Our Holy Wedding Ceremony, the Marriage Supper of the Lamb

Jesus was born to humankind 2,000 years ago. God intended that Jesus find his bride and, together with her, attain the position of True Parents, providing living examples of a true husband and wife, parents, and family. However, God's hope for Jesus was not realized. The Lord went a secondary course, dying for us on the cross. We cannot imagine how devastated he must have been! When Jesus returns, his priority is to find the bride, with whom he will create a true family, society, nation and world. Through the True Parents, the sorrows of heaven and earth can be alleviated, and the victorious foundation for God's ideal world can be laid.

In this providence, the prophesied Marriage Supper of the Lamb, the day of our Holy Wedding, was the turning point, the day when God won His victory and recovered His lost glory. Furthermore, this was a day of joy for humankind, as it inaugurated a new history in which all can live together not only with their True Father but also with their True Mother.

At the age of 15, Sun Myung Moon received his mission from Jesus Christ on Mount

Myodu. It was a mission that would bring him severe hardship. It led him to study in Japan and to teach God's word in North Korea after Korea's independence, where he would face life-threatening hardships and unspeakable suffering. Communist Party officials and police cruelly tortured him and later sent him to a forced labor camp near the city of Hungnam. It was only the arrival of UN troops that saved him from execution there.

With two of his followers, he headed south to begin his ministry again. After planting his church in Busan he settled in Seoul.

Yet his trials continued and once again he was imprisoned, this time by the South Korean government. This course of hardships, during which time he relentlessly focused on teaching many new members about God and the mission of the Messiah, was the course he had to pass through to meet the only begotten Daughter prepared by God, and to hold the Marriage Supper of the Lamb.

Members of the early Unification Church

endured bitter ordeals together with Father Moon. As the year 1960 approached, they were filled with indescribable hope. Father Moon was turning 40, and he had prophesied that this would be the year of the Holy Wedding of God's first Son and Daughter, the only begotten Son and only begotten Daughter. And that promise was fulfilled. At the Cheongpa-dong church, at 4:00 in the morning on March 27, 1960, the first day of the third lunar month, when spring was in full bloom, Father Moon and I held our historic engagement ceremony.

We had invited 40 men and 40 women to witness the ceremony, but members wishing to see us had come in great numbers, and the small church was packed to overflowing. The

engagement ceremony, held in two parts, was conducted in a holy atmosphere. It concluded with Father Moon's benediction, reporting the profound meaning of the ceremony to heaven and earth. The 6,000-year history of humankind, he prayed, was the anguished course necessary to receive the True Parents. That Jesus could not become the True Parent was the sorrow of all people, but the day of our engagement ceremony was the blessed day that finally relieved that sorrow.

Fifteen days after the engagement ceremony, at 10:00 AM on April 11, 1960, the 16th day of the third month by the lunar calendar, we conducted the Holy Wedding. Seven hundred or so members chosen from our churches across

Korea gathered at Cheongpa-dong Church to attend this splendid event, long awaited by our Heavenly Parent. Because even more members flocked to attend the Holy Wedding than the engagement ceremony, the church was overflowing, and those who could not enter the building filled the alleyway beside it. The atmosphere was nonetheless solemn and reverent.

The small chapel of the church was decorated beautifully and meaningfully for the occasion. The walls and floor were covered with white cloth, and a platform was set up to the left of the door. Dressed in a long, white skirt and top, with a long veil covering my head, I walked down the stairs from the second floor, arm in arm with the bridegroom, as members sang a holy song, "Song of the Banquet." All in attendance warmly welcomed us, and the Holy Wedding ceremony thus commenced.

The significance and value of this joyful occasion should have been praised, glorified and honored by all nations and peoples. Yet it was marred by a distressing incident. The day before the ceremony, the Ministry of Home Affairs, responding to a Christian group's accusations, arrested and interrogated Father Moon. He was able to return to his quarters in the church only after being subjected to humiliating questions until 11:00 PM. Yet under the grace of God and the Holy Spirit, Father Moon and I, and the entire congregation, put aside this painful experience as if it had never happened and conducted the

Marriage Supper of the Lamb with serene hearts.

The first ceremony of the Holy Wedding was held in Western-style clothing, and the second ceremony was held in traditional Korean-style clothing, complete with robes and headdresses. These ceremonies marked my formal emergence as the Mother of the universe and Mother of peace. The Holy Wedding finally realized God's predestined Will that the only begotten Son and Daughter would become one flesh through the Marriage Supper of the Lamb, so that through them, the dwelling place of God would be with men and women, an ideal which Adam and Eve had not been able to achieve.

After the ceremony, Father Moon and I, as husband and wife, ate at the same table for the first time. It goes without saying that newlyweds expect to go on a honeymoon and dream of their cozy life together, but it was not so with us. Our thoughts were fixed only upon God and the church. We then changed into bright Korean traditional wedding outfits, and my husband and I sang and danced to return glory to God, enjoying a merry time together with the members. When the members called for the bride to sing, I sang a song called "When the Spring Comes:"

When the spring comes,
Azaleas bloom in the mountains and
meadows.

Where the azaleas bloom,
So does my heart.

Spring signifies freshness and newness. I love

spring, as it is the season of hope. Spring brings with it the expectation that, as we leave the cold winter behind, our days will be vibrant with life. It awakens our dreams. As I sang, I was thinking that the history of the Unification Church should begin anew with this coming of spring. The appearance of the family of the True Parents on earth that day flung open a new door in the history of God's dispensation. The day of the Holy Wedding Ceremony, conducted after we had lived through perilous years, was the day of God's greatest delight.

In the New Testament's Book of Revelation, it is written that the Marriage Supper of the Lamb will take place when the Lord comes again at the end of times. That prophecy was fulfilled by the Holy Wedding, by which the only begotten Son and only begotten Daughter, lost at the beginning of human history, were

brought together as bridegroom and bride and anointed as the True Parents. As we were joined as husband and wife, I made a firm resolution in front of God:

"It is almost impossible to describe the heart of God. Until the day that God's Will is fulfilled, I will move forward in unity with you in heart and in every respect."

The Substantial Realization of One Family Under God: Opening a New Horizon of Peace

– Events Commemorating the 66th Anniversary of the Holy Wedding of the True Parents of Heaven, Earth, and Humankind and the First Anniversary of the Entrance into the Cheon Won Gung Cheonil Sanctum

In commemoration of the 66th Anniversary of the Holy Wedding of the True Parents of Heaven, Earth, and Humankind and the First Anniversary of the Entrance into the Cheonwon Gung Cheonil Sanctum, a series of landmark events unfolded across Hyeonjeong Cheonwon in Gyeonggi Province. Far more than ceremonial observances, these gatherings became a historic proclamation of the substantial settlement of Cheon Il Guk.

Throughout the commemorative week, a diverse program touching the fields of religion, culture, and academia was held—including the Gyeongbae Ceremony, the Celebration of the Anniversaries, a World Clergy Leadership Conference, the 2026 Global Mission Recognition Ceremony, and a Cheon Il Guk Leaders' Open Forum. The 2026 Hyeonjeong Cheonju Blessing Ceremony, which united 2,100 couples from 70 nations before an assembly of more than 20,000 participants, gave vivid and tangible expression to the vision of One Family under God. Meanwhile, in Seoul, a symposium on interreligious harmony and peace offered timely guidance and charted a meaningful course for the present age.

This commemorative week served as a victorious festival, uniting members' devotion and love for Heavenly Parent and the True Parents. It served as a living testament that the ideals of Cheon Il Guk have taken root—not only as lofty spiritual aspirations, but as a culture of daily life.

Commemorative Gyeongbae Ceremony: Offering Devotion for the Realization of a Peaceful World

At 7:00 AM on May 2, a Gyeongbae Ceremony was held at Cheonshim Won in commemoration of the 59th Heavenly Parent's Day, the 67th True Parents' Day, and the 66th Anniversary of the Holy Wedding of the True Parents of Heaven, Earth, and Humankind. The ceremony began with the families of Moon Hyo-jin and Moon Heung-jin lighting the holy candles, and was conducted with deep reverence in the presence of the True Family and key international leaders.

With FFWPU Heavenly Korea President Dr. Song Yong-cheon serving as the MC, the ceremony opened with a prayer of gratitude offered by Human Resources

Development Institute Chairman Dr. Do Hyun-sup. In his prayer, he reflected that Heavenly Parent has guided the 6,000-year providence of restoration—raising countless prophets and righteous people and advancing through innumerable paths of indemnity—toward this historic moment of fruition. He gave thanks for the grace of sending the True Parents to this earth and that their Holy Wedding saw the emergence of true love in substantial form, bringing forth the salvation of humankind and the dawn of a new history.

Rev. Lee Gi-seong, President of Cheonshim Won, reminded those gathered that Heavenly Parent has never been silent, but has continuously guided history and is actively working in the present time for the fulfillment of

true love. He urged participants never to lose heart under any circumstances, but to press forward in faith, for Heavenly Parent's dream will surely be realized.

Participants offered their devotion before Heaven for the realization of a peaceful world and renewed their pledge to embody the vision of One Family under God within their respective mission areas. The ceremony concluded with three resounding cheers of Eok Mansei, led by Yutaka Yamada, Continental Director of the Heavenly Asia-Pacific.

Bishop Nancy Rosario emphasized that the gathering was historic evidence that the long-awaited ideal of peace has finally taken root on this earth.

Following the screening of a special commemorative video came an address from Rev. Ken Doo, director-general of the World Mission Headquarters. Reflecting on True Mother’s providential course of cosmic suffering, he stated, “This moment is not a time when we can remain content to be under the protection and embrace of the True Parents, but a period of training through which we must be reborn as mature children who can pioneer the future on our own. . . . The more we long for the True Parents, the stronger and more steadfast our faith must become.”

The event concluded with songs of praise offered by the Inheritors of Heavenly Love and Blessing and the UPA Choir, and a respectful *gyeongbae* from all participants.

Religious leaders from across the globe convened in Seoul and Gapyeong to advance a movement for peace that transcends national borders and denominational divides. During the opening ceremony, more than 100 clergy members representing more than 20 nations—including Korea, the United States, Japan, Israel, and South Africa—reaffirmed the vital importance of interreligious solidarity.

Organized in commemoration of the 66th Anniversary of the Holy Wedding of the True Parents of Heaven, Earth, and Humankind and the First Anniversary of the Entrance into Cheon Won Gung Cheonil Sanctum, the conference fostered vibrant exchanges of faith along with rigorous scholarly dialogue.

In particular, continental representatives such as Father Masoud Abu Hatoum of Israel and Prophet Samuel

Radebe of Africa delivered powerful messages in support of peace. They underscored that harmony rooted in interreligious love and understanding stands as the only true path to resolving conflicts worldwide.

In his welcoming remarks, Director-General Ken Doo of the World Mission Headquarters urged participants to deepen their understanding of the sacrifices and providence of the True Parents and to join wholeheartedly in the spiritual journey toward peace for all humanity. Song Yong-cheon, President of FFWPU–Heavenly Korea, emphasized the importance of carrying forward the significance of the 66th Anniversary of the Holy Wedding and translating the vision of one family of humankind into tangible reality.

2026 Global Mission Recognition Ceremony and the Cheon Il Guk Leaders' Open Forum: Strategic Innovation and Encouragement from the Frontlines of Mission Work

Held on May 3 at the HJ Heaven and Earth Cheonbo Training Center, the 2026 Global Mission Recognition Ceremony served as a meaningful occasion to honor and encourage the dedication of those serving in mission fields around the world, while also providing a practical forum for sharing insights and shaping future mission strategies. A total of 82 churches received awards, including the Recognition of Achievement Awards and the Recognition of Excellence Awards.

Ronnie Sodusta, Regional Director of FFWPU Philippines, expressed that he was deeply inspired to witness participants united in a single vision and determination that transcended national and cultural

boundaries. Rev. Leo Angelo Halog, Director of Church Growth for the Asia-Pacific Continent, likewise conveyed gratitude for True Parents' love and encouragement, noting that the recognition of even small victories in the field became a powerful source of strength for greater progress.

Voices from the mission field also added concrete perspectives. Considerable attention was given to proposals aimed at amplifying the impact of local ministries, such as inviting award recipients to Korea and fostering the qualitative growth of faith communities.

The Cheon Il Guk Leaders Open Forum, held from May 4 to 7 at Cheon Seung Jeon and other locations within Hyojeong Cheonwon, emerged as a dynamic platform for practical innovation and collaborative exchange. Jointly organized by the World Mission Headquarters, the Central Administrative Council, and FFWPU–Heavenly Korea, the forum spotlighted strategies for nurturing future leaders and highlighted exemplary mission practices. Through establishing integrated networks, leaders advanced plans to foster qualitative growth within their communities and outlined concrete roadmaps for the firm settlement of

Cheon Il Guk.

During the commemorative week, the Hyojeong Cheonbo Special Great Works and holy ground pilgrimages provided members with profound opportunities for spiritual renewal. These sacred experiences became moments of grace, enabling participants to unite in heart with the True Parents. As they visited Cheon Jeong Gung and Cheon Won Gung, members engraved in their hearts the victorious course and values of the True Parents, strengthening their determination to realize the vision of one family of humankind under God.

The commemorative events marking the 66th Anniversary of the Holy Wedding of the True Parents of Heaven, Earth, and Humankind and the First Anniversary of the Entrance into the Cheon Won Gung Cheonil Sanctum offered a time of deep reflection on the providential significance of the Holy Wedding. Participants expressed gratitude and glory to Heavenly Parent and the True Parents, who established the foundation for the fulfillment of Heaven's providence and the culmination of human history through the Entrance Ceremony in the 13th year of Cheon Il Guk, establishing the holy place where Heavenly Parent is substantially attended.

The Blessing of 2,100 couples, transcending national and cultural boundaries, stands as a powerful response to the fragmentation of modern society. Meanwhile, the solidarity demonstrated by religious leaders reaffirmed that interreligious harmony is an essential key to overcoming conflict and building lasting peace in the world.

Congratulatory Remarks at the Celebration of the 66th Anniversary of the Holy Wedding of the True Parents of Heaven, Earth and Humankind and the First Anniversary of the Entrance into the Cheon Won Gung Cheonil Sanctum

We are please to reproduce here the congratulatory remarks given by Prophet Samuel Radebe and Bishop Nancy Rosario at the Celebration of the 66th Anniversary of the Holy Wedding of the True Parents of Heaven, Earth and Humankind and the First Anniversary of the Entrance into the Cheon Won Gung Cheonil Sanctum, held on May 2, 2026.

PROPHET SAMUEL HADEBE
(REVELATION SPIRITUAL HOME)

Good morning to everyone!

Our Beloved Holy Mother Han, distinguished religious leaders, beloved brides and grooms, ladies and gentlemen,

It is with heartfelt gratitude and honor that I am here to address you on this occasion of the Holy Wedding Ceremony, the celebration of the 66th Holy Wedding Anniversary of the True Parents, as well as the First Anniversary of the Entrance into the Cheon Il Sanctum of Cheon Won Gung.

This Holy Wedding that took place in 1960 as the Marriage Supper of the Lamb with Father Moon opened the way for millions of Marriage Blessings that followed. I am grateful that I could take part and host many of these Holy Weddings in South Africa, in 2018 and 2019.

Our world is currently suffering from many problems, and family breakdown is the major cause of all of them. I fully concur with Father and Mother Moon that peace begins with me, peace begins with my family. Unless we address family issues with a spiritual and divine perspective first, there is no way we can create peaceful and loving families. A spiritual problem needs a spiritual solution!

To the couples who will be blessed, thank you for taking the vow to create our Creator's loving and faithful families! In our time, such unions carry an even deeper purpose: to help restore humanity to a path of righteousness, peace, and order.

At its core, marriage is the foundation upon which a structured and sustainable family is built. It is a union between a man and a woman, each bringing distinct yet complementary energies essential for the balance and continuity of the family unit.

The masculine energy, grounded in logic and leadership, and the feminine energy, rooted in nurturing, intuition, and creation, work together to form a harmonious whole. In this balance, the strength of the family, and ultimately of society, is sustained.

For this reason, those who enter into the covenant of marriage must recognize their alignment with the spiritual realm. I often advise that the decision to marry should not be made in isolation. One must involve the Creator, the deities, and one's good ancestral guides. While we may believe we know what we want, the spiritual realm sees beyond our limited understanding and guides us toward what is truly aligned with our purpose.

Prophet Samuel Radebe of the Revelation Spiritual Home

Each of us has been brought into this world with a purpose to fulfil. Therefore, the person you choose as your life partner must be aligned with that purpose. There is little more painful than being bound in a union that does not serve your destiny. May our Creator's grace be with each one of you!

Last year, I had the privilege to take part in the procession as we had the Entrance Ceremony. Time flies so quickly! One year later, here we are, celebrating the anniversary. It is just unfortunate that this is taking place without the chief architect, Holy Mother Han!

As I said last year after I visited her at the Detention Center, she is going through "an unintentional sacrifice for something greater to come." We need to believe and unite with her at this most important point in human history. Holy Mother Han is going through a course that will yield great fruits very soon. As a mother, she is going through labor pains to deliver a new Korea, and a new world!

I said last time, let us be on fire, testify about her great accomplishments. The spirit world expects us to do just that. Be on fire! I heard that she has been nominated for the Nobel Peace Prize. This is very good! The world needs to know and recognize what she has done for the sake of world peace.

It is amazing that we, with such a diversity of spiritual systems, religions, cultures, traditions and nationalities, can come together to open our minds, to harmonize with each other, and to share our concerns about the future of humankind. I would like to congratulate and commend our beloved Holy Mother Han for this accomplishment! True Mother, we love you! Very much!

Closer to my conclusion, I am Imboni, a spiritual guide (in our language), who practices African indigenous spirituality (ancient). I also got my calling when I was 16 years old. When you are spiritually attuned, you can recognize genuine spiritual leaders. It was not difficult for me to recognize Holy Mother Han.

Father and Mother Moon have been specially anointed by God and throughout their lives together, they have made tremendous contributions towards world peace.

True Mother is giving hope to us in Africa. In Africa, we are so proud of her. Only fools reject her and her very great achievements. I said, last year, if Korea can't recognize and appreciate her, we will take her to Africa. Brothers and sisters, please, wake up, and be on fire!

The Holy Sanctum is God's dwelling. This is truly a masterpiece of Heaven's ingenuity. People from all races,

nationalities, and cultures will come here. True Mother is the “glue” that is bringing us together. She is calling us to cooperate, to work together in harmony and unity, to create and build one human family under God!

In conclusion, happy celebrations! My wife and I wish all the couples here a blessed family life. United, we can

create a world of lasting peace for all humanity. As the saying goes, “United, we stand; divided, we fall!” To tackle the problems of this world, it is about time leaders of different faith-traditions stand together.

Holy Mother Han, we are with you!

Thank you very much! 

**BISHOP NANCY ROSARIO, SENIOR PASTOR
(CHURCH OF GOD’S CHILDREN)**

Good morning everyone! It’s a beautiful day and you all look beautiful.

So I say distinguished guests, honored clergy, beloved brothers and sisters from all around the world: Grace, peace, and blessings be unto you.

Today we gather on a profound day of historic significance. We celebrate the 66th Holy Wedding Anniversary of True Parents (so you have that to follow!), and the First Anniversary of the Entrance into the Cheon Il Sanctum of Cheon Won Gung. So you know you’re going to remember this day forever. This is not merely a commemoration. It is a divine milestone in the unfolding providence of Heavenly Parent.

From the beginning, the Heavenly Parent has longed to dwell with the children. And though history has been marked by separation and struggle, the providence continued—patiently—until fulfillment.

Throughout that history, God has always moved through chosen vessels, men and women set apart for sacred purpose. And you are part of that. We recognize that heaven has entrusted missions across many generations, and we honor one who has been called as a begotten Daughter, entrusted with a divine assignment for her time.

That fulfillment began to take visible form in 1960 through the Holy Wedding of True Parents. Their union was not simply a marriage; it was a providential covenant restoring humanity back to the heart of God and opening the way for families, nations, and generations to walk in what? In true love.

From that foundation, the Holy Marriage Blessing has gone forth to many, many, many nations, including that of our previous speaker who performed it in his beautiful country of South Africa with over 200,000 people present,

Bishop Nancy Rosario of the Church of God's Children offering her congratulatory message

while True Mother gave the Blessing. Amen! And this Holy Marriage Blessing is calling families into covenant with God, restoring the sacred purpose of your love, and establishing the building blocks of peace for generations to come. And that generation is your children, who will come after to receive your blessing.

So today, we honor True Mother, Hak Ja Han, the entrusted one, whose life stands at the center of this continuing providence. She has walked a path marked by faith, endurance, and an unwavering devotion to God's Will. She has advanced the providence with bold clarity, proclaiming Cheon Il Guk, establishing the Heavenly Parent's Holy Community, and calling humanity beyond the boundaries of religion, nation, and culture into a unity.

Even now, as we are all here in the face of misunderstanding and opposition through all their lives, her call has remained consistent: she has never wavered from her mission. She says, "Not division, but alignment with the covenant of God's kingdom on earth."

And we recognize this as more than a moment to observe. This is a history for each and every one of you to understand. Now, just as some of us study the lives of Abraham and the twelve tribes of Israel, you now have a new commitment. So we too must study the history of the Han family, not casually, but with spiritual discernment. That is your duty from this moment on. And the reason

for you all to study the history of the Han family is so that we may recognize the movement of God in our time, in your time, in your children's time, and align ourselves—align yourselves—with that history

And now, we stand in a new era. The Entrance into the Cheon Il Sanctum of Cheon Won Gung doesn't mark just a place, but a reality that Heavenly Parent is dwelling among God's people. You see, the Kingdom is not distant. It is here. And it is advancing!

Today, we stand not only as witnesses, but as participants.

And so we align ourselves with Heaven's purpose. We align with the call to unity. We align with the covenant that invites all humanity into one—one!—family under God.

On this historic occasion, we especially honor True Mother. As it is written in the Book of Esther [4:14], "Who knoweth whether thou art come to the kingdom for such a time as this?"

Well we now know that she has come to the kingdom for such a time as this! Yes. We recognize Mother Han as the entrusted one in this generation, a chosen vessel carrying a providential mandate to advance Heaven's work on the earth. And now that continues to be your

responsibility today.

And through this work, a call—her call—has gone forth across the nations:

And you know what that call is? That call from her heart to yours is: She says, “Come, all who are divided. Be made one. Come, all who are scattered. Be gathered.” She says, “Come, all who are searching. Be restored as sons and daughters of the Most High.” And I thank God for being one of them.

So today, I tell you, we are not merely celebrating. We are recommitting our lives.

We recommit ourselves to the work of peace. We recommit ourselves to lives of true love. Each one of you has been brought here with the objectivity of true love and pass that on to your children and to your children’s children to build a legacy—the legacy of Mother Han’s calling.

We recommit ourselves to unity in a divided world.

And in this sacred moment, we lift up, with all of you, a prayer of prophetic intercession:

“Heavenly Parent, Sovereign Lord of all creation, we acknowledge this appointed time of fulfillment. Let every nation align with Your divine order. Let every heart be awakened to the reality that the gates of heaven are open. We declare that what has been spoken in accordance with Your will shall be established.”

We speak restoration over families. We speak healing over all the nations. We speak unity where there has been division.

And today all of us will boldly declare: The era of Cheon Il Guk is not coming. It is here! The kingdom of heaven is not distant. It is unfolding right before our very eyes!

And to True Mother, we say, praying that she will see this:

“Thank you. Thank you for your unwavering faith. Thank you for your victorious love. Thank you for leading humanity into a new dawn.

You have carried Heaven’s burden. You have walked Heaven’s path. And you have opened a new season for humanity.”

Let the earth hear it. Let the heavens bear witness:

The gates are open. The kingdom is advancing. And Heavenly Parent is dwelling among the people.

So congratulations, congratulations, congratulations on this occasion, this beautiful day of remembrance, because it is the day of their 66th Holy Wedding Anniversary and the First Anniversary of the Cheon Il Sanctum – God dwelling within us.

May Heaven continue to guide and strengthen this providential mission through all of you.

Thank you for making Mother’s heart uplifted and joyful today. Blessings to all.

God bless you.

We have been running now for 44 years, and today you are receiving the baton. Good luck! We're on the same team and it's God's winning team. Congratulations!

The Era of Connecting in One Second: Opening New Media Horizons in Cheon Il Guk

– HJ PMC Connects the World, Moving Beyond Simply Recording and Reporting on the Providence to Providing a Narrative of Deep Emotion and Shared Resonance

Creating a Providential Sphere through the Instruments of Modern Civilization

The flow of human history has always moved in step with technological progress. In particular, today's advanced digital media is more than a tool for transmitting information. It plays a decisive role in shaping public consciousness and culture.

True Father foresaw this reality early on, stressing: "We must safeguard and prepare our young people through the realm of visual media, which leads the cutting edge of contemporary thought" (December 26, 1992, Hannam-dong). True Mother likewise clarified the mission of media, declaring: "In this era of instantaneous connection—where every convenience of modern civilization is at our fingertips—we must create an environment in which all humanity can attend Heavenly Parent" (October 8, 2023, Hanhwa Gung, Las Vegas).

In response to this providential call, HJ PMC (HJ

Peace Media Center) is emerging as a center of reporting and archiving providential events. It gives tangible form to the words and heart of True Parents and spreads this substantial content, resonating with their heart, to the world.

The Evolution of HJ PMC: From Function to Content

In the past, HJ PMC's role was largely centered on recording and archiving events, along with the delivery of information. Today, however, it is realizing a future-oriented vision as a comprehensive professional media institution.

At the heart of this transformation are storytelling and a multiplatform strategy. Moving beyond straightforward reporting, HJ PMC now creates narratives that inspire emotion and empathy while communicating dynamically

HJ Global News, which delivers our global news in eight languages, and True Peace Magazine, a monthly magazine featuring in-depth feature articles and contributions from the mission field.

with audiences around the world through new media channels such as YouTube, social media, and webzines.

In particular, the production and distribution of HJ Global News in eight languages has become a powerful driving force to potentially break down barriers of race and nationality and connecting the world’s 8 billion people into a single “providential network.”

Meanwhile, *True Peace Magazine*, published in a monthly magazine format, goes beyond the fragmentary delivery of global news by offering feature articles based on in-depth reporting, which accompany True Parents’ words. Through these efforts, TP Magazine plays a leading role in fostering qualitative growth in both mission work and spiritual life.

Core Initiatives for Strengthening Competitiveness and Cultivating Talent

Four key initiatives being advanced by HJ PMC as it grows into a fully professional media organization deserve particular attention.

First and foremost is its contribution to mission and witnessing efforts. To help both the general public and inactive members naturally connect with and resonate

with the vision of the Family Federation, HJ PMC produces and distributes high-quality content across a wide range of genres, providing practical resources directly to the mission field, including videos of True Parents’ words, documentaries featuring senior members, promotional content, and holy song playlists.

At the same time, HJ PMC is focusing on strengthening the global competitiveness of its content. Through immersive and multidimensional visual storytelling, the center has vividly portrayed the life course and achievements of True Parents. In particular, by re-creating historic moments of victory—such as the Entrance Ceremony into the Cheon Won Gung Cheonil Sanctum—through more than 600 video productions, HJ PMC is cementing its place as a leading force in the era of providential visual media.

HJ PMC has also devoted significant effort to strengthening workforce capabilities, the foundation of organizational excellence. To proactively respond to rapidly changing media environments both internally and externally, it has actively identified and recruited specialists in AI and advanced visual technologies. At the same time, through its “Media Academy,” HJ PMC is cultivating capable people for the future and building a

HJ PMC’s Media Academy training young media specialists

strong human resource infrastructure in preparation for the era of the three-generation realm

Finally, HJ PMC has established a systematic and efficient organizational management model. Through a transparent administrative support system, it has maximized the effective use and providential value of mission resources. On this foundation, HJ PMC continues to develop sustainable media strategies that enhance the organization’s long-term value and future potential.

The Entrance into Cheon Won Gung and Global Expansion

The recent achievements of HJ PMC are notable. In addition to taking full responsibility for filming and producing the videos shown during the Commemorative Events of the 66th Anniversary of the Holy Wedding of the True Parents of Heaven, Earth, and

Humankind and the First Anniversary of the Entrance into the Cheon Won Gung Cheonil Sanctum, HJ PMC also provided on-site coverage of major providential milestones—including the 2025 Entrance Ceremony into the Cheon Won Gung Cheonil Sanctum, the world tour of the Inheritors of Heaven’s Love and Blessing, and their nationwide church tour throughout Korea—delivering the vivid reality of the providence to audiences in real time.

Most notably, HJ PMC’s YouTube channel recorded approximately 11.35 million views and 9.85 million impressions within a single year, providing clear evidence of the far-reaching influence and communicative power of media.

The rapidly changing media environment and the ever-evolving realities of the providence demand faster communication and closer connections than ever before. In response, HJ PMC is embarking on a new leap forward through the launch of the new-media webzine

참부모님 말씀 사람들 뉴스 아카이브 커뮤니티

HJ PMC camera teams documenting the action of the providence to be posted in the withU webzine (www.hjwithu.com)

platform withU (www.hjwithu.com), designed to enable communication unrestricted by time and space.

Through both in-depth feature articles and real-time news coverage, withU instantly shares vibrant stories from mission fields around the world. Furthermore, by collecting and disseminating news from affiliated organizations and institutions, the platform seeks to break down barriers between providential organizations and serve as a central hub for organic communication and information exchange.

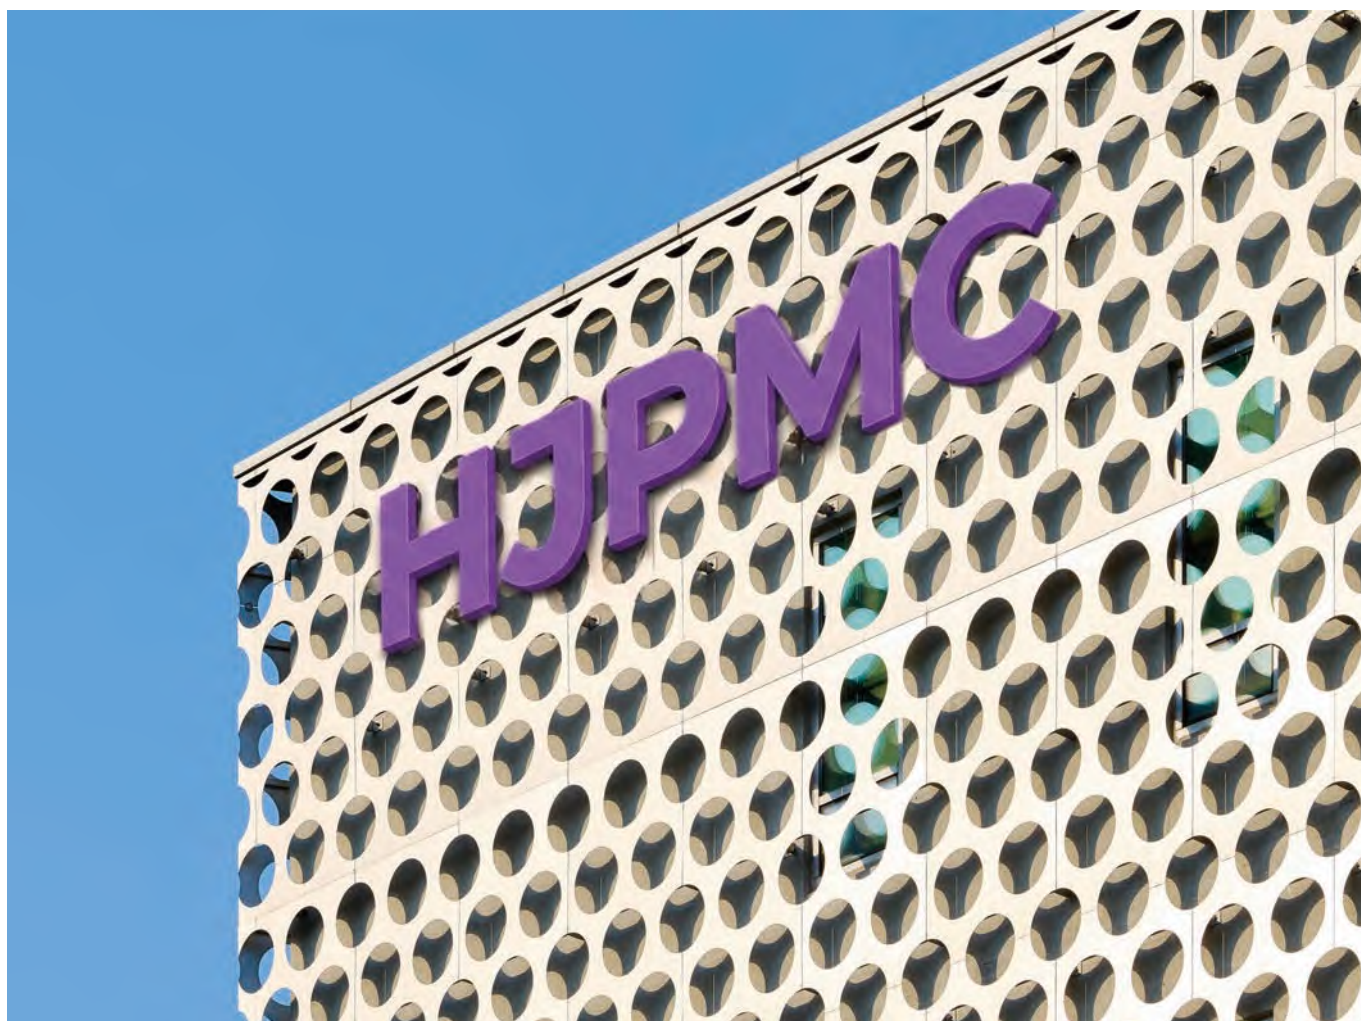

HJ PMC is confident that the withU webzine will become a vast online gathering place where members across the world can breathe together and share each providential moment, centered on True Parents, while experiencing the same grace and inspiration.

HJ PMC's vision is clear: to spread the vision and words of Cheon Il Guk worldwide through media content. Through its webzine service—delivering news swiftly across the boundaries of time and space—and its multilingual news production system, HJ PMC serves as

a vital spiritual bridge helping members around the world align their hearts with True Parents.

Today, visual media is no longer just a tool for delivering information; it has become the very “substantial environment” in which humanity lives while attending Heavenly Parent. Every piece of content created by HJ PMC embodies True Parents' incredible love and unwavering commitment to the salvation of humankind.

The new horizon of media providence that HJ PMC is pioneering will continue to expand tirelessly until the day when all of the world's 8 billion people realize the dream of One Family of Humankind under God.

The Cheon Il Guk Culture in the New Era that Holy Mother Han Has Opened

Song of Han Emerging from a Land Steeped in 6,000 Years of Longing

The following contributed article commemorates the first anniversary of the Entrance into the Cheon Won Gung Cheonil Sanctum, reflecting on the providential significance of the era of "Holy Mother Han." The Cheonshim Cultural Center highlighted how Heavenly Parent's dream has borne fruit through True Mother's life and her path of hyojeong (filial heart). The musical *Song of Han* demonstrated how art can become the language of faith, serving as a stage that reveals communal love. This month's contribution from the Cheonshim Cultural Center carries a profound message: that we must all practice the life of true filial sons and daughters, writing together a new culture for Cheon Il Guk alongside Holy Mother Han.

The Significance and Providential Outcome of the First Anniversary of the Entrance into the Cheon Won Gung Cheonil Sanctum

"Heavenly Parent, the Creator and Master of the universe, today we have finally reached this unique day, after You patiently endured and waited for 6,000 years due to the Fall. Heavenly Parent, we thank You. We offer our profound gratitude and our humble apologies.

Now You are truly the rightful Master of this earth. Our second, third, and fourth generation, the Pure Water, born of many blessed families who exist because of True Parents, are going out into the world to proclaim the vision of Your earthly kingdom across the land. From this day forward, Heavenly Parent, please embrace and love Your children with all Your heart!

This world will now gradually be set in order under Your dominion, and a world of one family of humankind attending the Heavenly Parent with true love will surely unfold. In the name of Holy Mother Han, I proclaim to the world that the gates of Heaven, the gates of God's kingdom of Cheon Il Guk, are now wide open."

(True Mother's Message at the Entrance Ceremony into the Cheon Won Gung Cheonil Sanctum, 13 Apr 2025)

Last April, as the sun broke through and the rain stopped on a cold spring day, one scene became deeply engraved in our hearts. We remember True Mother's earnest proclamation resounding through the Cheonwon Gung Cheonil Sanctum—a voice that brought to an end 6,000 years of waiting and stood as the radiant fruit of providence, finally making it possible to attend

Heavenly Parent on this earth.

From the very beginning, Heavenly Parent's dream was to live together with all humanity as one family, building the kingdom of heaven both on earth and in the spirit world. Yet throughout the course of history, humankind never fully came to know the profound love of Heavenly Mother, hidden behind the name of "Heavenly Father."

Because of the life course of True Parents, who became completely one with Heavenly Parent and achieved victory—Heaven's earnest dream—which for so long had remained unrealized, was finally able to bear beautiful fruit.

Two months before the Entrance Ceremony for the Cheon Won Gung Cheonil Sanctum, True Mother shared, "Because Holy Mother Han and Heavenly Mother have become completely one, I pray under the name 'Holy Mother Han.'" This was a precious moment, revealing that Heavenly Mother, who had long remained only a conceptual presence in our understanding, had become fully one with True Mother and had drawn near to us with tangible warmth.

Now, Heavenly Parent, our Creator, dwells fully within our lives as the rightful Owner and Parent of this earth. True Mother has dedicated her entire life with utmost devotion to fulfilling Heavenly Parent's dream. Her noble life embodies Hyojeong—the heart of filial love and devotion for Heaven—which we must all cherish and strive to reflect.

This year, as we commemorate the first anniversary of the Entrance Ceremony, Cheon Won Gung has become a loving environment where Heavenly Parent can warmly

embrace all people both spiritually and substantially, and a sanctuary where blessed families throughout the world can always find comfort and rest for their hearts.

At the center of this fruition lies the poignant story carried through the Han people of Korea. At last year's Entrance Ceremony, the musical *Song of Han* conveyed the grand providential epic of the chosen Han people through the communicative arts. Through the performance, the indescribable heart of Heavenly Parent, who has watched over this land since the dawn of creation, finally permeated our hearts.

A Cheon Il Guk Culture Where Art Becomes Faith and the Stage Becomes a Holy Sanctum

"The songs of praise born of the Christian cultural sphere of the past will no longer suffice. This is Cheon Il Guk. This is a new history. . . . Through the only begotten Daughter, True Mother, the conditions have finally been established for the Creator, our Heavenly Parent, to be attended on this earth. Now, we shall attend upon Heavenly Parent. This signifies the completion of the providence, a new history, and the dawning of a new day. With what melody, what song, and what lyrics should all of humanity offer tearful praise and

gratitude?" (True Mother's Message, 31 Aug 2024)

"First of all, the joy welling up from one's heart must be expressed through the body. This expression can take the form of dance, song, or painting. It must not remain a feeling kept to oneself; it must be something all can share. Creating such a world is the dream of True Parents."

(True Mother's Words 6 Jan 2017, Cheon Jeong Gung)

At the historic moment of the Entrance into the Cheon Won Gung Cheonil Sanctum, the language True Mother offered us was none other than "art." For a long time, we may have learned and taught the truth through spoken words and written text. Yet there are times when a single melody quenches the thirst of the heart more deeply than a hundred words of explanation.

The musical *Song of Han* has become a beautiful precedent of the art of *shimjeong*, the art of expressing Heaven's deep heart and emotion, giving visible form to the unseen sorrow of Heavenly Parent through bodily movement, and sublimating that bitter grief into praise. The original form of the only begotten Daughter, "Holy Mother Han," who came to our side after 6,000 years of waiting, has now begun to be conveyed to the world through art.

A poignant moment in Heaven's majestic providence captured through the language of art

**The Filial Devotion of a People
Who Answered the Call:
The Han People Carrying Forward Heaven's Dream**

"Since before the creation of the world, I have awaited the Mother of the Universe."

From the musical *Song of Han*: "The Mother of the Universe"

This phrase, which opens the prologue of the musical, reminds us that the history of our people dwelling within the Korean Peninsula is by no means a product of coincidence. Long ago, the Semitic peoples crossed rugged mountain ranges and hastened eastward toward the rising sun, guided by one purpose alone: to prepare for the coming of the only begotten Daughter in the land promised by Heaven.

"Though we do not know the path we walk, with steadfast faith we press on eastward, until we reach the blessed land prepared by Heaven." – From *Song of Han*: "To the East, To the East"

"Having at last reached this land after the passage of

an unfathomable period of time, let us offer our prayers to Heaven in gratitude for this grace." – From *Song of Han*: "We Are the Chosen People"

The character of the Han people, who preserved their purity through every trial and fulfilled their duty of attending Heaven, was, at its core, an earnest filial devotion seeking to understand and honor Heavenly Parent's deepest longing. The eastward journey of their ancestors was likewise a path of fervent filial heart, undertaken in obedience to Heaven's call to prepare for the coming of Heaven's representative. Beholding that unwavering devotion, Heaven at last bestowed upon this land God's most precious fruit: the only begotten Daughter.

Voices Consoling the Heart of Heaven

The true highlight of this musical was the overwhelming resonance of the 1,000-member choir, whose voices united those in the audience and on the stage as one. As a thousand voices rose in perfect harmony to fill the hall, the sheer majesty of the moment awakened the sense that we, too, were walking together with Heavenly Parent along the providential path.

"The pure filial heart of the Korean people was prepared over thousands of years, and at the conclusion of this lengthy providence, the only begotten Daughter, Holy Mother Han, appeared."

Amid this majestic chorus, the pure and radiant performances of the Youth Camp members filled the stage with hope. Watching these young people sing of Heavenly Parent's life—quietly persevering through the long course of the providence—became a tender consolation that gently embraced Heaven's aching heart.

Ultimately, The Song of Han was a hymn sung with the heart of filial children. The harmony of 1,000 blessed members joined together with the younger generation revealed that the providence is not fulfilled through the sacrifice of any one individual alone, but completed when all people unite and participate in love.

Beyond the Stage and Into Our Lives: Co-Authoring a New Cheon Il Guk Culture Alongside Holy Mother Han

"You should experience on this earth the life of filial sons and daughters and loyal subjects—in which your thoughts are one with Heavenly Parent's thoughts, and you discern and fulfill what Heavenly Parent desires of your own accord. . . . I am the only begotten Daughter, True Mother, who strives and waits, longing for the day when Heavenly Parent's dream is fulfilled through you, and we can spend all day, for days and years together with Heavenly Parent, offering gratitude

and songs of praise. Will you help me?" (Excerpt from True Mother's words at a special gathering of future leaders at the Cheon Il Guk National University, 27 Jun 2020)

This assertion within True Mother's words serves as a compass for our lives, as shown through *Song of Han*. Through this stage, we could see that true filial devotion is the practice of love, seeking to discern the deepest heart of the Parent and joyfully going in search of what the Parent desires.

"When we bear witness to the Mother of Peace across the world, all people shall become true children." – From *Song of Han*: "The Mother of Peace"

True Mother told us that just as she came as the only begotten Daughter to resolve Heavenly Parent's deep grief, she asked that blessed families too become "true children" who wipe away Heaven's tears.

As we mark the first anniversary of the Cheonil Sanctum, our daily life in Cheon Il Guk truly begins. It is our hope that in each of our lives, attending Holy Mother Han, the warm culture of Cheon Il Guk will blossom in which we love and cherish one another. 

The sound of a thousand magnificent voices, including many from the younger generation, comforted the heart of Heavenly Parent who has endured throughout the ages.
