

God's Ideal Family and the Kingdom of the Peaceful, Ideal World II

Dr. Chung Sik Yong, April 27, 2023

Key Points

- Communism and democracy are like children who have lost their parents. They are like Cain and Abel respectively trapped in fraternal conflict.
- Throughout history, peace movements and institutions such as the United Nations inevitably reached their limit and ended in failure because they were carried out by imperfect human beings.
- The ideology and truth that can bring about world peace must come from Heaven through the True Parents.
- In this final age we have to realize the unity of science, unity of religions, and unity between mind and body, husband and wife, and brothers and sisters.
- This is why True Parents have continually held science conferences and inter-religious conferences.
- Women who go to their husband's home, go to recreate that family through true love as a representative of True Parents.
- No matter how much our husband drives us to work hard like a servant of the home and ignores us, we ourselves must ceaselessly offer jeongseong and serve him.
- When a woman goes to her husband's home, she must completely make herself dissolve like salt in water.
- She goes as an ambassador of love to transform that family into a family of Heaven.
- When she bears God's han, sorrow, and suffering, serves her parents-in-law, and brings her husband to natural submission, she changes the lineage and gives birth to the direct lineage of God.
- The cross-cultural, international Blessing is more than simply people of different races and nationalities receiving the Blessing. It is the transformation of Satan's blood lineage in a couple to that of God.
- If our blood lineage has not been transformed after receiving the Blessing, then our children's blood lineage will not have changed either. That is why many of them have left the church and have even opposed it.
- Because our Unification Church talks about changing the blood lineage, other churches say that we mix blood through fornication and persecute True Parents and us. They do not understand the change of blood lineage.
- Christians do not know why Mary had a baby on her own and why there are so many fornication issues in Jesus' lineage.
- Many of our members still do not properly understand the blood lineage problem.

Today I'd like to talk about "God's Ideal Family and the Kingdom of the Peaceful, Ideal World II" from True Mother's Anthology, Volume 2.

<This speech was given by Dr. Hak Ja Han Moon between September 1 and October 14 during a 40-nation Victory and Complete Freedom Rally to Bring Universal Peace to the Fatherland and Hometown speaking tour. 115,116>

Ladies and gentlemen, throughout history, people have continually worked for peace based upon human effort alone. Consider the confrontation between democracy and communism. Outwardly, the difference

between the two was the extent to which they recognized and insured individual rights and freedoms. Yet providentially speaking, Communism and democracy were like children who had lost their parents. The two stood in the positions of Cain and Abel respectively and became trapped in the fetters of fraternal conflict.

Throughout history, peace movements inevitably reached their limit and ended in failure because they were carried out by imperfect human beings. This is why the United Nations, although launched with the splendid dream of realizing world peace, today has to admit its innate limitations and confess that it can not give true hope to humanity. This is simply because the UN was launched during the era prior to the time when God could directly govern the unfolding of His providence in history.

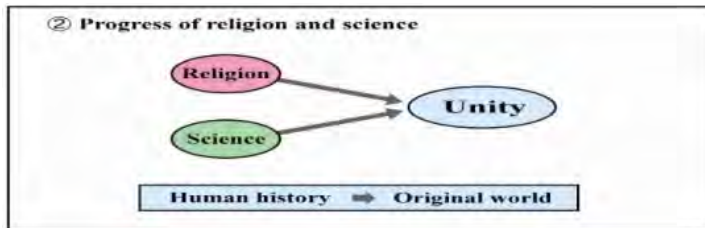

The confrontation between democracy and communism, the representative peace movements based on human efforts, only differed in the extent to which they recognized and insured individual rights and freedoms. Providentially speaking, Communism and democracy were like children who had lost their parents. The two stood in the positions of Cain and Abel respectively and became trapped in the fetters of fraternal conflict!

Throughout history, peace movements inevitably reached their limit and ended in failure because they were carried out by imperfect human beings. The fact that world peace can never be brought about with any doctrine or ideology derived from fallen human beings can also be seen from the evidence that humankind has taken countless challenges, but all of them have failed.

This is because humankind cannot establish fundamental countermeasures regarding the problems of world peace since fallen people were born with contradictions. It is for this reason that the United Nations, which was established with a splendid dream of realizing world peace, is no longer able to give hope to humankind today as it encounters its innate limit.

Therefore, the ideology and truth that can bring about world peace must come from Heaven. The ones to bring that ideology and truth are the Messiahs, the True Parents.

LIVING DIVINE PRINCIPLE: Eschatology 5
- Human History is the History of the Providence of
Restoration 2 - The Progress of Religion and
Science

• *Second, considering the progress of religion and science, although they have been working independently with little connection to each other, religion and science inevitably must converge. Today they are on the threshold of reaching this destination, where they will resolve all their problems together in one united undertaking.*

• *This trend shows that human history has been walking the providential course to restore the original world.*

Based on this let's study Father's word.

Realizing the Unification of all Thought

<3-106> Since God gave human beings responsibility to realize the unification of all thought, humanity has developed natural science into a unified form, and has integrated the world of the human mind step by step through religion.

Even though religion and science were separated in the late 16th century, now they are once again reaching the stage of integration in order to fulfill the one purpose. In the process, science reached a unified form first; this is derived from the Principle of Creation. Adam was created by forming his body first and giving life to his body afterward.

Integrating Phenomena at the End of Human History

<3-106> Today's scientific civilization has been realizing the unification of external thought by expanding its scope up to the global level. Now is the time to establish a religion which clarifies the internal nature of human beings which humanity will be able to harmonize with. As you can see, religion and science are still in confrontation with each other today. However, that is not according to the Principle. Eventually, since the creation of Adam's body was followed by the creation of Adam's mind, phenomena at the end of human history must be integrated in this order as well.

God has let human beings study nature and develop natural science into a unified form and has integrated the

world of the human mind step by step through religion.

Even though religion and science were separated in the late 16th century, now they are once again reaching the stage of integration in order to fulfill the one purpose.

In the process, science reached a unified form first; this is derived from the Principle of Creation. Adam was created by forming his body first and giving life to his body afterward.

God's creation was created from external to internal and then to even more internal. First, He created the external environment, all things of the universe; then internally, He created human beings' physical bodies, and on an even more internal level, He created the human spirit.

Therefore, the principle of the providence of restoration must also be recreated according to this same principle. That is why the external environment will reach a unified form first, and next, the providence is meant to progress with religion taking a unified form as the internal.

That is why today, the age of unified science has arrived, and on the religious side, the age of one big family under God that transcends race, religion, and ideology, has also arrived.

The history of humankind is the history of the providence of restoration. Externally, we must unite science, and internally, through religion, we must create one family. In this sense, True Parents have continually held science conferences and inter-religious conferences.

The final age has come when we must realize unity in all aspects. That is why now is the age of Heaven on Earth when we have to realize the unity of science, unity of religions, unity between mind and body, unity between husband and wife, and unity between brothers and sisters.

The Principle is very clear, right?

TODAY'S YOUTH MINISTRY: The Mission of Women who have Received the Blessing and go to Their Husband's Home

I think this content connects to yesterday's content.

1. Why did you receive the Blessing and go to your husband's home? It was to recreate that family through true love. There is no other reason besides this one. No matter how much your husband drives you to work hard like a servant of the home and ignores you, you yourself must ceaselessly offer jeongseong and serve him with God and True Parents' absolute standards. Women who go to their husband's home must be like salt and preserve their parents-in-law and husband. Only then can the family be made into a family of Heaven without

decaying. Therefore, the reason you went to your husband's home was because you carried God's mission and calling. You went as an ambassador of love to make that family into a family of Heaven. Never forget that women who received the Blessing and went to their husband's home were all sent as ambassadors of love. You must clearly know this and start your family.

Wow! Very interesting terminology, right? She is the ambassador of love.

Why did we receive the Blessing and go to our husband's home? Women who go to their husband's home went to be like salt and preserve their parents-in-law and husband. In other words, they go to recreate that family through true love as a representative of True Parents. There is no other reason besides this one.

So, no matter how much our husband drives us to work hard like a servant of the home and ignores us, we ourselves must ceaselessly offer jeongseong and serve him with God and True Parents' absolute standards.

When salt dissolves in water, the salt grains themselves break down and completely disappear. When a woman goes to her husband's home, she must completely make herself dissolve. That means she must completely dissolve her concept of "me." No more "me." There cannot be the concept of oneself. She should dissolve and enter the entire cells of others and preserve them without even speaking.

Only then can the family be made into a family of Heaven without decaying. Therefore, the reason we went to our husband's home was because we carried God's mission and calling.

We went as an ambassador of love to make that family into a family of Heaven. Never forget that women who received the Blessing and went to their husband's home were all sent as ambassadors of love.

We must clearly know this and start our family. How many people receive the Blessing and go to their husband's home and play the role of an ambassador of love?

I love the word "Ambassador of love." What is the position of the woman and mother? She is an ambassador of love.

Why Women Go to Their Husband's Home

2. Why do women go to their husband's home? They go to multiply God's lineage. If I go to my husband's home, bearing God's han, sorrow, and suffering and serve my parents-in-law and bring my husband to natural submission, I can give birth to the direct lineage of God. Never forget the truth that the reason you went

to your husband's home was for you to first change the blood lineage through serving your parents-in-law and then multiplying God's true lineage in your husband's family. This is the mission and responsibility of women who received the Blessing and went to their husband's home. You went to your husband's home to give birth to God's good lineage. How is the blood lineage changed? Great transition happens through the blood. You all went to change the blood of your in-laws' home. So, you are all families of transformation. You were transformed from Satan's blood lineage to God's blood lineage.

This is an incredible mission and responsibility as a mother.

What is the ultimate purpose in women going to their husband's home? They go to multiply God's lineage representing True Parents. The way for women to enter their husband's home, bearing God's han, sorrow, and suffering, and serve their parents-in-law and bring their husband to natural submission, is the way to change the lineage.

When the change of lineage happens in that way, women can give birth to the direct lineage of God. Never forget the truth that the reason we went to our husband's home was for us to first change the blood lineage through serving our parents-in-law and then multiplying God's true lineage in our husband's family.

This is the mission and responsibility of women who received the Blessing and went to their husband's home. We went to our husband's home to give birth to God's good lineage. This is the purpose of women going to the husband's home. How is the blood lineage changed? It is changed through the blood.

We all went to change the blood of our in-laws' home. So, we are all families of transformation. We were transformed from Satan's blood lineage to God's blood lineage.

Actually, I realized that I also had no idea that women's mission was this great.

Before starting the family if I had known ... This is really incredible!

After learning the Principle and the words of True Parents, we never knew that a woman's mission was so great.

The Meaning of the Cross-Cultural, International Marriage Blessing

3. Something many people misunderstand is that the cross-cultural, international blessed families are just people of different races and nationalities receiving the Blessing. Cross-cultural and interchange means crossing and interchanging from Satan's blood lineage to God's

blood lineage. Cross-cultural, international blessed families are the transformation to the true blood lineage that God desires. Since our Unification Church talks about changing the blood lineage, other churches say that we mix blood through fornication. Did you know that that's why they criticize the Unification Church as a church that ruins families by exchanging wives with each other and having sexual relationships? In the early days, there were many rumors like that. Why were True Parents persecuted? Everyone was persecuted because of this problem of lineage. This is because in the Last Days, we must transform Satan's blood lineage to God's blood lineage.

Many people do not know the meaning of the cross-cultural international marriage blessing. Many people just understand it externally. They just think that the cross-cultural, international blessed families are just people of different races and nationalities receiving the Blessing.

The cross-cultural Blessing means crossing and interchanging from Satan's blood lineage to God's blood lineage.

In the beginning I did not know (this). Later on I came to know (it).

We need to know the internal meaning. Cross-cultural, international blessed families are the transformation from Satan's blood lineage to the true blood lineage that God desires.

In that sense, after receiving the Blessing, has our lineage crossed and interchanged from Satan's lineage to God's lineage? If our blood lineage has not crossed and interchanged even after receiving the Blessing, our children's blood lineage will not change.

These days, among 2nd and 3rd generation who were born after their parents received the Blessing, even though they externally inherited the good lineage through their parents, many children live opposing the church or don't even come to church and ignore their parents' words. The problem is that our 1st generation parents really need to reflect on themselves. The clear thing is the fact that our children's lineage also changes to the extent that the parents' lineages are crossed and interchanged.

Since our Unification Church talks about changing the blood lineage, other churches look at us and say that we mix blood through fornication. Why did True Parents receive so much persecution?

Christians don't understand the change of blood lineage. Mary had a baby on her own. There are many issues. Why in Jesus' blood lineage are there many

fornication issues? Many issues are only known between God and the messiah. How can we (understand) that?

That is why we need to believe the messiah's mission. Once we believe that True Parents are the messiah, (we can realize that) the entire process by which they changed the blood lineage is only known by God and the messiah; we can not judge it on our own.

Throughout the entire Principle we cannot deny that Father Moon and Mother Moon are the messiah. Then we need to believe whatever Father and Mother have done. No one knows the details of the unspeakable, painful course of restoration through indemnity between Heavenly God and True Father, Heavenly God and True Mother, and between True Father and True Mother. No one knows except True Parents.

Everyone was persecuted because of this problem of lineage. Many of our members still do not properly understand this lineage problem even today. Then why do such things happen? In the Last Days, we must transform Satan's blood lineage to God's blood lineage.

Today I talked about "The Mission of Women Who Received the Blessing and Go to Their Husband's Home."

(Testimony Natascha Phillips, Family Ministry Coordinator for SR2, Seminar on Teaching our Children the Value of God's Lineage)◆

(Response to sharing) We need to really guide our second and third generation about the importance of the blood lineage. Actually the course of restoration is the changing of the blood lineage. This is everything. If we do not understand the change of blood lineage, we do not know anything about the Divine Principle and the value of True Parents.

As a second generation you have studied in a deeper way and you know how to explain it to our second and third generation. This is really important.

It is more effective for the second generation to learn from the second generation. They know how to approach this. If the second generation can guide other second and third generation about the importance of the blood lineage, it becomes more powerful actually.

(Response to second sharing) If you make your wife happy, then everything will go well. That is the mission of the archangel. Whatever your wife orders, obey her 100%. Just loving her and serving her for her to fulfill her portion of responsibility is the man's role very simply.◆
