PREPARE

No. 21

Stay close, stay very close. You will need me more and more in days to come. Maintain an inner serenity and be prepared for anything in your physical world. Time is getting short. The tempo of activities is increasing. Stay quietly with me within, and I will give you the resources you will need. The storm is building and will soon break. Be prepared. Remain calm and trust in your protection, your guidance, and your deliverance. Fear nothing, least of all 'death'. I know my own and will not lose them. You have been chosen, each for himself, to accomplish my will. Let no negative action disturb your tranquility. You will know your mission when your time comes. Meanwhile, prepare yourselves with me, each in his own way. Look to me for guidance, remember our objective, and ignore the unimportant. All things now are in my hands. Only those things will happen which I permit. Remember this! Only your deliberate disavowal can now take you outside my will. Rejoice, my children! The Kingdom has come and we will soon be one. The world may shake, but Heaven stands!

(The above message is the latest one received through Mary Fleming.)

* * *

Living in the Kingdom

March 14, 1964

When I tell you not to follow the guidance of spirits, I mean only those spirits who are not higher than you in their spiritual maturity* Of course you are to follow spirits. Whom else do you have to follow? Is not your Master a spirit? Your Mother, is she not spirit? There are many who have preceded you into Perfection. You would be foolish not to listen to them, for they know the way. They will guide and lead you to Me, and sometimes their guidance will be through thorny paths. But it is you who separated yourself from Me and if the way back lies through pain and shadow, know that I am at the end. Of course follow the guidance of spirits, only make sure they are in My service. If your will is only to do My desire, the spirits which you are contacted by will only be those sent by Me. This is your greatest protection. Indeed, it is your only protection.

The Kingdom of Heaven on earth. What does this phrase mean to you? Are you realizing its truth in your own life? Here and now? You are only partly right if you say it cannot exist until all are in it. It cannot exist in its ultimate fullness until every soul in the heavens and on earth is a part of it. But where does it start? And where it has started, does it not then exist?

But, you say, you are inhabitants of the Kingdom of Heaven, yet your external lives do not reflect it. Do they? What, then, has been your idea of the Kingdom of Heaven? Peace? Ease? Rest? Contentment? The fulfillment of your every desire? From whom did you receive such a picture?

If you have reckoned the Kingdom of Heaven to be the Psalmist's green pastures, you have failed to understand the remainder of the psalm. To have one's soul restored, to become whole, requires submissiveness, though not passivity. To be led in paths of righteousness implies action. Note that immediately following is the valley of the shadow of death - for so it is, but only in appearance. Shadows have no substance. They are not the reality. And have we not told you of your protection? There can be, then, no evil to fear. You eat, sleep and drink in a satanic world, completely surrounded by God's goodness and mercy -- at the table of Love in the presence of enemies. Look up this instant and see the great and shining Dawn which surrounds you. Then dare to say you still dwell in darkness!

Why then are you not able to perform miracles? Why do you still feel divided? Why can you not see spirits, speak in divine tongues, prophesy, and cast out demons? But you can! Look beyond! Don't set your sights so low. Seek first the Kingdom of God and His righteousness. Did I not tell you the Kingdom of God and the Kingdom of Heaven were not the same? Your goal is not the Kingdom of Heaven. You have already reached that. God is your objective. With Him, all things are possible. With Him whatever you seek will come to pass. It cannot be otherwise. You cannot be with Him if you are not seeking His Will. And His Will is that you be perfect, whole, undivided. Do not pause to worship at the shrine of spiritual gifts. They will come as you progress, naturally and without strain.

This does not mean you should not remain perceptive. You already have gifts of which you are not aware. You have been given signs which you, in your ignorance, decided were not to be trusted. Your problem is that you expect spiritual things to manifest physically. They

do, but not as you would expect, You are pre-judging that of which you have no true knowledge. Your wisdom has been dulled by falsity given by the world in which you have found yourselves. Become as little children. Discard your preconceived notions of truth, and let God work with you to teach you His Truth. The ways of the world are not His ways, It is the world who did say Jesus must be crucified as a dangerous heretic, then reversed itself to say that that was his mission on earth. It was the world who proclaimed themselves God's children, and killed those who disagreed. The world's life is spent in justifying its own evil, in deceiving itself that it is doing the will of our Heavenly Father. It is the world of Satan that has convinced you God's will is pain and punishment. Be not deceived. God's will for you is perfection. He will not rest until you have achieved it,

Low Periods

March 22, 1964

Do not assume that your low periods, your periods of depression, your spells of irritability, anger, frustration are all of Satan. They may be, of course, but it is more likely that Satan's attacks would affect those around you rather than be a direct and obvious attack on your spirit. It is far more likely that such periods are a result of your own conscience.

For many years you have been talking and acting like a child. Your recent spurt of growth to maturity has made you aware of discrepancies. As a result, you cannot now continue your childish ways without some reaction from your sensitive conscience. Rejoice in these periods for it means that you are maturing. Search your life to see why you are being so afflicted, and make haste to correct your ways. It is true that it is easier at such times for Satan to insert himself. But if you are aware of the real cause of your trouble, that it is a sign of your spiritual maturity, you will not allow him the opportunity. Discover what it is you are not doing that you should be doing, or what you are doing that you should not be doing, and your life will glow again. Live always in the presence of our Heavenly Father, follow the dictates of your conscience, and you will not fail.

Physical Vitality

March 24, 1964

While it is true that the spirit-man receives vitality from the physical body, it is also true that the lack of the physical feeling of vitality may be evidence of spiritual activity, assuming health to be established. It is what we call the night of the spirit, when spiritual gifts are often endowed. You are sight to attempt to increase your physical strength and well-being, for by so doing the spirit has more to draw on. Assuming the physical body to be essentially healthy, however, do not be dismayed at the sapping of your strength. Your spirit is growing. You are being prepared for greater awareness.

Keep in mind the word 'balance' when you deal with restitution. The all-important factor is to keep your mind and heart firmly upon God. Do not give Satan the power of your thought. This leads to give and take. The severity of your restitution depends on many things, not the least of which is your attitude toward it. Restitution in itself is not the goal, but merely the means to your goal. Your mission, your love and your faith are all important factors in the type and amount of restitution to be paid. Therefore, it is an individual matter. You cannot walk in another's shoes,

Not Without God

March 28, 1964

It has been some time since I scolded you, but I intend to do so now. You are paying too much attention to externals and not enough to your spirit. It matters not whether you manage to justify this course of action. The fact remains for whatever reason. How do you propose to spread the truth of the Kingdom of Heaven if you yourself do not dwell therein? Are you of the opinion that people are swayed by your words? Our work would be simpler if this were so. But it is not. You overlook a very important fact. People are spirit, and as such they are persuaded more by their spirit than by material appearances. It is your spirit which must appeal to their spirit.

Why do you think we have deemed it important for you to cultivate your spiritual senses? Simply to satisfy your curiosity? or to enable you to observe phenomena? Don't be naive! These things are commonplace. They are as mysterious as a knock on the door and as easily answered. What is important is your ability to discern, and by so discerning, appeal. Have you not wished to know the spiritual development of your listeners so that you might use greater wisdom in teaching them? How can you do this if you yourself are not mature?

Knowledge is not wisdom. Your knowledge of natural law and science has not prevented you from using it unwisely. Likewise, your knowledge of spirit matters does not mean you are capable in your spiritual judgments. Wisdom comes only from God, and if you spend little time with Him, you have little wisdom.

Your excuses are lavish *in the extreme!* There is a truth which you should know about yourselves. Your actions at all times follow your heart. *Whatever* you do or do not do at any given moment is the choice of your own will and desires. Our Father seeks first your love and attention. Even doing work for Him is secondary. If you are not dwelling in His Presence, you are not with Him, no matter how you seek to justify your absence. You say you long for results in your work, yet you fail to do the one thing which will assure success. It is important that you learn and teach, but not *without* God. It is important that the word be spread, but not without God. It is important that you mature, but you can't *without* God. If you lack response, you are reckoning by your own *knowledge*, not by the wisdom from God.

People respond by their spirit to *you*'s spirit, and if your spirit does not inspire them, they will not respond. If your attention is fixed on *externals* first, *theirs* will be also. Since this is frequently their state in this satanic world, you are showing them *nothing* with which they are not already familiar. You must, by your own spirit, exhibit the better way. You represent God who is all Love, all Wisdom, all Joy. Does your spirit reflect this?

This *cannot* be done falsely, and if you're attempting it you will fail. *If* in truth, you are ^{not} what you profess, you are in sin. Banish falseness and *dishonesty* from your lives. Avoid pretense as you avoid all appearances of evil. Cultivate honesty, *purity*, and above all live with your Heavenly Father who will bless you with wisdom, judgment, a love. Only by the establishment of the Kingdom of Heaven within yourself can you *witness* to it, and only by *living* with our Beloved will His Kingdom come to pass on earth.

* * *

News from Washington, D. C.

March 23, 1964

Alexa Altomare

Dear Family: Col. Pak sends his personal hello to you in S. F. On March 28, 1964, there will be a National Karate Championship held *there* in Washington. Mr. Rhee is the chairman of *this* championship and actually it is a Divine Principle endeavor because we are using all the money from it towards an operation for Mr. Yoo, the Chief Disciple, so that he can walk again. Karate experts from all over the U.S. are coming to participate in it, so we are praying that many people will buy tickets to see it. It is interesting to note that Mr. Rhee, as you may know, is noted for his "flying kick" with his right leg. His flying kick is *practically* unsurpassed in the Karate world. The principle of *restitution* is really working in this tournament because it is Mr. Yoo's right leg which does not function - "leg for leg."

Last night at our regular Sunday meeting, we had a new member join us named Bill Walls. He heard the Divine Principles just the day before from Richard Wood and is now one of our most dedicated and dynamic "*core*" members. There are many ready ones -- all we have to do is find them. He was really ready. After the lecture, he gave a powerful witness which moved the newcomers and uncommitted members and which particularly moved us, the regular members. The Divine Principles is just wonderful beyond words to have the power to change a quiet, polite and humble Marine Corp Corporal from Tennessee to the vibrant, zealous and committed Divine Principle soldier that we saw last night. He has found a real war to fight, he has found the "True Army", he has found the greatest battle to ever *be* waged, a fight to the death. In Our Lord and Father's Precious Name, Alexa Altomare.

March 24, 1964

Bill Wall

Dear Family: The realization of the Divine Principles has proven so much to me and has given me so much to be thankful for and to live for. Now I have found a place where I can express my true feelings, openly, to people and know that my words are justified by the Divine Principles. I totally believe in the Divine Principles and I was ^{*}to learn all I am capable of about them so that I might be a true soldier of them. I will *devote* the rest of my life to helping to bring to the rest of the world what so long has been needed, Truth through the Divine Principles. I am *anxious* to learn more and more about the truth of God.

I owe so much to my very *uncommon* friend, Mr. Richard Wood for giving me his time and hospitality when he first presented the Divine Principles to me.

Isn't it wonderful feeling to be able to see in the near future a restoration of the whole world. I know God is filled with pride to see such a strong army of willing and able people, ready to spread His Word for Him. May our most gracious Heavenly Father be with you all.

Mrs. Myrtle Hurd

March 18, 1964

Dear Miss Kim and Family:

One of the most gratifying aspects of being one of you is *sharing* our experiences. I enjoy your letters and so it is our wish to *return* the pleasure. I feel more alive than I did at

twenty-one, because I am grafting myself to something eternal, Our Blessed Lord's truth and leadership,

The sun is brighter. The song of the birds is sweeter, the flowers more beautiful and my fellowman is more visible and audible than ever before. This love for mankind is not and should not be an exercise just for the eradication of self-love. It is an awareness that each is a child of God with possibilities of complete restoration or complete destruction. Much depends on us. I do not have the sure formula for winning one over to our side, but often it involves sacrifice, the type in operation in Genesis 22. Mt. Moriah was steep and rocky and heartbreaking, but it proved a principle and a miracle followed it,

In December I had a dream of an orchard after a storm of rain and wind. The trees were almost bare but the earth was literally covered with beautiful golden apples. In my dream I told my companion that we must find help to gather the apples, because they were still good. All of us know the meaning of that dream, so I intensified my effort to find the harvestors. (We have found two wonderful harvestors - Ray and Marie Howell and their family. We meet once a week in their home,)

I wonder if you too are sometimes awed by the responsibility of this call. We have been equipped with the wisdom and insight to see this truth. We are given the grace to have it fill us with such depth of conviction. There have been times I did not rise to the occasion and suffered for it. The difference is, by meeting the challenge, we risk suffering for God who has been suffering for us too many centuries already. By failing, we suffer for nothing.

March 31, 1964

Mrs. Myrtle Hurd

Dear Lambs, Heavenly Serpents, and Doves:

All of us in the Washington area surely enjoy the Newsletter. I have read it over and over. Since I found out whose teaching the Divine Principles is derived from, I have hungered to hear it as Paul must have hungered to hear the disciples talk about Jesus. I can't seem to get enough of it. It is impossible to define the emotion in all its depth that encompasses a person who has such elation, joy, strange agony and heavenly experience. I know it will change the world -- Why? Because you arrive at a point when you can't stand the world as it is, so you are compelled to try to change it -- at least your world, your relations and friends. There is such an awareness of all that is wrong. We have long been trying to deal with problems separately when they all have the same source, our separation from God. How little we have understood Him and Jesus even less.

Our teacher, Col. Pak, is constantly giving us wisdom and light. How dear that family is to us. At first I thought it was because he is extraordinary, and he is of course, but Miss Kim does the same thing for the West Coast group. So it is Our Blessed Lord that we all have to give the most love and gratitude. It is His struggle, His love, His truth, that is the source of all our good fortune to have this great blessing. We must find a way to open the heart of the world, for a King has come unto us in all the fullness of victory and glory.

The tide of history is moving fast, and it will deal harshly with those who would try to dam it up or refuse to move with it. So blessed are we who know this so well. We have daily assurance of this; and the world is waiting for it,

But what problems we have when we try to give it to them! We have to make them understand that we cannot worship dogma any longer, that we are not really responsible for what we have believed in the past. Our separate religious inheritance left us little room for free thinking on the subject. As one man pointed out at one of our meetings, our former doctrines were "voted". Who knows what narrow minds and deceitful hearts had a part in that "voting."

Yet when we say these things, we are met with icy stares and called "heretics!" God cannot speak to a closed mind and heart. If their heart is ready, an illumination from on high comes to them.

One thing I love about the Divine Principles, is its vindication of God, Our Father. We have been giving Him attributes in the past not even befitting a mortal man. Satan could easily have a field day on the unjust teachings that have been prevalent in most churches. Also the Divine Principles is so exact, more exact than any philosophy or science that I have studied.

I hope we can have a reunion and meet sometime. We would soon wear out our tonsils talking and having a joyful fellowship. I especially long to meet Miss Kim. Love to you all and if there are any new members reading this - Hang on. Don't let Satan throw you. God has a Mighty Counselor representing Him in His final custody suit. This time God will win.

March 31, 1964

The Washington Group

We of the Washington group, first of all, want to tell our brothers and sisters on the West Coast how truly and wonderfully inspiring your efforts and prayers on behalf of the tournament

were to us. It really is wonderful to know that even though our families are thousands of miles apart, our unity and brotherly cooperation is closer than that of the closest single family in the United States. This is undoubtedly a result of the unifying power of the Divine Principles. God is Great and He is Good to have so much love as to send us His Son to bring such light of brotherhood to the dark earth.

I know all must be interested in knowing the results of the tournament since all took such an active part in it. All went very smoothly and successfully. We felt that the presence of God hovered over the gymnasium and that the Spirit of Our Lord was there presiding over the event. One particular note is that in former Ambassador Yang's speech, he commented on the fact that the event was opened by prayer. He was most inspired by this and he said in his speech that this was the first time that an athletic event had been opened by prayer. The enthusiasm of the audience was also very heartwarming.

Thank you for the continuous prayers for our work. Ours are also always with you. Your True Brothers and Sisters, The Washington Group.

News from Texas

Pete Mancuso

Dear Family: Reading your letters and testimonies in the Newsletters is so uplifting. In Dallas, Gordon and I anxiously await the next edition of the Newsletter to hear from our Family. My thoughts are constantly with you. While I'm at work, sometimes Satan would attack and he would make me feel dejected, but then the thought of one of my family would come to my mind and a smile would automatically come to me, which Satan could not take away from me. Each day I feel more closely drawn to my family. For this I thank our Glorious Master who has made all of this possible. We have nothing to boast of, of ourselves. But we can boast of our Father, whose love made this family possible. Everytime I think of the difference in background and environment of our members, I know that it is only our one purpose that has made this possible, to glorify the Father and to spread the Gospel (good news) to all the world.

It is not exactly wisdom that I would like the world to have; it is not just mere faith that I would like to see the world have. For these, men have had (or so they think), but it is the LOVE which I feel for my family and most of all towards our Leader and towards our Father. For this alone (Love) would bring peace in this world. And only Love could bring about such a family tie as I feel towards my brothers and sisters who are united into one family by our Leader. It was He who suffered to bring about this family. We should not boast of what we have done, but what our Leader has done by the grace of our Father who has had a broken heart because of man's rebellion. It is the joy of this family that I would like to present to the world. But the only entrance to this family is to do the Will of our Father, which is the greatest of all, for this is the tie that binds our hearts together. This is the greatest commandment of all, as Jesus himself said, "You shall love the Lord your God with all your heart, and with all your soul, and with all your mind...and...you shall love your neighbor as yourself."

Beloved Family:

& Orah Schoon

From the Newsletter, I gather that there is much activity up S.F. way - good. It seems years ago that we were all together for Children's Day. The day came and went so fast, yet it is such a living memory. Memories of God's family and work are like no other memories.

We are fairly well settled here in Phoenix. Although we have been teaching to a number of groups here, our main prayer is to establish a regular meeting place. We feel certain that Father has prepared a place for us and we must continue to look and it will be found.

This past week was Rodeo week here and we went to the rodeo to witness. As we watched the events going on, we could not help but think and feel how foolish and lost man is - to put such an effort and great importance on such insignificant and unimportant events - to devote so much time and energy to something with no result, except a little anticipation, a lot of disap-

ointment and financial gain for a & by promoters. If only all this energy, work and enthusiasm were given to Our Lord., The Son, of God is walking among man on earth and they do not know! And even if they are shown, they would still rather see the rodeo! Still, we know through our Leader that though rodeos come and go, the Truth has come and all will see in due time. This is our work and we must do it quickly for the time is at hand.

Our prayers go out to you always and keep up the pace,

News from Los Angeles

Testimony

Peter Robinson

May I introduce myself to you - I became your brother on March 14th. When I received the Divine Principle, it was astounding to me to say the least, especially due to the fact that I had always allowed for discrepancy in my field of work which is electronic engineering, as well as in all things in life. I could not find a discrepancy in any way, shape or form in the Principle and this greatly disturbed me.

I came to the conclusion that this only could be from the Divine, and must be the ultimate truth, It was the only plausible explanation possible. I would like to share with you what I was inspired to write on the 31st of March, when I was awakened at 2 A. M. in the morning: "Behold all you sons of mankind. One who walks among you in raiment as simple as the farmer is the awesome witness to the Truth of Almighty God. Blessed is he who hath suffered the physical and spiritual remorse of mankind's separation from the Living God, endured the foulest existence to raise man from his bed of Satanic iniquity to direct presence with the Glorious Creator. Hosanna and Praise to this one Being of such strength and love who truly did "lay down his life for a friend," who's very name I am unworthy to recite, who's abiding love I have no right to bask in, who's perfection I have no claim to imitate, who's ideals are so vast as to encompass the earth with peace and understanding.

Seated on the earth throne, of God, ruling in magnificance and truth - already men pay him homage of Leader - Soon all men will know him as the Perfect; One, Prince of Peace, Father of Love, and cling to Him in passion and reverence, for He is the personification of the New Age - Love conquering all!" In His Blessed Name, Peter.

March 14, 1964

David Irick

Dear Family: Things are really beginning to move here in the city of the angels. We are meeting so many new people, especially through Anthony, Daniel and Marguerite Morales (brother and sister), have heard the Principle in its entirety and are now wanting to take it to Mexico. They attend our meetings quite frequently and are coming along very well. Zed Robinson has heard the entire Principle and is eager to study it intensely. Michael X. Barton is still attending the lectures with much enthusiasm. God has truly been calling these people.

Teddy starts his vacation today and will be doing a lot of witnessing on his time off. He and I witnessed in the park the other day and brought someone home, who, after hearing the Principle, thought that he was the Christ. This type of thing has been occurring more and more frequently in the past month or so. Erle Sevier saw our Leader in spirit and has moved in to study with us. He had attended the Baptist seminary in New Orleans for 3 years, but was not satisfied with their teachings and came to California searching for higher truth. We welcome him into God's Family.

Here's a note of special interest. About 2 months ago, Doris, Orah and I went to a spiritualist church. The minister asked Doris if she would give the sermon. Needless to say, Doris did. She gave them the Preface, emphasizing the importance of coming to hear the Revelation. When she closed in prayer, our Leader spoke. It was truly an exciting evening. Orah and I also testified to the group telling them to come and hear. But they never came, so Doris and I went again 2 weeks ago. This time she gave them the original sin. Everyone said "that was quite a sermon." If they only knew.

Let us continue pioneering the way for the new frontier. Each of us has a pulpit to fill in one way or another. Let's stop and search and seek God's face and know his perfect will. May our hearts rejoice, for God has come to the earth!

March 25, 1964

Doris Walder

Dear Family:

The time cannot go fast enough until God's truth has permeated deep into every heart all over the world,

The city of angels is just about ready to burst forth for God. It seems to me like a flower, that is opening one petal at a time. Doors are opening from every direction of this ninety mile square metropolis. We have increased our meetings because of the demand to

four nights a week, instead of two. We will not be satisfied though, until every night and day God's house is teeming with his children, listening to, and teaching his beloved words. I find that each time we speak his words, more and more power comes. How can the people help but feel the impact of this tremendous vibration throughout the entire city, when multitudes of spirits are picking up the good news and communicating it to many receptive and even non-receptive ears. Just the other day I spoke to a woman who has been receiving revelation regarding the New Age. She has a radio program which she calls "The Age of Adam".

Michael is doing very well and we have two new brothers living in with us, Erie Sevier from New Orleans and Jack Williams from Atlanta, Georgia.

There is an auditorium that is being utilized for New Age lectures. We are trying to start classes there once a week. Please pray for us in this endeavor. We are also contacting various small newspapers (foreign, etc.) My only prayer is that multitudes of people will respond before the Master comes and that many teachers will be prepared to teach the masses. The moments cannot fly fast enough, until our Beloved Mother returns! If we were all as steadfast and devoted as she, what a condition that would set here in America. I know it would change the hearts of our people in a twinkling of an eye.

Let us strive for this kind of devotion and surely God will bless our nation beyond our imaginations. Let our Master's words when he comes be: "You have done well my faithful and loving children and your reward is to be eternally one with the Father."

News from Berkeley

Dear Family:

Elke Klawiter

As I write this letter to all of you, many beautiful memories come to my mind. Memories which could never be fully expressed in words, -- The glorious feeling when I read for the first time in our Father's message and started to take my first steps into a new and unbelievable world. Meeting my real brothers and sisters and -- hearing about our Leader and his terrible struggle, and getting to know Miss Kim and being in her presence. Yes, we all have experienced and received wonderful things since coming to the Principles.

America is truly a great country--except for Satan!--who has divided everything from the smallest to the largest. But just as the new trees and fresh grasses cover the mountains and valleys with blossoms and green carpets in this beautiful springtime, so will our Father's Word throughout His land, and nothing will be able to stop His progress.

Without our Father, we are as a grain of sand--as millions of people are now--with no protection. But by doing His Will, we are protected as a shell would protect a grain of sand which grows into a beautiful pearl. How great and wonderful is our Father's plan for each and everyone of us, and how grateful we are to be allowed to follow our Leader.,

Germany, I feel, has to pay much restitution, therefore it is a privilege to be with the first ones who have already tasted and struggled with the stubbornness of these people. What a joy it will be when Paul, Christel and I can add even more strength and power to our family in Germany, so that we can go full steam ahead to find the ones who have eyes to see and ears to hear!

Through you, our dear Heavenly Father, we are all united, no matter how far or near we are from each other. Therefore, let us send our love and praise to our First Family in Korea. May each and everyone of his children grow rapidly and give joy and beauty to our Father,

News from Sacramento

Our Beloved Father, Miss Kim, Brothers & Sisters:

Paul & Christel Werner

After going through the turbulent war years, and finally the 4 years of war prison camp, I was very tired of anything that did not constitute my full peace and freedom. Our God seemed to have taken His hand off of mankind. Churches were diminished to almost nothing. Did we learn our lesson? I, myself, lost 2 brothers in the war. My parents had to flee twice, looking for refuge in West Germany, losing everything they had established during their lifetime. Besides me, 4 of my brothers were taken war prisoners for a length of time up to four years. Why all of this, was my question? God, our Father, had spoken to us in various ways. Did we listen?

In April, 1953, Christel, my wife, and I left a very disillusioned and wartorn Germany for a better future. We expected the fulfillment of our wishes in Canada. With our 6 month old baby boy, we came to Canada. Now we had so much peace, not even God disturbed us. On the end of a town we lived a very lonely life. During this period God put us through many tests. Did we understand? Did we learn? America was the promised land.

We entered the United States (Cleveland, Ohio) in 1957. Our God started a new dispensation for my family. First we had to pay indemnity for entering into our Canaan. My wife, hav-

ing 2 serious operations, was almost taken away, My son, Claus, was also very sick and was operated on. Finally, I developed a bloodclot in my leg and almost died. After recovery, God let us take (materially) a deep breath,

In November, 1961, we moved to Sacramento, California, where we anticipated the fulfillment of our materialistic dreams. God spoke to us throughout our lives in various ways. We had now received, physically, in fullness. What about our spiritual life? A longing for a deeper relationship with God, our Father, guided us through all these years, but our hunger could not be satisfied by the Lutheran or any other church that we approached.

Our preparation period in the desert came finally to an end.

WE WERE INTRODUCED TO THE DIVINE PRINCIPLES,

How could I accept anything so extremely revolutionary as the ultimate Truth? How could I let anybody speak of a Jesus other than the one I knew, and let him get away with it? What made my wife and I accept this Message?

Today I have the answer. Because It Is The Truth. It says, "And the truth will make you free"! Oh Father, we thank you from the bottom of our hearts that you have made us free - free of materialism, free of churches and their doctrines, free of people's opinions, but most of all free of ourselves,

America is so beautiful, so rich and so pleasant to live in, We have grown to love it and its people. We have seen its beautiful mountains and seas, the cities and cornfields. We are thankful for letting us breath the air of personal and political freedom. We are thankful for the years that we could call ourselves one of you, We are thankful for every helping hand that was stretched out towards my family.. We will always treasure you in our hearts, where we have a special place for you.. Above all those things that we appreciate so much, we have found something here in your friendly country that has a much higher value than money, beauty, and political freedom. Its value cannot be put into figures, It cannot be described with beautiful words. It is of everlasting value. The fulfillment of all hopes and dreams, the stilling of hunger and thirst. We have finally been reunited with our Father, from whom we have been separated so long.

Oh Father, how do we deserve Your grace? Why us? Why do You let us see what many great prophets and great men in the earlier times longed for and died for and could not see? Father, you have turned my life upside down. You have taken my material foundation from under me and replaced it by a foundation that is built, of blood and sweat and tears.

Father, I thank you for Your Son, our Master! He has endured the most! He has become the most in my heart! His greatness is taking a tremendous form in my life, in my heart! To have a real Father that; guides you with heavenly wisdom and love, that Pets you grow through His example to Perfection, to the oneness with You, God, our Heavenly Father! He has given us a real family, real brothers and sisters! I never thought something like this was possible. What streams of love come forth from Your followers, Your real family! This is the Kingdom!!! The Kingdom of our Father. Father, in you we have found our home!!!

Father, let us be thankful, Let us take this precious gift that we have received from You and show it to the entire world! Let everyone have a part in it! Let us bring mankind back to You, Let us help in a great way to establish your Kingdom on earth quickly, so that Your grief may be stilled, Your heart may be healed, Your tears may be wiped away! Father, give us Your heavenly power and wisdom, Give us the gifts, that we can use them as spiritual weapons, and most of all, fill us with Your Divine Love, now and forever!

Father, without You, we are nothing, With You we are like mountains, like a waterfall that ever seeks to flow with ever fresh water. Father, our hearts long for the speedy establishment of Your Kingdom, where Your Divine Love shall reign forever and ever!! We are now leaving for Germany and Europe, where we will do our part in Your great construction project to remodel the universe! We pray that we may be of great use to You and Your course, Let us pour the concrete, Your Word, quickly, so that Your house may be finished soon, and all mankind can live in it as one, Your family, with You as our beloved and rightful Father, forever and ever!

This we pray from the bottom of our hearts with every breath of our soul. Love, Paul and Christel.

Pauline Phillips

Dear Family: We are left with empty space here, With Paul and Christel gone - they took off at 8:00 A.M. They will be on the road for one month, so pray for them. Satan will work to hinder, as we well know,

When they left., I once again saw a prayer fulfilled and my spirit sang out., but I cried inwardly because I know every step will be a battle with Satan. Paul is very strong in the Principles and has a strong will, so he will go on no matter what happens. We have John's apartment fixed up and it looks nice, Now all we need is some people. Love, Pauline.

News from the Coral Sea

Dear Miss Kim & all the Family:

Jim Adams, U. S. Navy

I'm still waiting to see if the Divine Principle will be accepted by the ship's library. Chaplain Scott must decide this and he is reading the boob now. To portray his feeling: I succeeded in getting one "mysterious" card locked up under glass on a conspicuous bulletin board about ten feet from his office. The Chaplain received a letter which also was addressed to "all hands", so of course, he took a notion to tack it over our card, which he did. I've had personal contact with the Chaplain regarding the Principles and even asked if he could "stop" me from inviting qualified teachers, establishing meetings, and announcing them on the intercom. He replied, "Not legally." By the tone of his voice, he may try to do it illegally. Especially if he finds out we have occasional get-togethers in empty compartments.

Have I recruited a man who is willing to accept responsibility? This is what is important. Only one sailor from off the ship went to hear Edwin Ang's lecture. I'm growing faster of the necessity of just getting him in, as Satan has been very active. I hope he makes it, for this would be the first real evidence that anything is being done for God on this ship & the satanic forces are actually being subjugated.

I have been accused of putting a jinx on a record player which I consider church property. Three attempts were made, at my reluctance, to play other records besides the Divine Principles record. The needle skipped across the grooves like crazy on all other records, but ours worked fine and there's not a scratch on it. I said to Jonathan, "God wants us to play this record." He listened and put Al Jolsen aside. The strange action has been witnessed by the officers of our division. If they talk it up long enough, it will get to the right person that we have a record that's being "helped" by unseen hands.

News from San Francisco

Dear Family:

Pearl World

An exceptionally busy time is shaping up for the week-end of the 10th of April for the San Francisco Center. As you know, April 12th is Parents Day, when we celebrate our Parent's Wedding Day. On April 10th, Friday, Anthony Brooks will arrive at the San Francisco Airport at 10:08 A. M., United Airlines flight 720 from Seattle. There will be a lecture that evening and then we will celebrate the next day.

Lowell Martin (Oakland Center) after dedicating the meeting to our Father through prayer and songs, presented some exceptionally fine ideas to the group he chaired Tuesday, March 17th. An ad was agreed upon to be used in the yellow section of the phone book. Plans were laid at this meeting that made our bon-voyage visit to Sacramento on Saturday, March 21st, the great success that it was. In addition to the inspirational prayers, songs, and lecturing given for Paul, Christel, and Eike to take to Germany with them, we dedicated to God's use the apartment in which John will establish the new Sacramento Center.

Our loving prayers go with our travellers as well as those who stay to bless the new center. God bless you all,

A letter from Miss Kim, naturally was the highlight of the March 24th meeting conducted by Sandi. Among other items of business, it was decided that each individual would make an effort to place a copy of the Divine Principles in their neighborhood library. Herb closed the meeting with a most pleasant surprise; dressed as a Korean gentleman, complete from umbrella and paper rain hat to white shoes and socks, he showed the slides he had taken of Korea while he was stationed there. They were truly beautiful.

Aspecial prayer service was held Saturday, March 28th to give all our spiritual strength to the success of the Karate Championship match that was being held in Washington, D. C. From Colonel Pak's letter, the entire project was patently under Divine Guidance and most successful. We are all so humbly thankful,

News from Anthony Brooke

March 29, 1964

Tokyo, Japan

Dear Family: I am under great pressure in this thirty-six hours that I am in Tokyo. I do hope my recent tape has arrived. In it I gave the date and time of my arrival and if just one person could meet me that would be wonderful and I shall look forward to seeing the rest of you later. It will be lovely to be with all of you again. (Below is transcript of the recent tape.)

Hello to all of you. I found the Newsletters quite thrilling; one can feel the love. Now, there has been a real break-through in publicity which I think is rather exciting. We were on Government television for twenty minutes. Miss Kim and I shared together. Miss Kim spent most of her time translating for me and the interview went like this: They asked me questions

about Sarawak, the last one of which was, in what way was I politically connected there? I replied that I was no longer connected with the political affairs of Sarawak, though I still have some influence these in view of the enduring ties of affection which exist between the people of Sarawak and my family.

Q. What has been your main interest in recent years?

Lately, I would say, in the regeneration, reconstruction and peace of the world. In my travels I am continually seeking insight into how this is to be brought about; and how ordinary people everywhere can be aroused and encouraged to play their responsible and effective parts in achieving this. In this New Age a great many things will be different.

Q. What do you mean by "this New Age"?

If the human race is to survive, as I have no doubt it will, we shall learn to *mite* and live in a truly civilized way as one human family; although retaining our different national families. Nuclear power rightly used and supported by scientific development will provide all the material needs of humanity; and all peoples shall live in harmony, governed by laws of love and peace.

Q. When will the New Age come and shall we see it in our generation?

The old world is dying; we are in what is sometimes called "the last days". We have, in fact, already crossed the threshold of the New Age, the Cosmic Age, I believe we shall see most of the things I have mentioned come to pass in this generation.

Q. What are the signs of the New Age'?

We already see many signs of unification at the political, cultural, and religious levels, We have the United Nations and UNESCO, the Common Market, the new territorial federations, the ecumenical movement and at the physical level we have a world united by jets, radio, television and entirely encircled by earth-satellites, Religious and scientific revelations are a special mark of the times. Remarkable things are happening today all over the world.

Q. What are your general impressions about the countries you've visited in the last four years?

Although customs naturally differ from country to country, my chief concern as I travel is to meet people as human beings sharing a common human concern; and I've been struck by the warmth and friendliness of ordinary people everywhere as one meets them in this way. The important thing is our development of Universal give and take relationships as individuals as well as in our national attitude,

Q. Mr. Brooke, what is your primary purpose in visiting Korea?

I came to visit the Unification Church and meet its founder, Mr. Sun M. Moon; and to study what strikes me as a whole new analysis of human problems and the means to their solution.

Q. What moved you to come here?

I recently met Miss Young Oon Kim in America and she introduced me to Mr. Moon's message, the Divine Principles. And as I studied this, I found it to be a more complete philosophy than any I have previously come across, and so I at once decided to visit the headquarters in Korea.

Q. Have you found any hopeful possibility?

Yes, I have. Divine Principles give a meaningful explanation of the whole history of man and contains a practical program for all people to work for unity and peace beyond the political and ideological concentrations which at present divide us.

Q. Just what conclusions have you come to?

I have been confirmed, beyond all doubt, in my original view that there is a key which more than anything else, will help us to solve all our individual, national, and international problems.

Q. What is your impression of Korean churches?

I've been mostly in touch with the Unification Church which is a great spiritual force. I am greatly impressed in every way with Mr. Moon, its founder. I think what he is saying and doing throughout the world calls for our closest attention.

Q. Do you have anything to say about Korean culture?

My outstanding impression is of some classic dancing I saw given by expertly trained young Korean children. They had grace, beauty, humor, gaiety and profound expression. And in my opinion, this dancing would be appreciably, even enthusiastically acclaimed on any stage in any part of the world. I've also been very much struck by the grace and beauty of the clothing worn by the Korean women.

Q. What is your impression, Mr. Brooke, of Koreans; and have you anything to say to us?

The missionary activities of Koreans is highly unusual and I've been profoundly moved by the passion and dedication of the members of the movement of which I've been speaking. One sees the same eagerness and strong religious feeling in the groups in Japan and in America. The message has also spread to Germany; and so far includes 29 nationalities. In Korea about a

thousand branches have been established in the past three and a half years, and it seems somewhat strange to me to find that Korean leaders seem unaware of what is going on and that I have to come ten thousand miles across the world from England to tell them.

I am convinced that God has chosen and prepared this nation to give forth to the world a powerful, revolutionary message; more important than any message given to mankind in the past two thousand years. In this sense, Korea is the hope and light of the world and the key to the new humanity of the New Age. As this truth dawns on each of you, I imagine you will want to play your individual part in the reconstruction of your great country and with its preparation, to give out this historic message of love and truth to all the world; and I shall be privileged to be at your service to help carry this message to all countries and all peoples.

This interview took twenty minutes, exactly, and they pushed out some other programs so we could have more time. There haven't been repercussions yet. Many of the churches, though, are not too pleased.

Many of you have heard me mention Mrs. Liebie Pugh, who is the sculptress of a work called, Limitless Love, which seems to be the exact representation of a being who is giving the name of Truth; who is appearing to Richard Graves. Incidentally, he is also, now appearing to others. He has said that he is appearing everywhere in different ways, but he recently appeared in solid form to somebody else while saying at the same time from now on he will be appearing in solid form to many people,

UP to now, I have not told Mrs. Pugh everything that I now know, simply because one of my thoughts is to tie up the two revelations together and there is a question of working everything out rather carefully there, therefore, I wouldn't be able to go into explanation about things which would help Mrs. Pugh to really understand; and so I just sent her, at the outset, a copy of the press statement which you published in your last Newsletter. Last night I got a letter from her and I'd like to read an extract to you because it shows that things are moving pretty fast: She says, "I don't know how to write this so I'd better simplify completely. Mr. Sun M. Moon came here tonight, I've never found anything more difficult to accept in all these years, neither can I find any way of doubting it. Certainly, if it is a fact, nothing could be more completely suitable, could it? The very first time he found a true sensitive in my room after meeting you and after I had received your first letter -- Your quite glorious news had been shared with Kathleen, she's the resident medium here. I was just starting to read your press statement, when Kathleen stopped me, 'There is a tremendously powerful presence here,' she said, and she held her hands oddly, 'It could be your Hussan. It's Eastern. Read on and I'll see if more comes.' As I came to the closing words of your statement as regards the role of Mr. Sun M. Moon in all this, etc., 'I will, however, predict that his name will be known all over the world', then came with almost a shout, it was so loud, "I am Sun Moon!" Then "Joy! Joy! Joy!" Kathleen said the joy was forced through her, it was pushing through her. Then we discussed whether Mr. Sun M. Moon was conscious of this visit or was perhaps sleeping. I said that he, being a great Master could be conscious of being here. Kathleen said she would ask him, and she did. There was instant and loud laughter, as if to make nonsense of the question; a man's laughter. Then things went deeper. Kathleen said, "He can change from the wisdom of the ages to the solar forces. A little later Kathleen felt a softer, a very sweet presence, and said, "Could it be Madam Sun M. Moon?" Kathleen felt it could be, and described the unique hand gestures and the continued sweetness of the presence*

I know you will all like to hear that, and it seems that my task in coordinating these revelations isn't perhaps going to be quite so difficult as I onetime feared. By the way, I am told that 300,000 viewers could have reached that particular program and at least a good proportion of them would have been looking in. Negotiations are still going ahead for me to meet President Park. One of the reasons for some uncertainty about a meeting with President Park is that the right procedure would be for the British Ambassador to make an application; but he seems a bit scared. I can understand, in a way, because he might be afraid that he would have to take some responsibility for what resulted. Already, the television program has caused him a bit of concern. But, anyway, we couldn't care less about that.

Well, this is a short tape, but I'll bring the rest of the news when I come; meanwhile, my love to all of you. Anthony.

News from Korea

Dear Family:

Ernest Stewart

I have been meaning to take time to write, but for some reason, time seems to be something that just doesn't materialize. I have a foothold into most of the religious circles here

now and I am beginning to make my way known. I have some studying the Principles, but have not had a tremendous result yet. I have been attending a seminar on unification at the Anglican church in Seoul. After some of the comments I made last night, I had a lady rush up to me and ask me to speak on the Bible at a Breakfast next Tues. Of course I refused - Ha Ha. I had around twenty or thirty speak to me in regards to the Bible and understanding it and they expressed their desires to share. (One of the things I challenged them to do was to really get together and study the Bible. The results have been fairly gratifying, however, nothing concrete. I may be able to really challenge them next week and set up some Bible study classes with myself leading.)

I have had some very interesting experiences with Anthony. I will attempt to write you later about them. Love, Ernest.

News from Miss Rim

My Dear Family:

March 30, 1964

Jim Adams! Thank you for your letter. I am happy that you are growing fast and are active in witnessing. Please keep your 8mm movie projector camera in S. F. Here in H. Q. they have one already and do not need any more. We in the U. S. A. should have one and take pictures of any historical instances. So you did the right thing, Jim.

Our Leader gave Anthony the warmest treat; not in a material way, but in heart and love. Anthony's visit inspired all our members and he himself was also inspired. He has a great mission, for which we all have to help him with prayers and in all other ways. His ancestors are unusual and very, very good.

The colorful cards are very interesting. It should be good to use them. Our members here envied the fact that we had so much paper. So I explained how George got them free. Then they envied more. They said they can use any size or any color of paper, but you cannot send it because of the high postage. I just convey their envious feelings to you.

I am happy to hear about your trip to Sacramento and recent meetings in the Bay Area. Anthony is now in Japan. He fasted for three days and on the 3rd day of his fasting, he went to Japan (the 28th). He will stay for a few days in Honolulu and make contacts.

The constructive criticism for mutual improvement of personality, which you mentioned, is very good. They do it here, but not too often. When we do it with love and sincerity and when one receives it with humility and gratitude, it really helps.

The Korean members are eager to have the English translation of the Divine Principles and study it. They want to have even the first edition. As much as 500 copies can be consumed. Since they do not know English well, they won't mind some grammatical mistakes. Those who know English well, may buy the third edition. My love to you all, Y. O. Kim.

NEW AGE FRONTIERS is published semi-monthly by the Unification Church, 1309 Masonic Avenue, San Francisco, California. Price: .25¢ the copy, 12 issues for \$2.50. In lots of 5, the price is \$1.00, 10 for \$2.00, etc.
