1 Pre-cremation Report

A pre-cremation report is a report turned in to Chung Pyung when someone passes away and they cannot be liberated before the cremation. This report is not needed if there will not be a cremation, if the liberation can take place before the cremation or if the cremation is already over.

The pre-cremation report will temporarily take the person who passed away to the waiting room, so they do not feel the pain of their bodies burning during the cremation. They can only start the 100 day workshop to become absolute spirits when the liberation is officially applied for.

This special grace is for blessed families who have done ancestor liberation and also for their close family members. To turn in a report, please [download](#) the form, fill it out, and send it back to us by email (cpintl2013@gmail.com). Please make sure you fill in all the necessary details.

After submitting a pre-cremation report, please make arrangements for the liberation to take place as soon as possible. If it was your parent or grandparent (someone included in 1-7 generations of your ancestors) who passed away, please send \$25 registration fee + donation of gratitude. If it was your close relative please apply as a collateral liberation.
