1 The grace of the 'HyoJeong Wish Fulfillment Paper for the Inheritance of Heavenly Fortune' and the 'Prayer-Wish Offering Ceremony for Restoration'

2017.5.73 '2017

True Parents granted the grace of Fulfillment of Wish Papers as well as separation of spirits and blessing of ancestors for the providence of spiritual and physical salvation.

True Parents visited Chung Pyung on July 28, 2004, and said "Our worldwide members should write Fulfillment of Wish Papers and hold Purification Festivals. Let them write the wishes of family members on Fulfillment of Wish Papers and set the spirit world in order." Thanks to this providence of the Fulfillment of Wish Papers introduced by True Parents, many family members could receive great blessings, and they continue to offer moving testimonies about their experiences. On April 9, 2005, True Parents bestowed the new title "Ceremony of Ascension and Harmony" instead of the previous "Purification Festival."

The Chung Pyung Providence has been continuously developing through True Parents' sincere devotion

and victory. After going through the 1st level, the formation stage (1971-1995), and the 2nd level, the growth stage (1995-2014), the Chung Pyung Providence now has entered the completion stage; the era in which True Parents directly preside over the spirit world and physical world. Following this change in the providence,

True Parents changed the Prayer-Wish Purification Ceremony for Restoration to the Prayer-Wish Offering Ceremony for Restoration.

2017.5.7. '2017

The Prayer-Wish Purification Ceremony for Restoration was a ceremony wherein the Wish Papers were placed in a chamber and burnt. This ceremony was conducted during the growth stage of the Chung Pyung Providence, from Jan. 19, 1995 to Oct. 27, 2014. However, on the victorious foundation of the 3rd Anniversary of True Father's Universal Seonghwa, and in alignment with the age of the Chung Pyung Providence in which True Parents directly preside over the spirit world and physical world, we received great blessing in which our wishes were conveyed to Heaven through the Prayer-Wish Offering Ceremony for Restoration.

May 7, 2017, During the 2017 Prayer-Wish Offering Ceremony for Restoration, the International President Sun Jin Moon and her husband offered to Heaven the HyoJeong Wish Fulfillment Paper for the Inheritance of Heavenly Fortune which was melt with the water of life.

True Parents said, even though this external ceremony has changed, the practical value of the Prayer-Wish Offering Ceremony for Restoration is linked to the previous Holy Burning Ceremony, and still carries the same grace. The Prayer-Wish Offering Ceremony for Restoration continues every year in May, together with the Azalea Festival for the Inheritance of Heavenly Fortune, HyoJeong Chung Pyung Great Works.

In welcoming the completion period of the Chung Pyung Providence on April 3, 2017, True Parents changed the name of the Wish Papers from, "Fulfillment of Wish Papers" to "HyoJeong Wish Fulfillment Paper for the Inheritance of Heavenly Fortune."

True Parents allowed us to use a new type of Wish Paper especially produced with water soluble paper. It will be used for the first time at the 2017 HyoJeong Azalea Festival (May 5-7).

Until now, the Wish Papers have produced miraculous testimonies from church members. We would like to share some of their recent testimonies.

2 Testimony: My son was saved

My second son had had several girlfriends. Of course, I did not agree with this. So, I offered a Wish Paper for him so he won't do such things. Right after offering the paper, my son came to me and told me his story. He confessed that he had dated several girlfriends and had felt as if he was possessed by something. Nowadays, he is back to normal and doesn't do such things. I'm so grateful to True Parents for helping our family to solve a problem through the Wish Papers. [An anonymous International member]

3 Testimony: My son's bullying stopped

I had been so worried because even after starting a family, I had been unable to get pregnant. However, I had my first son after coming to Chung Pyung. My son has participated in Chung Pyung Workshops during his summer vacation every year since his childhood. My son entered the first grade of elementary school early, and also entered middle school when he was 10 by skipping a grade. However, when he was in the 3rd grade of middle school, he began to be bullied by his school mates. When the bullying reached its peak, I came to Chung Pyung and offered 21 sheets of Wish Paper. Then, from the day after offering the Wish Papers, the bullies never touched my son again. At the end of the school year, 2 of the bullies that had caused my son the most pain were expelled from school and the other bullies were held back a grade.

However, my son seemed to still be deeply hurt and could not study hard. Although he couldn't get high scores in high school, he decided to try to enter the highest level university and applied to the school. Before a written examination, I came to Chung Pyung and wrote many Wish Papers and prayed during my son's examination time. After the written examination, my husband, my son and I took part in the Purification Azalea Festival and offered a prayer with hope that my son will pass the exam and wrote many Wish Papers.

After that, my son passed the oral examination, which was the last exam. He was able to enter the university which we hadn't even imagined he would be accepted to considering his high school grades. It was miracle. I'm convinced that it happened because of the grace of the Wish Papers. My son has set many conditions to have ownership over his academics and life of faith. It was thanks to Chung Pyung that my son could grow well. I realized that my son is a child who Chung Pyung has raised up. [Ms. N.N. (1275-couple), France]

4 Testimony: The Grace of Disappearing Tumors in My Breast after Offering Wish Papers

The tumor was found in my breast when I took an x-ray. My surgeon said that we have to decide whether to have an operation or not. After participating in the Chung Pyung Great Works, I was examined again. At that time the entire tumor had disappeared. My surgeon was surprised. He said "It is all gone." This happened after I offered Wish Papers and prayed sincerely in Jeongshim Won during the Chung Pyung Great Works. [Ms. M.N., Kumamoto District, Japan]
