Absolute Good Spirits Posted to Blessed Families After the 100-Day Prayer Condition at the Holy Ground

Dae Mo Nim's words on July 14

Cheongpyeong providence will reach the 13th anniversary on January 19 next year. Now is completely different from the time when Cheongpyeong providence started. I think that it is a good time now. From April 9, absolute good spirits have been offering sincere devotion of the 100-day prayer at the holy ground. I counted the number of absolute good spirits early in the morning today, and they were 320 billion spirits.

The 100-day prayer condition at the holy ground by absolute good spirits will finish July 17. After that, four great saints will be posted to religious nations, and absolute good spirits will be posted to blessed families of their descendants. From now on, ancestors of absolute good spirits will live with blessed families to guide them. Absolute good spirits will protect blessed families from evil and Satan, and sort out evil spirits. They will do many things in the family. When you attend workshops in Cheongpyeong, they will come together with you, and separate evil spirits from you at the holy song session.

Development of the absolute good spirit world

The more absolute good spirits increase, the bigger God's ideal world becomes. Until now, evil has gradually developed centering on Satan, but from now, the absolute good spirit world will develop centering on God, True Parents, and

absolute good spirits. Therefore, environment in which we can live with joy will be expanded more than ever. It means that it is the time when blessed families can live more happily. It is the time when we can live happily with God, True Parents, and absolute good spirits.

However, the number of evil spirits and Satan is still bigger than that of absolute good spirits, so we cannot feel the development of the absolute good spirit world. In order to feel it, our lives should be changed.

In the world, there are Satan and evil spirits here and there. There is no suitable place for blessed families to live. There is no suitable restaurant for blessed families to eat. There is no park for blessed families to take rest and relax. Absolute good spirits will sort out evil spirits through living with you. As angels helped Adam and Eve before the fall, absolute good spirits will help you who were blessed by True Parents.

Blessed Family's Life with Absolute Good Spirits

How should we do in order to receive more help from absolute good spirits? We have to do absolute faith, absolute love, and absolute obedience. Also, you have to live following my instruction: "the way to heavenly kingdom." They are: "To make a true family," "No fight between husband and wife," "No alcohol drink,

no smoke, " "No fallen nature," "Don't be lecherous," "Don't use public money privately," "Go to church with faith," "Do not hurt the heart," "Unite into one." If you keep these, you can get big fortune. If you cannot keep these, you might be beaten by the rod of love.

From now on, I will check how you live with ancestors everyday. Your ancestors will report your life to me.

Only after we live happily on earth, we will be able to live happily in the spirit world. If you bind on earth, you can bind also in heaven. You need to receive cooperation of absolute good spirits in order to solve what was bound on earth. From now on, absolute good spirits will visit you showing great concern, and try to make you change even by using the rod of love.

If you have a difficult problem even though absolute good spirits come to your home, you have to think, "I have to take off evil spirits in my body," or "My life might be a live through which absolute good spirits cannot work." In order to receive their cooperation, you have to live a principled life.

I worry about your life, thinking, "How do you live with your ancestors in your home? Don't absolute good spirits of your ancestors shed tears when they see your life?". Absolute good spirits know the principle more correctly than you do. They know the history of God's providence of restoration and True Parents' achievement more than you do. They know the heavenly kingdom and hell in the spirit world more than you do. If you cannot live following the principle, your ancestors will cry. Therefore, I said to ancestors, "You can make your descendants receive heavenly fortune even by educating with the rod of love so that your descendants can realize the way."

Yesterday, I talked with True Father. True Father asked me, "The 100-day period of sincere devotion of absolute good spirits will finish on July 17, won't it? What time of July 17

will you have the starting ceremony for the second coming of absolute good spirits?". I answered, "It will be held at 0:00 am of July 17." Then, True Father said, "Now, the time has come when all the blessed families can live happily. Secular people can also live with us. It is the time when we can get results if we do witnessing."

Work of True Children in the Spirit World

Why do you think I started the 2-day Cheongpyeong workshop on Friday and Saturday? Because I did that so that beloved sons and daughters, and husband and wife can attend the workshop together.

Also, I did that so that the whole church members can attend the workshop once a month centering on the church leader. Until now, church leaders could not attend the 2-day workshop because they needed to stay at their churches on Sunday. However, from now, there will be the 2-day workshop on Friday and Saturday in the 2nd and 4th weeks of each month, so they can receive heavenly fortune by attending with church members. I did this because we have to change ourselves from now.

From now on, a holy song session will start in which your ancestors come to sort out evil spirits from you. Today is the 1st 2-day workshop on Friday and Saturday. Everyone, today, True Children in the spirit world, who are together with absolute good spirits, will come to you to sort out evil spirits. It will be a precious time of big grace. Heung Jin Nim, Hee Jin Nim, Young Jin Nim, and Hae Jin Nim came. They came here to teach absolute good spirits how to work in your families after they would be posted. You are pious members, so please understand this and make an effort even after going back to your house.

Everyone, be healthy all the time. Continuously have the heart to try to liberate

True Parents' *Han* (sorrowful regret). Have an attitude to try to fulfill the way of filial sons and daughters, and divine sons and daughters in front of True Parents. Then, please become

precious members who can receive love continuously. Thank you. (Translation from the official website of Cheongpyeong Heaven and Earth Training Center)
