Proclamation of Cheon Il Guk Foundation Day and the Establishment of Cheon Il Guk

“

Our revered Heavenly Parent, the True Parents of Heaven, Earth and Humankind, the king of peace and king of kings, Your royal benevolence is without limit. I hereby declare to the Heavenly Parent that I have designated this nation to be called Cheon Il Guk, and offer to Heaven the rose and lily as the national flowers, the crane as the national bird, together with the Cheon Il Guk flag and the Cheon Il Guk national anthem. Today, on this, the thirteenth day of the first month of 2013, I proclaim the founding year of Cheon Il Guk.
[2013.02.22 .]

After the proclamation of Foundation Day, Heavenly Parent's dream—the ideal world of creation, Cheon Il Guk—was launched after 6,000 years. This also initiated the providential effort to substantiate the sovereignty, citizens, and territory of Cheon Il Guk, centered on Heavenly Parent.

“

We must unite our strengths to create a world of true love, overflowing with freedom, peace, unity, and happiness—a world where everything moves in concert on its own. I urge all the distinguished guests here today to become pillars of strength, working together to build the future of your nations and to lead the way in creating a unified world.
[2013.02.23 .]

The "World Summit" is held annually through the Universal Peace Federation (UPF). Leaders and experts from various fields around the world gather to discuss issues and explore solutions for a sustainable and peaceful future for humanity.

First Entrance Ceremony of the Universal Peace Academy (UPA)

From this moment on, I shall begin the process of creating an environment. Dr. Sun Myung Moon would often say this: There is no perfection in ignorance. He educated people regardless of their position and in all fields and in all respects. He helped them understand. This is the only way to bring unity from the individual to the family, tribe, nation, and world. That is why, I want to begin by focusing on education. I will focus on raising the future leaders and on educating leaders in all levels of society. This is the way to world peace. This is the action we take to create one world under God.

[2013.02.23 .]

The first step in creating the environment to substantiate the sovereignty, people, and territory of Cheon Il Guk is to focus on the education of future leaders.

Our Heavenly Parent and the True Parents of Heaven, Earth, and Humankind have completed the six-thousand-year providence of restoration through indemnity, ushering in a new era and history of Cheon Il Guk. This is the hope of our Heavenly Parent and the True Parents of Heaven, Earth, and Humankind. You all bear the responsibility to quickly spread the news that the True Parents have come and have opened Cheon Il Guk, not only to this country but to all people of the world.

I hope you grow up healthy and strong until the very end.

VISION 2020 Top Gun Education

“

The Father was particularly wary of the impulsiveness of youth in his mission for God's Will. Thus, he set the goal of mastering self-control before aspiring to have dominion over the universe. He would often pray for more than ten hours, living in denial of his physical needs. The same principle applies to you. While I will not discipline you, you must come to this realization on your own.

Rallies for the 55th Anniversary of the Mission to Japan

“

What attitude should you and Japan have before the providence? If Korea, which is geographically close, becomes the father's country, Japan then becomes the mother's country. A family is harmonious when the father and mother are united... Korea and Japan are the countries that should help humanity attend Heaven under the grace of True Parents. Therefore, we must find the hometown that Heavenly Parent has long been for.

We must reveal the truth: Heaven and humanity on earth have longed for and hoped for True Parents. All nations should be able to stand in a position wherein they attend True Parents as brother and sister countries. Only by achieving a culture of heart, where nations love and live for each other's sake as siblings in front of True Parents, can world peace be possible. The place we will be heading to after living such a life is the eternal world, the kingdom of heaven.

True Parents will expand the Wonmo Pyeongae Foundation to be bigger and broader, developing it to a level where all of humanity around the world can benefit together. However, achieving this goal cannot be done alone. I will need all of you to participate, combine your efforts, and move forward together. We will cultivate future leaders who are essential in this country, in this society, and in neighboring countries. I hope you will join this endeavor by mobilizing all your capabilities and resources so that we can develop and contribute even more significantly.

[2014.02.09 .]

By using all of the donation given at True Father's Seonghwa ceremony and selling True Parents' helicopter as seed money, True Mother established the Wonmo Pyeongae Foundation to nurture future leaders and realize a culture of heart. Since then, the Wonmo Pyeongae Foundation has awarded scholarships annually. In 2016, the foundation's name was changed to the Hyojeong World Peace Foundation.

As True Parents, I proposed the construction of the World Peace Highway at the International Conference on the Unity of the Sciences in 1981. This highway would connect globally, starting from the Cape of Good Hope in the southernmost part of Africa, traversing the African continent, Eurasia, and reaching Korea. It would also extend from Santiago, Chile, in South America, through North and South America, the Bering Strait, and Asia, all the way to Korea. This is because Korea is the birthplace of the True Parents, whom humanity has long awaited. Centered on the Peace Highway proposed by the True Parents, the Korea-Japan Undersea Tunnel and the Peace Road between North and South Korea can be constructed, creating a highway that extends to Eurasia and the entire world.

There can be no perfection through ignorance. You must learn. If we cling to the past, we cannot bring a hopeful future. Ladies and gentlemen, what will you do? Will you create an Africa that is a light and a lamp in front of the world, as nations, and a continent that has received the Blessing and has been reborn through True Parents? In the Bible, there is a passage that says that the first shall be last, and the last first. Know that you who have received the Blessing are in such a position. I pray that you will become people who properly understand the truths of history and the providence, and put them into practice accordingly.

FFWPU has done many things around the world but it particularly emphasizes the importance of the family. All those of you living today, should not think of this time as yours alone to live in. We should be able to open a future world of hope for the young people. This cannot be accomplished through your pre-existing thoughts, human-centered ideologies, theories, and customs. We must have a movement that attends Heavenly Parent, the original owner. Therefore, I proclaim the era of the Heavenly Asia-Pacific Civilization that attends Heavenly Parent!

Throughout history, the ocean has symbolized women and mothers. Therefore, if we see the Pacific Ocean (太平洋) as representing the “Great Mother of Peace” (太平母), then the Pacific Rim Civilization stands at the final stage of providence, where it must restore the long-concealed stature of Heavenly Mother, the feminine aspect of God, centering on the Only Begotten Daughter, True Mother. This civilization is not one of taking and conquering but one of true love, rooted in the heart of giving and giving again—a civilization of the heart, a hyojeong civilization. It is a civilization that attends Heavenly Parent, the vertical True Parents of humankind, and realizes the ideal of one human family.

I aspire to create something that people worldwide will cherish for generations. I envision a memorial that will remain intact and impactful even after a thousand or two thousand years. This can be achieved through the tradition of Korean culture, specifically through the najeon chilgi (mother-of-pearl lacquer technique). By applying multiple layers of lacquer, we achieve a spectrum of vibrant colors and a long-lasting, permanent finish. This unique and enduring technique is rooted in Asian culture, originating from Korea. By creating such a building or artwork, we will attract artists and curious individuals, inspiring them to visit and admire it.

HOME | Introduction to Cheon Won Gung

A space where Heavenly Parent's dream, True Parents' wish, and humanity's desire are fulfilled.

“The reason I want to build the Cheon Won Gung as True Parent is because I need to show a place where the dreams of Heavenly Parent, the wishes of True Parents and humankind can be fulfilled. We need to show them, “This is what heaven on earth looks like.” “All creation is beautiful, and the buildings are beautiful, and most of all it is a place where one's mind can feel freedom and peace.”

[2019.05.03.]

Cheon Won Gung is a beautiful stone building with the meaning “the completion of heavenly providence and the completion of human history.” It is located at 324-260 Misari-ro, Seorak-myeon, Gapyeong-gun, Gyeonggi-do, at the foot of Cheonseong Mountain (Jangrak Mountain). From Cheon Won Gung, you can take in the stunning view of Cheonpyeong Lake and the HJ Cheonwon Complex at a glance. Cheon Won Gung, which harmoniously blends with the Cheon Jeong Gung located on Cheonseong Mountain, centers on the main building with five domes. It has an obelisk-shaped Cheon Seung Monument symbolizing the victory of Heavenly Parent and the Cheon Won Park, representing the original Garden of Eden. It was built on a total area of approximately 49,587 square meters, with a total floor area of 81,624 square meters. The main building stands 68 meters high and 108 meters wide, and the distance from the main building to the Cheon Seung Monument is 236 meters, making it a world-class structure. The Cheon Seung Monument consists of 4 underground floors and 2 above-ground floors. The plaza, which connects the Cheon Seung Monument to the main building, is located on the 2nd underground floor. The main building consists of 2 underground floors and 3 above-ground floors, while the outdoor space, Cheon Won Park, is on the 1st underground floor. The Cheon Won Gung was designed with a total of 4 underground floors and 3 above-ground floors. Cheon Won Gung was designed by the American 'PDI Design Group', which designed Cheon Jeong Gung and HJ Global Art Center, and was completed over a period of 3 years with a classic design concept. It features an architectural style that reinterprets Renaissance-era designs in a modern way. The exterior is decorated with granite and marble produced in Oman, and the interior is finished with marble in the Doric style of Greek architecture. True Parents hope that all of humanity will visit Cheon Won Gung to meet Heavenly Parents, learn about True Parents' life, and be reborn as true citizens of Cheon Il Guk. We hope that we can attend Heavenly Parents and True Parents, the parents of humanity, and inherit the tradition of Cheon Il Guk, and participate in creating a model of 'One Family of Humanity under Heavenly Parents.'

Main Building: The Completion of Heavenly Parent's Dream and Cheon Il Guk's central base

Cheon Won Gung is the original Garden of Eden of Creation and the model base of the 'one family of humanity' centered on the Heavenly Parent and the center of the Nation of Cosmic Peace and Unity (hereinafter referred to as Cheon Il Guk). This meaning is most profoundly expressed in its core structure, the main building. The main building is a building that contains important structures including the Cheon Il Sanctum, the original temple of Heavenly Parent; the Central Administration (Cheon Mu Won), the core institution of Cheon Il Guk; and the Life Exhibition Hall, which educates visitors about the life and achievements of True Parents. The main building, which is 68m high from the ground to the central dome and 108m wide, is largely divided into three parts from the top: the roof, the center, and the foundation. These symbolize Cheon (天)—Heavenly Parent, In (人)—True Parents (human in their original form), and Ji (地)—the universe (the physical world), respectively. Together it signifies the original ideal world of Creation, which is realized as it ascends from the earth towards heaven.

A design that reflects the beauty of classical elegance

The main building is a structure with an exterior decorated with granite and marble produced from Oman and an interior finished with marble based on the Doric style of Greek architecture. Designed by the American firm 'PDI Design Group,' which also designed Cheon Jeong Gung, Cheon Won Gung shares a similar architectural form with Cheon Jeong Gung. However, unlike Cheon Jeong Gung, which has one dome, curved shape, and modern semi-classic concept, the Cheon Won Gung was built with five domes, straight shape, and classical semi-classic concept. The main building front has four large columns, with three doors and a narrow, tall window between each column. The columns are built in the Tuscan order with a plain pattern, and have a solid exterior characteristic compared to other column styles.

The daffodil that heralds the spring of the providence before all else

All elements inside and outside the main building are decorated with flowers that True Parents cherish. In particular, the flower most commonly used in the decoration of Cheon Won Gung is daffodils. Daffodils are the first flowers True Parents encountered every spring when they lived in the United States for 40 years for the world providence. True Mother especially regarded them as the 'flowers that first announce the coming of the spring of the providence'. In addition, she decorated Cheon Jeong Gung and Cheon Won Gung with daffodils and emphasized that we should create a splendid flower garden with the spirit of daffodils blooming through frozen ground where the snow has not yet melted. In fact, if you visit Cheon Won Gung, you can find daffodils almost everywhere, including the center of the five domes inside the main building, as well as on the walls and doors of the building. Through these daffodil decorations, you can feel that we have entered a new spring of providence, a new era, and a new history in which we live with Heavenly Parent.

All floors bear with the love and traces of Heavenly Parent

The main building consists of five floors, from the second basement floor to the third floor above ground. In addition, the second basement floor of the main building is connected to the plaza between Cheon Seung Monument and the main building. This is a 19,835 square meters plaza arcade space, and through the transparent window in the central ceiling, you can see the sky that changes every moment. In the center of the first basement floor is a multipurpose hall with high-tech facilities that can accommodate up to 1,000 people, and in the center of the first floor above ground is the Cheonil Sanctum, the main temple of Cheon Il Guk, The 'Cheonil Sanctum,' named after the temple where the people of Cheon Il Guk gather to praise and worship Heavenly Parent, encompasses three floors. The Cheonil Sanctum uses the first to third floors of the main building as a single space to indicate its importance. In addition, the first basement floor and the first floor above ground are the Life Exhibition Halls of the True Parents, each surrounding the multipurpose hall and Cheonil Sanctum. The second floor above ground is the main space of the Central Administration (Cheon Mu Won), the central organization of Cheon Il Guk's administration. It will play a major role in realizing the ideals of Cheon Il Guk, with VIP reception rooms, conference halls, government meeting rooms, and various conference rooms. The third floor above ground is the guest house, and the balcony is installed facing Cheon Won Park. From the balcony, you can see the Cheon Seung Monument, Cheon Won Park, and the entire view of the HJ Cheon Won Complex at a glance. In this way, each floor of the main building expresses values such as culture, art, religion, politics, and peace through spatial composition.

Dome and Lobby: A journey to meet Heavenly Parent

The roof of the main building of Cheon Won Gung has a large central dome and four smaller domes surrounding the central dome. These symbolize the core values necessary to experience the heart of Heavenly Parent and Heavenly Parent.

The Dome that can be seen from the Lobby. The connection between Earth and Heaven.

The central dome is located at the center of the front of the main building rooftop, and the central lobby is located below it. If you look up from the lobby, you can see that there is no ceiling and the dome is open, which means that the sky and the ground are connected. This space that is connected is circular and can be seen divided into three floors from the lobby. This circular shape symbolizes the World of Wonhwa (圓和世界), and the three floors symbolize the three stages of growth: formation, growth, and completion. There are also four pillars that connect the three floors. These pillars symbolize that the ideal of creation that Heavenly Parents dreamed of in the beginning is settled on the ground as absolute, unique, unchanging, and eternal. If you climb a few steps from the central lobby, you can enter Cheonil

...ecture, unique, surprising, and elegant. If you climb down steps from the central lobby, you can enter the Cheonil Sanctum. There are holy water fountains on both sides of the stairs, so you can wash your hands and purify your body and mind before entering the Cheonil Sanctum. The floor of the lobby is decorated with azaleas and daffodils. Also, you can see the golden daffodil pattern in the center of the central dome that is visible from the lobby. In this way, the central dome and the lobby are a single space that symbolizes the ideal world of creation centered on Heavenly Parent. Through this place, you can feel that Heavenly Parent is living with humanity on earth.

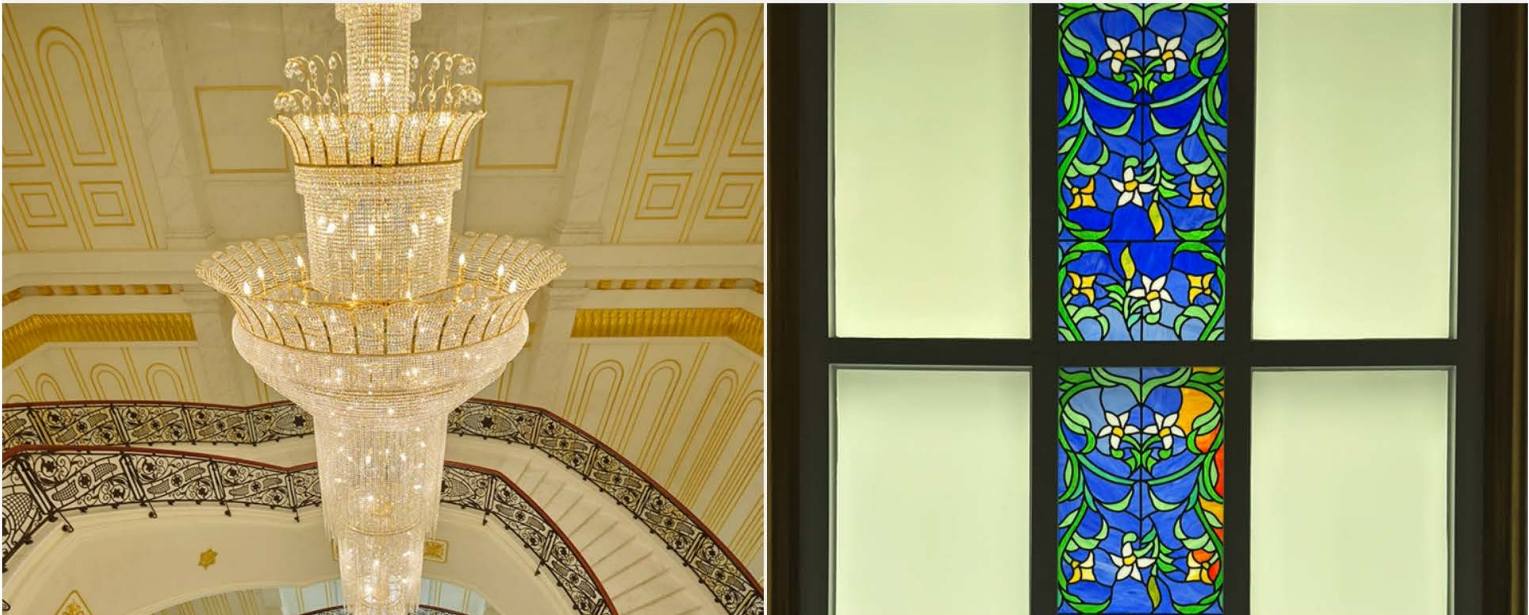

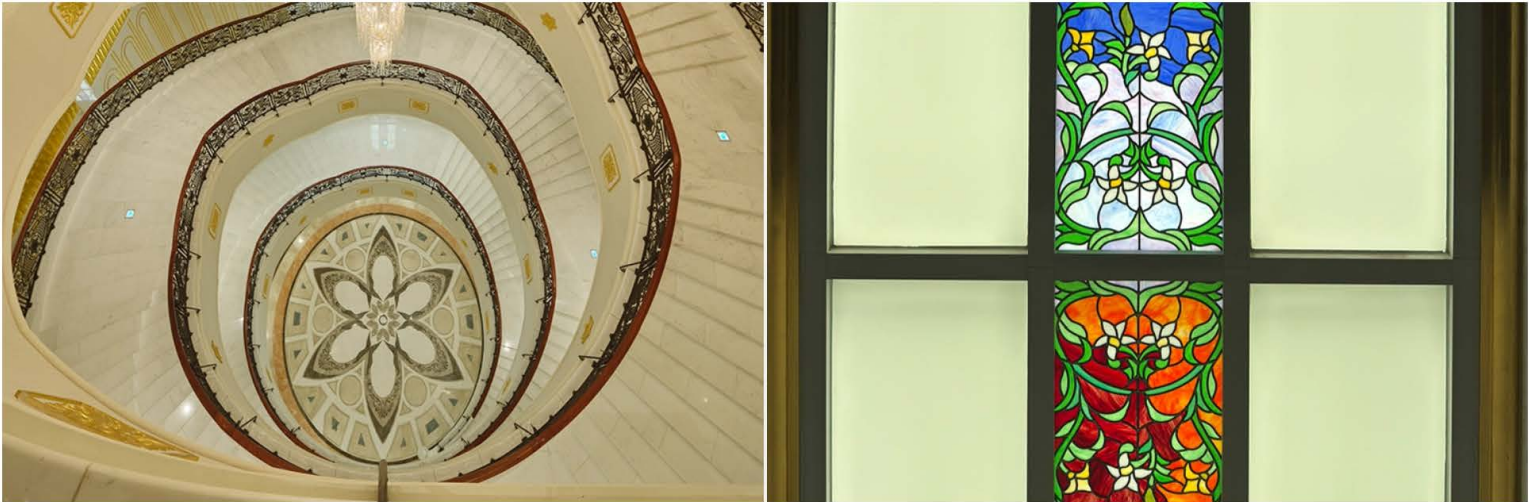

The four domes that represent the life values of the Cheon Il Guk citizens

The interior of the four small domes surrounding the central dome can be seen in the lounge on the third floor of the main building. The pattern inside the domes is the same as the central dome. The four domes each represent the core values that humans must achieve, centered on Heavenly Parent. The first represents parents, husband and wife, children, and siblings, and shows that we must realize heaven starting from our homes by experiencing the four great realms of the heart centered on Heavenly Parent. The second represents the values of life, such as oneness in heart, body, mindset and harmony. It means that when realizes the four values humanity and becomes one with Heavenly Parent, Heavenly Parent's ideal of creation will be established as a reality through humanity.

Steps towards the sky

Those who visit the main building can go up and down from the 2nd basement floor to the 2nd floor above ground through the marble circular staircase, the pinnacle of high-end classic architecture. The circular shape of the staircase symbolizes the generosity of True Parents who embrace all things, and the cylindrical handrail symbolizes the peaceful world that the ideal family will achieve, which also means a connection with Heavenly Parents. In addition, you can naturally feel the light through the narrow and long stained glass windows around the staircase as you climb the stairs. The path up to the 2nd floor above ground symbolizes the journey of life that humans take to reach Heavenly Parents. Walking this path, you can strengthen your determination and resolve to complete the earthly paradise that Heaven has desired as a child of Heavenly Parents.

The original sanctum of Heavenly Parent, the Cheonil Sanctum.

The Cheonil Sanctum (天一聖殿), located in the center of the main building of Cheon Won Gung, is a temple built to attend Heavenly Parent, the parent of humanity. It is a key place to realize universal love and tradition of humanity, transcending race, nation, and religion, and to expand this to the culture of all life. The Cheonil Sanctum uses the center of the first to third floors one space, and the height from floor to ceiling is a whopping 30m. It consists of the ceiling symbolizing Heavenly Parent, 14 Cheonil Seonghwa Artworks on the left and right walls containing the life achievements of Rev. Sun Myung Moon and Hak Ja Han, the true parents of humanity, and a splendid marble floor made by 'BUDRI,' a leading Italian marble company.

Standing at the center of the Cheonil Sanctum

If you look at the ceiling of Cheonil Sanctum, you can see the oval-shaped glass decorated with stained glass, and the colorful light spreading out in all directions. and you can see eight kinds of flowers carved on the floor. This symbolizes the

transcendent being, 'Heavenly Parents', as light, and the 'earth' where all things in the universe grow and prosper by receiving the pouring light. Thus, if you stand at the center where the glory of Heavenly Parents is projected onto the earth as a brilliant light, you will feel that humans, children of Heavenly Parents, are the central beings of the universe that connect heaven and earth.

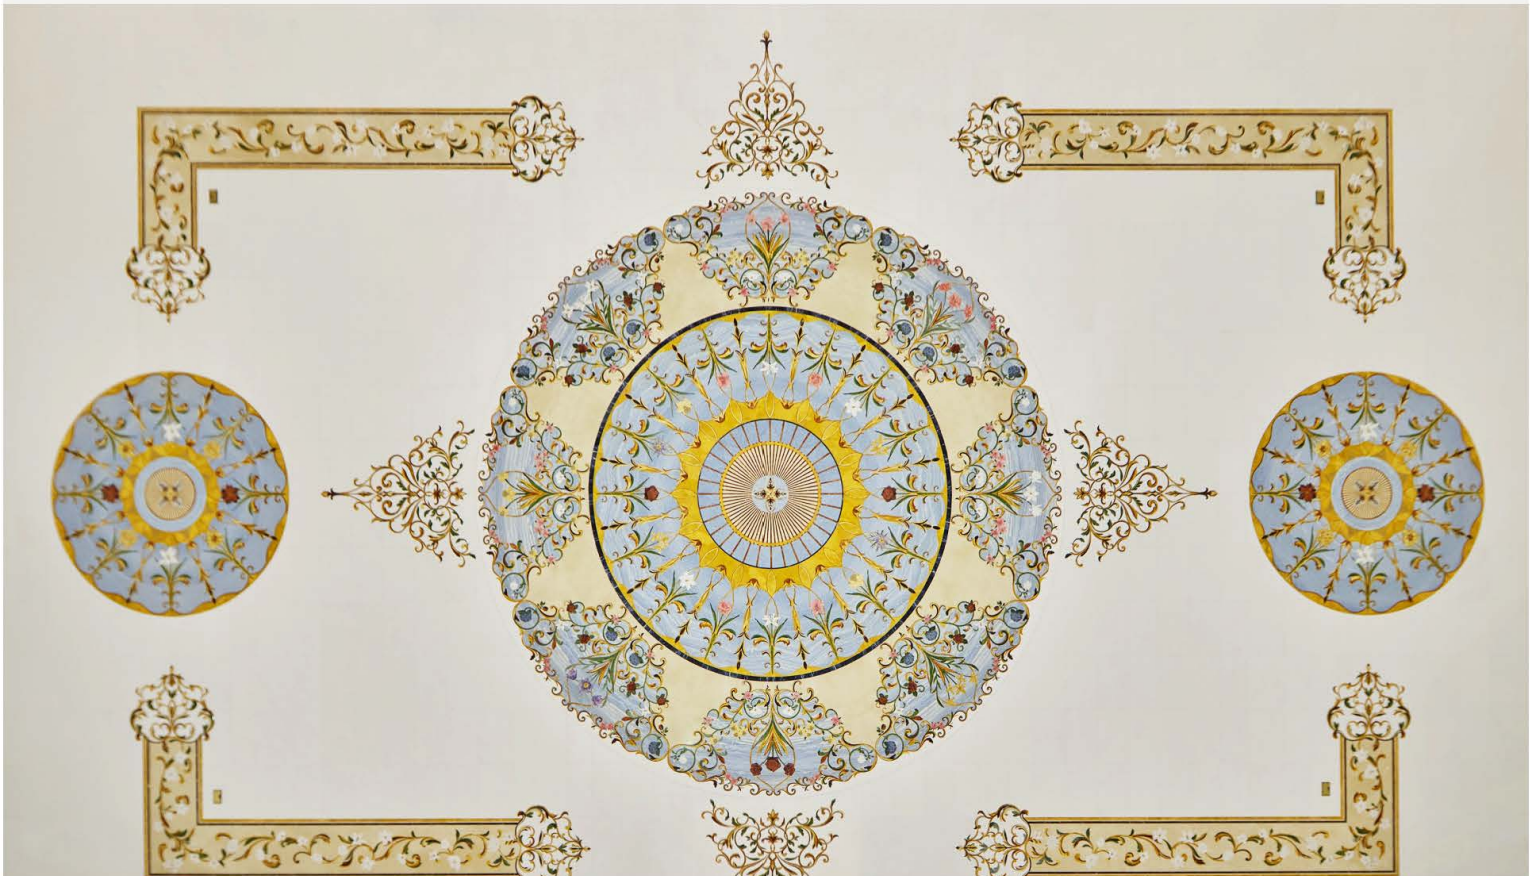

Humanity's eternal treasure, Cheonil Seonghwa, the model of life

The walls of the colonnade on both sides are decorated with 14 pieces of the world's best art work, the "Cheon Il Seong Hwa." The Cheon Il Seong Hwa contains the history of Heavenly Parent's providence of salvation and the life achievements of True Parents. This work was made over a period of six years and six months using mother-of-pearl and lacquer techniques. When you see that it was made using techniques that do not change over time, you can feel True Mother's deep heart that she hoped that this would be preserved forever so that all humanity could enjoy it.

A heart toward Heaven embroidered with flowers

Every space in Cheon Won Gung is decorated with flowers that True Parents love and consider important. Cheonil Sanctum is also decorated with various kinds of flowers from the floor to the walls and ceiling. In the center of the floor, starting from daffodils, clockwise, there are eight flowers in a circle: lilies, azaleas, roses of Sharon, magnolias, forsythia, roses, and pasqueflowers.

Cheon Il Guk, living together with Heavenly Parent

The Cheon Won Gung Cheonil Sanctum, located in the center of the HJ Cheonwon Complex, the model of Cheon Il Guk, is a space that symbolizes the realization of Heavenly Parent's dream and ideal on earth through the True Parents of Heaven, Earth, and Humankind. It is also a place where the citizens of Cheon Il Guk gather to praise and worship Heavenly Parent, the parent of humanity, and to meet Heavenly Parent and be embraced by Him, and where they can feel the hard work and achievements of True Parents to establish humanity, their children, before Heavenly Parent. In addition, the list of families who have received the blessing of Cheonbo Ipjeok is listed on the balcony of the Cheon Il Guk Colonnade, and each proud name that has realized the ideal of “One Family of Humanity under Heavenly Parent” is engraved on a stone tablet, making it the Hall of Fame of Cheon Il Guk. I hope that you can meet Heavenly Parent at this Cheon Il Guk and be grateful to True Parents for their victory.

The Lighthouse of Victory Achieved through Devotion, Cheon Sung Monument

Cheon Seung Monument is a building that commemorates the victory of Heavenly Parents' settlement through the True Parents of Heaven, Earth, and Humankind and the victory of True Parents' cosmic restoration providence. Cheon Seung Monument is largely divided into a monument commemorating Heaven's victory and a pedestal. The height from the pedestal to the peak is 50m, and the top of the tower is made with a structure that emits light. This has the same meaning as a candle of devotion being lit 24 hours a day, and it feels like a signpost that guides humanity to Cheon Il Guk, where Heavenly Parents and True Parents of Heaven, Earth, and Humankind reside, like a lighthouse.

A Monument Celebrating Heaven's Victory

The "Cheon Seung (天勝)" in Cheon Seung Monument is a combination of the characters "Cheon (天)" for heaven and "Seung (勝)" for victory, and represents the "victory of heaven." This signifies that Heavenly Parents have realized the ideal of creation through True Parents and have become the "True Parents" before humanity. and it symbolizes the cosmic

victory of True Parents' path for the complete salvation of humanity. Accordingly, it was designed with the meaning of the number 7, which signifies completion, divided into three sections of 7m each, representing the seven-year path of formation, growth, and completion, with a total of 21 numbers and a height of 21m.

A milestone of life pointing towards Heaven

In addition, Cheon Seung Monument has the meaning of a milestone and lighthouse for the hearts of Heavenly Parents and True Parents. This symbolism of the tower can be seen in the shape of the tower and the light coming from the top, which is reminiscent of a lighthouse, and is also well expressed through the murals carved on both sides of the lower part of the tower. The murals are carved in relief on both sides of the entrance to Cheon Seung Monument from Cheon Won Park Plaza. Both murals depict the sun in the direction of Cheon Seung Monument in between, with people and all things looking at the sun. Themural on the right is different in that it mainly depicts people praying with their hands clasped toward the sun, while the mural on the left is mainly depicting people playing instruments and praising while looking at the sun, but they share the element of depicting the shapes of people and all things facing Cheon Seung Monument. There are 12 pillars surrounding the tower on the level above the murals. Just as the height of the tower implies the meaning of the numbers 7 and 21, the pillars of the 12th number, the fundamental number of completion, surround the tower.

The cornerstone of victory built with Hyojeong

From the basement 4th floor of the tower to the 1st floor above ground, a 30m high building serves as the pedestal. This is the entrance that visitors use to go to the main building through the Cheon Seung Monument, and it has a symbolic meaning of connecting the True Parents of Heaven, Earth, and Humanity with humanity. If the tower commemorates the victory of heaven, then the area under the tower can be seen as representing the love and devotion of humanity that supports that victory. This devotion includes the devotion of both the spiritual world (religion) and the physical world (nation), signifying a new start in human history centered on the True Parents. This is explained as filial piety, which is a term that combines the character 'filial piety' meaning 'filial piety' and the character '情' meaning affection, and fundamentally refers to the core virtues that all humans must possess toward the Heavenly Parent, the parents of humanity. True Mother declared the term filial piety after devoting herself to Heavenly Parent for three years after True Father Sun Myung Moon's ascension in 2012. It contains the meaning of her pledge and toward True Father, as well as the hope that all families blessed will follow True Parents' path and fulfill the duty of filial piety, just as True Mother herself showed filial piety to Heavenly Parent as a representative of the position of children. In this way, Cheon Seung Monument is the first space leading to the main building, conveying that hope. I hope that all will visit here, fulfill the duty of filial piety to Heavenly Parent, form a heartfelt connection, and experience and praise Heavenly Parent and True Parents.

Cheon Won Park: The original creation of the Garden of Eden

Cheon Won Park is an area in front of the main building of Cheon Won Gung, and widely spread out on both sides of it. It reminds people of the original Garden of Eden, where they can experience the love and heart of Heavenly Parent. In particular, the square is impressive with a corrid or extending from the main building of Cheon Won Gung, and artworks containing the ideals and vision of Cheon Il Guk are placed throughout the park, making the entire space shine even brighter.

Heavenly Parent of love who embraces all of humanity

The structure of the plaza surrounded by corridors decorated with daffodil patterns resembles the image of Heavenly Parents warmly embracing humanity. When you walk along the corridors, you will feel the warm love of Heavenly Parents if you think of walking in the arms of Heavenly Parents. Also, if you stand in the center of the plaza and look at the main building, you can feel the grandeur of the building, and if you look at the Cheon Seung Monument, you can take in the tower towering toward the sky and the mural supporting it at a glance.

The meeting of art and nature that embodies the ideals of Cheon Il Guk

Cheon Won Park is a place that clearly shows that it is a space for culture and art, and it exhibits the works of the world's best contemporary artists. Currently, two works are on display, one of which is 'SKY MIRROR' by sculptor Anish Kapoor, a master of contemporary art. 'SKY MIRROR', which is placed obliquely on the ground and reflects the sky, is the largest in Asia at 665.4m and is made of stainless steel. As the title 'Sky Mirror' suggests, the sky is reflected in the work, and it looks as if the sky and the earth meet. Also, the closer you get to the work, the bigger Cheon Won Gung appears, which seems to indicate that Cheon Won Gung, where Heavenly Parent and True Parents reside in reality, is the place that can connect heaven and earth.

Another work is 'We' by Jaume Plensa, the world's most famous public artist. 'We' is a 53.43.6m stainless steel sculpture of two figures sitting with their knees wrapped around each other and facing each other. This work is expressed in stills. The figures are made up of various languages, and anyone can enter the work. Therefore, it was created so that people can directly experience it both inside and outside the work. Since it is a work that utilizes the languages of each country, it seems to symbolize harmony and unity around the world, and conversations or relationships between people. Also, when you see two people sitting across from each other and in harmony with nature, it reminds you of the unity of various denominations and people from various countries on Earth.
