

FATHER AT UTS

April 19, 1989

[On Wednesday at noon Father came up to the Seminary with five special guests from Korea; it was a surprise to everyone. The rumor spread quickly that he was coming to go fishing.]

Father's Dining Room - (Translator, Mr. Peter Kim)

[Father told Peter Kim to introduce the guests to everyone]

This lady is Mrs. Ok, Se Hyun, she is 92 years old. (clapping) She was the first member to join Father in Pyongyang, North Korea around 1946. Mrs. Ok had received a revelation that the Second Messiah would come in the physical body. So she came to Father when he was in North Korea from Pyung Chana Li vilage. After Father was put in prison she always visited him and brought food and clothing to him.

Mrs. Ohk's family were all Presbyterian elders of the most famous church in North Korea. When she found Father she did not diplomatically start visiting to hear him, she just left everything and came straight to Father; no indecision. Because of this kind of direct faith she caused a "big persecution" - the Christian churches in the area started accusing Father and when she would not return home then they treated her as if she were a "crazy woman."

These are Father's two cousins; they and Father both have the same grandfather. The first is Mr. Moon, Yong Ki, he is called Elder Moon. The second is Mr. Moon, Yong Hyun. He is with Tong Il Co. he's the younger cousin and his son is blessed with Mr. Kamiyama's daughter.

Elder Moon has lots of stories about Father's childhood, but we have no time to hear them, I'm sorry. But he's a good singer. [Everyone claps for him to sing a song. Elder Moon stands up and sings: "Young Byun Ga." He sings in the old style Korean folksong style.]

[Then Father asks for the student with the best voice to stand up and sing - everyone calls for senior student Jane Pridgeon - she sings an old English folksong. Then Father calls for a brother to sing; senior student Andre Jenkins is picked - he steps forward and sings a song that he had composed when he was on the MPT: "Father's Hope is Our Canaan's Promised Land." Father calls for another song - Mariel Pearlman is brought in next to Father - she sings "Sun Myung Moon" in French. Father remarked that he had heard that song in Paris and that it was composed by a UTS graduate. A Junior student, who is from mainland China Hong Yu Kovic, was asked to sing; she wanted to sing "Sarang Hae," but Father wanted her to sing a song in Chinese. She had a difficult time to remember but finally she sang "Chen Chin" (March Forward). Finally, Junior student Moon Sook Yoon sang a song in Korean.]

[Then Father said that he has a busy schedule and cannot speak long - that they must eat and go. But then he asked if a senior student had a question? Several students raised their hands but Father picked Will Peat. Question: "What does Father expect of the UTS graduates when we leave the Seminary?"]

[Father speaks in English] You are representatives of God's providence of restoration. The critical difference between the Old Testament and the New Testament and the Divine Principle life is that the Bible shows the history or all records of "failures" (prolongation of the providence). But Father's life is a record of success. This was to indemnify all the failures from the past. So Father has been fighting to achieve the victory. A real foundation is needed, a real God's-family. You have to think that, "I (you students) am representing Adam's family."

So Father made that kind of victory. Why? In a way our Divine Principle is like a big "sign of victory," showing everybody what we have done. So you have to read Divine Principle so that you know these things. You have to think, "I have to live, not a victorious life, but the "life of a victor." To live a repentful life; that kind of serious historical life and work. Look how much (very) serious Father was in the family, tribe, nation, and world indemnity course - eight steps. So you must be really smart, reading so many theological books. (laughter)

Satan is always attacking and trying to control people - it's an historical problem to get Satan to "bow down." That means that many Christians (although they don't know it) belong to Satan. How can you make an indemnity condition when all the time Satan is attacking?

But all the time Father welcomes the younger generation; they always say "monsei." All they do is follow Father, but they don't make any conditions of indemnity. Do you believe 100% in Father? (Yes!) Father paved the way for all of heaven - Satan cannot invade. Did you know all of this? (No) That's "bad" - Satan understands the Principle more than you do. How about all of you UTS students, do you know this? (Sorry, Father) I don't want to hear "sorry" - all the time people say "sorry." You have to find out for yourselves. (Yes! We'll go anywhere, Father) I don't think so... (Yes!)

Satan is in the archangel position, and God is the "subject" and Father is in the Adam position. That was Satan's foundation: the heavenly world and the physical world, but Satan does not like Father's providence. How can God relate to you? Only in heart. But which is the real way? Which is the closest to God's way, believing or knowing? (Knowing?) Yes - knowing and action! Believing the Principle, knowing the Principle - you don't need these (Father slaps the table) you need action!

If you march on - go on - Satan cannot get in there - God is behind you. It takes more than blood and tears. Every time Father says, "Go out and fight, then you don't need prayer, you need action. How much are you making that kind of record? Do you understand? (Yes). UTS is now appealing to many outside theologians. After you graduate it must be clear what you are to do. Father doesn't have time for the Unification Church to get to work - he must make a record all over the world. The same with UTS graduates; the most "failure" is from high positions. If you are in a "lower position" then you can "turn around" and rise up.

The Christian Church (Christianity) has no hope - no hope - is that true? (true) The American people, if they do not listen to me, then the United States will crumble down. The only hope is the Unifi-

cation Church! (Yes!) I don't believe it! (It's the only way, Father) We're working, not for Korea, not for the United States but (ultimately) for God! Who can bring victory? Not God - it has to be the "family" restored man, woman, and children. You don't know (understand) "Adam's" position - it's not easy.

The important thing is East and West, not North and South - who can win over "Satan's field"? (territory) Father made (founded) UTS in the United States. He didn't make it in Korea. Why? Korea is too small a country. This nation of America is mainly Christian - you need to teach Divine Principle - to turn around this country. You don't use the power you have - you don't know it - the Principle is a good source. If you can't use that power that's your problem.

People have fallen blood lineage; they have that kind of circulation of Satan's blood. You must break out of it. Where can you get that kind of experience? Here - do you understand? (Yes!) Recently, Father opened his mouth and gave you (UTS students) a scolding. (sigh) It's a serious question - a very serious problem for Father. No matter how much they persecute Father, don't worry about it. Father's whole life has been that serious. How do you like that serious point? (Good) American people don't like that kind of serious things! (We do!)

So where is hope for the world? (True Parents) Do you have hope for the world? (We do!) Does "we do" mean "I do"? There is so much individual culture in America (do your own thing). America is like a "pirate ship" - everything is "me, me, me..." or "I, my, me..." (laughter) Is it true in England also? (Father looks at David Fraser-Harris - "Yes, it's true!) So the more public way is the best - together. The problem is the individual way. It's been that "individual way" all through history, not the power of people working together. It's not, "I, my, me" - it's "together" - from that way (unity) a new world will come. You think about it - "I, my, me!!" - Satan loves that kind of culture. It sounds good, but you cannot accept that.

God has been waiting for the "family, tribe, nation, and world unity" - it only takes one time. What counts is how serious you are in finding out the Divine Principle contents. You have to have that kind of experience. You have to have that kind of heart and feeling to know what's going on outside. You have to know, "...how much will this condition continue?" You have to know - to do it yourself. Do you understand? (Yes)

[Father continues the discussion about the torture, beating and execution in Korea in early days] Are you thinking, "Oh, Father is too serious talking about "execution"? But it's that kind of feeling; your eyes have to know that, your mouth and ears have to know that kind of situation. Who caused that kind of "execution" situation? Satan. He cannot "hang" Father.

How can this relate to my deepest heart? To know that the relationship between God and man was lost. What is Satan's secret? This is it - Father found out. So Father wants to tear down this "individual" wall that surrounds everything. It's a difficult situation. Only

God (and archangel) knew the foundation stage clearly - then Father discovered it. It's been a historical secret - do you understand - this proclamation.

The CIA and KGB all hate me - they're always listening to "rumors" of Rev. Moon. Father sponsored the Media Conferences - now Gorbachev wants to have a Media Conference (Father) in the USSR. (Father smiles) True? (Great) What? (Great!) Father has been speaking a long, long time, forgetting all about lunch. Do you want to go and eat or stay? (Stay!)

Think about it, in the future the world ideology will be ours. Take the fallen world at the time of Adam and Eve and the archangel, it is compared to today. America cannot solve the problem of the breakdown of families and (immoral) love in today's situation. But our Church can do it - change the blood lineage - our power is "unified power"! Someone did it - we have it! We have many "not the same color" (inter-racial) marriages, blessed couples. After the blessing they are separated for a while, but the "harvest time" is coming.

[Father discussed World War II and the nations that were on the Abel (God's) side and the Cain (Satan's) side: America, England and France = Abel. Germany, Japan and Italy = Cain.]

Father discovered the pattern, but Satan knew about this ahead of time. Rome was to take God's position - they did not know - God blessed the Pope for the sake of the world (not just the Roman Church). So you have to save the world from God's viewpoint. The Roman Church believed they were blessed, they were so "high" and they were saved." No - God wants to save the world! It's the persecution course that will save the world.

At last came the American forefathers and the pilgrims - they wanted "one nation under God." This was a Protestant country - the nation of the United States - we have to save it so we can save the world. America has an independent concept; to become a modern race. The United States is a big country; there are many resources everywhere.

So when Father came back to Korea from his US mission here he found the Catholic and Protestant churches were fighting; they were controlling everything. Whenever anything is divided between "Cain and Abel" it means that Satan is fighting. America couldn't do it (during the Korean War) make Korea an independent country. Then without Korea centering on Father, and without the Christians and through Ewha University Father lost everything.

For the last 2000 years the Christian culture (Christianity) has ruled. But after World War II - wasn't that strange? If the victorious nations after WW II had united with "one Adam" then God would have won. But instead everything was "lost." Then Father had to go to North Korea (June 6, 1946 = "666") otherwise Father cannot start the new providence. So he went into the "communist camp" - if there was one rumor about you they slit your throat.

Now in Korea when Father comes to the "Church" and opens the door, he sees the corridor filled with people to make "morning greeting."

So Father has finally made a successful foundation. Who lost everything after WW II - Korea and America. It was lost, but who restored it me. Why? Satan tried to accuse me: "How can you choose America? If a nation loses it's original foundation then how can it be used again in God's providence?" (DP) "If the father loses it then it's up to the child to find it." All those nations that in the war were on God's side: England, France and America - went against one person who was for God.

But "Abel" completely follows Father - that is Father's "family." Then came the "Blessing": 36, 72, ...430, etc. Like Jacob's family 12 children, the formation, growth and perfection stages centering on Father. All this became equal to "Jesus' resurrection" time. So God's side made the family foundation. It was not simple or easy. It means that the original ancestor lineage that was lost and again with the "Cain and Abel" situations in the Old Testament which were lost every time and they could not restore. They were restored in the "36, 72, etc. couples. The "Israelites came out in 8 stages" - then Father blessed 777 couples in 1970.

At Jesus' time he could not be a "tribal" Messiah. Jesus's tribe (Joseph and Mary) and John the Baptist's tribe (Zechariah and Elizabeth) should have "married Jesus" (found his bride). This was the tradition of the Jewish churches, to have tribes. But the "Roman Empire" took Jesus" flesh, so that meant much persecution - in Rome and Milan. So today the Roman Empire cannot accomplish the mission; unlike England (the sun does set on the Roman Empire) Their blessing (God's anointing of the Popes) was for the world, but they did not know that. They became a "thief" stealing everything.

South America (Latin) was developed by the Roman Catholic culture (Cain side) and North America became Protestant culture (Abel side). Now in Latin America there is a "third world" situation. Now where the Roman Catholic church has controlled the religion and the people it is going down.

Who will save this "archangel" nation? Only Father. Why? If America is lost then the entire "formation, growth, and perfection stages" in the spiritual world will be lost. I will take responsibility for this American culture. Some American members say, "Why is America the 'archangel' country...why?? - they complain, "Why is Japan the 'Eve' country...why?? But is it clear to you why? (Yes) I told Heavenly Father I will also take responsibility to save Korea. (Japan doesn't have a Christian culture background).

Look what Satan did during WW II, in Germany where they had the Jewish culture, 6 million Jews Satan wiped out. Look at during that time all the countries that were enemies: Korea/Japan, Japan/America, Germany/America. After WW II then Korea was lost for God, so now Father must save Korea.

Some Americans have said, "We don't need any Korean leaders, we don't need any Japanese (they caused Pearl Harbor) - many complaints. But these people did not come to America for themselves - they came for God and Father too, but Father was "cast out." Father has made a strong foundation in this nation. The US wanted to "kick him out" - they said

he was a "spy." But Father has made many organizations in the US - the mobile task force (MPT) - making a "big noise" - stirring everything up - like a fire. They were accusing Rev. Moon of swallowing up America's youth - brainwashing. What irony. [Father spoke about his 'victory' in high levels - the Media Conference - 'Perestroika,' etc.]

America sent Father to prison - when Father was in Danbury he sent out 300,000 tapes and books of our ideology. He bought big trucks and sent out mobile buses. Rev. Moon was making "more noise" so he was a "bad guy" - but many now said he was a "good guy." (clapping) American veterans took the CAUSA course and now have hope - before they said that there was no way that this nation of America can be saved.

So at this time Father is sending out "tribal messiah" leaders - especially UTS graduates. Father has been accused in the media of "bribery" in trying to win America for God. So do you understand the long history since WW II? (Yes) The media has accused Father, "You say you are the most famous American patriot, but you are Korean!" But I say "No - I have a green card!" (clapping) How many world messiahs are there? (One) How many tribal messiahs? (Many) In the past Father has said we will reach "perfection" - is it happening? (Yes!)

"True love" is a concept that is completely outside the law of the immorality of this nation. The true love concept is very pure you know it - standing on that foundation can you do it? The immorality in this world is horrible - God doesn't make it that way - only Satan does that. There is "free sex" love, dirty disco dancing, women with so much make-up are like "witches."

[Peter Kim asks: "Does Father speak good English"? Everyone claps - yes - very good! Father smiles.] How much inconvenience it is to have so many languages. In the future there should be one language - there should be only one religious book, in one language, not many. If you are in the Unification Church you must "go over" the language barrier. What language should there be? (True Parents' language) Of course - the language of the original root of true love from the restored "Adam and Eve" - the original ancestors. You have to learn to speak the "original" language. This will be the ideal world, centering on one culture, one language. Western people cannot understand this - but "catching it" means to learn a new language fast.

So after WW II Father made all the restoration. Christian and Western countries don't understand that the "communist world" is "Satan." But they will finally be restored, last. Stalin was Satan's "Second Advent" figure; he died in 1953. It was then Father started a new providence. In 1988 we will have the "second generation" who will be champions for the world. God is working - who is making the universal restoration? It is the "changing lineage" - changing the trunk and engrafting into True Parents' root - cutting away Satan's branches. Where do you belong? (True Parents' lineage) Where? (root lineage)

As "tribal messiahs" in this country you should be welcomed. (centering on Rev. Moon) With the 20,000 blessed couples the Old Testament messiahship was completed. Do you need tribal messiahs? (Yes!)

Tribal messiahs means "True Parents' concept" making you "Adam" students. Do you want to become tribal messiahs? (Yes!) Why? So you can inherit everything - love power - participating in everything! How valuable we are - with "fast way action"! Making the fast way has power! (clapping).

[Pres. Kim motions for everyone to stand up for "monseis." After a late "lunch" Father, guests, students and staff all go down to the pond where members sing and Father tries some fishing].
