity; in fact it exacerbated tribal tension. And when any of them were caught in a scuffle or in a fight, they could just get his paper and say, "That guy's a Tutsi, kill him!" Whereas if he didn't have those ID papers maybe he could have survived, because they wouldn't find anything on him that was identifiable with the enemy tribe. Are you with me, folks?

So, this was written more than 20 years ago by a scholar named Gregory Stanton, and you can see it here:

1- Classification: people are divided between “us and them.”

You will see this even in the school curriculum now. They're not saying, *“Socialism is great. Mao Zedong is a hero. Stalin was wonderful. Lenin is cool. Wear a Fidel Castro t-shirt and you'll get high-fives by the teachers.”* But if you wear an Old Glory shirt, *“you are a racist white supremacist, and you must be disciplined now!”* So it is this more intense stage where they start trying to classify people, divide them into “us versus them.”

2- Symbolization: people are forced to identify themselves.

Now remember these phases also overlap. This scholar mentioned that they're not just like one, two, three, four, five. Sometimes they overlap; sometimes they go together at the same time. This is what he was writing about.

So, people are forced to identify themselves: *“I am a Hutu, I am a Tutsi. I am white, I am Asian; you are Black,”* etc. You understand? You have to start identifying yourself; instead of saying, *“Oh, we're all Americans.”* No, no, no! That's not good because that's too much of a unified identity. *“I'm American,”* that's too unifying! You have to break that up and make them identify, *“oh, I am white, I am Black, I am gay, I am straight, I am transgender, I am gender binary neutral. I am blah, blah, blah, blah.”* And now they have 72 categories for gender, so it's more and more and more and more categories. Then they're letting these kids make up things like, *“I am dragon species.”* I'm serious; have you seen these people? It's sad. I mean this is definitely some psychological disease.

But the point is: they have to start identifying themselves and this identification does what? It helps divide people from one another. And *“if you don't follow my identification, then you are somehow assaulting me, offending me, hurting me, harming me; you are harassing me, etc.”* Thus we have to have hate laws which give the government umpteen unchecked powers. And with anything they determine arbitrarily which is against hate speech, as they have in Canada now, you'll be arrested; you can be fined, etc.

And of course many places in Europe are already dealing with this. A lot of people know that China is already the largest trading partner with Europe. China is also the largest foreign direct trade investment country in the world now; number 1! It superseded the US; the US used to be that, but now China has the number 1 foreign investment in the world; in the world! Hello, folks! This is the Chinese Communist Party!

Also did you know? Just this past year China has passed America in the Fortune 500 companies. They have now 124 Fortune 500 companies, America 121. So China now has more Fortune 500 companies than America. These are real economic factors that show where the power is moving, where the needle is moving. So this is of course a bad, bad, bad thing.

Let me ask a question: with the Covid Chicom Fauci virus, did that needle tip more in favor of China or did it tip in favor of America? Of course it tipped in favor of the political Satanists. So those who are pushing us worldwide, the super class, the super elites, the Bill Gates, the Soros, the Rothschilds, all these demonic figures, what do they represent? They're pushing the world towards political Satanism; they're pushing the world towards the reduction of God-given rights and the acknowledgment of God-given rights - which would lead towards Godism instead of political Satanism. Amen!

3- Discrimination: people begin to face systematic discrimination

And then of course you have to do the third phase that's called discrimination phase. People begin to face systematic discrimination. They talk about systematic racism. Who are the ones that are systematically discriminated? Who are the ones that are systematically putting pressure on companies to fire conservatives in their ranks? Who are the ones that are using social media and big tech to systematically ban conservative voices; and large ones at that? The American Communist Party; the ACP! The Democrats are the ACP, the American Communist Party.

Every single one of us has faced some type of discrimination for having conservative views, *"You're a racist; you're a bigot, etc."* How many people have lost friends and followers on Facebook? Yeah, of course; because you are the greatest threat to America according to Joe Biden. It's not ISIS; it is a conservative Christian gun-owning Trump- supporter who is the largest threat to America. North Korea? No, it's not so bad. China? Not so bad. Iran? Not so bad. They just scream *"death to America,"* they just send thousands to blow themselves up with bombs and utilize children to blow themselves up as well. That's not a problem!

The problem is these radical Trump supporters. Terrorism from white supremacy is the most lethal threat to homelands security. You know folks, this is reckless wording; this is extremely reckless. This is the Commander- in- Chief speaking like that! He has power over the whole apparatus. This is the man that has the most power in the world; I guess under Xi Jinping now, because he works for Xi Jinping as Xi Jinping's pet. He supported the Klan members and went to the funerals and did Senator Byrd's wake.

You understand, these are reckless, dangerous words coming out of the Commander-in- Chief. He's isolating and he's clearly saying that America is against America, and he's saying he supports America versus America, because it's not enough that China is versus America, now we've got to put America against America; just to make things better, just to move in the "progressive direction." This is reckless and extremely dangerous, extremely dangerous!

Let's get back to the to Dr. Stanton's analysis here.

4- Dehumanization: people equated with animals, vermin, or diseases.

In the whole climate change, the whole thesis is that human beings, we are the virus. Nowadays you can't even watch a nature program on Animal Planet or National Geographic without them condemning all of humanity for destroying the beluga whale or the great white shark, or the sub-Saharan African grasshopper! It's my fault and it's your fault, because we like pickup trucks and jeeps and motorcycles - which is a true statement, but that's beyond the point. (*Laughter*)

"Oh, human beings, they are the problem; they are the vermin." You see, we're related to the disease. Who is that decrepit disgusting incest satanic royal family? Prince Phillip. He was the one who said, *"Well, if I was to be reincarnated I would love to be a virus, so I can help in depopulating the world from the human scourge."* They literally see humanity as a disease, and a virus, *"over population is ravaging our pristine green earth."* His deepest desire and wish is to be reincarnated. Well, too bad Philip, no reincarnation. (*Laughter*) I hope you have some air conditioning down there because it's going to be hot, demonic; sorry you can't get relief from that fire. You're not coming back as a grasshopper, a beetle, an insect, a dog.

5- Organization: the government creates special groups (police/military) to enforce policies.

How many people heard, *"oh, well, I'm just enforcing the law?"* That's a problem, isn't it? That would be similar to which country? Germany, or under Stalin, or under North Korea. *"We're just here enforcing the laws."* Now, how many people saw the Canadian police arriving in people's doorsteps because you made a Facebook post? Yes, because you made a Facebook post; a Facebook post! The police arriving at your front door: what crime have you committed? You posted something very offensive on Facebook. Can you believe this, folks? Men with guns arriving at your door because you made a post!

Now let's ask a very obvious question: is this moving towards political Satanism or political Godism? There's a move into a culture:

*which will dehumanize everybody.

*It will break up marriage,

*it will break up family,

*it will divide people,

*it will segregate us into race like a big open-air prison;

*it will destroy our faith in one another, faith in humanity, faith in God.

In fact that's illegal right; the communist, socialist and Marxist revolutions are all atheistic, godless, God-hating traditions, which of course have massive death trails, massive, massive death trails. It's only death; it's the cult of death.

So **"the government creates special groups (police/military) to enforce policies."** This is why it's important that law enforcement is controlled by the people; the American sheriff's model was about that. It was about: we can elect the top law enforcement agent. We can elect certain commission or some governor. Some bureaucrat can't appoint the top law enforcement agent; "We the People" can elect them, and if he's bad and he's appointing bad deputies that are trying to do be like Gestapo, we fire them. Amen! That is the American system, that's the sheriff's model; that's the Kingdom model.

Because you can fire these people who are given tremendous power actually; being the top law enforcement agent of a district, that's a lot of power.

But look at the Democrat-run cities, what has happened there? Well, it's not the sheriff's model, is it? It is the European model; it's where the governor or some bureaucrat or some board can appoint the sheriffs. But they're not the sheriffs; they're really the top chiefs, and you can't fire them, you can't fire them; there's no recourse. If Bill Gates committed a crime or something like that - and they probably have a long trail on him - or Hunter Biden, everybody knows we have a huge trail on him breaking multiple federal crimes etc, but they just give a wave of the hand like Sith Lord in Star Wars, and then all the other citizens go, "*Yes okay; yeah*" and just let it pass. It becomes this sort of wicked, wicked cabal which is then ruling over people. That's very dangerous, very dangerous! That's the same type of thing you'll see in North Korea, same type of thing you'll see in China; same type of thing you'll see in Venezuela, Cuba etc. This is the same stuff, folks!

6- Polarization: the government broadcasts propaganda to turn the populace against the group.

Now remember, all these things also overlap. So you've seen number 6 happening at number 1. They're starting to use the media, Hollywood. Taylor Swift may be running for governor in Tennessee, Matthew McConaughey may be running for Texas governor. You understand, they're using these original influences prior to social media which were the celebrities, and now weaponizing them to take real political power and move the communist agenda forward. They know most people have fallen asleep, because they've beta tested this country, folks; they just did. They just promised you two weeks; they promised you all the hospitals would be full capacity and everybody would be dying with two million deaths in America, and they had all the charts and the graphs and the proof from the experts telling you that. And they said, "*If you just listen, if you just obey for the first two weeks,*" and then it was a month and then it was three months and then it's not ending. It's not ending; it doesn't end.

And because they were getting such bad numbers, "*oh we'll send the covid positive patients into the nursing homes so we can get higher numbers,*" Whoopsie daisy! What do you think is going to happen there? But "*don't, don't look at that; don't look at that,*" as Cuomo says. No, he didn't do anything wrong.

Now there's the problem of the New York gun violence epidemic, so he has to start sending the Nazi boots to come and get your guns in New York, because you're already under a communist state, and he said he's going to treat the gun violence epidemic. More than 60% is suicide, by the way; more than 60% of the 30 to 40,000 gun deaths in America is suicide. Which is terrible, but that's not a gun problem. That's a problem with the person, or demonic possession etc; there's a spiritual reasons for this too. Amen!

And then the vast majority is dealing with what? Inner city gang violence, where you have the most stringent gun laws; but it doesn't help.

Chicago has the greatest, most stringent gun laws, but yet has tremendous gun violent crimes.

-Because the guns how do they get in?

"Well you know it's the adjacent states; the adjacent states are letting them pour in."

-So why don't the adjacent states then have a gun violence epidemic? If it's pouring in from the adjacent states and they're the problem for Chicago having such terrible gun violence by the gangs, why don't the adjacent states all have terrible gun violence epidemics? Wouldn't that make sense, since it's pouring in from them? Hello folks, are you with me?

So they've already beta tested America; they've checked, *"okay, how compliant will Americans be? They say they're so strong, they say they love liberty, okay let's test them out. Klaus Schwab of the World Economic Forum, yes test the Americans out! See how compliant they are."* And what happens? They test it here; Bill Gates is pushing it and WHO that is in bed with China. They don't push anything in China; they give them the pass, *"oh don't mind that they have a million Christians in death camps, a million Buddhists in death camps, three million Uyghur Muslims in death camps; don't worry about that because Apple needs cheap labor. Don't complain; Apple needs cheap labor, so you can have your iPhone. It's your fault in the end anyway, especially if you're white; it's your fault, okay."* You understand folks? It's so crazy

This is reality but even saying it, I can't believe what I'm saying because we were talking about this five or six years ago and of course everybody would say we were nuts and lunatics. But Communism is a real system, folks; it is a real 666 -Beast system, and it is actually applied in the real world with devastating consequences. This is the problem: it's not just some type of theoretical thing that we can just introduce in schools and it's just another opinion. No! It has massive, devastating results!

It will be like: well let's study and emulate the brains of all the most dangerous mass murderers on the planet and then have the kids try to emulate that and internalize them. How healthy do you think that would be for the children's education? Huh? Hello! Are you with me, folks? Who in their right mind, how many parents would think that it would be a great idea, for elementary- school kids to have a whole study on the brilliance of Charles Manson - as another opinion, just so they get all sides of the story? *"Yeah, let's have the kids study that, meditate on it, internalize it, and see him in a different opinion, that is, of a hero,"* how many parents would be for that? But that's what you're doing with Karl Marx! He's a billion times worse than Manson! Do you understand, folks? He's a billion times bigger devil!

This is exactly what you're doing. I'm not saying Manson is a good devil; he's a bad devil. But Karl Marx is a greater devil. It's not just another opinion; these are psychotic demonic, deathly dangerous individuals. It's not just another opinion. If people take this to heart and internalize these values and strive politically to work for them, they will create hell for millions- out of good intentions. How many heard the old phrase: *"the path to hell is what? Paved with good intentions"*

Rainbow Dildo Butt Monkey

So this is real. This is not just concepts or ideology; it's not just ideas, not just different opinions that we expose! No, no, you don't expose kids to certain ideas when they're small; you don't. I don't want to say it but California just introduced -oh my gosh, it's so sick- a health and science school program. They introduced a man called the Rainbow Dildo Butt Monkey; they invite this man dressed up as sexual organs to teach health and sciences to elementary school teachers, and then they have the kids

jumping on this guy with this costume. How is this supposed to be healthy for their growth at five years old? You see what I'm saying, folks? How is that healthy for children? How is that healthy?

And that's of course coming from the harmless gay propaganda agenda etc that will come after you with tons of money, and lawsuits if you go against them, because the San Francisco gay choir is now singing with hundreds of effeminate men, *"We are coming for your children."* They're blatantly telling you and then they got Rainbow Dildo Butt Monkey as a guest to teach your children, folks! Do you understand? Hello folks, hello! Do you understand? See, y'all thought I was crazy when I said "space monkey"; it's worse, it's worse. This is in the UK by the way; Britain is so progressive, so modern. This is somehow healthy!

This is why, parents, you can't have that conversation when your kids are 16- 17 years old, *"Okay, son; Daddy has to have a talk with you. Now you're 16 going on 17 years old. When I was 16 my daddy sat me down and we had a talk. You know there's something called the birds and the bees."* And your 17 -year old son is sitting there, *"what are you talking about Dad? I've been watching porn for 15 years."* Okay, that's the problem, because the average age of porn consumption now is seven and eight years old, folks; that's the reality. But parents don't want to talk about it because *"it's too; oh, oh, oh, oh!"* If you don't tell your children, - and our job is to protect them from predators- the predators are giving the messaging folks; the predators are teaching them what is acceptable. If the parents are not going to step in and teach them the right way they're going the wrong way. Amen! That's just reality. I'm sorry; they're going the wrong way.

And we can't act all shocked, *"Oh my gosh, you're 17 and you already know about the birds and the bees!"* You can't do that; this is not reality. They're getting our kids younger and younger and younger, and Rainbow Dildo Butt Monkey educators are coming for you and your children. How crazy is it that I have to even say that! I mean seriously, folks! How crazy is it, you have to even say that! It's like insane asylum; it's crazy!

Oh Lord, have mercy! The rainbow was a sign of God's covenant with Noah and the people, to repopulate the earth! Not to bring Rainbow Dildo Butt Monkey; he's a demon! Are you with me, folks? They stole the rainbow! The rainbow is in the Bible; it's God's Covenant, His promise! And they took it. So now, a whole generation of kids, when they see the rainbow they don't think about God's covenant, *"It's Rainbow Dildo Butt Monkey! Whoo, he's a hero; he's saving the world!"* Are you kidding me, folks? I mean our enemies will be laughing at us, the fact that we have to even deal with this.

China is not doing this, folks. They're not inviting Rainbow Dildo Butt Monkey, on tax payers' dime to teach their children; they're preparing their kids for war to destroy the US. Purchasing parity-wise they are spending more on military than America. Because labor costs are so low in China, we need to approach it in parity- analysis. China spends more on military and of course they stole so much of our Intel probably given by the Deep State by the way; bought off and given to them.

(Reading again) **Polarization: the government broadcasts propaganda to turn the populace against the group.**

That's just dangerous reckless rhetoric, *"Oh, these Trump supporters, this is the greatest threat to all of America and the free world; the greatest threat is the white domestic terrorist."* And what they mean by that, unpack that; it just means "the Christian conservative gun -owner Trump- supporter." That's exactly what it means. And it doesn't matter if you're Black or Asian; it doesn't matter. You're also a white supremacist. I'm a white supremacist; I'm a North Korean American and they call me a white supremacist.

7- Preparation: official action to remove and relocate people begins.

Now in North Carolina they have the door-to-door Strike Force teams as Jen Psaki mistakenly called them, *"I never said Strike Force, I meant volunteers."* And the Strike Force is coming to check whether or not you've been vaccinated, whether you've been a good boy or a good girl. Whether you're buying into the rumors of the wild conspiracy theories and the raving lunatics on the internet; you know trying to look at evidence of science, and the origination of this Covid 19 from the Wuhan lab and of course from Fauci.

"North Carolina, don't pay attention to any of that! Don't pay attention on the referendum against the chemical weapons and gain of function research in America and the reasons why Fauci sent it to Wuhan! Don't, don't pay attention to those actual facts of reality; don't, don't listen to those things! Your pastor is a conspiracy theorist; he's a dangerous conspiracy theorist and he's telling you facts, so you better watch out. But the Strike Force teams are coming, because we want to give aid to the unvaccinated; we want to help, we want to help the unvaccinated."

Now, this is what people don't understand in America. We're expecting Jackboot thugs as we saw in Canada: a SWAT team shows up, and they start harassing the pastor. Remember, we saw that video? These big tattooed cops, they come and they get you. That's what the patriots are kind of expecting, *"Man, if those guys come, I'm going to... whatever."* No, no, those guys aren't coming, folks; that's not how they do it in commie land. The Americans are waiting for the Nazi cops to come; no, no, no, that's not how they do it in communist countries, folks. You know how they do it? It's the D.O.H.

Department of Health and all the volunteers, working with the D.O.E. that is the Department of Education, to mobilize elementary school- aged children and middle school-aged children to guilt-shame you to come to your door and beg you, beg you, beg you, to help save their grandparents, because of the deadly Covid virus.

So, you thought, *"when they come, boy, I'm going to give them a mouthful; I'm going to film them!"* No, no! It's not going to be them at all; it's going to be a whole group of volunteers. It's going to be a whole group of American Communist Party liberals who think they're *"saving the world. We've got to help this humanitarian crisis; we've got to help dispel the myths of all these brainwashed Trump supporters. We really love them, have compassion for them; we really care for them. We have to try to save their lives. BLM, BLM, Antifa! Yes!"* You understand, it's D.O.H. and there's CBS already reporting from North Carolina, already starting. There are no cops; the cops are not present because they know that's too inflammatory. There are no big guys with tattoos; they're not there.

It's ladies in nice dresses who will bring their family, bring their little children, *"Oh excuse me, excuse me, Mr. Toffee, Mr. O'Grady, excuse me Mr. Stevens, can we just have a word with you? Isabel wants to tell you something,"* and Isabel is crying on the front door and says, *"Please Mr. Thomas, please; please help us. Help us turn the curve. Mr. Thomas please, Mr. Thomas, we really appreciate you; we don't want you to get hurt or die. The Covid Delta variant is killing so many people. My uncle and my aunt they died."* Because they got hit by a car or they had the flu, or they had a natural cause of death; they had a heart attack or a stroke. That all disappeared by the way.

But you understand, folks; this is how the commies work. This is how they did in China; this is how they did in North Korea. When they become more structured, they're called "struggle sessions," and there have been scholarly studies done on it; but this is a first phase of struggle sessions that they're starting to implement.

So, it's not as people expect; it's not going to be a big SWAT team coming after you. It's going to be innocuous-looking people with their children. See how the Left they always just love getting the kids involved, don't they? They get the kids involved in everything; just like whom? The jihadis, don't they get the kids involved? Don't they use those kids to like, *"go run over there and press that button?"* Boom! Are you with me, folks?

This is going to catch the American public off guard, because the normal conservatives say, *"Okay, I'm not going to take that shot; I'm just going to resist that."* But then they got little Isabella and little Martha crying at your doorstep, and then they got this and that neighbor who got the shot and they're begging you. Then they do the trace tracking on you, and they bring your cousin and your nephew who's a flaming liberal and voted for Bernie Sanders; they get him crying on your front lawn, get him crying on your doorstep, *"Please uncle!"* It's all about public shaming. Are you with me, folks?

It's not like they're going to come in *"one two, one two, one two."* No, no, that's not how they come. They come like, *"Oh come on honey, let's go save the Toffees! Honey let's go save the O'Grady's! Let's pray! We're going to pray before we talk to the O'Grady's, okay."* Uh-huh, oh yeah, you're going to have the priests of the parishes, and you're going to have the pastors come out, *"Oh! Let's pray! Let's pray before we save these people's lives in Jesus name. In Jesus name, let's save these people!"* Oh heck yeah! See, this is how the commies move. They don't move *"one two, one two!"* That's later on; that's later on; it's not now.

(Reading again) **Preparation: official action to remove and relocate people begins.**
And it's all about this guilt-shaming.

Struggle Session

Let's jump to Wikipedia about this whole struggle session.

https://en.wikipedia.org/wiki/Struggle_session

This is when public shaming becomes more developed during the Communist Revolution. There are a lot of scholarly writings on this, and if you study any Communist Cultural Revolution, you'll see that this always happens.

The 10th Panchen Lama during a struggle session

There it is! They're doing this against the 10th Panchen Lama which is a Tibetan Buddhism Lama of one of the four sects of Tibetan Buddhism. You can see that picture: you see Mao's picture in the back and you see all the Liberal Progressive Democrats around him, and see how they're all pointing at him. Can you see that? He's made to sit there; he has to sit there and absorb the assaults and the attacks and the verbal slugs and the slings. Once they get you, it happens over and over, in bigger and bigger crowds.

They know people are very scared of crowds. People are scared of their reputations being dismantled and of being publicly shamed; people hate that. They know the psychology; they're expert scientists. Neuroscience is their top field, folks. These international companies have been studying neuroscience for over half a millennia. They know how to break people's will. They know Stockholm syndrome happens on hostages after about three to six months. They know the stats, and they know if they keep on haranguing you, haranguing you, haranguing you, especially if they get you in this kind of phase, you're going to break; at some point most people start breaking.

Our young people, they may not have heard of these struggle sessions, or more appropriately called "shame sessions." Let's take a look at the Wikipedia article here:

“Struggle sessions were a form of public humiliation and torture used by the Chinese Communist Party (CCP)”

but not only them: North Korea also uses it, as well as Venezuela. In America they don't use it in these public sessions, but on public social media forums. They're creating the forums where you can be assaulted and verbally attacked constantly, and accosted and shamed. These people don't have arguments, “*You're white and you're a supremacist,*” or, “*you're a misogynist; you're homophobic.*” They're just throwing labels out. But this is a part of the strategy of the struggle session, it's the whole purpose; as we study this, we'll see.

“a form of public humiliation and torture used by the Chinese Communist Party (CCP) at various times in the Mao era, particularly during the years immediately before and after the establishment of the People's Republic of China (PRC) – and the genocide by the way- and during the Cultural Revolution. The aim of struggle sessions was to shape public opinion, as well as to humiliate, persecute, or execute political rivals and those deemed class enemies.”

You see how those are related? “*Shape public opinion, humiliate, persecute, execute.*” See how those phases are kind of tied together? Now, it's no coincidence that Biden the usurper, is up on stage making these reckless statements saying, “*More important than ISIS and Iranian mullahs, North Korea and China, that are trying to blow us up with nukes; you know all that stuff is not a big problem. The biggest problem is our own American citizens, the white domestic terrorists, the Trump supporters.*” What is he doing? He's not only trying to shape public opinion; he's trying to do what? Humiliate the normal conservatives not used to be called a domestic terrorist. Amen!

The Moonies, we're kind of used to that; for 40- 50 years they've been doing that to us. Because we had the Washington Times, we're super anti-communist, Father putting billions of dollars to fight Communism worldwide. So, they've been doing this to us; but the normal conservative? No, no, they're not used to being called a domestic terrorist. They're not used to being told, “*You're the biggest threat, bigger than ISIS and the wars we fought.*” Remember? Our military went to those places and killed those groups - by the way. Remember? That's kind of like you're saying “*a group of Americans, like Trump's supporters, are worse than the groups that we send our military to go and eviscerate.*” That's kind of crazy, isn't it? That's pretty dangerous and very reckless; extremely wicked and evil.

“In general, the victim of a struggle session was forced to admit various crimes before a crowd of people who would verbally and physically abuse the victim until they confessed.”

And this, of course would include your family. How many people have family members who are pretty radical Left? Unfortunately it's sad; they've been brainwashed. So, in the struggle section they would include your kids or your cousins or your nephews or your family members to come in there, and also verbally accost you. It wouldn't just be some random people you never saw. No, they would purposely try to attack your heart; they'd purposely be trying to give you a mental breakdown and a heart attack- at least spiritually and probably physically as well.

"In general, the victim of a struggle session was forced to admit various crimes before a crowd of people who would verbally and physically abuse the victim until they confessed. Struggle sessions were often held at the workplace of the accused, but they were sometimes conducted in sports stadiums where large crowds would gather if the target was well-known."

Folks, what are they saying with the Covid? *"Well, you know, if they're not going to do it, we just have to encourage workplace employers to mandate."* Which means: if you don't get it, you will be under a form of apartheid; you will literally not be able to function in society, and even though you have a little proper garden, I don't know if you've done gardening for a while, humans consume quite a bit of food; even your small family eats a lot. How many tons per year? So it's not easy to have a proper garden and to feed your whole family indefinitely like that. And it's not like you'll be left unmolested; the Nazis will come after you while you're trying to live your off-grid peaceful life. No, no; one day they're going to come. The more they can isolate, kill; isolate, kill; isolate, kill; isolate, execute; isolate, execute; the resistance gets weaker.

"Struggle sessions were often held at the workplace of the accused, but they were sometimes conducted in sports stadiums where large crowds would gather if the target was well-known."

Those are the more spectacular dramatic ones, but the usual struggle sessions are done right at your local area.

So isn't it interesting? The D.O.H. allied with D.O.E. and as a social justice exercise for young children across the country, *"we have to help save lives as a social justice program; we have to help get people vaccinated."* And then they'll play the rappers singing, *"Get vax; get vaccinated."* You're talking about propaganda, folks. Are you with me?

And you have the department of education, public school run taxpayer- paid for, they will have little children and the teacher, *"Oh Mr. O'Neal, could you help us curb the curve?"* And if by chance you come out, *"get off my property"* and you come out with full kit and armor and your AR, they will be filming up these little kids screaming, *"Aah!"* and you've now just walked into it. Now, those kids are saying, *"Oh my God! I saw a raving lunatic man with a big gun; he threatened our lives! Oh my gosh, children, our lives were threatened; our lives were threatened. We almost died; that lunatic man, he tried to..."* You see, they're going to exacerbate that in the minds of the children and get them into a psychosis, and they will be traumatized by it.

Right! I mean, this is how the commies move folks. They don't send the Nazis yet; the Nazis don't come yet. It's the nice little volunteers and the children that are going to come to your doorstep. Boy, oh boy! So, I don't know about you, but it probably is smart not to answer the door sometimes. You know what I mean? Just saying; I'm not telling you do anything but I'm just saying. You know sometimes in America it's okay to not answer the door; okay I'll just leave it at that.

Struggle session of Sampho Tsewang Rigzin and his wife during the Cultural Revolution

You see here; this is during a struggle session.

You can see, maybe it is at a workplace, but you can see he's the guy with the Tibetan clothing tied up in the front, with his head down, and with a stone and a cement block tied on his back, because he's committed a crime. He went against Mao; he dared speak out against him.

What they're doing to him spiritually is demeaning him, calling him all sorts of demonic names, cursing him, blaming him for all the problems, *"You're destroying the country; don't you know! Why are you stopping this revolution which is helping liberate the poor and bringing equity and diversity and inclusion? Why are you trying...?"* You see, and it's just on and on and on and on.

These are not just ruminations, folks! This is real history; this is real, this is real. *"Oh, but don't listen to this; this is very radical!"* It's radical to know history and study history; it's radical to see historically documented pictures like that. It's very dangerous! Yes, that's right.

Didn't they put a crown of thorns on Jesus' head with *"The King of the Jews,"* written on the cross? Public humiliation, spitting and whipping! Same spirit of Satan; same spirit of Satan!

This is a struggle session with another Tibetan old man

See, they don't care! Talking about morals for the elderly; taking care of your elderly. No they don't care; if you are of a different opinion you are to be exterminated. They're doing you a favor, because you're the disease and they're getting rid of you; so actually you should be grateful. They're the doctors, they're saving the world, and actually you should be grateful for your own extermination!

Speak Bitterness Sessions:

"Struggle sessions developed from similar ideas of criticism and self-criticism in the Soviet Union from 1920s"
 Now, one of the things that CRT does is they implement a self-critical tool in certain exercises. It doesn't mean that it's necessarily in their textbooks but certain teachers will do this. Certain people have already been through it, and they said, *"I was literally made to do this."* So if you're a white child- that's a five-year-old kid- if you're white, you have to take a step back; if you're Black or minority you take a step forward. They make you do a circle and then they do a session of self-critique, *"as a white child how are you privileged?"* Then of course they'll give all the students their stuff about police brutality- whatever it is; they do all that spiel.

But you see what they're doing? This is a form of what's called "self-criticism." It should be a good thing right, if everybody could just agree that: red, white, black, doesn't matter; we all have problem with sin, and that's why you need a savior. That's a good self-criticism because that leads you to Christ and that leads you to God.

But when you have to ruminate on the sins of your ancestors! And many of the white folks are not even related to those people who owned slaves in the American Revolutionary period, which was a British vestige of British culture. They had the longest western slave trade for hundreds of years; the Islamic one of course was far surpassing it. Slavery was a remnant of the British that Americans inherited, and of course for political reasons had to create in the system ways to get rid of it later, but keep the country unified so we could fight the Revolution and move through and not divide.

But the point is: this type of self-criticism based on class! In China, in Russia, in different places, if the population was homogeneous, of the same race, it could be done by landowner versus non-landowner. That's one of the systems they used in North Korea; there, if you are a fourth- generation grandson of a landowner that opposed the Revolution you are shamed. Do you see what I mean? It's guilt by association.

So, even though you have nothing to do with owning people -which we all agree is a sin - you are guilty by association because of the color of your skin, just because you're white. Well, logically by extension, that would mean all the races are guilty; the Chinese being a massive one that enslaved the Korean people for five thousand years; the Manchus, the Mongols etc. Every race then would be guilty of slavery because every race has done slavery, including Africans, including Asians, including Caucasians; it doesn't matter. It's a problem of sin, folks; it doesn't have to do with race.

But they don't want you to reflect and have self-criticism on how we are all connected in that fashion, that we are battling with sin and we need a savior. No! They don't want to have unity like that, which would actually be productive self-criticism, and would lead a higher percentage of people to God. No, no, they want you to do self-critique based on the sins of your ancestors and on your race.

But it's highly selective, because if you are Blacks, if you are Asians, they're not going to talk about the Chinese genocide of the Koreans; they're not going to talk about the North Koreans imprisoning their own brothers South Koreans. They're not going to talk about that. They're just going to tell you how bad the whites were because they owned Blacks-which was of course a sin. But it's also a sin that Blacks did it, it's a sin that Asians did it; it's a sin that everybody did it. I'm not trying to relativize, but it is a sin problem.

And God can call us from that sin and bring us into a new life to become a new creation, and we can transcend the tribalism, we can transcend the race, we can transcend all the divisions. In Christ we can! But they don't want that! No, no, it has to be the self-criticism; now in our context it's race. They've analyzed; they've seen landowners versus this and that, *"Not as effective here; we're going to do it by race."*

"Chinese communists resisted this at first, as struggle sessions conflicted with the Chinese concept of 'saving face'. However, these sessions became commonplace at Chinese Communist Party (CCP) meetings during the 1930s due to public popularity."

Remember that crazy psychopathic teacher who when Trump got elected, put in front of her students a big powerpoint screen of Trump's face, and she was shooting it with a water gun. Remember this lunatic? It's a white liberal, a white liberal teacher saying, *"Die, die, die, die!"* to a picture of Trump. By the way, it's a crime if you say that about a sitting president. But of course nothing happened to her. *"No, no, she's exhibiting a healthy behavior, totally wholesome, totally normal; totally, totally healthy!"* Can you imagine if somebody did that with Obama or with Clinton; Clinton would probably come to see your execution!

*"Struggle campaigns emerged in China as a tactic to secure the allegiance of the Chinese people during the land reform campaign..That campaign sought to mobilize the masses through intensive propaganda followed by **Speak Bitterness sessions**(give utterance to grief) in which peasants were encouraged to accuse land owners."*

And build resentment.

Look at this Covid, folks! Is this helping *"Love God, Love your neighbor?"* Is this creating a society where we're ratting out our neighbor; telling, *"excuse me 911; my neighbor has six people over at his house?"* Usually neighbors should say, *"So what? Hang the phone up!"* You're supposed to be friends, you're supposed to be there for one another; you're not supposed to just emptily, brainlessly, in a brainwashed fashion just obey what these office bureaucrats and lawyers tell you to do. You're supposed to have real relationships with people that you've developed over time through actual

contact and actual looking each other in the face and talking, and having barbecues and going shooting together- whatever the case may be- being friends.

And if bad people are trying to tell you, *"office lawyers are commanding you to do this and that,"* usually friends will say, *"Whatever!"* You're not supposed to say, *"Oh my gosh! Henry has six people over. I counted six, officer; come, come quickly!"* This is crazy; this is like North Korea.

You're getting people not to "Love God, love your neighbor" and protect your neighbor. Have compassion for your neighbor, don't just judge quickly your neighbor; have a little patience, see what's going on. If you're concerned, go ask, go talk with them. You know what I'm saying? You don't just call, *"911, quickly, quickly, emergency! There are now six people over here at this person's house!"* Probably a Biden supporter, unfortunately! This is creating distrust; this is creating hatred, animosity, resentment.

And then think about the children who are growing up in that type of psychopathy, who are seeing their mother or their father ratting their neighbors out! Think about what the children are learning: what are they learning, folks? What kind of principles are they learning? They're learning total obeisance, subservience to the state and these bureaucratic lawyers. What are they learning?

So you can see: Satan's system directly attacks the Commandment of God which is *"Love God, love your neighbor! Love God, love your neighbor!"* Be willing to protect your neighbor; not rat out your neighbor. *"Love God, love your state, rat out your neighbor!"* That's literally Satan's precept, isn't it?

United Christian Coalition

Getting back to the Scripture: in Daniel Chapter 9 you can see the repentance; Daniel's trying to repent and I think in our own way, Americans, we're starting to wake up; we're starting to say, *"Oh my gosh, this is getting real bad,"* and, *"oh my gosh, we need to have a reckoning with God. We need to get serious about our founding principles and the principles of our civilization. If we don't, it's going to go away, it's going to be erased; it's not coming back either."*

Once it's gone, it's not coming back, folks! This we must understand: once it is gone, it is not coming back! I'm not trying to fear-monger; I'm just giving historical reality. If the people let it go, it's going to be gone.

That's why it's so important that we are in right relation with God, that we are fellowshiping with people, that there is a united coalition. Kook J-hyung was talking about a United Christian Coalition. I mean who cares about denomination! We got to stand together; we have to survive this onslaught. Amen! Who cares about the tiny differences in theology? Who cares? This is an existential crisis; we can start debating each other once this is over. The Baptists can go after the Methodists; the Pentecostals go after you. We'll start it up again after this, okay? We'll start that fun up again once we're done with this. Are you with me, folks? This is crazy!

People, we have to come back to God! We have to have that common sense of: yes, we as a civilization we've let God down. Folks, I mean let's be honest: 60 million babies killed, that's worse than Baal

worship, that's worse than Moloch. We let it happen. It's not like it's our individual fault, but collectively as a Christian society, we didn't stop it. Because it is inconvenient, and it is a terrible, terrible inconvenience to our lives to face these people who are so angry and full of hatred and vulgar, and they just want to tear you down and destroy your reputation; they want to hurt you and destroy your family. We'd rather just look at the sunset. I get it, but that time is now far past, and God is calling us to defend our country!

Pastor Sean's Prayer

Father God, we thank You for this day; we thank You for the Word that You've given us. We thank You. We would like to be like Daniel and repent of the sins.

Father, You have given us;

*hope because through

*repentance there is also

*revival and

*resurrection can happen;

*hearts can be restored,

*resentments can be forgiven.

*Divisions can melt away in

*Your great love, when we as a civilization once again realize how important it is to

"Love God and love our neighbor."

Now we as one civilization, as one family under God agree that we may disagree in theology and politics, in this and that small matter or sometimes big, but we have to stick together as a country or we will not have a country. And this is what the enemy is trying to do; he is trying to sow seeds of massive division in our country, so that families are put against one another.

But this is not new, dear God; we saw this in the Revolutionary Period. We saw the Founding Fathers, some of their sons were on the British Redcoat side, and they had to even fight their own sons.

Brothers had to kill brothers; brothers had to kill sisters in a terrifying situation. We know that the enemy does not stop; he keeps pushing and pushing and pushing and pushing until we say, "*No, no, no! Enough is enough and you may not proceed any further!*"

Let America remember the gifts that You have given her! Let America remember that this is a nation erected and substantiated by You and the Holy Spirit. Even though there may be imperfect men who substantiated this nation, God, You used them as Your hands and feet, just as You used Moses, just as You used Abraham, just as You used Ezekiel and Jeremiah; just as You used all the prophets to do and further Your will. Let's remember this heritage and who we are; remember that this country is worth defending. That liberty is Your gift to us.

We give You the praise, we give You the glory, we give You the honor. We thank You today.
In Your precious name! Amen! Aju!

All right folks, let's all rise and give the glory to God. Amen!
