

# Ahn Hyo Yool speaks on PR work in Korea at the German Seminar House “Neumuehle”

Bad Camberg, Germany, 29. September 2013

Some 170 members from Frankfurt and Giessen, many of them 2<sup>nd</sup> gen, gathered on Sunday Sept. 29<sup>th</sup> at our seminar house Neumuehle near Bad Camberg. Everybody was full of expectation awaiting the first screening of the German version of the MBC documentary on True Father’s life. Within days before the service, a translation team translated the entire film into German and a professional spokesman in Korea narrated the entire film again.

Before showing the film, the community pastor of Frankfurt led through a couple of songs, an opening prayer, and Hoon Dok Hae reading (excerpts of True Mother’s main speech at the Seong-Hwa Ceremony). Steve Sakuwa displayed a whole array of positive newspaper articles with the help of a power point presentation. Especially during and after the Seong-Hwa ceremony of True Father, literally hundreds of articles appeared all over the world, including TV coverage by major TV stations. The atmosphere, according to Steve, has changed in Korea and the media coverage has become much more positive and factual.

Rev. Young Shik An, the regional director of Europe, asked all those who have participated at the Yeodo Rally to stand up and appreciated their support of the

providence in Korea at that time. This was important for the second generation to understand the sacrifice the first generation made and for them to inherit True Parents’ victorious foundation. He then introduced Mr. Ahn, to explain some points about the background of the MBC documentary and other aspects of working with the press and the media.

Then everybody watched the MBC Video in German language, which was very impressive to all of us. Even those who worked side by side with True Father were not fully aware of his constant and unwavering commitment to keep the peace on the Korean peninsula and mediate between the enemy camps free world versus communism. Most impressive his firm and uncompromising talk with the members of the North Korean polit bureau, even challenging them about the truth of his words.

## Sharing the latest media events from Korea with French Members

Les Ulis, France, 26. September 2013

Right after the first anniversary of our True Father's Seong Hwa Ceremony, Mr. Steve SAKUWA, envoy of our True Mother visited France to provide information on the response of the Korean media on the event.

President An, our European Continental Director accompanied him. Despite the fact, that the meeting was called on an evening during the working week, many brothers and sisters came from afar to attend the meeting.

Mr. Jean-François Moulinet, national leader of France, introduced the evening. It started off with the Cheon Il Guk national anthem.

Brothers and sisters were truly amazed at the recent development there and determined to inherit that victory and bring it to our nation.

At the end of the meeting, President An greeted the members personally which was greatly appreciated by all.

After this meeting, we sent the link or a DVD to several Ambassadors for Peace
