Let's Become One with True Mother: Becoming Pure White, Pure, and Pure Gold

Heavenly Asia-Pacific President Masaichi Hori

Earlier this year, True Mother opened up a new realm of prayer for us, called "Holy Mother Han Prayer". While there are many things we, as heavenly workers, need to prepare for the entrance ceremony, there is only one thing we really need: to be one with True Mother.

Christians pray in the name of Jesus Christ. No one questions it now, but when this new way of praying began 2000 years ago, it would have been a previously unimaginable Copernican shift in belief and a great confession of faith.

The prayer in Jesus' name was tested by the trial of the cross. In Gethsemane, the foundation for prayer was not established, and the disciples were left to flee or watch the cross from afar. But they later encountered the resurrected Jesus and experienced the power of the Holy Spirit in the outpouring of the Holy Spirit at Pentecost. This experience became the cornerstone of their absolute faith, and as born-again believers, they faced persecution, prayed courageously in despair, and missioned to the ends of the earth. Thus began the Christian era of prayer in the name of the Lord Jesus.

Now, 2000 years later, we have already experienced the stage of praying in the name of True Parents and praying in the name of the Blessed Central Family, but unfortunately, our situation, shaken by Seonghwa, is not much different from that of the three disciples in Gethsemane: our minds have become closed, and obstinate, both spiritually and emotionally, because we have unknowingly become entangled with the central spirit and our own ideas. We have become like the sand in the desert, and the sandstorm that surrounds True Mother was us.

We are well aware of how True Mother's path after Seonghwa was filled with internal and external difficulties. Before True Mother testified that she was the only begotten daughter of God, she rightly testified to God as our Heavenly Parent. She also unraveled many heavenly secrets that were hidden in the sands of the wilderness, gradually revealing the truths of providential histories one after another. As the substantial Holy Spirit, the Mother of Peace and the Mother of Heaven, she embraced everything with unimaginable love, persevered and triumphed over everything.

As we stand before the glory of the entrance hall of Cheon Il Sanctum, we are in a position to deeply regret that we have wasted so much time without understanding True Mother's true dignity. We must put down everything and become a substance of purity, pure white, pure gold as True Mother taught so that we will never have to repent again. We must become witnesses of history to the great glory of True Mother, for there is only one True Mother in the Universe. Only by uniting with True Mother can we enter the new era of Cheon Il Guk's substantial realm, starting with Cheon Il Guk Temple. The new prayer is a new era's sign that Holy Mother Han is our Wang Omma and that we are her direct children.

In anticipation of this amazing time of grace, we are pursuing to the end how we can contribute in the New Asia-Pacific. Finally, we have agreed to establish a sister city relationship between Antipolo City, Philippines and Gapyeong County in order to restore the starting point of Heavenly Unified Korea. We sincerely appreciate this opportunity to contribute to making Gapyeong-gun shine not only in Korea, but also in its interactions with the world.

Since the pandemic, Asian countries have faced many challenges. In some countries, persecution is still ongoing, but with the tears and sincerity of the wonderful missionaries of HTG, new buds are growing.

It's growing, and it's beautiful, like a daffodil blooming through the winter ice. ShinChul and ShinHeung, our emerging missionaries, who are the model of serving Holy Mother Han directly, are waiting for the world pilgrimage. We will walk with more sincerity so that Heavenly Asia will be decorated with the petals of brilliant sincerity. Thank you.

Why Did God Create Humankind?

Where do subject partner and object partner arise? There must be a base for their existence. In the Unification Church we call this base the “dual characteristics.” Human beings themselves do not create the subject and object partners. Energy is always in motion. Yet in order for energy to be in motion, there must be a circuit through which it can flow. Energy cannot continue without a circuit of giving and receiving. For instance, the heart operates within the circulatory system, made up of veins and arteries. All action requires a reciprocal relationship between a subject partner and an object partner. Before energy can exist, there must

be a subject partner and an object partner. All subject and object partners must have a base for their existence.

When we look at the cosmos, we see that all beings exist in order to participate in relationships of love. In the mineral world there are plus and minus; in the plant world there are stamen and pistil; in the animal world there are male and female; in the human world there are man and woman, and there are heaven and earth. All of this is because God is a being of dual characteristics, and there is harmonious unity of plus and minus within God. When God relates to the creation, this harmonious being of dual characteristics takes the

masculine position.

Adam and Eve are the fruit, the visible substantial image, of God’s internal nature. When they form a union, it becomes the base on which God’s internal character and external form are united in substance for the first time. This is where the realm of heart begins. Based on this family realm of heart, the realm of heart opens and expands to the tribal level. Hence, Adam and Eve were to become the representatives of the individual realm of heart, the family realm of heart and the national realm of heart. The model for all these roles was to have been established in Adam’s generation.

The Unification Principle sets

forth that God exists as our subject partner, with dual characteristics in harmony. We base this on undeniable facts drawn from scientific analysis. When subject and object partners are totally united, God's power will be with them eternally. A place where subject partner and object partner do not exist is void of power. Then how does God exist? God exists forever by the power that is generated by the giving and receiving between the subject partner and object partner positions within God. This is how we can explain God's existence logically.

Consider God's dual characteristics. All the ideal elements of God's first characteristic, everything that God imagined and planned, are substantiated in each man. When each man reaches maturity according to the ideal of love, then the male realm of the universe reaches maturity. So who can bring this male realm to maturity? It is Adam, who should have become the True Father of humanity. This is something that Adam could have made possible. Likewise, through Eve, the female realm could have come to maturity. Then these two should have become one. For this reason, a man has to relate with a woman, and a woman has to relate with a man. The two have to make a relationship and become one. On this foundation, they should bear children. Only then can God finally dwell on the horizontal plane.

Adam and Eve Who Were to Embody God

What was God's purpose in creating all things? First, since God does not have a physical body, it was to assume a substantial form. Before the Fall, God intended that Adam and Eve become perfect in love and manifest God's inner image. That was the ideal for the perfection of Adam and Eve. God needed their forms in order to govern the physical world. Second, God needed a body as a base for multiplication. Once we go to the spirit world, which is the vertical realm, we cannot multiply. In the spirit world we can only connect to a point oriented at ninety degrees based on vertical love, and multiplication is not possible on the perpendicular vertical axis. In order to multiply, a horizontal plane—a substantial space—is required. With the horizontal plane expanding in all directions, love can form a sphere, which creates the vastness of space. Within this sphere, entities can multiply without limit. This includes human beings, who are to multiply while on earth and then transition into the spirit world. In summary, in order to multiply and raise heavenly people, God created the physical Adam and Eve. Third, God wanted a lineage of partners of love who would propagate forever. Do you think it would be sufficient for God to create Adam and Eve and love only them? God's love relationship should not end just with the people of one generation. God needed their forms in order to eternally propagate object partners of love through their lineage.

God's purpose in creating human beings was to exercise the dominion of love over both the incorporeal and corporeal worlds, through Adam and Eve. Accordingly, in order to have expression as a personal God, God had to have a relationship with substantial persons, Adam and Eve. Through the perfection of Adam and Eve, God's image, that is, God's external form, was to have been perfected. Standing at the center of the incorporeal world when creating Adam and Eve, God envisioned that their form, appearance, character, and other attributes would resemble God's own. Without possessing an external form within the world, there is now way for God to have a dominion of love.

The incorporeal God does not have a body. Without a body, God cannot govern the spirit world and physical world. In order to be manifested, God has to dwell in a body. The representatives, the ones in whose bodies God would dwell, were to have been Adam and Eve. If they had not fallen, God would have manifested in them. Therefore, Adam and Eve were to have been the first good ancestors of humankind and were, at the same time, to have become God, who reigns over heaven and earth. They were to have been God in substance. That is, they had the responsibility to govern the world in the position of the Parents by becoming the substance and image of God who dwells in the eternal incorporeal world. God intended to integrate the spirit world and the physical world according to the form of Adam and Eve.

God has no form. Even when you go to the spirit world, you cannot see God. God has no form, but to become the Lord and Ruler of the things of creation, the things God created, God needs to have a form. That is why God must incarnate in True Parents. Only then can God be the center of both the visible world and the eternal world, and be the Parent, the King and the Owner of Peace.

God is incorporeal and has no visible form. In order to manifest be manifested, God needs to assume a form. That is why, in order to govern humankind and all things that have form, God needs to manifest through the form of Adam and Eve. Adam, Eve and God were to be one in the flesh, and God was to be the mind of Adam and Eve. Had God and Adam become one, and had God and Eve become one, then once Adam and Eve became husband and wife their marriage would have been one with God internally and externally. When, by loving each other, Adam and Eve gave birth to children, those children would have been connected to God's direct lineage. Love would have bound them together. The reason this world was created is because God wanted to experience such love. God created in order to love.

Blessing for a Peaceful World Without War and Conflict

Beloved blessed families and members around the world, I offer my deepest gratitude and glory to our Creator, Heavenly Parent, for giving us this wonderful day when we can really welcome the 13th year of Cheon Il Guk.

Due to the wars and conflicts arising over the 6,000 years of human history since the Fall, humankind could not experience even a single peaceful day. And as the Creator had to complete the heavenly providence, how difficult and grueling must it have been that, through the chosen

people, it took 4,000 years to form the nation of Israel beginning from the level of individuals, through families, tribes, and a people.

After 4,000 years, Heavenly Parent finally brought about the birth of Jesus Christ, who was conceived through the Holy Spirit. Yet Mary and the people of Israel could not fulfill their responsibility. Despite the reality of his conception through the Holy Spirit, and even though wise men from the East followed a star to find him, there is no record of the date of Jesus' birth.

After waiting 30 years and

knowing he would not be able to complete God's Will, Jesus began his three-year public course. In the end, Jesus died on the cross, yet he said he would come again. The apostles who had been resurrected through the Holy Spirit waited for Jesus' promised return, and thus the 2,000-year Christian providence began.

Though there was much persecution in those early days, Christianity eventually received recognition from the Roman Empire and spread throughout Europe from the Italian peninsula and worldwide centered on Britain. This opened the

era of Atlantic civilization.

However, they did not know Jesus' essence. They did not understand why he said he would come back, or that he would hold the Marriage Supper of the Lamb when he returned. Eventually, they went out to evangelize in other nations under the pretext of representing Jesus, but actually their primary interest was on benefitting their own nations, so the era of the Atlantic civilization came to a close.

According to the Principle of Creation, when the Only Begotten Son was born, his counterpart should also have been born. However, this could not come through the people of Israel because they remained a nation with a debt of indemnity for the death of Jesus. Through our knowledge of history, we know what kind of indemnity they paid. Because Heaven cannot trust fallen humanity, another chosen people was selected and raised. This is the Korean people.

Heavenly Parent's Dream and Humanity's Hope

The birth of the Only Begotten Daughter had to take place in a Christian environment. When works of the Holy Spirit were occurring in the Korean Protestant Churches centered around Pyongyang, through the devotion of many who received these revelations the Only Begotten Daughter was born in 1943.

However, at that time, Korea was under Japanese colonial rule, and when World War II ended in 1945, the country was divided into South and North, democracy and communism. Because Heaven had brought about the birth of the Only Begotten Daughter who would see the completion of the providence, according to the principles of creation God had to allow her a growing period during which she would mature. However, Korea fell into crisis at that time. How was it that troops from at least 16 UN member states took part and shed righteous blood in that conflict in a small, unknown country? It is because Heaven was with us and protected the Only Begotten Daughter.

From birth, I grew up knowing God as my parent. Because I knew that my responsibility was to fulfill Heavenly Parent's dream on earth and see its completion, in 1960 I assumed the position of True Parent, though I was

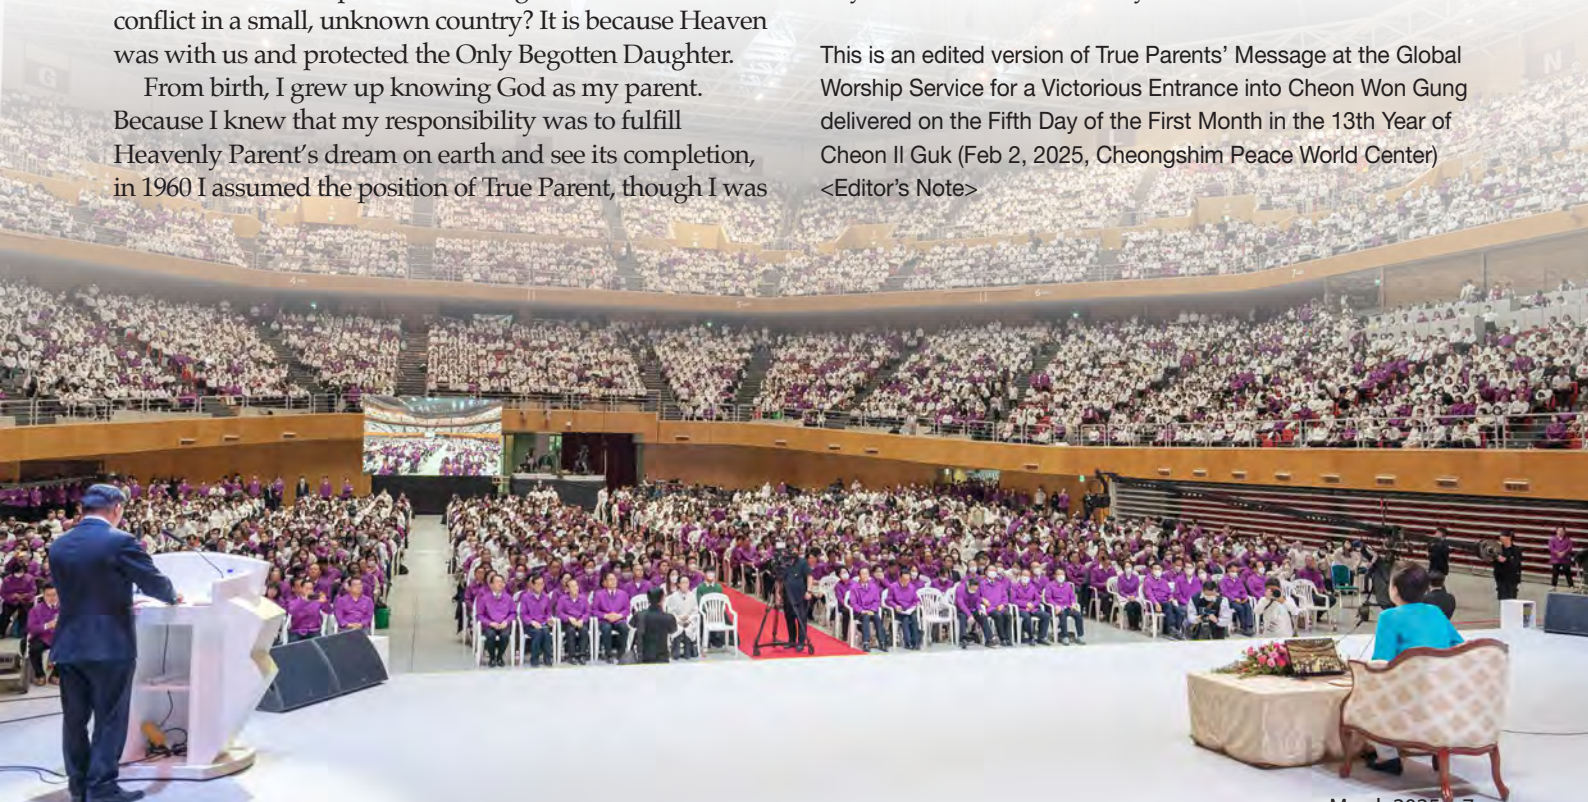

still very young. It is true that we went through difficult times. However, I waited patiently and persevered, and finally proclaimed the Foundation Day of Cheon Il Guk. Throughout human history, everything, including the history of religion, has been male-centered. The Principle of Creation is about man and woman. The Creator is also the Creator Father and Mother. The Only Begotten Daughter was the first to reveal this.

Thus, with no one else understanding the providence, I walked alone, and proclaimed the firm settlement of Cheon Il Guk after establishing the condition of restoring seven nations, seven religious orders, and a continent. However, that alone is not enough. Heavenly Parent's dream and humanity's hope is to live in the kingdom of heaven on earth. Therefore, you blessed families and Cheonbo families cannot remain where you are. You must fulfill your responsibility. True Mother, the Only Begotten Daughter, cannot do everything by herself. I pray that all of you will become the blessed families that, together with me, will create a greater, higher and broader environment in which people can attend Heavenly Parent.

As Director-General Song Yong-cheon of the World Missions Headquarters said, in your prayers and devotions you must establish the tradition of concluding your prayers with, "In attending Holy Mother Han, I pray with gratitude in my name, [____], of a blessed family. Aju." In creating an environment in which all people of the world can attend Holy Mother Han, the Pure Water must fulfill their responsibility, whether they are first, second, or third generation.

This is the only path to realizing one family of humankind attending Heavenly Parent and a peaceful world without war or conflict. I bless all of you who are united with Holy Mother Han to receive heavenly fortune as you move toward that day.

2025 International Religious Freedom Summit Held Successfully in Washington DC Vice President Vance Emphasizes Commitment to Fight Religious Persecution During Trump's Second Term

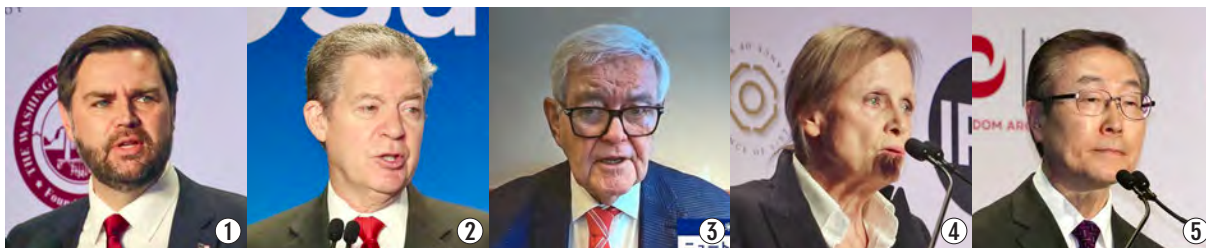

Bitter Winter Editor-in-Chief Marco Respinti, Japanese attorneys Nakayama Tatsuki and Kondo Norishige, IRF Co-Chair Katrina Lantos Swett, and international lawyer Patricia Duval (from left) discussing "Religious Freedom in Japan"

The 2025 International Religious Freedom Summit (IRF Summit 2025) was held from February 4-5 at the Hilton Hotel in Washington DC, organized by the International Religious Freedom Foundation to examine violations of religious freedom worldwide and seek solutions.

Approximately 2,000 leaders from various sectors attended the event, including US Vice President JD Vance, under the theme "Empower, Legislate, Advocate, Activate: Four Tracks Provided at the IRF Summit 2025."

Vice President Vance, part of the Donald Trump administration inaugurated on January 20, 2025,

delivered a special address highlighting how promoting religious freedom was realized as the most important diplomatic policy task during Trump's first administration. He stressed the importance of distinguishing between countries that respect religious freedom and those that don't. The Vice President further expressed that the administration would fight against religious persecution by expanding on previous achievements to further develop religious freedom, and affirmed that the Trump administration's second term is prepared to take action. His speech attracted significant attention from global

The IRF Summit, a powerful coalition of religious organizations, human rights groups, and civil society organizations advocating for religious freedom for all people globally, is regularly held in Washington DC and has contributed to raising awareness of international religious freedom issues.

Former US House Speaker Gingrich Expresses Concern that Attempt to Dissolve Unification Church Goes Beyond Constitutional Measures

The summit included diverse leaders from various sectors, including current presidents, prime ministers, Nobel Prize winners, and civil society opinion leaders, who discussed important issues such as religious and faith freedom.

Sam Brownback, IRF Co-Chair and former Kansas Governor and Republican Senator, expressed in his greeting that over the past five years, more than 150 organizations have collaborated with IRF in efforts to promote the basic human rights of religious, conscience, and belief freedom. He shared his anticipation of working together on the challenges facing minority religious groups to realize religious freedom for all people worldwide.

The Washington Times and Universal Peace Federation (UPF) hosted an IRF Summit dinner session on "Supporting the Overcoming of Japan's Religious Freedom Crisis." Former House Speaker Newt Gingrich, who delivered the dinner speech, noted that the Japanese government is currently threatening to dissolve a legally established religious organization for political purposes. He conveyed that attempting to destroy the Unification Church without any illegality is a measure that far exceeds the scope of Japan's constitution. He cautioned that this situation will have a significant impact on US-Japan relations and American views

on Japanese politics.

Former Congressman Dan Burton shared concerns about the attempt to dissolve the Family Federation religious corporation, emphasizing that religious freedom is for everyone and should be guaranteed everywhere, at all times.

Tomihiko Tanaka, President of the Family

Federation for World Peace and Unification in Japan, highlighted that the truth about religious freedom and its infringement is increasingly being revealed as even Japanese media point out problems with the Japanese government's petition for a dissolution order against the Family Federation. He added that through this IRF Summit, they are conveying to the Trump administration the unfairness of the dissolution order petition against the Japanese Family Federation.

Patricia Duval, a French international lawyer who presented a report on the "deprogramming" issue—the forced conversion through kidnapping and confinement of Japanese Family Federation members—indicated that there were attempts to plan the plundering of church assets by obstructing Family Federation activities and promoting damage claims by deprogrammed members. She criticized that the Japanese government's actions against the Family

Federation are discriminatory and oppressive, similar to totalitarian states, even ignoring the UN Human Rights Committee's recommendation to stop.

The Family Federation in Japan has been recognized as a religious corporation since July 15, 1964, and has conducted active missionary work for 60 years without any criminal convictions. It has complied with laws while carrying out global missionary activities for world peace and human harmony.

Filing a lawsuit to revoke the religious corporate status of a religious organization that has been recognized as a legitimate religious entity for the past 60 years without a single criminal case is unprecedented in democratic countries. Consequently, global religious experts express concern that the Japanese government will go down in world history as a representative case of violating religious freedom. [7](#)

Takasaki Church of Gunma District Holds Special Service and Hyojeong Meeting

A special service and Hyojeong meeting for the Takasaki Church of the Gunma District in Heavenly Japan Family Federation was conducted on February 23 at the Takasaki Family Church, hosted by Lee Chung-woo, Senior Director, Cheon Mu Won Mission Policy Office.

The event was attended by approximately 500 members including, President of Heavenly Japan, Chairman; executives from Heavenly Japan headquarters, Universal Peace Federation (UPF), and affiliated organizations; and Gunma District members.

The special service, officiated by Director of Education, included preparatory hymns, silent prayer, opening declaration, choir performance of "Starting from Me," kyeongbae, Family Pledge recitation, prayer of gratitude by Women's Department Director, sermon by a Senior Pastor, a flower presentation, special message by Senior Director Lee Chung-woo, hymn "Into Parent's Embrace," benediction prayer also by a senior pastor, group prayer, and closing declaration.

Senior Director Lee shared the providential purpose and will behind True Mother's establishment of Cheon Mu Won, based on her words over the past nine months.

True Mother's Vision for Cheon Mu Won

In his special message, Senior Director Lee Chung-woo explained the providential purposes of establishing Cheon Mu Won: "To open a new era of living with Heavenly Parent substantially, to spread True Parents' will worldwide as the embodiment of Heavenly Parent, to achieve victory in entering the Cheon Il Sanctum of Cheon Won Gung, to create and expand the foundation for Heavenly Unified Korea and Heavenly Unified World, to fulfill the role of Cheon Il Guk's central

headquarters, and to create a future environment centered on three generations of True Family."

He testified that it is "the highest providential organization to practically implement the Cheon Il Guk ideal" and "the supreme organization directly representing the Only Begotten Daughter, True Mother."

He emphasized, "Everyone at Cheon Mu Won is challenging goals and tasks beyond their abilities, and striving to become one with the Only Begotten Daughter, True Mother, to achieve them." He stressed, "The trials facing Heavenly Japan over the past three years can ultimately be resolved only when we become completely united with 'Holy Mother Han,' so we must do our utmost to achieve complete oneness with True Mother."

The Gunma District Hyojeong meeting was conducted in two parts beginning at 2 PM. The first part, attended by approximately 450 members, was a time to realize their identity as true children of Cheon Il Guk attending "Holy Mother Han."

Director Lee emphasized to the members, "You cannot imagine how seriously and desperately True

Mother is struggling for the victory of the entrance ceremony now only about 40 days away. At the same time, you cannot imagine how eagerly she is counting the days with joy and excitement. We all must have the same attitude, posture, and heart as True Mother.”

The second part of the Hyojeong meeting was conducted for about 30 key leaders of Heavenly Japan Family Federation and providential organizations.

Through his message that day, Senior Director Lee Chung-woo, clearly stated that only leaders who are united with the Only Begotten Daughter, True Mother, and who absolutely obey her words and directions

are true public officials and righteous loyal subjects of Cheon Il Guk. He also urged the leaders not to be intimidated by the social atmosphere but to speak out confidently and lead by example.

Senior Director Lee Chung-woo, particularly emphasized that the Japanese constitution should never be allowed to carelessly evaluate or judge Heaven’s providence, stating, “Heaven’s providence will continue to develop through True Parents’ noble sacrifice and dedication, and we can surely achieve victory when united with ‘Holy Mother Han,’ True Mother.”

Special Message at Takasaki Church Service, Heavenly Japan

The Providential Identity and Role of Cheon Mu Won

I would like to speak about the providential identity and role of Cheon Mu Won, and about True Mother’s recent providence. First, True Mother has given us words about what Cheon Mu Won is and what roles and responsibilities it should fulfill. I will introduce some of these contents.

“I established Cheon Mu Won in the 13th year of Cheon Il Guk because this is the era of attending Heavenly Parent in physical reality on earth. We need a place that can quickly spread True Parents’ will at a time when Heavenly Parent directly governs this nation and the world. That is why I created Cheon Mu Won.” (June 20, 2024)

“I invested everything to build Cheon Won Gung where we can attend Heavenly Parent. I cannot stop. That is why I established Cheon Mu Won as the center of Cheon Il Guk’s administration.” (September 3, 2024)

“Through the organization called Cheon Mu Won, we are creating an environment that can embrace Korea and the entire world.” (December 3, 2024)

“Now the world must become one centered on Cheon Mu Won and operate like the Vatican.” (January 7, 2025)

“Now the three generations and Cheon Mu Won must become one and move forward. Why did I

establish Cheon Mu Won? I established it to create the environmental realm for the future.” (January 31, 2025)

“Through Cheon Mu Won, which is the concept of a central headquarters, I pray that all blessed families and chosen families of the world will become one toward one goal, toward the day when we can attend Heavenly Parent on earth through the hard work of Holy Mother Han, and create an environment that is wider, higher, and greater!” (February 4, 2025)

Based on these words, I have summarized the purposes of its establishment as follows:

True Mother established Cheon Mu Won ① to open a new era of living with Heavenly Parent in physical reality, ② to spread the will of True Parents, who are the embodiment of Heavenly Parent, throughout the world, ③ for the victorious entrance into the Cheon Il Sanctum of Cheon Won Gung, ④ to create and expand the foundation for Heavenly Unified Korea and Heavenly Unified World, ⑤ to fulfill the role of Cheon Il Guk’s central headquarters, and ⑥ to create a future environment centered on the three generations of True Family.

Centered on these six purposes, Cheon Mu Won is currently performing four main areas of work at the organizational level, and its scope will expand further in the future.

① Cheon Mu Won serves as the central administrative office representing Cheon Il Guk externally as the highest providential organization established by True Parents.

② It is responsible for presenting core agendas and overseeing all projects so that churches and organizations worldwide can align with providential purposes and directions. This includes all aspects of expanding the substantial environment of Cheon Il Guk, including nurturing future talent.

③ It focuses on enhancing and expanding the status and value of True Parents, who are the embodiment of Heavenly Parent, globally. It performs special protocol and assistance for all providential events and activities directed by True Mother, the Only Begotten Daughter at her first coming, including her well-being.

④ It focuses on preserving and managing speech recordings and documentary records so that True Parents’ words can be eternally passed down, and performs official organization, translation, and sharing so that True Mother’s words can be correctly conveyed and implemented by churches and organizations worldwide.

In summary, Cheon Mu Won can be defined as “the highest providential organization to substantially implement the Cheon Il Guk ideal.” From another perspective, it can be called “the supreme organization directly representing the Only Begotten Daughter, True Mother.” The reason True Mother emphasizes that all organizations under the Family Federation should unite centered on Cheon Mu Won is because True Mother is directly governing the providence through Cheon Mu Won.

The Environmental Realm of Cheon Il Guk That Future Generations Must Expand

I hope that many more of our future generation Pure Waters will build their skills diligently and join Cheon Mu Won.

I understand there are many young people of our future generation in the Gunma District as well. I ask you to develop your skills diligently with greater dreams for the Only Begotten Daughter, True Mother, at her first coming. Heaven expects Pure Waters to expand the world to be clearer, healthier, and more virtuous.

Therefore, the Family Federation and all providential organizations must become absolutely one with Cheon Mu Won, and we must create a safer environment where our future generations can grow with greater pride and self-esteem. Only then can the community of blessed families attend Heavenly Parent substantially to flourish for generations. Only then can we further glorify and elevate the status and value of True Parents.

The Providential Significance of the Entrance Ceremony into the Cheon Il Sanctum of Cheon Won Gung

True Mother has stated on multiple occasions that at the providential level, the entrance ceremony represents the completion of Heaven’s providence and the completion of human history. She has said that the Cheon Il Sanctum of Cheon Won Gung is Heavenly Parent’s house, and that the entrance

ceremony is “the day when Heavenly Parent makes His first visit after 6,000 years,” and “the day when Heavenly Parent begins life in the Kingdom of Heaven on Earth together with True Parents and blessed families, children of HeavenlyParent.”

The providential significance is so great, and frankly, I sometimes feel fearful and trembling at the thought of “how can we handle this enormous event” that has never happened in our church history and will not happen again. At such times, True Mother says to me and the Cheon Mu Won staff: “You must become absolutely one with me. If you become one with me, you can accomplish it.”

Everyone at Cheon Mu Won now is challenging goals and tasks beyond their abilities. To achieve them, they are striving to become one with the Only Begotten Daughter, True Mother.

I believe this is our hope and the underlying strength of our community. It is an amazing power that the world cannot dare to attempt or imitate.

Respected members, the day of victory will certainly, inevitably come. This is because Holy Mother Han, True Mother, is with us. Moreover, now righteous Christian groups and good leaders who follow Holy Mother Han have begun to move.

The United States, the representative nation of Christianity, and the second Trump administration have begun to speak out in response to Heaven’s will. And the Korean press has become Heaven’s trumpet, announcing news of the unjust dissolution order petition to the world. Victory will surely belong to Heavenly Parent and True Parents who are living and working in this time! Victory will surely belong to all of you.

The Reality of Heavenly Mother: ‘Holy Mother Han’

True Mother established the 13th year of Cheon Il Guk as “the historic beginning of living with the Creator, Heavenly Parent—who is not just Heavenly Father but includes Heavenly Mother—substantially,” and elevated us to the position of Heaven’s chosen people, true children of Cheon Il Guk.

Additionally, on January 20 in Las Vegas, USA, she proclaimed the new sacred title “Holy Mother Han,” and three days before her birthday, she established that our prayers should conclude:

For blessed families: “In attending Holy Mother Han, I pray with gratitude in my name [_____] of a blessed family. Aju”

And for blessed children: “In attending Holy Mother Han, I pray with gratitude in my name [_____], a son / daughter in a blessed family. Aju”

This signifies that we are one with “Holy Mother Han.” It means complete unity. We already understand through the Declaration of the Settlement of the True Parents of Heaven, Earth and Humankind that True Parents are the embodiment of Heavenly Parent and the embodiment of the Word.

From this perspective, in this new era of the firm settlement of Cheon Il Guk, it is abundantly clear that True Mother is the physical embodiment of Heavenly Mother, and being able to directly call upon and attend Heavenly Mother, who had been historically veiled, through “Holy Mother Han” is undoubtedly the greatest gift that True Mother is bestowing upon blessed families and humanity in this age of victorious entrance into Cheon Won Gung.

Respected pastors, church ministers, and blessed family members! In John 9:5, Jesus said, “As long as I am in the world, I am the light of the world.” Applying this verse to the Cheon Il Guk era, the present time of attending the Only Begotten Daughter at her first coming, “Holy Mother Han,” is the period of the greatest light, the greatest golden age. In this historic golden age that will never come again, I pray that the love and grace of Heavenly Parent and True Parents will be ever more abundant, and that righteous victory and great triumph will always be with you.

This article summarizes the special message delivered by Lee Chung-woo, Senior Director, Cheon Mu Won Mission Policy Office, at the special service of the Takasaki Church in Gunma District, Japan, on February 23. <Editor’s note>

Participant Reflections

▲ T.N. (Takasaki Church, Senior Pastor)

Today I saw the light of True Mother’s love. Being under the same sky as the victorious True Mother, breathing the same air, walking on the same ground, I deeply feel that this is truly a golden age. I cannot express how joyful it is to take part in the providence while surrounded by the light of True Mother’s love in this golden age. Every cell in my body is leaping as I receive this light of love. I want to shout with all my might and strength until my voice gives out, “Wang Omma! Holy Mother!” True Mother, thank you. I love you.

▲ T.M. (Ota Church, Women’s Department Director)

I had been too immature to understand how Heavenly Parent felt when choosing and preparing the Korean people as the chosen people, establishing True Mother as the Only Begotten Daughter, and guiding her. Listening to Senior Director Lee’s message, I feel truly sorry that we are so far from the heart that Heaven desires. As Women’s Department Director, I will fulfill my responsibility to create a church overflowing with the spirit and truth that True Mother desires, unite with the church pastor, and love our members. And I will do my best to connect with Heaven through Cheon Mu Won.

▲ M.Y. (Maebashi Church, 30,000 Couples Blessing)

While listening to the message, I deeply contemplated what it means to be one with True Mother. I realized that although achieving my assigned goals is important, I’ve been lacking in heart as a true child thinking about Mother. When I felt difficulties and wanted to give up in my family or responsibility, I was already not one in heart with True Mother, but judging by my own standards. I want to become completely one with True Mother’s heart, who never gives up in any environment and believes that any child, no matter their situation, will surely return. I want to be someone who responds to the will of True Mother, the unique and Only Begotten Daughter in history, in this golden age when we can be with her.

▲ H.N. (Kamikawa Church, 2023 Hyojeong Cosmic Blessed Family)

There was something in Senior Director Lee’s message that moved me to tears: “The Family Federation is the only organization where members from Korea and Japan become one through CheonShim Won’s nightly jeongseong, singing Japanese songs in Japanese on Korean soil. This is evidence that Heavenly Unified Korea and Heavenly Japan are unified. Victory for Heavenly Japan will certainly come.” I realized that this precious golden age, when we can feel True Mother on earth, is the most brilliant time in human history.
